## 2022 International Interdisciplinary Humanitarian Conference for Sustainability (IIHC)

### Table of Contents

Preface  
Message

Sl. No.	Title of the Paper	Page Number
1	Brand Usability- As one of the elements of Halo Effect in case of online banking industry	1-6
2	Study on Influence of Rigid and Semi Rigid Diaphragm System on RC Structure	7-11
3	Designing Microgrid Energy Markets Using Smart Information System and Blockchain Technology	12-15
4	Predictive Analytic Techniques for enhancing marketing performance and Personalized Customer Experience	16-22
5	Constrained random verification of Burst operation in AXI-4	23-28
6	Video Streaming OTT Platforms: A Comparative Study of their Streaming Infrastructure with Strategies Implemented	29-35
7	Analysis of Data cleaning Framework: Technological advancements	36-40
8	Verification of Burst Transfers in AMBA5-AHB Protocol	41-45
9	LoRaFaRM in Indian Agriculture: A LoRaWAN Based Smart Farming Modular IOT Architecture	46-52
10	Applications of Unmanned Aerial Vehicles (UAVs) for Improved Business Management	53-57
11	Visual analysis of Thane intelligent transport system	58-64
12	Simulation of The International Standard Atmosphere for Flight Reference	65-68
13	Development of Communication System For Deaf and Blind Persons Using Text to Braille Conversion	69-73
14	Performance evaluation of Autonomous and Connected Electric Vehicles (ACEVs) towards buying intention in India: Forward trend in energy efficiency.	74-79
15	Studying human behavior, perception, and cognition to controlled stimulus in a virtual Environment	80-86
16	Comparative Analysis and Review of FPGA based FEC Codes	87-92
17	Emerging Trends and Scope of Healthcare Analytics	93-101
18	Evolving Journey of Chatbots: Insights into Business Decisions	102-107
19	Implementation and Analysis of Image Steganography using Convolution Neural Networks	108-113
20	IoT solutions for Electric Vehicles (EV) Charging Stations: A driving force towards EV mass adoption	114-120
21	Development of Overflow Prediction And Wall Supervision System for Flood Forecasting	121-125
22	Decision Model for determining pricing in the Telecom Industry	126-130
23	Intelligent Decision Making with Block chain in healthcare industry	131-135

24	Cascading Impacts of Electric Vehicles (EVs) and Automated Vehicles (AVs) on different sectors	136-142
25	IOT Based Predictive Maintenance in Industry 4.0	143-145
26	Intelligent and Efficient Decision Making for Telecom Processes	146-149
27	Augmented Reality In Agriculture	150-153
28	Calculation of permissible current strength by heating conductors in modern electronic power storage UPS devices	154-158
29	The smart tapping identification model without installing a control program in modern wireless communication	159-164
30	Designing And Modelling Of Single Stage Dual Boost Converter For AC/DC Loads	165-172
31	The intelligent load optimization based safety system in electrical television network based on the starting loads	173-177
32	TRMV: The innovation design of asymmetric multivibrator in transistors with adjustable frequency for commercial electronic devices	178-182
33	Digitalization of agriculture by using the application of IoT and robotics	183-186
34	The smart performance optimization of self-reacted voltage stabilizer device using common line switch deviation model	187-192
35	Customized Deep CNN for Foliar Disease Prediction Based on Features Extracted from Apple Tree Leaves Images	193-197
36	The smart secured harvesting technique for embedded wireless sensor networking using network deep learning model	198-203
37	The commercial hard disk backup system for quick recovery operating system in cloud storage system	204-209
38	Authentication tokens based smart backup and recovery system for modern android systems	210-214
39	The smart indication model that calculates amount of electromagnetic radiation absorbed by the human body when using a mobile device	215-219
40	The smart backup and recovery management for ultra dense cloud server in commercial organization network	220-224
41	Next generation smart routing optimization of network storage devices using hybrid data management model	225-229
42	The DOS based recovery model of new cloud server storage hard disk from the vulnerable network attacks	230-235
43	Prediction of Parkinson Disease using Autoencoder Convolutional Neural Networks	236-239
44	A Machine Learning Approach to Detect Parkinson Disease Using Speech Signals	240-244
45	Recent Advances of Artificial Intelligence in Drug Discovery Process	245-249
46	Advancement of Digital Image Steganography using Deep Convolutional Neural Networks	250-254
47	The smart detection for anonymous web browsing in high density cloud network by using secured onion routing model	255-260
48	The polyphages based data analysis model to enhance the security protection in multi model cloud storage systems	261-266
49	The performance optimization of thermal conducting ability of the microprocessor using heat transfer management model	267-271

50	The smart construction of a dual antenna based high-end router card model in 5G cellular communication	272-276
51	The modern Antivirus security classification model to enhance the protection for commercial computer networks	277-281
52	The performance estimation and functions of anti-virus programs using modern security model	282-287
53	The smart energy storage of power back-up for universal power system using battery memory effect	288-292
54	The smart analysis of recharge time for super capacitors in electronic stabilization mode	293-298
55	The performance optimization for save and restore applications of switching to new firmware using a clean install approach	299-303
56	The performance optimization of Video surveillance systems are based on a workflow monitoring model in commercial organizational networks	304-309
57	The performance enhancement of information transfer for different Wireless ANT+ nodes in modern wireless communication	310-315
58	The performance evaluation of sensor communication model for obtains high level accuracy in Enterprise Internet of Things (EIoT)	316-321
59	Computation of Maximum permissible voltage value for long-term permissible current loads for UPS power system	322-326
60	The smart magnetic cards based security measures for emergency situations in Industrial Management	327-331
61	The smart performance analysis of encrypted voice data transfer model in dual-standard WCDMA communication	332-337
62	The performance optimization of CRC network scanners based on the calculation of CRC checksums	338-342
63	The performance optimization of fixed wire-broadcasting distribution antennas in 5G communication networks	343-348
64	IoT Based Risk Monitoring System	349-353
65	Design of Smart Attachment for Refrigerator	354-357
66	Proposed Approaches to Implement Intelligent Automation In 5G Telecom Services	358-363
67	Blockchain Technology: Reinventing the Security and Efficiency posture of the Indian Banking System	364-369
68	A Comprehensive Study of Classification of Phishing Attacks with its AI/I Detection	370-375
69	Smart Agriculture adoption based on Farmer's Perspective	376-379
70	A reliable security model that protects ultra-dense enterprise cloud networks from highly vulnerable cyber attacks	380-385
71	The connection privacy management model to enhance the communication services for subscriber neighboring cells in Cellular communication	386-392
72	The intelligent management and monitoring human capital asset model for network monitoring organization using machine learning model.	393-398
73	An intuitive user interface model for circuit prototyping to create powerful battery in the form of transient diagrams	399-403
74	The efficient data prediction and clustered compressive sensing (CCS) in environmental application of WSN	404-409

75	The compact disk drive regular backup model for high speed parallel port data transfer in smart storage system	410-414
76	Calculation of permissible current strength for cables and wires with long-term permissible current loads by heating the conductors in fire alarm	415-420
77	Management of automation activities in the production process for a motor transport manufacturing using smart machine learning model	421-427
78	The intelligent information protection model from the harmful internet activities in bigdata storage systems	428-432
79	An intelligent battery power control model for cellular devices in 5G ultra wide-band communication networks	433-438
80	Non-standard foundation for fixed installations of broadcasting nodes and collective television reception systems in Wireless communication	439-443
81	An innovation development of smart data protection mechanisms and its related parameters in financial institutions	444-449
82	An easy console-based text editor for Nano Linux Commander's built-in editor for complex security systems	450-454
83	An efficient Artificial Intelligence based data detection model for complex data communication networks	455-460
84	The intelligent monitoring model for resistance standards of grounding devices installation in wired communication	461-466
85	The elegant overclocking model with plastic thermal interface under the processor card to speed up the processor	467-471
86	Covid the Board System	472-475
87	Double Phased Algorithm for Frequent Sub Graph Mining with More Security	476-482
88	Space reservation technique at distributed level for hiding reversible data in the encrypted images	483-487
89	Implementation of AI Using a Case Study of Hydrogen Gas From an AI-Mining Prototype	488-492
90	An Investigation of the Distributed Health Monitoring System Using Wireless Sensor Networks	493-497
91	Accessible Authentication Using Keyword Search through Homomorphic Encryption	498-502
92	High speed and low power 8 bits- Dadda Multiplier using Square root Carry Select Adder with Binary to Excess one Converter	503-509
93	An Investigation of the Current State of Digital Platforms and Their Prospects for the Future	510-516
94	Execution of market basket analysis and recommendation systems in physical retail stores to advance sales revenues	517-522
95	Desktop application- Interactive Zira Voice assistant	523-527
96	The Role of Arduino Uno in Voice Recognition Process with Atmega328P	528-531
97	Integrated Sensors into Artificial Intelligence Mining(AI-Mining) Data Acquisition of Environmental Features	532-539
98	Enhanced Wireless based mobile charging application	540-544
99	ANN Based Skin Cancer Detection	545-549
100	Design, build, and analyse hardware-based security primitives that work well	550-555
101	Improving the Performance of Speech Recognition feature selection using Northern Goshawk Optimization	556-559
102	IoT based Smart Farming	560-565
103	Coin and RFID Based EV Charging Station	566-570

104	Machine Learning Based Personality Classification Using Clustering Algorithm	571-575
105	An Investigation into the creation of a Monitoring System that Works in Real Time within a Smart Grid Environment	576-580
106	Song Recommendation System based on Mood Detection using Spotify's Web API	581-585
107	An intelligent receiver model for locating electrical wiring gaps for cable continuity in tele-communication networks	586-591
108	Automatic doorstep fuel delivery based on IIoT system.	592-598
109	Implementation Security Digital Signature Using Rivest Shamir Adleman (RSA) Algorithm As A Letter Validation And Distribution Validation System	599-605
110	CNN-RNN Hybrid model based Hindi Character Recognition	606-610
111	IoT Based Bridge Monitoring System	611-615
112	Micro-strip Patch Antenna for 5G sub 6 GHz Applications	616-620
113	Certain Investigations of Diabetes Classification Model In Smart Embedded IoT Environment Using Machine Learning Approaches	621-627
114	IoT based Intelligent Cattle Shed Management	628-632
115	DDOS Attack Detection and Prevention using the Bat Optimized Load Distribution Algorithm in Cloud	633-642
116	Parametric evaluation of V2V communication in Vehicular Ad hoc Networks	643-647
117	Solar Energy Prediction Model using machine learning and Internet of Things	648-652
118	Analysis, Implementation and Performance Validation of Steganography based Movie piracy Identification using Alpha Blending and Triangular similarity to Location of the person Involved	653-660
119	Detection and Classification of Skin Cancer by using a Parallel Deconvolutional Network Model	661-670
120	Role Of Cloud Management In Mitigating Vulnerabilities In Wireless Data Exchange Providing Cybersecurity	671-676
121	Tracking Of Travel Log And Salesforce Of Covid-19 Perspective	677-681
122	Automatic robotic action towards plastic collection	682-687
123	Advanced Bridge Monitoring System using Internet of Things	688-692
124	LPG Gas Detection and Monitoring Using IoT	693-697
125	Artificial Neural Network Based Secured Node Detection For Wireless Sensor Network	698-704
126	Agri Warehouse Management System	705-709
127	An innovation development of short range communication protocol for a reliable device discovery in 5G communication network	710-715
128	Charging Station for E-Vehicle using Solar with IoT	716-721
129	An Efficient Spectrum Sensing Model In Cognitive Radio Network Using Compressive Sensing And Interference Temperature Model	722-728
130	Privacy Preserving Based Personal Health Records Sharing Using Rail Fence Data Encryption (Rfde) For Secure Cloud Environment	729-734
131	Development of Augmented Reality Application for Online Trial shopping	735-740
132	Bird Species Identification Using Image Processing and CNN	741-746
133	Manet: Improved Secured Routing For Aodv	747-751
134	Defense mechanism and adversarial attacks A Review	752-756
135	Image Retrieval based on Deep Learning - Convolutional Neural Networks	757-762
136	CAN Based Digital Driving System Using IoT	763-767
137	Docbot: A Clinical Chatbot That Provides End-To-End Solutions For The User	768-771

138	Bank Transaction using Face Recognition	772-774
139	Sentiment Analysis based optimization approach	775-780
140	A new way of estimating the value of bandwidth for the end-to-end network using ABW algorithm	781-787
141	Review on Intrusion Detection in Edge Based IOT	788-793
142	Modular attachments for several applications with the aid of an aerial drone	794-798
143	LDR sensor based smart intravenous drip system	799-803
144	Smart Duster for Schools	804-806
145	The Significant Effect Of Saving One Unit Of Electricity And The Role Of Non-Renewable Energy Based Street Light In Saving The Energy	807-810
146	Acoustic Sensor Networks: An Energy Efficient Grey Wolf Optimization Algorithm development for underwater networks	811-817
147	CNN and Fuzzy logic based hybrid approach for lung cancer detection and report generation	818-822
148	High Level Learning Approach for High Level Collision Avoidance Using Sensors	823-828
149	The Latest Trend In India Cryptocurrency	829-837
150	Hybrid Access Control for Atoring Large Data With Security	838-844
151	To compute the complete loss of voltage in the television network to optimize the maximum voltage regulation	845-849
152	A Critical Analysis of the Green Production and Technology on India's Efforts towards Sustainable Development	850-855
153	A System Development of biometric system design for the Field Oriented Students	856-861
154	Image Steganography Using Discrete Wavelet Transform and Convolutional Neural Network	862-868
155	An Optimal Link cum State Routing method for channelized data MANET.	869-873
156	Deep Learning based Driver Drowsiness Detection	874-879
157	Play school based reality application examination	880-886
158	Smart Sharing Bicycle for a Sustainable City: An Application of IoT	887-891
159	Review of the issues and a thorough investigation of biometric authentication systems	892-897
160	An Evaluation of the research knowledge within the community of electrical engineers	898-903
161	A Study on implementation of robotic science in Artificial Intelligence	904-909
162	Air-Writing Recognition System	910-913
163	Sentimental analysis of amazon customers based on their review comments	914-919
164	A Double Layered Auction Technique for Cloud Data Channel Allocation	920-926
165	ANN Based Facial Emotion Detection and Music Selection	927-931
166	The smart network protection for Uninterruptible power supply based switching model in telecommunications	932-936
167	Classification Of Spina Bifidia Using Image Processing Techniques	937-941
168	An implementation of intelligent routing scheme to find the efficient network management in Wireless sensor networks	942-948
169	Machine Intelligence based Parametric Speaker	949-954
170	Smart Biometric Controlled Door Unlock Mechanism Using IoT	955-959
171	Online Virtual Classroom Application In Android Studio	960-963
172	Significance of Face Mask detection	964-969

173	Effectiveness of Artificial Intelligence Based Recruitment process in the Employment of Indian Hardware Industry	970-973
174	Image processing based security management system	974-979
175	Multilingual sentiment analysis for android mobile application (Bandhu) for aged people	980-987
176	Implementation of Mining Frequent Patterns on big data Using new Version of Algorithm	988-995
177	An Energy Efficient Routing Protocol Using ABC to Increase Network Lifetime of WSN	996-1001
178	New Born Face Feature Extraction Recognition using Image Processing Techniques	1002-1005
179	Tf-Idf And Key Phrase Identification Based Malayalam Document Summarization	1006-1011
180	Role of industrial automation in terms of providing predictive maintenance in the transportation and logistics sector	1012-1016
181	Hydropower technology as a renewable energy source of power generation and its effect on environment sustainability	1017-1020
182	Heart Disease Prediction And Classification Using Machine Learning And Transfer Learning Model	1021-1026
183	Design of Covid19 Detection Based On Relative Eccentric Feature Selection Using Deep Vectored Regressive Neural Network for Corona Virus	1027-1033
184	Virtual Reality Technology-Based Impact of Fashion Design Technology Using Optimized Neural Network	1034-1039
185	AI Based Periodic Forecasting Rate Prediction with Secured Optimized Cryptographic Method Sales Forecasting in Retail Business Sector	1040-1046
186	Compression of ECG Signals Using an Adaptive Algorithm Based on DWT and SPIHT Decoder for Health Care Applications	1047-1050
187	Analysis Of Different Algorithms To Predict Chronic Kidney Disease	1051-1054
188	Bitcoin Price Prediction Using Deep Learning and Neural Networks	1055-1058
189	Bidirectional Linear Wireless Sensor Networks	1059-1065
190	Twitter Location Prediction usnig Machine Learning Algorithms	1066-1070
191	Personalized desktop app based interactive means of Zira voice assistant	1071-1077
192	Study On Facial Recognition To Detect Mood And Suggest Songs	1078-1084
193	Mysterious Action Detection By Speed And Displacement Analysis In Image Processing	1085-1090
194	AI Techniques for COVID-19 Pandemic.	1091-1096
195	Introduction to Deep Learning and its related case studies	1097-1103
196	Voice and Gesture Controlled Wheel Chair	1104-1107
197	Iot Based Smart Industry Monitoring And Alerting System	1108-1111
198	Skin Cancer prediction using Machine Learning	1112-1115
199	Analysis of Power Systems Dynamic Uncertainty Algorithm for Interacting Renewable Energy Sources	1116-1121
200	Smart Manure Recommendation using Artificial Intelligence	1122-1127
201	An Assessment of Digital Forensic Models and a Suggestion for Enhanced Operating Systems	1128-1135
202	An Implementation of wavelet analysis and transforming evaluation of varicocele in temperature images for diagnosis and grading.	1136-1141
203	Home Automation Using Augmented Reality	1142-1149
204	Web based application to search and manage Laundry shops	1150- 1155

205	DC and AC Micro Grid Comparative Analysis	1156-1160
206	Speech based Research on Marathi Educational Chatbot	1161-1168
207	Implementation and Evaluation of a Modified Mel-Frequency Cepstral Coefficients based Text Independent Automatic Speaker Recognition System	1169-1173
208	Soil Classification, Crop Selection and Prediction of Fertilizer based on Soil Series	1174-1178
209	Electric Vehicle Battery Power Management System Analysis	1179-1183
210	Sustainable supply chain performance evaluation: An empirical study using Best Worst Method	1184-1190
211	Analysis of Echo from Human Heart due to UWB Pulse using EM Solver	1191-1195
212	Iot Based Health Machine For Covid-19	1196-1199
213	Self-Driving Car Using Neural Networks and Computer Vision	1200-1204
214	Diabetic Retinopathy recognition using CNN	1205-1209
215	Machine Learning-Based Real-Time Traffic Control System	1210-1214
216	BERT-based ensemble model for Hindi summarization	1215- 1220
217	Smart home control - An intelligent approach	1221-1227
218	Smart ATM Card for Multiple Bank Accounts	1228-1232
219	DL based Genometric Image Retrieval	1233-1238
220	Multiple AI based Web Mining	1239-1244
221	Automatic system of incubating fish eggs through smart cylinder	1245-1251
222	An Examining the role of AI in electronics, and instrumentation engineering	1252-1257
223	DL based wireless response prediction model for spectrum awareness	1258-1263
224	An Investigation of the Unpredictability of Electrical Power in Distribution and Industrial Systems	1264-1269
225	Study of the Software Development Life Cycle and the Function of Testing	1270-1275
226	Analyses of Software Testing Approaches	1276-1281
227	Cardiac Disease Prediction for Heart Monitoring using Data Mining Techniques	1282-1287
228	A Study of the Interaction between Art and Technology, Focusing on How It Influences Art.	1288-1294
229	A Study of Trust Management Algorithms for Wireless Sensor Network	1295-1300
230	Design and Implementation of a Continuous Industrial Monitoring System with the Integration of Augmented Reality	1301-1307
231	A Study on Combined Batteries With A Solar / Wind Hybrid Renewable Energy System	1308-1312
232	Utilization of Renewable Energy: An Analysis of solar energy used in Power plants	1313-1318
233	Trust-Based Blockchain for Improving Supply Chain Communication In Internet of Vehicles.	1319-1327
234	Emotional Based Playback System for Autism	1328-1332
235	A System Build on Block chain technology to Identify and Fight Bogus check scams	1333-1337
236	Plant Growth Monitoring System Using Artificial Intelligence	1338-1342
237	Design and development of a smart ID card based payment cum access system	1343-1346
238	An In-Depth Study of Cybersecurity Threats and Intelligent Broadcasting Network Topology	1347-1352
239	Women safety by real-time eye tracking for password testimony	1353-1357
240	Unity Power Factor Operation for Non Linear Load Applications Using Interleaved Manitoba Rectifier	1358-1362

241	Design & study of quadrature hybrid 4 port network for matching, isolation, and coupling around the operating frequency.	1363-1366
242	Internal service of an enterprise admission control	1367-1373
243	Evaluation of the Software Development Life Cycle Model with Value of Testing and Quality Control	1374-1379
244	Diet Recommendation For Patients Using K-Means	1380-1385
245	An Investigation on the Feasibility of Electric Vehicles into the Current Distribution System	1386-1391
246	Automatic Environment Protection Using Mixed Signal Processor For Covid-19	1392-1396
247	Block Chain Technology Implementations for Secured Financial Transactions using Cloud Environment	1397-1401
248	A novel approach for detection of diabetes patients using machine learning techniques	1402-1408
249	User Detection in Smartphones Using Voting and Stacking Classifiers	1409-1412
250	Singularity Localities in Robot Work Envelope Comparative Analysis	1413-1417
251	Early Flood Detection and Environment Monitoring System	1418-1422
252	QR Code Detector and Follower with Kalman Filter	1423-1426
253	Research Guide for ML based Smart Tourist System	1427-1434
254	Computer Assistance Based Home Security Analysis	1435-1438
255	Web Application Based Authentication System	1439-1443
256	Integrated Smart Farming Technique Using IOT and AI-ML	1444-1446
257	An Efficient Neck Pain Detection System Using Triggering Linear Method	1447-1451
258	Survey on analysis of Blockchain Technology	1452-1457
259	Hospital management system using online technologies	1458-1461
260	Arduino based Anti-Face-Touching Device and prediction model	1462-1467
261	Language model based related word prediction from an Indian Epic- Mahabharata	1468-1474
262	Urban sound classification using ANN	1475-1480
263	Reliable and Efficient Image Processing and Deep Machine Learning for large-scale Digital Image Retrieval	1481-1484
264	Comparative Analysis of Power Quality Issues in Grid-Integrated Wind Energy System	1485-1489
265	Design of a Frequency Reconfigurable Annular Ring Slot Micro strip Triangular Patch Antenna	1490-1493
266	Emotional Intelligence (EI): A competency of PG-Teachers in managing online classroom Conflicts	1494-1499
267	Decrypting the impact of Media as factor in Crypto Investments	1500-1503
268	Development of Solar Still based Micro-hydro Power Generation for Rural Electrification	1504-1508
269	Classifiers Based on Machine Learning for Detection of Myocardial Infarction	1509-1514
270	The Current State of the Art for PV Grid Connected System Issues with Power Quality	1515-1520
271	Opportunities and challenges in the application of Artificial Intelligence-based technologies in the healthcare Industry	1521-1524
272	Security System Using PIR Sensors	1525-1529
273	Web Sensor Network For Health Monitoring Systems	1530-1533
274	A Relative Study on Half-Wavelength and Stepped Impedance Resonator based Microstrip Band-Pass Filter	1534-1537

275	An Effective Remedy To The Weaknesses Of WebCaches In HTTP Flooding	1538-1542
276	The Role of Block chain Integration in the Field of Food Supply Chain in the Present and Future Development	1543-1549
277	More Efficient Data Security by DEVELOINV AES Hybrid Algorithm	1550-1554
278	An Evaluation of the effectiveness of the Food Industry's usage of electrical energy	1555-1560
279	Feature Extraction based Face Mask Detection	1561-1566
280	Hybrid three layer Fibonacci Caesar Cipher	1567-1573
281	You Only Look Once(YOLO)Object Detection with COCO using Machine Learning	1574-1578
282	Delay Tolerant and Energy Reduced Task Allocation in Internet of Things with Cloud Systems	1579-1583
283	Quality Inspection with the support of computer vision techniques	1584-1588
284	Analysis of Banking and Block Chain Technology In Supply Chain Management System	1589-1595
285	Importance of Coping with Cyber Security Challenges in E Commerce Business	1596-1601
286	Disturbance Detection in Mobile Instant Messaging Apps using Deep Learning	1602-1607
287	Disasters Detection from Remote Satellite Images using ML and Deep Learning Approaches	1608-1615
288	Hybrid Deep Model for Sentiment Analysis of COVID-19 Twitter Data	1616-1625
289	A Comparative Analysis of Unbalanced Distribution Network Planning Considering Intermittent Power Production of Wind Generators	1626-1631
290	Development of Machine Learning Model Applied to Industrial Motors for Predictive Maintenance	1632-1635
291	Seismic Analysis of RC building with Floating Column using Non Linear Static Analysis	1636-1640
