# 2022 International Conference on Information Processing and Network Provisioning (ICIPNP) **ICIPNP 2022**

## Table of Contents

Preface .....	x
Conference Committee .....	xi

### Computer Network and Communication Engineering

Research on Preventive Maintenance of Industrial Internet Based on Reinforcement Learning .....	1
<i>Mengxuan Ma (Ningxia Electric Power Dispatching Control Center, China), Zuhao Wang (Beijing University of Posts and Telecommunications, China), Shengjie Wang (State Grid Ningxia Electric Power Co., Ltd. Information Communication Company, China), and Peng Lin (Beijing Vectinfo Technologies Co., LTD., China)</i>	
Coexistence Analysis of 1800MHz Band Civil UAV System and TDD Private Network System .....	6
<i>Lei Liu (Beijing Research Institute, China Telecom Corporation Limited, China), Bingxin Wang (Beijing Research Institute, China Telecom Corporation Limited, China), and Michel Kadoch (University of Quebec, Canada)</i>	
Micro-Doppler Effect of Ship Based on Pendulum Oscillation Model .....	11
<i>Shiyang Xuan (Beihang University, China), Jingcheng Zhao (Yunnan Innovation Institute-BUAA, China), Zongkai Yang (Beihang University, China), and Zhihua Chen (Southwest Technology and Engineering Research Institute Chongqing, China)</i>	
Leveraging Graph Attention Network for SDN Routing Performance Prediction .....	15
<i>Yonghua Huo (Beijing Jiaotong University, China; The 54th Research Institute of CETC, China), Ying Liu (Beijing Jiaotong University, China), Shilong Zhao (Beijing University of Posts and Telecommunications, China), and Peng Yu (Beijing University of Posts and Telecommunications, China)</i>	
Discussion on 6G Network Architecture Based on Evolution .....	20
<i>Yanxia Xing (China Telecom Corporation Limited Research Institute, China), Pengyu Li (China Telecom Corporation Limited Research Institute, China), and Jinyan Li (China Telecom Corporation Limited Research Institute, China)</i>	

Multi-Cell mec Space Partition and Dynamic Adjustment Scheme for VR Video Transmission .....	24
<i>Dan Liu (China Telecom Research Institute, China), Qihong Zheng (China Telecom Corporation Research Institute, China), Yun Shen (China Telecom Corporation Research Institute, China), Peng Ding (China Telecom Corporation Research Institute, China), and Mohamed Cheriet (University of Quebec Montreal, Canada)</i>	
Airship-Launched Multi-Channel Receiver Design Based on Lora Technology for Typhoon Information .....	29
<i>Gang Peng (Chongqing Cewei Technonogy Co., Ltd., China), Jihan Cao (Beihang University, China), Chaoqun Fang (Beihang University, China), Zhangfei Li (Yunnan Innovation Institute, BUAA, China), and Tao Hong (Yunnan Innovation Institute, BUAA, China; Beihang University, China)</i>	
Intelligent Deployment of Multi-Air Base Stations for Capacity Enhancement of Emergency Communications .....	34
<i>Zifan Li (State Grid Information and Telecommunication Branch, China), Bozhong Li (State Grid Information and Telecommunication Branch, China), Yuanlong Peng (State Grid Information and Telecommunication Branch, China), Fang Chen (State Grid Information and Telecommunication Branch, China), Jingyue Tian (Beijing University of Posts and Telecommunications, China), and Yahui Ding (Beijing University of Posts and Telecommunications, China)</i>	
Mobility Strategy for VoNR in Switch Boundary Scenario .....	39
<i>Xiaohang Xu (China Telecom Research Institute, China), Jia Hou (China Telecom Research Institute, China), Chunlei Hu (China Telecom Research Institute, China), Jinyang Yu (China Telecom Research Institute, China), Han Guo (China Telecom Research Institute, China), and Yuetian Zhou (China Telecom Research Institute, China)</i>	
Analysis of Interference from ATG Uplink to Terrestrial 5G Base Stations in 2.1 GHz Band .....	43
<i>Lei Liu (Beijing Research Institute, China Telecom Corporation Limited, China), Bingxin Wang (Beijing Research Institute, China Telecom Corporation Limited, China), and Michel Kadoch (University of Quebec, Canada)</i>	
DFCNI: Researching on Data-Centric Framework of Cloud Network Integration for Telecom Operators .....	47
<i>Xinchi Li (China Telecom Research Institute, China), Xiaoqing Xia (China Telecom Research Institute, China), Hongpeng Chu (Xi'an University of Post and Telecommunications, China), Jun Zhao (China Telecom Research Institute, China), and Hui Yan (China Telecom Research Institute, China)</i>	
Analysis of Spectrum Refarming Methods for 5G Network Deployment .....	52
<i>Bowen Cai (China Telecom Research Institute, P.R. China), Xiaoyin Zhao (China Telecom Research Institute, P.R. China), Chunlei Hu (China Telecom Research Institute, P.R. China), and Weiliang Xie (China Telecom Research Institute, P.R. China)</i>	
Distributed AI-Native Architecture for 6G Networks .....	57
<i>Pengyu Li (China Telecom Research Institute, China), Yanxia Xing (China Telecom Research Institute, China), and Wei Li (University of Victoria, Canada)</i>	

Survey on Energy Harvesting IoT Communication in the Future Network .....	63
<i>Wen Qi (China Telecommunication Research Institute, China), Xu Xia (China Telecommunication Research Institute, China), Chengli Mei (China Telecommunication Research Institute, China), Heng Wang (China Telecommunication Research Institute, China), and Wei Li (University of Victoria, Canada)</i>	
Research on Microwave Imaging of Airborne Antenna .....	68
<i>Jiabi Li (Beihang University), Jingcheng Zhao (Yunnan Innovation Institute · BUAA; Beihang University;), Lingkang Kong (Beihang University), and Yanhan Li (Beihang University)</i>	
Research on Interconnection Architecture for 5G Inter-Networks Roaming .....	73
<i>Xuexin Li (Research Institute of China Telecom, China), Zhenhua Lyu (Research Institute of China Telecom, China), and Haoquan Liang (Research Institute of China Telecom, China)</i>	
A Study of Remote Sensing Image Ground Segmentation on Deep Learning .....	77
<i>Dongdong Li (China Telecom Corporation Research Institute, China), Yun Shen (China Telecom Corporation Research Institute, China), and Peng Ding (China Telecom Corporation Research Institute, China)</i>	
UAV Detection and Positioning Based on 5G Base Station Real Aperture in 5G Network .....	82
<i>Changyu Lou (Beihang University, China), Jingcheng Zhao (Beihang University, China), Ke Zhang (Beihang University, China), Yanhan Li (Beihang University, China), and Tao Hong (Beihang University, China)</i>	
Range Imaging of Integrated Radar Communication Signal Based on OFDM .....	87
<i>Zhiyu Chen (Beihang University, China), Jingcheng Zhao (Beihang University, China; Yunnan Innovation Institute, BUAA, China), Haohui Hong (Beijing Institute of remote sensing equipment, China), Zhihua Chen (Southwest Technology and Engineering Research Institute, China), and Mohamed Cheriet (University of Quebec, Canada)</i>	
Performance Evaluation of Wi-Fi 6 and Technology Prospects of Wi-Fi .....	91
<i>Jiaojiao Wang (Research Institute of China Telecom, China), Guojin Huang (Research Institute of China Telecom, China), and Zhen Shao (Research Institute of China Telecom, China)</i>	
A Cavity RCS Measurement Method Based on Microwave Imaging Extraction .....	96
<i>Lingkang Kong (Beihang University, China), Jingcheng Zhao (School of Ele. and Inf. Engineering Beijing, China; Beihang University Yunnan Innovation Institute, BUAA, China), Michel Kadoch (University of Quebec, Canada), Zhihua Chen (Southwest Tech. and Eng. Research Institute Chongqing, China), and Zhengfa Zuo (QuakeSafe Technologies Co., Ltd., China)</i>	
Technical Solutions to Resolve Deterministic Requirements in the Industrial Site .....	100
<i>Jinyan Li (China Telecom Research Institute, China), Na Lu (China Telecom Group Corporation, China), Cheng Li (China Telecom Group Corporation, China), Yanxia Xing (China Telecom Research Institute, China), and Wei Li (University of Victoria, Canada)</i>	
Operator Perspective: Performance Improvement from Reconfigurable Intelligent Surface .....	104
<i>Yuetian Zhou (China Telecom Research Institute, China)</i>	

Research on Key Technologies of UAV Real-Time Recognition and Tracking Based on YOLOv4 ....	107
<i>Hongming Liang (Beihang University, China), Tao Hong (Beihang University, China; Shenzhen Institute of Beihang University, China), Zihua Chen (Southwest Technology and Engineering Research Institute, China), and Michel Kadoch (University of Quebec Montreal, Canada)</i>	
Digital Twin System for Transformer Station Based on Cloud-Edge Collaboration Architecture.....	111
<i>Yuying Xue (China Telecom Corporation Research Institute, China), Yun Shen (China Telecom Corporation Research Institute, China), Huibin Duan (China Telecom Corporation Research Institute, China), Yaqi Song (China Telecom Corporation Research Institute, China), and Mohamed Cheriet (University of Quebec, Canada)</i>	
Performance Analysis of 2.1GHz FDD Spectrum Re-Farming Scheme Based on MOCN Network ..	116
<i>Jia Hou (China Telecom Research Institute, China), Han Guo (China Telecom Research Institute, China), Zhirong Zhang (China Telecom Research Institute, China), Chunlei Hu (China Telecom Research Institute, China), Xiaohang Xu (China Telecom Research Institute, China), and Pingping Lin (China Telecom Research Institute, China)</i>	
UAV Target Tracking Technology Based on Improved GM-PHD Filter .....	121
<i>Chunying Zhou (Beihang University, China), Tao Hong (Beihang University, China; Shenzhen Institute of Beihang University, China), Tao Tang (Beihang University, China), Ke Zhang (Beihang University, China), and Zihua Chen (Southwest Technology and Engineering Research Institute, China)</i>	
Polarimetric Radar Target Classification Based on Decision Tree .....	125
<i>Yanhan Li (Beihang University, China), Jingcheng Zhao (Beihang University, China; Yunnan Innovation Institute, BUAA, China), Zongkai Yang (Beihang University, China), and Ke Zhang (Beihang University, China)</i>	
Hierarchical Association Features Learning for Network Traffic Recognition .....	129
<i>Peng Xiang (Peking University, China), ChengWei Peng (National Computer Network Emergency Response Technical Team/Coordination Center of China, China), and QingShan Li (Boya Regchain Inc, China)</i>	
Research on Evaluation Model and Technology of 5G Core Network User Plane Function .....	134
<i>Jiannan Ou (Research Institute of China Telecom, China), Jun Yin (Research Institute of China Telecom, China), and Jie Chen (Research Institute of China Telecom, China)</i>	
Research on 5G Voice Solutions and Continuity Analysis .....	137
<i>Han Guo (China Telecom Research Institute, China), Jia Hou (China Telecom Research Institute, China), Xiaohang Xu (China Telecom Research Institute, China), Chunlei Hu (China Telecom Research Institute, China), Mingshuo Wei (China Telecom Research Institute, China), and Bowen Cai (China Telecom Research Institute, China)</i>	
Research on Digital Twin City Platform Based on Unreal Engine .....	142
<i>Lai Wei (Beijing Research Institute, China Telecom Co., Ltd., China)</i>	

A Dual Routing Planning Method Based on Risk-Aware and Deterministic Latency .....	147
<i>Meng Li (State Grid Xuzhou Power Supply Company, China), Xiaowei Zhang (State Grid Xuzhou Power Supply Company, China), Yang Cui (State Grid Xuzhou Power Supply Company, China), Wei Sun (Xuzhou Huadian Electric Power Survey and Design Co., Ltd., China), Kehe Zhang (State Grid Xuzhou Power Supply Company, China), and Xinyu Shu (Beijing University of Posts and Telecommunications, China)</i>	
Blockchain Based Trustworthy Digital Twin in the Internet of Things .....	152
<i>QiuHong Zheng (China Telecom Corporation Research Institute, China), Jinghan Wang (China Telecom Corporation Research Institute, China), Yun Shen (China Telecom Corporation Research Institute, China), Peng Ding (China Telecom Corporation Research Institute, China), and Mohamed Cheriet (University of Quebec, China)</i>	
A System and Method of Production Line Task Allocation Based on MEC .....	156
<i>Yuying Xue (China Telecom Corporation Research Institute, China), Yun Shen (China Telecom Corporation Research Institute, China), Huibin Duan (China Telecom Corporation Research Institute, China), Yaqi Song (China Telecom Corporation Research Institute, China), and Mohamed Cheriet (University of Quebec, Canada)</i>	
<b>Author Index .....</b>	<b>161</b>
