2022 8th International Conference on Big Data Computing and Communications (BigCom)

BigCom 2022

Table of Contents

Message from the General Chairs ..... **xv**
Message from the TPC Chairs ..... **xvi**
Conference Committee ..... **xvii**
Keynote Speakers ..... **xx**

Session 1: Network(I)

Compass: A Penalty-based Routing with High Success Ratio in Payment Channel Networks 1
Donglai Li (Dalian University of Technology), Lei Wang (Dalian University of Technology), Xinwei Zhang (Dalian University of Technology), Jian Fang (Dalian University of Technology), and Yuanfang Chen (Shanghai Jiao Tong University)

Latency-aware Traffic Provisioning for Content Delivery Networks 11
Jinghao Hei (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, China), Huiyou Zhan (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, China), Pengfei Zhang (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, China), and Haisheng Tan (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, China)

Expansion-Squeeze-Block: Linear Over-parameterization with Shortcut Connections to Train Compact Convolutional Networks 19
Linzhuo Yang (Computer Science Department University of Science and Technology of China Hefei, China) and Lan Zhang (Computer Science Department University of Science and Technology of China Hefei, China)

Adaptive Packet Scheduling Algorithm for Time-Sensitive Service based on DTP and Reinforcement Learning 29
Jianing Zhang (School of Computer Science(National Pilot Software Engineering School) Beijing University of Posts and Telecommunications)

Adversarial Examples Detection of Electromagnetic Signal Based on GAN 38
Jiawei Zhu (Science and Technology on Communication Information Security Control Laboratory Jiaxing, China.), Jiangpeng Li (Institute of Cyberspace Security Zhejiang University of Technology College of Information Engineering Zhejiang University of Technology Hangzhou, China.), Dongwei Xu (Institute of Cyberspace Security Zhejiang University of Technology College of Information Engineering Zhejiang University of Technology Hangzhou, China.), Chuntao Gu (Institute of Cyberspace Security Zhejiang University of Technology College of Information Engineering Zhejiang University of Technology Hangzhou, China.), Qi Xuan (Institute of Cyberspace Security Zhejiang University of Technology College of Information Engineering Zhejiang University of Technology Hangzhou, China.), and Shunling Wang (Science and Technology on Communication Information Security Control Laboratory Jiaxing, China.)

Session 2: Network(II)

Online Competitive Posted-Pricing Mechanism for Trading Time-Sensitive Valued Data 44
Shuangshuang Xue (School of Computer Science and Technology, the CAS Key Laboratory of Wireless-Optical Communications, University of Science and Technology of China), Hu Ding (School of Computer Science and Technology, the CAS Key Laboratory of Wireless-Optical Communications, University of Science and Technology of China), Lan Zhang (School of Computer Science and Technology, the CAS Key Laboratory of Wireless-Optical Communications, University of Science and Technology of China), Haisheng Tan (School of Computer Science and Technology, the CAS Key Laboratory of Wireless-Optical Communications, University of Science and Technology of China), and Xiang-Yang Li (School of Computer Science and Technology, the CAS Key Laboratory of Wireless-Optical Communications, University of Science and Technology of China)

Edge Pricing Mechanisms under Cloud Tiered Pricing 54
Jinshui Zhang (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, China), Jinghao Hei (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, China), and Haisheng Tan (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, China)

Online Learning-Based Co-Task Scheduling for Minimizing Deadline-Missing Rate in Edge Computing 63
Shuokang Han (University of Science and Technology of China) and Haisheng Tan (University of Science and Technology of China)

PeCo: Minimizing Bandwidth Cost for CDN systems 71
Huan Chen (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, China), Huiyou Zhan (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, China), Pengfei Zhang (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, China), and Haisheng Tan (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, China)

Federated Learning with Personalized Differential Privacy Combining Client Selection 79
Yunting Xie (School of Computer Science and Technology University of Science and Technology of China Hefei, China) and Lan Zhang (School of Computer Science and Technology University of Science and Technology of China Hefei, China)

Cluster-based Task Decomposition Optimization in Cloud Manufacturing Service Platform 88
Yin Xiangbing (School of Computer Science and Technology, Anhui Vocational College of Police Officers), Zhou Ting (School of Computer Science and Technology, Anhui Vocational College of City Management), and Guo Xing (School of Computer Science and Technology, Anhui University)

Percentile Optimization Based on Classical Parallel Machine Scheduling Model 96
Zining Li (School of Cyber Science and Technology, University of Science and Technology of China, Hefei, China), Jiaying Meng (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, Hefei, China), Huan Chen (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, Hefei, China), and Haisheng Tan (CAS Key Lab of Wireless-Optical Communications, University of Science and Technology of China, Hefei, China)

Cloud Resource Demand Prediction Based on VMD-GRU-TCN Hybrid Model 103
Junyi Liu (School of Computer Science and Technology University of Science and Technology of China Hefei, Anhui, China), Fanping Zeng (School of Computer Science and Technology University of Science and Technology of China Hefei, Anhui, China), Jingfei Shen (School of Computer Science and Technology University of Science and Technology of China Hefei, Anhui, China), Weikang Zhang (School of Computer Science and Technology University of Science and Technology of China Hefei, Anhui, China), Yufan Tao (School of Computer Science and Technology University of Science and Technology of China Hefei, Anhui, China), and Shengkun Tao (School of Computer Science and Technology University of Science and Technology of China Hefei, Anhui, China)

Session 3: Security & Privacy

GAN-based Differential Privacy Trajectory Data Publishing with Sensitive Label 112
Lin Yao (Dalian University of Technology School of Information Science and Engineering Liaoning Dalian, China Network Research Centre, Peng Cheng Laboratory Guangdong Shenzhen, China), Yu Zhang (Dalian University of Technology School of Software), Zhaolong Zheng (Dalian University of Technology School of Software), and Guowei Wu (Dalian University of Technology School of Software)

Semi-Random Coding with Quantum Amplitude Amplification for Secure Access Authentication in Future 5G Communications 120
Dongyang Xu (School of Information and Communications Engineering, Xi'an Jiaotong University, China. Shaanxi Smart Networks and Ubiquitous Access Research Center, China), Pinyi Ren (School of Information and Communications Engineering, Xi'an Jiaotong University, China. Shaanxi Smart Networks and Ubiquitous Access Research Center, China), and Lei Lu (School of Information and Communications Engineering, Xi'an Jiaotong University, China. Shaanxi Smart Networks and Ubiquitous Access Research Center, China)

The Centralized Group Key Management Scheme Based-Chinese Remainder Theorem in Multicast Communication 128
Qiya Chen (University of Science and Technology of China)

Personalized Differentially Private Online Minimum Bipartite Matching in Spatial Crowdsourcing 134
Chaojie Lv (School of Computer Science and Technology, The CAS Key Laboratory of Wireless-Optical Communications, University of Science and Technology of China), Lan Zhang (School of Computer Science and Technology, The CAS Key Laboratory of Wireless-Optical Communications, University of Science and Technology of China), and Xiang-Yang Li (School of Computer Science and Technology, The CAS Key Laboratory of Wireless-Optical Communications, University of Science and Technology of China)

Secrecy Throughput Analysis for Passive Reconfigurable Intelligent Surface Aided Communication System 144
Sihui Shang (Xi'an Jiaotong University), Pinyi Ren (Xi'an Jiaotong University), and Dongyang Xu (Xi'an Jiaotong University)

Communication is Verification: IoT Identifier System Using Device Fingerprints 150
Yuan Ji (LINKE Lab, University of Science and Technology of China. School of Data Science, University of Science and Technology of China), Tian Ye (LINKE Lab, University of Science and Technology of China. School of Computer Science and Technology, the CAS Key Laboratory of Wireless-optical Communications, University of Science and Technology of China), and Xiang-Yang Li (LINKE Lab, University of Science and Technology of China. School of Computer Science and Technology, the CAS Key Laboratory of Wireless-optical Communications, University of Science and Technology of China)

Camera Authentication Using Physical Features based on Handle System ID 158
Xieyan Wang (School of Cyber Science and Technology, The CAS Key Laboratory of Wireless-Optical Communications, University of Science and Technology of China), Ye Tian (School of Computer Science and Technology, The CAS Key Laboratory of Wireless-Optical Communications, University of Science and Technology of China), Haohua Du (School of Cyber Science and Technology, Beihang University), and Xiang-Yang Li (School of Computer Science and Technology, The CAS Key Laboratory of Wireless-Optical Communications, University of Science and Technology of China)

Session 4: Multimedia

A3MR: Attentive Auto-encoder for Acoustic-assisted Music Recommendation 167
Guangyou Zhou (Beijing Jiaotong University), Zhi Huang (Beijing Jiaotong University), Xueyong Dong (Beijing Jiaotong University), Le Li (Beijing Jiaotong University), and Dan Tao (Beijing Jiaotong University)

Selective Memory-Augmented Document Translation with Diverse Global Context 174
Xu Zhang (School of Computer Science and Technology University of Science and Technology of China Hefei, Anhui, China), Jinlong Li (School of Computer Science and Technology University of Science and Technology of China Hefei, Anhui, China), and Mingzhi Liu (School of Computer Science and Technology University of Science and Technology of China Hefei, Anhui, China)

Interval-based Melody Generation via Reinforcement Learning 181
Mingzhi Liu (School of Information Science and Technology University of Science and Technology of China Hefei, Anhui, China), Jinlong Li (School of Information Science and Technology University of Science and Technology of China Hefei, Anhui, China), Yufei Wang (School of Information Science and Technology University of Science and Technology of China Hefei, Anhui, China), Xu Zhang (School of Information Science and Technology University of Science and Technology of China Hefei, Anhui, China), and Boyi Sun (Faculty of Fine Arts and Music University of Melbourne Parkville, Victoria, Australia)

Predicting Virtual Gifting Behaviors in Live Streaming Using Danmaku Information 190
Zihang Chen (University of Science and Technology of China, China), Jiahui Shen (University of Science and Technology of China, China), Mengxiao Zhu (University of Science and Technology of China, China), Bo Hu (University of Science and Technology of China, China), and Anan Liu (Tianjin University, China)

Session 5: Data Application

A Dual-network Micro-expression Recognition Model based on Optical Flow Features 199
Xiaofang Mu (College of Computer Science and Technology, Taiyuan Normal University, Taiyuan, China), Jiaji Liu (College of Computer Science and Technology, Taiyuan Normal University, Taiyuan, China), Yue Li (College of electronic and information engineering, Tianjin University of Technology, Tianjin, China), Hui Qi (College of Computer Science and Technology, Taiyuan Normal University, Taiyuan, China), Zhenyu Liu (College of Computer Science and Technology, Taiyuan Normal University, Taiyuan, China), and Hao Li (College of Computer Science and Technology, Taiyuan Normal University, Taiyuan, China)

Finger-Fi: Fingertip Activity Recognition and User Identification with Passive Wireless Backscattering ..... N/A
Dong Ren (School of Computer Science, University of Science and Technology of China), Ye Tian (School of Computer Science, University of Science and Technology of China), Hao Zhou (School of Computer Science, University of Science and Technology of China), and Xiangyang Li (School of Computer Science, University of Science and Technology of China)

Increase the Range of Millimeter-Wave Breath Monitoring by Multi-Channel Signal Fusion 217
Shuhuiyu Yu (Department of Computer Science and Technology Beijing University of Posts and Telecommunications Beijing, China), Huanpu Yin (Department of Computer Science and Technology Beijing University of Posts and Telecommunications Beijing, China), Le Kang (Department of Computer Science and Technology Beijing University of Posts and Telecommunications Beijing, China), and Anfu Zhou (Department of Computer Science and Technology Beijing University of Posts and Telecommunications Beijing, China)

AFSN: Adaptive Frame Selection Network for Efficient Human Synthesis on Smartphones 224
Xuyang Feng (Northwestern Polytechnical University, Xi'an, China), Bin Guo (Northwestern Polytechnical University, Xi'an, China), Chen Qiu (Northwestern Polytechnical University, Xi'an, China), Haoyang Ren (Northwestern Polytechnical University, Xi'an, China), and Zhiwen Yu (Northwestern Polytechnical University, Xi'an, China)

Medication Prediction Using Memory Augmented Heterogeneous Information Fusion Network ... 233
Yang An (North University of China, China), Yufeng Sun (North University of China, China), Bo Jin (Dalian University of Technology, China), and Xiaopeng Wei (Dalian University of Technology, China)

RtSNN: Building a Real-time Siamese Neural Networks Model for Few-shot Action Recognition ... 243
Yao Guo (Beijing Normal University, China), Junyang Song (Beijing Normal University, China), Yu Guo (Beijing Normal University, China), Rongfang Bie (Beijing Normal University, China), and Libin Jiao (China University of Mining and Technology, Beijing)

Session 6: Data Mining

Event Co-reference Disambiguation with the Enhanced Semantics of Multi-layer Attention 251
Fei Li (School of Computer Science and Technology, University of Science and Technology of China. The CAS Key Labboratory of Wireless-Optical Communications, University of Science and Technology of China. Innovation + Research Institute, GuoChuang Cloud Technology Ltd.), Yanyan Wang (Innovation + Research Institute, GuoChuang Cloud Technology Ltd), Yuan Zhou (Innovation + Research Institute, GuoChuang Cloud Technology Ltd), Qiangzhong Feng (Innovation + Research Institute, GuoChuang Cloud Technology Ltd), Kuang Xu (Innovation + Research Institute, GuoChuang Cloud Technology Ltd), and Xiang-Yang Li (School of Computer Science and Technology, University of Science and Technology of China 2 The CAS Key Labboratory of Wireless-Optical Communications, University of Science and Technology of China)

Analyses and Parallel Optimization Exploration of the Coupled Atmosphere-Ocean Wave Numerical Forecasting Model 261
Yanqiang Wang (National Marine Environmental Forecasting Center, Beijing, China ;College of Oceanic and Atmospheric Sciences, Ocean University of China, Qingdao, China), Wei Peng (National Marine Environmental Forecasting Center, Beijing, China), Fan Xiao (National Marine Environmental Forecasting Center, Beijing, China; University of Chinese Academy of Sciences, Beijing, China; State Key Laboratory of Resources and Environmental Information System, Institute of Geographical Sciences and Natural Resources Research, CAS, Beijing, China), Bo Lin (National Marine Environmental Forecasting Center, Beijing, China; School of Software, Tsinghua University, Beijing, China), and Tianyu Zhang (Key Laboratory of Climate, Resources and Environment in Continental Shelf Sea and Deep Sea of Department of Education of Guangdong Province, Guangdong Ocean University Zhanjiang, China)

MGRec: Multi-Graph Fusion for Recommendation 266
Haoyang Ren (Northwestern Polytechnical University, Xi'an, China), Jiaqi Liu (Northwestern Polytechnical University, Xi'an, China), Bin Guo (Northwestern Polytechnical University, Xi'an, China), Chen Qiu (Northwestern Polytechnical University, Xi'an, China), Liyao Xiang (Shanghai Jiao Tong University, Shanghai, China), and Zhetao Li (Xiangtan University, Changsha, China)

GroupDiff: Exploring A Unified Graph Structure and High-order Interactions for Group Recommendation 276
Jiameng Bai (Hefei Comprehensive National Science Center), Bo Hu (University of Science and Technology of China), Mengxiao Zhu (University of Science and Technology of China), Zhendong Mao (University of Science and Technology of China), and Anan Liu (Tianjin University)

Session 7: Smart City

Heterogeneous Traffic Trajectory Prediction via Spatial Attention Network for Internet of Vehicles 285
Jie Li (School of computer science and Engineering Northeastern University Shen Yang, China), Yue Guo (Software College Northeastern University Shen Yang, China), Han Shi (School of computer science and Engineering Northeastern University Shen Yang, China), Ruiyun Yu (Software College Northeastern University Shen Yang, China), Xingwei Wang (School of computer science and Engineering Northeastern University Shen Yang, China), and Xinyi Hou (School of computer science and Engineering Northeastern University Shen Yang, China)

A Route Planning for Autonomous Vehicle in 5G and Edge Computing Environment 294
Kai Pan (Department of Computer Science and Technology, Anhui University, Hefei, China), Weibo Kong (Department of Computer Science and Technology, Anhui University, Hefei, China), and Xing Guo (Department of Computer Science and Technology, Anhui University, Hefei, China)

DCGCN: Double-Channel Graph Convolutional Network for Passenger Flow Prediction in Urban Rail Transit 304
Chen Wang (College of computer science and technology Huaqiao University Xiamen, China), Huizhen Zhang (College of computer science and technology Huaqiao University Xiamen, China), Shuilin Yao (College of computer science and technology Huaqiao University Xiamen, China), and Minglei Liu (College of computer science and technology Huaqiao University Xiamen, China)

CAT: Using Cross Attention Transformation to Build Correlation of RGB-D for Road Detection..... 314
Ting Han (Jimei university), Guorong Cai (Jimei university), Xinying Wang (Jimei university), Siyu Chen (Jimei university), Hefeng Chen (Jimei university), Yanhao Lin (Jimei university), Huan Xu (Jimei university), and Chuanmu Li (Jimei university)

V2X and Vision Fusion Based Undulating Road Recognition and Intelligent Vehicle Control 322
Xingling Shi (School of Computer Science and Technology University of Science and Technology of China Hefei, China), Liusheng Huang (School of Computer Science and Technology University of Science and Technology of China Hefei, China), and Yingjian Chen (Intelligent Driving R & D Department Guochuang (Hefei) Intelligent Automotive Technology Co. Ltd. Hefei, China)

Session 8: Data Management

Food Recognition Model Based on Deep Learning and Attention Mechanism 331
Lili He (College of Computer Science and Technology, Jilin University Symbol Computation and Knowledge Engineer of Ministry of Education, Jilin University Changchun, China), Zhiwei Cai (College of Computer Science and Technology, Jilin University Symbol Computation and Knowledge Engineer of Ministry of Education, Jilin University Changchun, China), Dantong Ouyang (College of Computer Science and Technology, Jilin University Symbol Computation and Knowledge Engineer of Ministry of Education, Jilin University Changchun, China), and Hongtao Bai (College of Computer Science and Technology, Jilin University Symbol Computation and Knowledge Engineer of Ministry of Education, Jilin University Changchun, China)

Clickbait Analysis and Detection Method on Chinese Social Media 342
Jiayi Gui (Beijing University of Posts and Telecommunications, China), Ke Yu (Beijing University of Posts and Telecommunications, China), Hao Zhou (Beijing University of Posts and Telecommunications, China), and Xiaofei Wu (Beijing University of Posts and Telecommunications, China)

A Novel Data Cleaning Framework Based on Knowledge Graph 350
Yuanfeng Song (University of Electronic Science and Technology of China,China), Danni Zhang (Southwest Jiaotong University,China), Xiaodong Li (University of Electronic Science and Technology of China, China), Kunming Luo (University of Electronic Science and Technology of China, China), and Jianming Liao (University of Electronic Science and Technology of China,China)

Residue-based Label Protection Mechanisms in Vertical Logistic Regression 356
Juntao Tan (School of Computer Science and Technology, University of Science and Technology of China, Hefei, China), Lan Zhang (School of Computer Science and Technology, University of Science and Technology of China, Hefei, China), Yang Liu (ByteDance Security Research Department, Bejing, China), Anran Li (School of Computer Science and Technology, University of Science and Technology of China, Hefei, China), and Ye Wu (ByteDance Security Research Department, Bejing, China)

An Efficient and Accurate Encrypted Image Retrieval Scheme via Ball Tree 365
Xianxian Li (College of computer science, Guangxi Normal University. Guangxi Key Lab of Multi-source Information Mining & Security Guilin, China), Jie Lei (College of computer science, Guangxi Normal University. Guangxi Key Lab of Multi-source Information Mining & Security Guilin, China), Zhenkui Shi (College of computer science, Guangxi Normal University. Guangxi Key Lab of Multi-source Information Mining & Security Guilin, China), and Feng Yu (College of computer science, Guangxi Normal University Guilin, China. Key Laboratory of Computer Network Information Integration, Southeast University Nanjing, China)

Prototype Data System of Highly Reliable Ship Message Queue based on AMQP SIN 372
Yongguo Jiang (College of Computer Science and Technology , Ocean University of China), Ketao Liu (College of Computer Science and Technology, Ocean University of China), Tingting Huang (College of Computer Science and Technology,Ocean University of China), Ce Kang (College of Computer Science and Technology,Ocean University of China), and Yaqi Yang (College of Computer Science and Technology,Ocean University of China)

Collaborative Task Allocation in Mobile Crowd Sensing 379
Juanjuan Du (Northwestern Polytechnical University Xi'an, China), Jiaqi Liu (Northwestern Polytechnical University Xi'an, China), Zhiwen Yu (Northwestern Polytechnical University Xi'an, China), and Liang Wang (Northwestern Polytechnical University Xi'an, China)

Crowdsourcing System for Multi-object Annotation in Surveillance Videos 389
Zheng Zhang (University of Science and Technology of China), Zixin Zhao (University of Science and Technology of China), Lan Zhang (University of Science and Technology of China), and Xiangyang Li (University of Science and Technology of China)

Session 9: Edge and Cyber Physical System

Edge Server Quantification and Placement in Vehicle Ad Hoc Networks 398
Weibo Kong (Anhui University), Haohua Du (Beihang University), Kai Pan (Anhui University), and Xing Guo (Anhui University)

Energy-Efficient Collaborative Inference in MEC: A Multi-Agent Reinforcement Learning Based Approach 407
Yilin Xiao (Xiamen University, China), Kunpeng Wan (Xiamen University, China), Liang Xiao (Xiamen University, China), and Helin Yang (Xiamen University, China)

A Distributed 3D UAV Placement Algorithm for Integrated Ground-Air Cellular Networks 413
Xinwei Wang (Donghua University, Shanghai, China), Ye Liu (Donghua University, Shanghai, China), and Shan Chang (Donghua University, Shanghai, China)

Doppler Zero-Insert Extension for OTFS Modulation with Fractional Doppler 422
Yuanyuan Tan (Xi'an Jiaotong University, Xi'an, Shaanxi, China), Pinyi Ren (Xi'an Jiaotong University, Xi'an, Shaanxi, China), and Dongyang Xu (Xi'an Jiaotong University, Xi'an, Shaanxi, China)

Jamming Games in Underwater Sensor Networks with Hierarchical Learning 428
Hui Wang (College of Physics and Information Engineering, Minnan Normal University, Zhangzhou, China), Yao Huang (College of Physics and Information Engineering, Minnan Normal University, Zhangzhou, China), and Xiangdong Zeng (College of Physics and Information Engineering, Minnan Normal University, Zhangzhou, China)

Adaptive Random Beamforming in Relay Based Magnetic MIMO WPT System 435
Fuyin Wang (School of Computer Science and Technology Anhui University Hefei, China) and Xing Guo (School of Computer Science and Technology Anhui University Hefei, China)

Author Index **445**
