Table of Contents

Preface	xxviii
Committee Members	xxix
Reviewers	xxx

1. Design and Simulation Preparation Technology of Motors and Electrical Appliances

Optimal Design of Absorption Circuit for High Voltage Cascade Switch Module	1
<i>Danni Luo (University of Chinese Academy of Sciences; Institute of Electrical Engineering, Chinese Academy of Sciences, China), Yawen Zhang (Institute of Electrical Engineering, Chinese Academy of Sciences, China; Chinese Academy of Sciences, China; Institute of Advanced Electromagnetic Drive Technology, Institute of Electrical Engineering, Chinese Academy of Sciences, China), and Yinghui Gao (Institute of Electrical Engineering, Chinese Academy of Sciences, China; Chinese Academy of Sciences, China; Institute of Advanced Electromagnetic Drive Technology, Institute of Electrical Engineering, Chinese Academy of Sciences, China)</i>	
Optimal Design of the Dry-Type Iron Core Reactor Based on the Improved Genetic Algorithm	9
<i>Shili Zhu (Xi'an Jiaotong University, China), Yanzhen Zhao (Xi'an Jiaotong University, China), and Peichen Shen (Xi'an Jiaotong University, China)</i>	
Comparison of the Capacity of Various Kinds of Secondary Batteries	N/A
<i>Haiqi Wu (Shimen Middle School, China)</i>	
Simulation Design of 3D Point Cloud for Pulse Lidar	N/A
<i>YuTing Yu (Anhui Xinhua University, China), YuLong Tang (Anhui Xinhua University, China), EnLiang Wang (Anhui Xinhua University, China), and ZhenGuo Zhang (Anhui Xinhua University, China)</i>	
A Method for Formulating Time of use Charging Service fee for Electric Vehicles Based on Demand Response	N/A
<i>Ye Yang (State Grid Electric Vehicle Service Co., Ltd, China), Jingdong Fan (Hohai University, China), Xiaofeng Peng (State Grid Electric Vehicle Service Co., Ltd, China), Su Su (Beijing Jiaotong University, China), Xiaokang Tang (Beijing Jiaotong University, China), Kan Wu (State Grid Electric Vehicle Service Co., Ltd, China), and Shuaihua Li (State Grid Electric Vehicle Service Co., Ltd, China)</i>	

Research on Suppression Strategy of DC Side Voltage Fluctuation of Flexible Multi-state Switching	27
<i>XueWei Wu (Hefei University of Technology, China), Guorong Zhang (Hefei University of Technology, China), Yimin Cheng (Hefei University of Technology, China), and Runsheng Xie (Hefei University of Technology, China)</i>	
Dual-Loop Optimization Control Strategy of Battery Energy Storage Based on Admittance Control	37
<i>Zhongkai Zhang (Fujian University of Technology, China), Xinke Liu (Fujian University of Technology, China), Peiqiang Li (Fujian University of Technology, Fujian Provincial University Engineering Research Center for Smart Grid Simulation Analysis and Integrated Control, China), and Jingjie Zeng (Fujian University of Technology, China)</i>	
A Small Photovoltaic Inverter Design Based on STM32 Controller and Soft Switching Method	41
<i>Weitai Hsu (Zhao-Qing University, China), Shuwei Zhang (Zhao-Qing University, China), Chihchung Yang (Zhao-Qing University, China), and Chiawei Huang (Zhao-Qing University, China)</i>	
Research on Influence of Insulation oil Condition Change Caused by Installation Pollution on Operation Performance of UHV Transformer	47
<i>Wangyuan Xie (High Voltage Research Laboratory, China Electric Power Research Institute, China), Yingcui Chen (High Voltage Research Laboratory, China Electric Power Research Institute, China), Xinru Yu (High Voltage Research Laboratory, China Electric Power Research Institute, China), Chao Wu (High Voltage Research Laboratory, China Electric Power Research Institute, China), Junyu Deng (High Voltage Research Laboratory, China Electric Power Research Institute, China), and Huanchao Cheng (High Voltage Research Laboratory, China Electric Power Research Institute, China)</i>	
A Novel EEMD-LSTM Combined Model for Transformer Top-Oil Temperature Prediction	52
<i>Wei Deng (State Grid Hunan Electric Power Company Limited Research Institute, China), Jiangwei Yang (Hunan University, China), Yi Liu (State Grid Hunan Electric Power Company Limited Research Institute, China), Chao Wu (Hunan University, China), Yongsheng Zhao (State Grid Hunan Electric Power Company Limited Research Institute, China), Xuan Liu (Hunan University, China), and Jinliang You (State Grid Hunan Electric Power Company Limited Research Institute, China)</i>	
A Novel Capacitor Voltage Transformer Based on Isolated Conduct Effect and Its Stability Under Non-Rated Condition	57
<i>Xiaojun Tang (Xi'an Jiaotong University, China), Zhengxing Li (Xi'an Jiaotong University, China), Donglai Zhao (State Grid Corporation of China, China), Ningming Guo (C-EPRI Electrical Power Engineering Co. Ltd., China), and Kunpeng Zha (C-EPRI Electrical Power Engineering Co. Ltd., China)</i>	

Research on Decoupling Method of non-Contact Voltage Measurement	64
<i>Ke Zhou (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., China), Qingren Jin (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., China), Xiaoming Wang (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., China), Bin Feng (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., China), Hongdi Sun (Digital Power Research Institute, China Southern Power Grid, China), and Xu Yin (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., China)</i>	
Research on Integrated System Technology of Water Gushing in Karst Tunnel	N/A
<i>XiaoPing Du (Chongqing Expressway Engineering Consultant Co. LTD, China; Chongqing Expressway Group Co. LTD, China), BaiKe He (Chongqing Expressway Engineering Consultant Co. LTD, China; Chongqing Expressway Group Co. LTD, China), Ke Deng (Chongqing Communications Construction Group Co. LTD, China), Fujun Lan (Chongqing Communications Construction Group Co. LTD, China), CongWei Wang (Chongqing Communications Construction Group Co. LTD, China), QingMing Zhang (Chongqing Communications Construction Group Co. LTD, China), XianLin Wu (Shenzhen Expressway Engineering Testing Co., LTD., China), and Yu Wang (Shanghai Urban Construction Vocational College, China)</i>	
Research on Control Technology of Energy Storage Modular Multilevel Converter	72
<i>Xiaohan Hao (Xi'an Polytechnic University, China), Yuan Cheng (Xi'an Polytechnic University, China), Wenquan Shao (Xi'an Polytechnic University, China), and Xinjian Chang (Xi'an Polytechnic University, China)</i>	
Low-Voltage Ride Through Control of Direct-Drive Wind Power Generation System Based on Auxiliary Converter	77
<i>Lei Hu (Qingdao University of Science and Technology, China) and Fei Yu (Qingdao University of Science and Technology, China)</i>	
Design of Dual-Band Microstrip Filter Based on Stepped Impedance Resonator	82
<i>Dong Yan (Chongqing University of Posts and Telecommunications, China), Baocang Guo (Chongqing University of Posts and Telecommunications, China), Ping Wang (Chongqing University of Posts and Telecommunications, China), Shuaiyu Pan (Chongqing University of Posts and Telecommunications, China), Jianyu Chen (Chongqing University of Posts and Telecommunications, China), and Junyu Chen (Chongqing University of Posts and Telecommunications, China)</i>	
Research and Development of Integrated Drilling Engineering Collaborative Design System	N/A
<i>Zhikun Liu (Xi'an Shiyou University, China), Ke Li (Xi'an Shiyou University, China), Bing Zhang (Xi'an Shiyou University, China), and Liupeng Wang (Xi'an Shiyou University, China)</i>	
The Design of Low Voltage Multi-channel Sequential Output Space Borne Power Supply	90
<i>Zhiqi Huang (Beijing Spacecrafts Co. Ltd., China), Pengfei Xie (Beijing Spacecrafts Co. Ltd., China), Mingming Ji (Beijing Spacecrafts Co. Ltd., China), and Zhongyang Hu (Beijing Spacecrafts Co. Ltd., China)</i>	

The Simulation Analysis and Research of Voltage Space Vector Control for Synchronous Motor Variable Frequency Speed Regulation System Based on Matlab	95
<i>Huitao Wang (National University of Defense Technology, China), Jianfeng Hou (National University of Defense Technology, China), and Xinlou Shen (The army of 66072, China)</i>	
Current Situation Analysis for the Identification and On-Line Monitoring of Distribution Transformer Winding Materials	99
<i>Cuicui Jin (State Grid Tianjin Electric Power Company Electric Power Research Institute, China; Tianjin Key Laboratory of Internet of Things in Electricity, China), Guoqiang Zu (State Grid Tianjin Electric Power Company Electric Power Research Institute, China; Tianjin Key Laboratory of Internet of Things in Electricity, China), Ying Yao (State Grid Tianjin Electric Power Company Electric Power Research Institute, China; Tianjin Key Laboratory of Internet of Things in Electricity, China), and Chunhui Zhang (State Grid Tianjin Electric Power Company Electric Power Research Institute, China; Tianjin Key Laboratory of Internet of Things in Electricity, China)</i>	
Power Quality Compression Method Based on Improved Observation Matrix	103
<i>Jin Gao (Taiyuan University of Technology, China) and Jiping Qiao (Taiyuan University of Technology, China)</i>	
Analysis of Synchronous Generator Inertia Response and Primary Frequency Regulation	107
<i>Weichao Li (Shandong University, China) and Shouyuan Wu (Shandong University, China)</i>	
Design and Implementation of a Real-Time Control System for a Piezoelectric Semi-Active Vibration Suppression Technique	111
<i>Yihan Wang (The Ohio State University, United States)</i>	
Analysis on the Component Movement in Electronic Assembly	116
<i>Wenhao He (University of Bristol, UK)</i>	
Research on Adjustable Device for Floor Opening of Elevator Machine Room	N/A
<i>Shuangchang Feng (Shanghai Institute of Special Equipment Inspection and Technical Research, China), Yanchun Liang (Shanghai Institute of Special Equipment Inspection and Technical Research, China), Jie Chen (Shanghai Institute of Special Equipment Inspection and Technical Research, China), and Kun Fang (Shanghai Institute of Special Equipment Inspection and Technical Research, China)</i>	
Dynamic Identification Method of Transmission Line Defects Based on Moving Edge Calculation	124
<i>Xishuang Shi (China Southern Power Grid Co., Ltd., China), Zhuangjun Guo (China Southern Power Grid Co., Ltd., China), Hongwen Li (China Southern Power Grid Co., Ltd., China), and Cunde Zhang (China Southern Power Grid Co., Ltd., China)</i>	
A New Method for Analyzing the Permanent Short-Circuit Fault Characteristics of MMC Converter	128
<i>Changwu Hou (Naval University of Engineering, China), Xiaofeng Zhang (Naval University of Engineering, China), Zhihao Ye (Naval University of Engineering, China), and Jing Huang (Naval University of Engineering, China)</i>	

Modeling and Simulation of Mechanical and Electrical of SVG	133
<i>Chengcheng Kong (State Grid Jibei Power Company, China), Wenqing Lu (State Grid Jibei Power Company, China), Tianqi Zhao (State Grid Jibei Power Company, China), Yian Yan (State Grid Jibei Power Company, China), Huan Xie (State Grid Jibei Power Company, China), Wenqyu Au (North China Electric Power University, China), and Changyu Li (State Grid Jibei Power Company, China)</i>	
Investigation of an Isolated Bridgeless Power Factor Correction Converter with Bipolar Gain Property	138
<i>Kehan Wu (Anhui Electrical Engineering Professional Technique College; State Grid Anhui Training Center, China), Rui Jiang (Anhui Electrical Engineering Professional Technique College; State Grid Anhui Training Center, China), Liangkui Hou (Delta Electronics (Shanghai) Co., Ltd. Hangzhou Branch, China), Caifang Li (Anhui Electrical Engineering Professional Technique College; State Grid Anhui Training Center, China), and Bangming Lu (Anhui Electrical Engineering Professional Technique College; State Grid Anhui Training Center, China)</i>	
Design and Analysis of Caragana Stubble-Flattening Robot with Terrain Adaption	N/A
<i>Yuying Wang (Harbin Engineering University, China), Liming Sui (Harbin Engineering University, China), Dingzhong Tan (Harbin Engineering University, China), and Chao Jiang (Harbin Engineering University, China)</i>	
Design of the Risk Warning System Based on UWB for the Positioning of Substation Staff	148
<i>Yanjia Yu (Wuhan University of Technology, China), Zhengxin Wang (Wuhan University of Technology, China), Zihao Li (Wuhan University of Technology, China), and Congmin Li (Wuhan University of Technology, China)</i>	
Design of Coplanar Waveguide-fed Dual-Frequency Printed Antenna	154
<i>Dong Yan (Chongqing University of Posts and Telecommunications, China), Jianyu Chen (Chongqing University of Posts and Telecommunications, China), Ping Wang (Chongqing University of Posts and Telecommunications, China), Shuaiyu Pan (Chongqing University of Posts and Telecommunications, China), Baocang Guo (Chongqing University of Posts and Telecommunications, China), and Qifu Guo (Chongqing University of Posts and Telecommunications, China)</i>	
Design and Research of an Optical Transient Overvoltage Sensor	158
<i>Xin Li (State Grid Hunan Electric Power Co., Ltd., China), Jing Xiao (State Grid Hunan Electric Power Co., Ltd, China), Hualong Deng (Hunan Changgao Senyuan Power Equipment Co., Ltd, China), and Qing Yang (Chongqing University, China)</i>	
Typical Fault Analysis and Treatment for Digital Electric Energy Metering Devices	162
<i>Rui Li (State Grid Beijing Electric Power Research Institute, China), Xiangyu Lu (State Grid Beijing Electric Power Research Institute, China), Yuan Chi (State Grid Beijing Electric Power Research Institute, China), Shiyao Cheng (State Grid Beijing Electric Power Research Institute, China), Yuexiao Liu (State Grid Beijing Electric Power Research Institute, China), and Guanghua Yang (State Grid Beijing Electric Power Research Institute, China)</i>	

Simulation Research on the Influence of Forced Convection Heat Dissipation on the Temperature Rise of Switchgear	166
<i>Peng Li (State Grid Shandong Electric Power Company Rizhao Power Supply Company), Tingbo Jia (State Grid Shandong Electric Power Company Rizhao Power Supply Company), Zhongyu Zhang (State Grid Shandong Electric Power Company Rizhao Power Supply Company), and Wentao Li (China University of Petroleum (East China), China)</i>	
Impact of Turns Number of Square PCB Rogowski Coil for Measuring Chip Current of Press-Pack IGBT	170
<i>Anqi Dai (State Key Laboratory of Advanced, Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), Xizi Zhang (State Key Laboratory of Advanced, Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), Zhongkang Lin (State Key Laboratory of Advanced, Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), Weizhou Peng (State Grid Shanghai Information & Communication Company, China), Shi Fu (State Key Laboratory of Advanced, Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), and Xuebao Li (State Key Laboratory of Advanced, Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China)</i>	
Design of Compact Filtering Antenna Based on Stepped Impedance Resonator	175
<i>Dong Yan (Chongqing University of Posts and Telecommunications, China), Shuaiyu Pan (Chongqing University of Posts and Telecommunications, China), Ping Wang (Chongqing University of Posts and Telecommunications, China), Baocang Guo (Chongqing University of Posts and Telecommunications, China), Jianyu Chen (Chongqing University of Posts and Telecommunications, China), and Peixun Du (Chongqing University of Posts and Telecommunications, China)</i>	
Optimal Design of Large-Size Slit Coupling	N/A
<i>Qingfei Yang (National Astronomical Observatories/Nanjing Institute of Astronomical Optics & Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Guomin Wang (National Astronomical Observatories/Nanjing Institute of Astronomical Optics & Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Henghui Zhou (National Astronomical Observatories/Nanjing Institute of Astronomical Optics & Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Lei Xu (National Astronomical Observatories/Nanjing Institute of Astronomical Optics & Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)</i>	

Research and Application of Design Method of Electrical Control System of Antiaircraft Artillery Based on MBSE	184
<i>Lipeng Shu (Northwest Institute of Mechanical and Electrical Engineering, China), Zhiwei Lin (Northwest Institute of Mechanical and Electrical Engineering, China), Xipeng Zhou (Northwest Institute of Mechanical and Electrical Engineering, China), Yu Lei (Northwest Institute of Mechanical and Electrical Engineering, China), Xu Tang (Northwest Institute of Mechanical and Electrical Engineering, China), Ying Lu (Northwest Institute of Mechanical and Electrical Engineering, China), and Haiwen Wang (Northwest Institute of Mechanical and Electrical Engineering, China)</i>	
Research and Simulation of Dual-Level Optimal Scheduling of Industrial Park Microgrid Considering Flexible Load	193
<i>Siwei Ge (Qingdao University of Science and Technology, China) and Fei Yu (Qingdao University of Science and Technology, China)</i>	
Method for Inspection the Surface Quality Parameters of Pressure Vessel Welds	N/A
<i>Pu Liao (South China University of Technology, China), Guixiong Liu (South China University of Technology, China), and Ningxiang Yang (Guangdong institute of Special Equipment Inspection and Research, China)</i>	
Preparation and Properties of high Solid-Phase ZrO ₂ Ceramic Parts Based on DLP Technology	N/A
<i>Jianhua Sun (Nantong Institute of Technology, China), Hai Gu (Institute of Intelligent Manufacturing, Nantong Institute of Technology, China), Jie Zhang (Institute of Intelligent Manufacturing, Nantong Institute of Technology, China), Tiancheng Huang (Nantong Institute of Technology, China), Bin Li (Institute of Intelligent Manufacturing, Nantong Institute of Technology, China), and Jie Jiang (Institute of Intelligent Manufacturing, Nantong Institute of Technology, China)</i>	
Optimization of Bellows in Bellows Pumps for Higher Pumping Efficiency	N/A
<i>Zhijian Gao (Zhejiang University, China), Fei Xue (Zhejiang University, China), Liang Hu (Zhejiang University, China), Rui Su (Zhejiang University, China), Xiaodong Ruan (Zhejiang University, China), and Xin Fu (Zhejiang University, China)</i>	
Research on a Sorted Trash Can Based on Baidu Voice Recognition	N/A
<i>Hui Dong (Shenyang Aerospace University, China), Hongshuang Li (Shenyang Aerospace University, China), Yiming Li (Shenyang Aerospace University, China), and Yongkang Liu (Shenyang Aerospace University, China)</i>	
Low Frequency Passive Vibration Isolation Technology and Its Application Prospect in Ship Equipment	N/A
<i>Zhaohao Yang (Institute of Noise&Vibration, Naval University of Engineering, China; National Key Lab on Ship Vibration&Noise, China), Changgeng Shuai (Institute of Noise&Vibration, Naval University of Engineering, China; National Key Lab on Ship Vibration&Noise, China), Buyun Li (Institute of Noise&Vibration, Naval University of Engineering, China; National Key Lab on Ship Vibration&Noise, China), and Jianguo Ma (Institute of Noise&Vibration, Naval University of Engineering, China; National Key Lab on Ship Vibration&Noise, China)</i>	

Analysis and Prospect of the Development of Solar Stirling Engine Technology	228
<i>Limeng Liang (Guangdong Country Garden School, China), Zihao Yao (Zhengzhou University, China), and Zehao Ye (Xi'an Jiaotong-Liverpool University, China)</i>	
Structural Design of Tensioned Membrane Radome Based on Finite Element Numerical Analysis ..	N/A
<i>Yeqing Gu (Nanjing Research Institute of Electronics Technology, China) and JinWei Wang (Nanjing Research Institute of Electronics Technology, China)</i>	
Effect of gap on Self-Damping Characteristics of Large Span Transmission Lines	238
<i>Xuesong Zhang (China Electric Power Research Institute, China), Haijun Niu (China Electric Power Research Institute, China), Shengchun Liu (China Electric Power Research Institute, China), and Yi Qi (China Electric Power Research Institute, China)</i>	
Structural Design of Automatic Steel Sheet Wrapping Machine	N/A
<i>Song Xu (Machinery technology Development Co., Ltd, China), Yuxiang Mao (Machinery technology Development Co., Ltd, China), Lei Wang (Machinery technology Development Co., Ltd, China), and Shuangning Fu (Machinery technology Development Co., Ltd, China)</i>	
Mechanical Manufacturing Technology and Precision Machining Technology	N/A
<i>Jie Sun (BaoTou Iron&Steel Vocational Technical College, China)</i>	
Design and Control Performance Analysis of an Adjustable Double Delta Airfoil Towed Body	N/A
<i>Zhijiang Yuan (Dalian Naval Academy, China), Ting Gong (Dongbei University of Finance and Economics, China), Xiaogang Jiang (Dalian Naval Academy, China), and Mingdong Lv (Dalian Naval Academy, China)</i>	
Finite Element Analysis of Dynamic Characteristics of Large Span Transmission Line	260
<i>Xuesong Zhang (China Electric Power Research Institute, China), Yi Qi (China Electric Power Research Institute, China), Shengchun Liu (China Electric Power Research Institute, China), and Haijun Niu (China Electric Power Research Institute, China)</i>	
Design and Analysis of Dual Purpose Tripod Wheeled Stretcher for Navy and Army	N/A
<i>YiFei Feng (Naval Specialty Medical Center), Haibo Liu (Military Representative Bureau of the Army Equipment Department), Feifei Yu (Naval Specialty Medical Center), and Xudong Yu (Naval Specialty Medical Center)</i>	
An Optimization Simulation Method of Raymond Mill Classifier Turbine Based on Fluent	269
<i>GaoWei Lin (Guilin University Of Electronic Technology, China) and Zhansi Jiang (Guilin University Of Electronic Technology, China)</i>	
Research on Design Scheme of Lubrication System for Marine Generator Prime Mover Diesel Engine	N/A
<i>Changhui Guan (Dalian Open University)</i>	
Evaluation of Honeycombs with Multidirectional Load-Carrying Capacities in the Crashworthiness Design of Helicopter Cockpit Model	279
<i>Wanting Liu (Beijing Jiaotong University, China), Yuedong Tan (Beijing Jiaotong University, China), Zhihui Jin (Beijing Jiaotong University, China), Zhikai He (China Aero-Polytechnology Establishment, China), Jiaming Wang (Beijing Jiaotong University, China), and Zhigang Li (Beijing Jiaotong University, China)</i>	

Effect of Stiffness and Damping of Spring on Power flow in a Vibration System	284
<i>Xiujie Jiang (Shanghai Research Institute of Materials, China), Yan Liu (Shanghai Research Institute of Materials, China), Qitong Li (Shanghai Research Institute of Materials, China), and Huan Liu (Shanghai Polytechnic University Faculty of Engineering, China)</i>	
Neural Network and Fuzzy System Based Classification Method for Building Electrical Equipment	289
<i>Yuming Gao (State Grid Shandong Electric Power Company Weifang Power Supply Company, China), Yong Lin (State Grid Shandong Electric Power Company Weifang Power Supply Company, China), Guanghua Guo (State Grid Shandong Comprehensive Energy Service Co., Ltd., China), Ying Du (State Grid Shandong Comprehensive Energy Service Co., Ltd., China), and Jinyou Wang (State Grid Shandong Electric Power Company Weifang Power Supply Company, China)</i>	
Optimization Index Analysis of UHV Converter Transformer Design Based on low Carbon Economy	293
<i>Yingcui Chen (China Electric Power Research Institute, China), Wangyuan Xie (China Electric Power Research Institute, China), Xinru Yu (China Electric Power Research Institute, China), and Chao Wu (China Electric Power Research Institute, China)</i>	
Design of Humiture Monitoring System for a Greenhouse in a Modern Agricultural Area	N/A
<i>Cong Cao (Guangdong Academy of Agricultural Sciences; Guangdong Academy of Agricultural Sciences, China), Zhiheng Liang (Guangdong Academy of Agricultural Sciences, China), Peimin Xie (Guangdong Academy of Agricultural Sciences, China), Jinhui Wen (Guangdong Academy of Agricultural Sciences, China), and Qinling Chen (Guangdong Academy of Agricultural Sciences, China; Guangdong Academy of Agricultural Sciences)</i>	
Research on the Application of Double-Fracture Bus Disconnecting Switch Technology in Substation	N/A
<i>Yan Li (State Grid Hebei Economic Research Institute, China), Ning Wang (State Grid Hebei Economic Research Institute, China), Xiaotian Wang (China Huadian Shijiazhuang Yuhua Power Thermal Power Plant, China), Peng Wu (State Grid Hebei Economic Research Institute, China), Shuai Zhang (State Grid Hebei Economic Research Institute, China), Yuan Hu (State Grid Hebei Economic Research Institute, China), and Rong Cheng (State Grid Hebei Economic Research Institute, China)</i>	

2. Electric Power Communication Transmission and Data Analysis Application

Determining Feasible Region of Tie-Line Transmission Considering Power Loss	306
<i>Qian Zhou (State Grid Chongqing Electric Power Company, China), Xuan Fan (State Grid Chongqing Economic Research Institute, China), Juelin Liu (Chongqing University, China), Lili Wen (State Grid Chongqing Economic Research Institute, China), Fan Mu (State Grid Chongqing Electric Power Company, China), Gaofeng Yang (State Grid Chongqing Electric Power Company, China), and Wen Jiang (State Grid Chongqing Economic Research Institute, China)</i>	

Application Status and Prospect of InSAR Technology in Power Engineering	N/A
<i>Yuan Yang (Transmission Operation and Maintenance Branch of Guizhou Power Grid Co., China), Qi Liu (Power Construction corporation of China Guizhou electric power design & Research Institute Co., Ltd, China), Lei Shi (Transmission Operation and Maintenance Branch of Guizhou Power Grid Co., China), Lianggang Xu (Transmission Operation and Maintenance Branch of Guizhou Power Grid Co., China), Jian Pan (Power Construction corporation of China Guizhou electric power design & Research Institute Co., Ltd, China), and Shaohua Wu (Power Construction corporation of China Guizhou electric power design & Research Institute Co., Ltd, China)</i>	
Research on Monitoring and Early Warning Method of Transmission Line Tower Inclination Based on Sensor Data	317
<i>Dongdong Wang (Electric Power Science Research Institute, Yunnan Power Grid Co., Ltd., China), Yutang Ma (Electric Power Science Research Institute, Yunnan Power Grid Co., Ltd., China), Chao Zhou (North China Electric Power University, China), and Hao Pan (Yunnan Power Grid Co., Ltd., China)</i>	
Research on Network Security Situation Prediction Method Based on AM and LSTM Hybrid Neural Network	322
<i>Chengpeng Yao (Armed Forces Engineering University), Yu Yang (Armed Forces Engineering University), and Kun Yin (Armed Forces Engineering University)</i>	
Beat Frequency Signal Processing of LFM CW Lidar Based on FPGA	331
<i>Xiaoyu Chen (National University of Defense Technology, China), Honggang Zhao (National University of Defense Technology, China), and Le Zhao (National University of Defense Technology, China)</i>	
Powe-Flow Study for a Hybrid AC/DC Power System Based on the Secant Method and the Alternating Iterative Method	336
<i>W. T. Hsu (Zhaoqing University, China), Z. M. Chen (Zhaoqing University, China), and C. W. Huang (Zhaoqing University, China)</i>	
A Target Acquisition and Tracking Control Strategy for High Orbit Patrol Satellite	N/A
<i>Rui Liu (Beijing Institute of Control Engineering, China) and Zhonghan Liu (Beijing Institute of Control Engineering, China)</i>	
A New Fault Line Selection Method For Resonant Grounded Distribution Network Based on Chi-Square Distance	345
<i>Chang Cheng (Xi'an Polytechnic University, China), Wenquan Shao (Xi'an Polytechnic University, China), Ying Zhang (Xi'an Polytechnic University, China), and Xin Guan (Xi'an Polytechnic University, China)</i>	
The Impact of the New Round of Transmission and Distribution Price Verification on the Life-Cycle Cost of Power Grid Projects	349
<i>Tong Li (State Grid Economic and Technological Research Institute Co., LTD, China), Heng Zhang (State Grid Economic and Technological Research Institute Co., LTD, China), Xiaohui Wang (State Grid Economic and Technological Research Institute Co., LTD, China), Yaqiong Liu (State Grid Economic and Technological Research Institute Co., LTD, China), and Meibao Wang (State Grid Economic and Technological Research Institute Co., LTD, China)</i>	

Exploration and Analysis of Gas Safety Management in Iron and Steel Enterprises from the Perspective of Energy Safety	N/A
<i>Jun Jiang (Institute of Public Safety, Jiangsu Academy of Safety Science & Technology, China) and Yueyi Gao (Institute of Public Safety, Jiangsu Academy of Safety Science & Technology, China)</i>	
Development Status and Trends of Lithium-ion Power Batteries in China	N/A
<i>Bin Li (Nantong University, China), Zhiyang Li (Nantong University, China), Hongjun Ni (Nantong University, China), Shuaishuai Lv (Nantong University, China), Xingxing Wang (Nantong University, China), and Zhuangzhuang Hao (Nantong University, China)</i>	
Channel Allocation and Power Optimization Algorithms for Maximizing Energy Efficiency in Terrestrial-Satellite Cognitive Network	N/A
<i>Shengming Zhu (Air Force Engineering University, China), Xiaopeng Yang (Air Force Engineering University, China), and Yiqiang Tang (Air Force Engineering University, China)</i>	
Power Communication Bandwidth Prediction Based on MLP Optimized ResNet Model	368
<i>Junbo Wu (Development Planning Department, State Grid Henan Electric Power Company, China), Junwei Qian (Development Planning Department, State Grid Henan Electric Power Company, China), Chao Qiu (Economics Research Institute, State Grid Henan Electric Power Company, China), and Zheng Zheng (Economics Research Institute, State Grid Henan Electric Power Company, China)</i>	
Fault Diagnosis Method for Interturn Short Circuit of Power Network Condenser	372
<i>Wenjie Li (POWERCHINA Henan Electric Power Survey & Design Institute Corporation Limited, China) and Guangqiang Sun (POWERCHINA Henan Electric Power Survey & Design Institute Corporation Limited, China)</i>	
Blockchain-Based Data Aggregation Scheme for Fault-Tolerant Privacy-Preserving in Smart Grid	376
<i>Hongbin Fan (Xiangnan University Chenzhou, China; Guangxi Key Laboratory of Trusted Software, Guilin University of Electronic Technology, China) and Changbing Huang (Affiliated Hospital(Clinical College) Xiangnan University, China)</i>	
An Optimization Model for Investment in Traditional and Emerging Business of Power Grid Based on Genetic Algorithm	N/A
<i>Yongli Wang (North China Electric Power University, China), Chen Liu (North China Electric Power University, China), Miaomiao Xu (North China Electric Power University, China), Xiaohui Wang (State Grid Economic Technological Research Institute Co., Ltd, China), Huijuan Huo (State Grid Economic Technological Research Institute Co., Ltd, China), Nan Xu (Economic and Technical Research Institute of State Grid Hebei Electric Power Co., Ltd, China), and Lei Wang (Institute of Industrial Economics, Chinese Academy of Social Sciences, China)</i>	

Research on the Quality Control of Nutrients Data for the Aquatic Ecological On-Line Monitoring System of Marine Station	N/A
<i>Lan Wang (Shandong Provincial Key Laboratory of Marine Ecology and Environment & Disaster Prevention and Mitigation, China; North China Sea Marine Forecasting Center of SOA, China), Yinglu Ji (Shandong Provincial Key Laboratory of Marine Ecology and Environment & Disaster Prevention and Mitigation, China; North China Sea Marine Forecasting Center of SOA, China), Xiaofei Liu (North China Sea Marine Forecasting Center of SOA, China), Huihui Tao (Shandong Provincial Key Laboratory of Marine Ecology and Environment & Disaster Prevention and Mitigation, China; North China Sea Marine Forecasting Center of SOA, China), Liang Zhang (Shandong Provincial Key Laboratory of Marine Ecology and Environment & Disaster Prevention and Mitigation, China; North China Sea Marine Forecasting Center of SOA, China), and Naixing Zhang (Shandong Provincial Key Laboratory of Marine Ecology and Environment & Disaster Prevention and Mitigation, China; North China Sea Marine Forecasting Center of SOA, China)</i>	
Analysis on the Influence of Meteorological Factors on the Soil Resistivity Variation	N/A
<i>Xueying Geng (Langfang Meteorological Bureau of Hebei Province, China), Qiqi Hou (Langfang Meteorological Bureau of Hebei Province, China), Shuai Yang (Langfang Meteorological Bureau of Hebei Province, China), and Yujun Gao (Langfang Meteorological Bureau of Hebei Province, China)</i>	
An on-Line Monitoring Method for Vibration and Partial Discharge of Power Transformer	396
<i>Qiao Guan (Xi'an Jiaotong University, China), Xingwei Liu (Xi'an Jiaotong University, China), and Baofeng Xi (Xi'an Jiaotong University, China)</i>	
Rapid Trajectory Optimization of Mars Based on Improved Successive Convexification Method	N/A
<i>Yu Lan (Beijing Institute of Control Engineering, China) and Ji Li (Beijing Institute of Control Engineering, China)</i>	
Park Group Loss Perception Model Based on XGBoost and Denoising Self-Encoding Network	406
<i>Hongshan Zhao (North China Electric Power University, China), Yangyang Cui (North China Electric Power University, China), Wei Song (North China Electric Power University, China), Yuehan Qu (North China Electric Power University, China), and Mengxue Sun (North China Electric Power University, China)</i>	
Non-Intrusive Power Load Decomposition Based on Transient Steady-State Characteristics	410
<i>Sai Li (Xi'an Polytechnic University, China), Xiaoxue Guo (Xi'an Polytechnic University, China), Wenquan Shao (Xi'an Polytechnic University, China), and Junze Wang (Xi'an Polytechnic University, China)</i>	
Research on Variation Law of Collision Coefficient of Super-Cooled Water Drops in Transmission Lines	414
<i>Dongdong Wang (Electric Power Science Research Institute, Yunnan Power Grid Co., Ltd., China), Yutang Ma (Electric Power Science Research Institute, Yunnan Power Grid Co., Ltd., China), Chao Zhou (North China Electric Power University, China), and Hao Pan (Electric Power Science Research Institute, Yunnan Power Grid Co., Ltd., China)</i>	

Construction and Application of Dynamic Risk Knowledge Graph of Large Diameter Emergency Rescue Well	N/A
<i>Zhe Yang (Xi'an Research Institute in CCTEG, China), Hongjun Qi (Xi'an Research Institute in CCTEG, China), and Bofan Tian (Xi'an Research Institute in CCTEG, China)</i>	
Correlation Between Partial Discharge of Typical Defects in GIS and UHF Signal	428
