2022 15th International Symposium on Computational Intelligence and Design (ISCID) **ISCID 2022**

Table of Contents

Preface	xiv
Sponsors and Committees	xv
Reviewers	xvii

2022 15th International Symposium on Computational Intelligence and Design (ISCID)

A Novel Differential Evolution Sparrow Search Algorithm	1
<i>Yifei Yang (University of Toyama, Japan), Haotian Li (University of Toyama, Japan), Haichuan Yang (University of Toyama, Japan), Baohang Zhang (University of Toyama, Japan), and Shangce Gao (University of Toyama, Japan)</i>	
An Optimal Differential Vector Incorporated Whale Optimizer	6
<i>Jiatianyi Yu (University of Toyama, Japan), Haichuan Yang (University of Toyama, Japan), Baohang Zhang (University of Toyama, Japan), Shibo Dong (University of Toyama, Japan), and Shangce Gao (University of Toyama, Japan)</i>	
Combinational Indoor Layout Algorithm	11
<i>Yunxiang Ma (Beijing Forestry University, China), Yan Zhuang (Beijing Forestry University, China; University of Wisconsin, Madison, USA), Zhanyi Zhou (Beijing Forestry University, China), Yaxuan Liu (Beijing Forestry University, China), and Hongjun Li (Beijing Forestry University, China)</i>	
Research on the Impact of Sentimental Characteristics on Government Responses	17
<i>Weidong Huang (Nanjing University of Posts and Telecommunications, China), Xingran Zheng (Nanjing University of Posts and Telecommunications, China), Hanxiang Chen (Nanjing University of Posts and Telecommunications, China), and Xiaonan Wang (Nanjing University of Posts and Telecommunications, China)</i>	

Research on the Fusion Influence of Participant by Fusing the Text Sentiment Feature	21
<i>Weidong Huang (Nanjing University of Posts and Telecommunications, China), Jinyuan Yang (Nanjing University of Posts and Telecommunications, China), Yang Fei (Nanjing University of Posts and Telecommunications, China), and Xiaoxiang Cheng (Nanjing University of Posts and Telecommunications, China)</i>	
Multi-population Genetic Algorithm for Seamless Steel Tube Blank Design Considering Delivery Time	25
<i>Lu Chen (University of Science and Technology Beijing, Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education Beijing, China), Bailin Wang (University of Science and Technology Beijing, Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education Beijing, China), Shuaipeng Yuan (University of Science and Technology Beijing, Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education Beijing, China), Tieke Li (University of Science and Technology Beijing, Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education Beijing, China), and Wenxin Zhang (University of Science and Technology Beijing, Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education Beijing, China)</i>	
Comparison of Temperature Control Time Prediction Models for Wide and Thick Plates Based on Machine Learning	29
<i>Zhuolun Zhang (University of Science and Technology Beijing, China), Tieke Li (University of Science and Technology Beijing, China), Bailin Wang (University of Science and Technology Beijing, China), and Shuaipeng Yuan (University of Science and Technology Beijing, China)</i>	
Study on the Wearability of Thick and Heavy Ground WeftDenim	33
<i>Xiaofeng Wen (Zhejiang Xinlan Textile Co., Ltd.), Min Huang (Zhejiang Xinlan Textile Co., Ltd), Jiahui Fei (Zhejiang Sci-Tech University), and Zimin Jin (Zhejiang Sci-Tech University)</i>	
Study on the Intelligent and Innovative Design of Traditional Graphic Semantics in China	37
<i>Yang Yin (State Key Lab of CAD&CG, Zhejiang University, China), Yinghan Jin (State Key Lab of CAD&CG, Zhejiang University, China), Xiyuan Zhang (State Key Lab of CAD&CG, Zhejiang University, China), Xinyi Li (State Key Lab of CAD&CG, Zhejiang University, China), and Chunlei Chai (State Key Lab of CAD&CG, Zhejiang University, China; Innovation Center of Yangtze River Delta, Zhejiang University, China)</i>	
A Prediction Method of Order Completion Time Based on BP-SVR	42
<i>Jiahui Yu (School of Economics and Management, University of Science and Technology Beijing), Tieke Li (School of Economics and Management, University of Science and Technology Beijing), Bailin Wang (School of Economics and Management, University of Science and Technology Beijing), Wenxin Zhang (School of Economics and Management, University of Science and Technology Beijing), and Zhuolun Zhang (School of Economics and Management, University of Science and Technology Beijing)</i>	

Algorithm Comparison for the Order Grouping Problem with Delivery Factors	46
<i>Jia-Qi Cai (University of Science and Technology Beijing, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China), Bai-Lin Wang (University of Science and Technology Beijing, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China), Tie-Ke Li (University of Science and Technology Beijing, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China), and Wen-Xin Zhang (University of Science and Technology Beijing, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China)</i>	
A Comparative Study on the Emblem Design of Chinese and Western Universities	50
<i>Huiqian He (Guangdong Technology College, China), Wei Sun (South China University of Technology, China), and Ruiqiu Zhang (South China University of Technology, China)</i>	
Transmission Line Fault Diagnosis Based on CNN-GRU Neural Network	57
<i>Qing Ye (China Southern Power Grid Technology Co., Ltd., China), Tao Chen (China Southern Power Grid Technology Co., Ltd., China), Zhaobin Zhong (China Southern Power Grid Technology Co., Ltd., China), Zhiyong Li (China Southern Power Grid Technology Co., Ltd., China), and Qiran Zhang (China Southern Power Grid Technology Co., Ltd., China)</i>	
Link Prediction on Dynamic Heterogeneous Graphs via GNN with Multiple Attention Mechanisms 62	
<i>Kangle Cai (Huazhong University of Science and Technology, China), Shan Lu (Huazhong University of Science and Technology, China), and Dehong Qiu (Huazhong University of Science and Technology, China)</i>	
DQN-Based Online Scheduling Algorithm for Hybrid Flow Shop to Minimize the Total Tardiness... 66	
<i>Xinrong Wang (University of Science and Technology Beijing, China), Tieke Li (University of Science and Technology Beijing, China), Bailin Wang (University of Science and Technology Beijing, China), and Wenxin Zhang (University of Science and Technology Beijing, China)</i>	
Multi-agent Model of AGVs Online Scheduling in Automated Sorting Warehouse	70
<i>Bingxiao Zhang (University of Science and Technology, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China), Bailin Wang (University of Science and Technology, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China), Wenxin Zhang (University of Science and Technology, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China), and Tieke Li (University of Science and Technology, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China)</i>	
Image Reconstruction Based on Multi-channel Parallel Magnetic Resonance Imaging Technology.... 74	
<i>Hanwen Dai (Shanghai Electric Medical Company, China), Nan Liu (Shanghai Electric Medical Company, China), and Jintao He (Tongji Zhejiang College, China)</i>	

Hyper-Heuristic Genetic Algorithm for Hybrid flow Shop Scheduling Problem with Unrelated Parallel Machines	78
<i>Siyu Liu (University of Science and Technology Beijing, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China), Tieke Li (University of Science and Technology Beijing, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China), Bailin Wang (University of Science and Technology Beijing, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China), and Wenxin Zhang (University of Science and Technology Beijing, China; Engineering Research Center of MES Technology for Iron & Steel Production, Ministry of Education, China)</i>	
A Hybrid Model for Power-on Time Prediction in LF Based on Deep Neural Network and Metallurgical Mechanism	82
<i>Xin Shao (University of Science and Technology Beijing, China), Qing Liu (University of Science and Technology Beijing, China), Tao Zhou (University of Science and Technology Beijing, China), and Shaoshuai Li (Laiwu Iron and Steel Group Yinshan Section Steel Co., Ltd., China)</i>	
Research on Emotional Design of Weather APP Interface	86
<i>Yuan He (Guangdong Technology College, China), Zhilin Zhang (Guangdong Technology College, China), Huiqian He (Guangdong Technology College, China), and Xuejiao Zheng (Guangdong Technology College, China)</i>	
Tinkling: Research on the Design of a Bianqing Interactive System for Children Based on Experiential Learning	92
<i>Shuting Jin (Royal College of Art, United Kingdom) and Ning Zou (Zhejiang University, China)</i>	
Melting Your Models: An Integrated AI-Based Creativity Support Tool for Inspiration Evolution	97
<i>Xiyuan Zhang (Zhejiang University, China), Xinyang Mao (Zhejiang University, China), Yang Yin (Zhejiang University, China), Chunlei Chai (Zhejiang University, China), and Ting Zhang (Zhejiang University, China)</i>	
Aerial Orthophoto Target Recognition and Positioning Method Based on Improved YOLOX	102
<i>Mingjiang Zhang (National University of Defense Technology, China), Tao Xie (National University of Defense Technology, China), Chengyuan Wang (National University of Defense Technology, China), and Kouquan Zheng (National University of Defense Technology, China)</i>	
Research on License Plate Recognition System Based on OpenCV	106
<i>Qinglin Wu (Wuhan Business University, China) and Caiyun Xu (Wuhan University of Bioengineering, China)</i>	
Design Factors Extraction of Companion Robots for the Elderly People Living Alone Based on Miryoku Engineering	110
<i>Bao-Yi Zhang (Xiamen University of Technology, China) and Zong-Sheng Wang (Xiamen University of Technology, China)</i>	
Research on Health Education Plate Design for Elderly Based on QFD and TRIZ	114
<i>Yan-Xin Lin (Xiamen University of Technology, China) and Bao-Yi Zhang (Xiamen University of Technology, China)</i>	

Research on the Design of Emotional Experience on Learning Live Broadcast Platforms in the Post-Epidemic Context	118
<i>Huiqian He (Guangdong Technology College, China), XuLing Lai (Guangdong Technology College, China), and Yuan He (Guangdong Technology College, China)</i>	
Recognition Method of Impactor on Spacecraft Cabin Based on Acoustic Emission	123
<i>Yan Wang (Tianjin Institute of Aerospace Mechanical and Electrical Equipment, China; Tianjin Key Laboratory of Aerospace Intelligent Equipment Technology, China), Qi Li (Tianjin Institute of Aerospace Mechanical and Electrical Equipment, China; Tianjin Key Laboratory of Aerospace Intelligent Equipment Technology, China), Yuan Zhang (Tianjin Institute of Aerospace Mechanical and Electrical Equipment, China; Tianjin Key Laboratory of Aerospace Intelligent Equipment Technology, China), Xiaodong Wen (Tianjin Institute of Aerospace Mechanical and Electrical Equipment, China; Tianjin Key Laboratory of Aerospace Intelligent Equipment Technology, China), and Peng Chen (Tianjin Institute of Aerospace Mechanical and Electrical Equipment, China; Tianjin Key Laboratory of Aerospace Intelligent Equipment Technology, China)</i>	
Shoulder Joint Angle Measurement System Based on a Single Attitude Sensor	129
<i>Yunfeng Shu (Anhui University, China; Hefei Institutes of Physical Science, Chinese Academy of Sciences, China), Xu Zhou (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China), Zenghui Ding (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China), Chuansheng Dong (Shenyang Sport University, China), Xianjun Yang (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China), Zhiming Yao (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China), and Shu Xu (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China)</i>	
A Maritime Target Identification Algorithm Based on Improved OCRNet	134
<i>Linqing Wang (Communication University of China, China), Hang Yin (Communication University of China, China), and HongJie Yuan (Communication University of China, China)</i>	
Object Marking Detection Method Based on Improved DetectoRS	139
<i>Tianyi Zhao (Communication University of China, China), Hang Yin (Communication University of China, China), Linqing Wang (Communication University of China, China), and Hui Gao (Communication University of China, China)</i>	
Exploration of Emotions Developed in the Interaction with Explainable AI	143
<i>Ezekiel Bernardo (De La Salle University, Philippines) and Rosemary Seva (De La Salle University, Philippines)</i>	
An Evolution Algorithm Based on Cloud Model for 0-1 Knapsack Problem	147
<i>Ziqiang Luo (Hainan Normal University, China), Xueping Guo (Hainan Normal University, China), Bin Wen (Hainan Normal University, China), and Junkuo Cao (Hainan Normal University, China)</i>	

Charm Factors Extraction of Sustainable Packaging Attractiveness Based on Miryoku Engineering	151
<i>Wei-Wei Chen (Xiamen University of Technology, China), Bao-Yi Zhang (Xiamen University of Technology, China), and Zhen Weng (Xiamen University of Technology, China)</i>	
Research on Fault Diagnosis Technology of Model Support System Based on Feature Extraction....	155
<i>Junbin Zhang (Hypervelocity Aerodynamics Institute, China), Dewei Zhang (Hypervelocity Aerodynamics Institute, China), Fengwei Hou (Hypervelocity Aerodynamics Institute, China), Wanqiu Jiang (Hypervelocity Aerodynamics Institute, China), Pei Liu (Hypervelocity Aerodynamics Institute, China), and Weidong Cui (Hypervelocity Aerodynamics Institute, China)</i>	
Research on Innovative Elements of Technology-Driven Product Design	159
<i>Bing Jiang (Beijing Institute of Technology, China), Jiaying Chen (Beijing Institute of Technology, China), Ruikang Xu (Beijing Institute of Technology, China), and Wenjing Chen (Beijing Institute of Technology, China)</i>	
Identifying and Analyzing Interaction Design Factors for Age-Friendly Products Based on Sensory Compensation	164
<i>Bei-Xue Ye (Xiamen University of Technology, China), Bao-Yi Zhang (Xiamen University of Technology, China), and Da-Zi Lin (Xiamen University of Technology, China)</i>	
The Existence and Exponential Stability of Almost Automorphic Solution for Neutral-Type High-Order Hopfield Neural Networks with Mixed Delays on Time Scales	168
<i>Huimei Wang (Kunming University, China), Huaijing Wang (Dianchi College of Yunnan University, China), Yan Yan (Kunming Medical University, China), and Changbo Yang (Kunming University, China)</i>	
E-Commerce Platforms Competition: A Multi-method Study of the Complexity in Competitive Interaction	175
<i>Lewei Hu (Jiangnan University, China), Xiangren Cheng (Jiangnan University, China), and Yi Jiang (University of Geosciences, China)</i>	
Gravitational Search Algorithm with Hierarchical Structure Guided by Elite Individual	180
<i>Haotian Li (University of Toyama, Japan), Yifei Yang (University of Toyama, Japan), Haichuan Yang (University of Toyama, Japan), Zheng Tang (University of Toyama, Japan), and Shangce Gao (University of Toyama, Japan)</i>	
Factor Extraction and Glamour Evaluation of Unconscious Design	185
<i>Xun Peng (Xiamen University of Technology, China), Bao-Yi Zhang (Xiamen University of Technology, China), and Gang Wang (Xiamen University of Technology, China)</i>	
Modular Integration Based on Semi Public Space Body Disinfection Device	189
<i>Shitong Wang (Beijing Institute of Technology, China) and Yong Ji (Beijing Institute of Technology, China)</i>	
Intelligent Clothing Design Based on Embedded System for Blind	195
<i>Jing Ji (Tianjin Academy of Fine Arts, China) and Siming Wang (Beijing Institute of Technology, China)</i>	

Research on AR-UGC Product Innovation Design for Future Community Digital Display Communication	200
<i>Zizhen Fan (Zhejiang Tongji Vocational College of Science and Technology, China), Yanwei Zhao (Zhejiang University, China), Rui Dai (Zhejiang Tongji Vocational College of Science and Technology, China), Shanshan Chen (Zhejiang Tongji Vocational College of Science and Technology, China), Zixun Wang (Zhejiang University, China), and Xiangning Li (University of Birmingham, British)</i>	
Intelligent Penetration and Attack Simulation System Based on Attack Chain	204
<i>Wei Hao (Hefei Research Institute, Beijing Vul.AI Information Technology Co. Ltd., China), Chuanbao Shen (Beijing Product Institute, Beijing Vul.AI Information Technology Co. Ltd., China), Xing Yang (National University of Defense Technology, China), and Chao Wang (Beijing Product Institute, Beijing Vul.AI Information Technology Co. Ltd., China)</i>	
Capability Evaluation on Equipment Technical Support Force	208
<i>Ding Xiao (Naval University of Engineering, China), Li Zhang (Naval University of Engineering, China), and Zeyu Wang (Naval University of Engineering, China)</i>	
Archive-Based Differential Learning Incorporated Sparrow Search Algorithm	212
<i>Qianrui Yu (University of Toyama, Japan), Ziqian Wang (University of Toyama, Japan), Haotian Li (University of Toyama, Japan), Yifei Yang (University of Toyama, Japan), Zhenyu Lei (University of Toyama, Japan), and Shangce Gao (University of Toyama, Japan)</i>	
An Early Warning Analysis Model of Metering Equipment Based on Federated Hybrid Expert System	217
<i>Wenqi Huang (China Southern Power Grid Digital, Grid Research Institute Co., Ltd., China), Lingyu Liang (China Southern Power Grid Digital, Grid Research Institute Co., Ltd., China), Xin Wang (Zhejiang University, China), Zhengguo Ren (China Southern Power Grid Digital, Grid Research Institute Co., Ltd., China), Shang Cao (China Southern Power Grid Digital, Grid Research Institute Co., Ltd., China), and Xiaotao Jiang (Zhejiang University, China)</i>	
Density Peaks Clustering by Granular Computing with Label Propagation	221
<i>Yan Li (Zhejiang University, China), Huang Wenqi (Digital Grid Research Institute, China Southern Power Grid, China; Zhejiang University-China Southern Power Grid Joint Research Centre on AI), Liang Lingyu (Digital Grid Research Institute, China Southern Power Grid, China; Zhejiang University-China Southern Power Grid Joint Research Centre on AI), Yongchuan Tang (Zhejiang University, China; Future Design Laboratory of Zhejiang University), and Lingyun Sun (Zhejiang University, China; Future Design Laboratory of Zhejiang University; Zhejiang-Singapore Innovation and AI Joint Research Lab, Zhejiang University)</i>	

SOC Evaluation of Lithium Batteries Based on VKF, Ampere-Hour Integration and Unsteady open Circuit Voltage Fusion Method	228
<i>Zhou Wang (Guilin University of Electronic Technology, China), Xingming Fan (Guilin University of Electronic Technology, China), Qing He (Guilin University of Electronic Technology, China), Bochao Zhang (Guilin University of Electronic Technology, China), Yuxin Miao (Guilin University of Electronic Technology, China), and Huimin Chen (Guilin University of Electronic Technology, China)</i>	
Application of Crowdsourcing to the Design of Behavior Change Technologies	232
<i>Chuyue Zhang (College of Software, Zhejiang University, China), Wenqi Huang (Digital Grid Research Institute, China Southern Power Grid, China ; Zhejiang University - China Southern Power Grid Joint Research Centre on AI, China), and Lingyu Liang (Digital Grid Research Institute, China Southern Power Grid, China ; Zhejiang University - China Southern Power Grid Joint Research Centre on AI, China)</i>	
An Improved ABC Algorithm and Its Application on Parameter Identification of Solar Cell Model	236
<i>Jingqing Jiang (Inner Mongolia Minzu University, China), Liyan Xu (Tongliao Horqin Experimental Senior Middle School, China; Inner Mongolia Minzu University, China), Chuyi Song (Inner Mongolia Minzu University, China), and Haijie Bao (Zhaluteqi First Middle School, China)</i>	
Research on Adoption and Diffusion of CRM from the Perspective of China	241
<i>Cong Li (Sichuan Normal University, China) and Li Ma (Sichuan Normal University, China)</i>	
A Line-Drawing Extraction Method for Traditional Ornament Based on 3D Models	245
<i>Pu Ren (Beijing Institute of Graphic Communication, China) and Mingjun Yang (Beijing Institute of Graphic Communication, China)</i>	
Study on Interactive and Highly Efficient 3D Reconstruction System	249
<i>Qunzhi Jin (Dalian Minzu University, China), Yang Yin (Zhejiang University, China), Jiaying Li (Dalian Minzu University, China), and Yifeng Fan (Dalian Minzu University, China)</i>	
Optimization of CNN for Diagnosis on Lung Disease by Lung Segmentation and Rib Suppression.	254
<i>Xinye Yang (University of Science and Technology Beijing, China), Yuhang Liu (Central University of Finance and Economics, China), Zhiwei Lin (Beihang University, China), Lingyu Zhong (Central University of Finance and Economics, China), and Teoh Teik Toe (Nanyang Technological University, Singapore)</i>	
Reliability Data Analysis and Lifetime Prediction of Aviation Equipment Based on Logistic Distribution	260
<i>Yanming Yang (Naval Aviation University, China), Junfu Cui (Naval Aviation University, China), and Jianglong Li (Naval Aviation University, China)</i>	

Development of Sole Pressure Insole for Freestyle Aerials Skier	264
<i>Shu Xu (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China University of Science and Technology of China, China), Xianjun Yang (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China), Zenghui Ding (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China), Xu Zhou (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China), Chuansheng Dong (Shenyang Sport University, China), Yining Sun (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China), Yunfeng Shu (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China; Institutes of Physical Science and Information Technology, Anhui University, China), Youcai Wang (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China; University of Science and Technology of China, China), and Rui Pan (Hefei Institutes of Physical Science, Chinese Academy of Sciences, China; University of Science and Technology of China, China)</i>	
Research and Design of Multimodal Interactive Decompression Products for College Students	268
<i>Minjie Han (Beijing Institute of Fashion Technology, China) and Yi Liu (Beijing Institute of Fashion Technology, China)</i>	
Physical Design for Driven Device of Z-FFR Based on Machine Learning	272
<i>Wenbin Xiong (Nuclear and Radiation Safety Center, MEE, China), Zhangchun Tang (University of Electronic Science and Technology of China), Pan Liu (Tianfu Innovation Energy Establishment, China), Gaoyang Liu (Guangzhou EMU Depot of China Railway Guangzhou Co., Ltd., China), Fanyu Qu (China National Nuclear Power Co., Ltd., China), Qiang Gao (Nuclear and Radiation Safety Center, MEE, China), and ChenCheng Liu (Central South University of Forestry and Technology, China)</i>	
An Optimal-Parent-Crossover Based Differential Evolution	276
<i>Ruihan Zhao (Tongji University, China), Sichen Tao (University of Toyama, China), and Pengzhong Li (Tongji University, China)</i>	
Research On Crime Feature Mining Based On Extraction of Spatio-Temporal Elements of Cases	282
<i>Xuezhi Chi (Police Information Department, China)</i>	
Magnetic Properties-Based Range Image Descriptor	286
<i>Taifeng Li (Purification Equipment Research Institute of CSIC, China), Bo Chen (Purification Equipment Research Institute of CSIC, China), Feifei Zhang (Purification Equipment Research Institute of CSIC, China), Kun Lin (Purification Equipment Research Institute of CSIC, China), and Qiang Dong (Purification Equipment Research Institute of CSIC, China)</i>	
Exploratory Quantitative Analysis of the Relationship between Bamboo Carving and Landscape Painting via SSIM	290
<i>Xue Gong (School of Design, Jiangnan University, China)</i>	
Degradation tendency prediction for pumped storage unit based on CNN-LSTM model	294
<i>Yahui Shan (Wuhan Second Ship Design and Research Institute)</i>	
Author Index	299
