2022 2nd International Conference on Electronic Information Engineering and Computer Technology (EIECT)

EIECT 2022

Table of Contents

Preface ..... **xiv**
Committee Members ..... **xv**

1. Computer System Monitoring and Signal Processing

Design and Implementation of Multidimensional Analytical Platform Based on Meteorological Infrastructure Resource Monitoring Big Data Service 1
Cong Guo (China Meteorological Administration, China), Chao Sun (China Meteorological Administration, China), Yingjie Wang (China Meteorological Administration, China), and Da Xu (China Meteorological Administration, China)

Design of Cloud Technology Monitoring Blind Zone Alert System for Irregular Areas 7
Congcong Lv (National University of Defense Technology, China), Hao Wen (National University of Defense Technology, China), Zehao Ye (National University of Defense Technology, China), Qinghua Ou (National University of Defense Technology, China), and Huance Dai (National University of Defense Technology, China)

Front End Computer Configuration Design of Power Monitoring System Based on Cloud Computing Access Control 15
Haiguang Chen (China Southern Power Grid Digital Grid Research Institute Co., Ltd., China), Jing Zha (China Southern Power Grid Digital Grid Research Institute Co., Ltd., China), Zhaohui Hu (China Southern Power Grid Digital Grid Research Institute Co., Ltd., China), Shanfeng Chen (China Southern Power Grid Digital Grid Research Institute Co., Ltd., China), and Yiyue Yang (China Southern Power Grid Digital Grid Research Institute Co., Ltd., China)

Airport 3D Simulation and Display System Based on Open Source GIS Platform 20
Jijun Liu (Civil Aviation Airport Construction Group Northwest Design and Research Institute Co. LTD), Yanting Sheng (Civil Aviation Airport Construction Group Northwest Design and Research Institute Co. LTD), Wenbo Liu (Northwest Branch of Civil Aviation Airport Planning, Design and Research Institute Co. LTD), and Jiarui Zhang (Civil Aviation University of China)

Intelligent Indoor Temperature and Humidity Control System 28
Shuo Sun (Shandong University) and Yukun Ma (Shandong University)

Clip Feature Extraction Method Based on 3D Point Cloud 34
Mingming Zhou (CSSC Haiwei Zhengzhou HighTech Co., Ltd, China), Simeng Liang (CSSC Haiwei Zhengzhou HighTech Co., Ltd, China), and Shaonan Wu (CSSC Haiwei Zhengzhou HighTech Co., Ltd, China)

A Signal Separation Method for Reconfigurable Intelligent Surface Assisted Channel Regulation 38
Chengzhou Liu (National Digital Switching System Engineering & Technological Research Center, China), Jianhui Wang (National Digital Switching System Engineering & Technological Research Center, China), Bin Ba (National Digital Switching System Engineering & Technological Research Center, China), Hao Li (National Digital Switching System Engineering & Technological Research Center, China), Jin Zhang (National Digital Switching System Engineering & Technological Research Center, China), and Qiang Jin (Zhengzhou Xinda Institute of Advanced Technology, China)

Comprehensive Performance Evaluation of Intrusion Detection Model Based on Radar Chart Method 44
Chen Chen (State Key Laboratory of Astronautic Dynamics, China), Xiaodong Xu (Xi'an Satellite Control Center, China), Xiaofei Ma (Xi'an Satellite Control Center, China), Lintao Yang (Xi'an Satellite Control Center, China), Guanghua Wang (Xi'an Satellite Control Center, China), and Xiaoyan Ye (Xi'an Satellite Control Center, China)

Boosting Interpolation Consistency with Difference and Adaptive Threshold 48
Xian Liu (Fudan University, China), Lizhe Qi (Fudan University, China), Yuzheng Wang (Fudan University, China), Zuhao Ge (Fudan University, China), and Yunquan Sun (Fudan University, China)

Research on Noise Suppression Method of Brain Information Perception System 54
Ying Liu (Computer Application Technology Institute of China North Industries Group Corporation, China), Tiange Hong (Computer Application Technology Institute of China North Industries Group Corporation, China), Shaoqun Zhang (Computer Application Technology Institute of China North Industries Group Corporation, China), Yixue Dong (Computer Application Technology Institute of China North Industries Group Corporation, China), and Xiaochuan Zhao (Computer Application Technology Institute of China North Industries Group Corporation, China)

Digital Portrait Model Construction for Telemedicine Doctor Authentication 58
Junli Guo (Zhengzhou Universit, China) and Haohua Li (Zhengzhou University, China)

Research on Spatial Data Management and Application 65
Juan Li (Wuchang Institute of Technology, China), Fang Sun (Wuchang Institute of Technology, China), and Yuan Chen (Wuchang Institute of Technology, China)

A Multimodal Intelligent Emotion Perception Framework by Data-Driven and Knowledge-Guided 70
Xiaomei Tao (Guangxi Normal University, China) and Yuan Zhang (Guangxi Normal University, China)

Influence Analysis of Noise on Sensitivity and 1/f Noise Removal in a 220GHz Radiometer 74
Wenning Xu (Huazhong University of Science and Technology, China), Liangqi Gui (Huazhong University of Science and Technology, China), Liang Lang (Huazhong University of Science and Technology, China), and Jiawen Huang (Huazhong University of Science and Technology, China)

A Rapid Accident Processing Method Based on Monitoring and Cloud Technology 78
Chenglin Wu (Beijing University of Post and Telecommunication, China)

Study of DC Chopper Circuit Based on MATLAB Software 83
Xiao Chen (Xi'an Shiyou University, China) and Lin Li (Xi'an Shiyou University, China)

Improvement of Chaotic Image Encryption Method Based on LDPC Code 87
Ya-He Zhao (Yantai University, China) and Zhong-Xun Wang (Yantai University, China)

Moving Target Detection Based On DLBSP For Complex Background Surveillance Video 93
Xiuwen Kong (Northwest A & F University, China), Yuan Dai (Northwest A & F University, China), and Jianfeng Zhang (Northwest A & F University, China)

The Method of Processing Abnormal Values for Flight Test Data Based on Wavelet Transform 98
Jingxiang Xu (Xidian University, China), Lei Zuo (Xidian University, China), and Zheng Zhao (State Key Laboratory of Experimental Physics and Computational Mathematics, China)

Sound Signal Processing and Sound Source Positioning Device 104
Lidong Wang (Guilin University of Electronic Technology, China), Wenhui Lin (Guilin University of Electronic Technology, China), Sheng Lin (Guilin University of Electronic Technology, China), and Tao Liu (Guilin University of Electronic Technology, China)

Evaluation of Equipment Storage Reliability Based on Fusing of Weak Parts Life Data 109
Qingxi Yang (Army Engineering University), Qiaokun Kang (Army Engineering University), Kai Yao (Army Engineering University), Tianpeng Li (Army Engineering University), Bowen Du (Ocean University of China), and Huanan Wei (Army Engineering University)

Remote Monitoring System of Expressway Mechanical and Electrical Facilities Based on SCADA-HMI 115
Daming Ge (Liaoning Expressway Operation and Management Co., Ltd., China)

Comparison Between the Traditional and Computerized Cognitive Training Programs in Treating Mild Cognitive Impairment 119
Langyi Zuo (University of California, USA)

Extend Quantum Homomorphic Encryption Scheme Based on Brown State 125
Wen Chang (Beijing Institute of Graphic Communication, China) and Fucheng You (Beijing Institute of Graphic Communication, China)

Research on Aircraft Platform Environment Data Preprocessing Process 132
Haixiong Lv (China Aviation Integrated Technology Research Institute), Hanqing Zhou (China Aviation Integrated Technology Research Institute), and Hang Su (China Aviation Integrated Technology Research Institute)

2. Electronic Information and Network Communication Technology

A Customer Support Resources Allocation Analysis Method for Civil Aircraft 138
Guangsheng Cao (COMAC Shanghai Aircraft Customer Service Co., Ltd., China) and Li Wang (AECC Commercial Aircraft Engine Co., Ltd., China)

Interference Identification Method for UAV Based on Improved Support Vector Machine 142
Yaochuang Cai (Engineering University of PAP, China), Ruixia Cheng (Engineering University of PAP, China), Tengda Liu (Engineering University of PAP, China), and Yiwen Zhang (Engineering University of PAP, China)

Design of a Liquid Crystal Terahertz Phased Array 150
Kai Zhu (Kunming Shipbuilding Equipment Research and Test Center, China) and Lei Yue (Kunming Shipbuilding Equipment Research and Test Center, China)

Electronic Approaches to Vision Rehabilitation 154
Qiao Cun (The Hong Kong Polytechnic University, China) and Yihan Zhang (Carnegie Mellon University, China)

Research on Microservice Access Control Model Based on Behavior Information in B5G Scenario 159
Zhihao Zhou (Beijing University of Posts and Telecommunications, China), Jinxin Ma (China Information Technology Security Evaluation Center, China), and Baojiang Cui (Beijing University of Posts and Telecommunications, China)

Grey Clustering Model-Based Health Status Assessment of Large Complex Equipment 166
Ming Guo (Naval University of Engineering, China), Biao Li (Naval University of Engineering, China), Fei Wu (Naval University of Engineering, China), Yanjun Wang (Naval University of Engineering, China), and Min Zhu (Naval University of Engineering, China)

Research on Two-Dimensional Code Scanning and Automatic Recording Device for Human Body Temperature Measurement Based on stm32 171
XueYan He (University of South China, China), XiaoPeng Huang (University of South China, China), HuanYu Liu (University of South China, China), YanLong Li (University of South China, China), Hua Zhong (University of South China, China), and FeiFei Gao (University of South China, China)

Research and Development of Intelligent Monitoring Device for Carbon Neutralization of Garden Plants Based on Internet of Things 175
Yongliang Wang (Jiangsu Urban and Rural Construction College), Kang Wang (Suzhou Yuanke Ecological Construction Group), Xiaoqiang Zhu (Jiangsu Urban and Rural Construction College), and Bin Dai (Suzhou Yuanke Ecological Construction Group)

Research on Distributed MIMO Radar Imaging Technology Based on Compressed Sensing 179
Dongpo Xu (Changchun University of Science and Technology, China), Yunqing Liu (Changchun University of Science and Technology, China), Renjun Liu (Changchun University of Science and Technology, China), and Xiaolong Li (Changchun University of Science and Technology, China)

Near-Field ISAR Imaging Rotational Motion Estimation and Compensation used Compressive Sensing 183
Wenyu Yu (Beihang University, China), Qinglin Wang (Beihang University, China), and Ding Xu (Beihang University, China)

Analysis of Scattering Parameters of Microwave Passive Components Based on Transfinite Element Method 188
Siyi Yang (University of Electronic Science and Technology of China, China), Li Xu (University of Electronic Science and Technology of China, China), Hao Wang (University of Electronic Science and Technology of China, China), and Bin Li (University of Electronic Science and Technology of China, China)

Design of Intelligent Operation and Maintenance System for Information Security Based on Web 192
Yong Wang (GS-UNIS Intelligent Transportation System & Control Technology Co., Ltd, China)

Patch-Range Attention and Visual Transformer for Facial Expression Recognition 196
Zhiwei Lu (Donghua University, China) and Xuesong Tang (Donghua University, China)

Joint Early Warning Model of Power Supply Side Personnel Safety Based on Visual Analysis 202
Chunliang Li (State Grid Gansu Information & Telecommunication Company, China), Qian Dang (State Grid Gansu Information & Telecommunication Company, China), Wenbo Shang (State Grid Gansu Information & Telecommunication Company, China), Chunhui Du (State Grid Gansu Information & Telecommunication Company, China), and Xiaoqin Liu (State Grid Gansu Information & Telecommunication Company, China)

Piecewise Adaptive Sample Learning Based Main Lobe Interference Cancellation Technique for Rotating Phased Array Radar 209
Zhigang Wang (Shanghai Jiaotong University, China; Nanjing Marine Radar Institute, China)

Underwater Acoustic Target Recognition Technology Based on MFA-Conformer 214
XuYang Wang (Zhejiang Ocean University, China), CunXi Zhang (Zhejiang Ocean University, China), and Rui Wang (Zhejiang Ocean University, China)

Based on the Self-Developed High-Frequency Electromagnetic Simulation Named Emlab, A New Type of Ultra-Wideband Small Antenna for Mobile Terminals is Designed 218
Yao-Ming Hu (University of Electronic Science and Technology of China, P. R. China), Li Xu (University of Electronic Science and Technology of China, P. R. China), Jun-Hui Yin (University of Electronic Science and Technology of China, P. R. China), and Hai Zhang (Nanchang Institute of Technology, P. R. China)

Applications of Brain Co-Processor 222
Yaqiao Zhang (China Medical University, China)

Analysis of the Implementation Method of Network Security in the Logical Security Domain of Edge Power Secondary Integration Equipment 227
Hong Xu (State Grid Tongxiang Eectric Power Supply Company), Leichun Gu (Tongxiang Electric Power Engineering Co., Ltd), Shuhan Liu (State Grid Tongxiang Eectric Power Supply Company), Zhi-wei Hua (State Grid Tongxiang Eectric Power Supply Company), and Xin Li (State Grid Tongxiang Eectric Power Supply Company)

A Design Method of Ammunition Simulation Basic Model 231
Yong Sun (China Research and Development Academy of Machinery Equipment), Jinqing Zhao (China Research and Development Academy of Machinery Equipment), Qiang Zhou (China Research and Development Academy of Machinery Equipment), and Guangzhao Lu (China Research and Development Academy of Machinery Equipment)

Optimization of Speed Tracking Performance of LADRC for PMSM 235
Shaonan Wu (CSSC Haiwei Zhengzhou HighTech Co., Ltd, China), Simeng Liang (CSSC Haiwei Zhengzhou HighTech Co., Ltd, China), and Mingming Zhou (CSSC Haiwei Zhengzhou HighTech Co., Ltd, China)

A Dual Polarization Tightly Coupled Array Antenna Fed by Transformer Balun 239
Chengmian Zhou (National University of Defense Technology), Jiaxuan Yue (National University of Defense Technology), and Shunlian Chai (National University of Defense Technology)

Radiation Noise Identification of Gas Leaks from Underwater Structures Based on Higher-Order Spectral Features 245
Shuang Liu (Kunming Shipbuilding Equipment Research and Test Center, China), Lei Yue (Kunming Shipbuilding Equipment Research and Test Center, China), Minghui Ding (Kunming Shipbuilding Equipment Research and Test Center, China), and Shuaishuai Yang (Kunming Shipbuilding Equipment Research and Test Center, China)

Target Detection Method Based on Cameron Decomposition and Hilbert-Huang Transform Roughness 252
Yuhong Shi (Kunming Shipbuilding Equipment Research and Test Center, China) and Lei Yue (Kunming Shipbuilding Equipment Research and Test Center, China)

Gesture Recognition Based on Improved AlexNet 257
Renbo Liu (South China Normal University, China), Aimin Xiong (South China Normal University, China), Jinghao Lai (SCNU Qingyuan Institute of Science and Technology Innovation Co., Ltd., China), Hongbin Zhang (Qingyuan Huayun Smart Control Technology Co., Ltd., China), and Suqin Wu (South China Normal University, China)

The Key Technology of Configurable RF Front End 261
Shuai Ji (Xi'an Research Institute of Navigation Technology), Yi Wang (Xi'an Research Institute of Navigation Technology), and Jingdong Wang (Xi'an Research Institute of Navigation Technology)

Power-Management with Read-Write Assistant Single Port SRAM for Low Power Applications 265
Zhongda Zhang (Soochow University, China), Yuling Yan (Soochow University, China), Lijun Zhang (Soochow University, China), and Yuan Lou (Soochow University, China)

Dynamic Analysis of the AGV Forklift 269
Amon Berdiev (Qilu University of Technology (Shandong Academy of Sciences), China; Tashkent chemical-technological institute, Uzbekistan), Gayrat Bahadirov (Institute of mechanics and seismic stability of structures named after M. T. Urazbaev of the Academy of Sciences of the Republic of Uzbekistan, Uzbekistan), Dong Zhang (Qilu University of Technology (Shandong Academy of Sciences), China), and Xuelin Wang (Qilu University of Technology (Shandong Academy of Sciences), China)

Disaster Vulnerability Analysis of Hospital Functional Logistics Department Based on Improved Kaiser Model 276
Yong Feng (Qingdao Huangdao District People's Hospital, China), Yanzhe Fan (Qingdao Huangdao District People's Hospital, China), and Juan Feng (Qingdao Huangdao District People's Hospital, China)

Research and Simulation of Radio Reflection Characteristics of Sea Surface in the S-Band 280
Xu Li (Nanjing Research Institute of Electronic Technology, China) and Yuan Yao (Nanjing Research Institute of Electronic Technology, China)

3. Machine Learning and Intelligent Algorithm Modelling

Dual-Station Passive Tracking Algorithm Based on Cubature Kalman Filter Smoothing 284
Shoufeng Wang (Jiangsu Automation Research Institute)

Research on Sentiment Classification Algorithm for Corona Virus Disease 2019 Weibo Text 288
Hao Yue (Minzu University of China, China) and Jie Zhang (Minzu University of China, China)

Construction and Application of Bid Fraud Prediction Model Based on AdaBoost Algorithm 292
Peng Yu (People's Public Security University of China, China) and Xinyan Liu (People's Public Security University of China, China)

On Automatic Scoring Algorithm for Subjective Questions Based on LSA and Dependency Parsing 296
Musheng Chen (Jiangxi University of Science and Technology, China; Nanchang Key Laboratory of Virtual Digital Engineering and Cultural Communication, China), Mingzhe Fan (Jiangxi University of Science and Technology, China), and Junhua Wu (Jiangxi University of Science and Technology, China)

Research and Simulation of Population Forecast Based on BP Neural Network 302
Xianfang Tang (Xi 'an Mingde Institute of Technology, China), Xianlong Cai (Xi 'an Mingde Institute of Technology, China), Ru Zhang (Xi 'an Mingde Institute of Technology, China), and Yazhao Jia (Xi 'an Mingde Institute of Technology, China)

Internet of Things Security Based on Big Data and Deep Learning 306
Jian-liang Wang (The Fifth Electronics Research Institute of Ministry of Industry and Information Technology, China) and Ping Chen (The Fifth Electronics Research Institute of Ministry of Industry and Information Technology, China)

Intelligent Electricity Consumption Forecasting and Electricity-Theft Analysis Method Based on Deep Learning 312
Shimao Yu (Chinese Academy of Sciences, China), Chunhe Song (Chinese Academy of Sciences, China), Pengpei Gao (University of Chinese Academy of Sciences, China), and Haiyang Zheng (University of Chinese Academy of Sciences, China)

STC-Net: Fusing Swin Transformer and Convolution Neural Network for 2D Medical Image Segmentation 317
Xuesong Wang (Wuhan Textile University, China) and Yu Li (Wuhan Textile University, China)

A Study of EEG Motor Imagery Classification Algorithm Based on WPD-AFBCSP 321
Zhanying Cui (Changchun University of Science and Technology, China), Bin Guo (Changchun University of Science and Technology, China), Jiayang Zhang (Changchun University of Science and Technology, China), and Zhijia Wang (Changchun University of Science and Technology, China)

A Deep Learning-Based Semantic Table Annotation Method 326
Zhenkun Ren (National University of Defense Technology, China), Jintao Tang (National University of Defense Technology, China), and Ting Wang (National University of Defense Technology, China)

Combination of Virtual Reality and Brain Computer Interface Technology 332
Yaozhi Du (Zhejiang University, China)

Mechanical Resonance Suppression Based on Sliding Window FFT Algorithm 337
Simeng Liang (CSSC Haiwei Zhengzhou HighTech Co., Ltd, China), Shaonan Wu (CSSC Haiwei Zhengzhou HighTech Co., Ltd, China), and Mingming Zhou (CSSC Haiwei Zhengzhou HighTech Co., Ltd, China)

Trapezoidal Shaping Algorithm Based on FPGA 341
Henghua Jiang (University of South China, China) and Lihong Zhao (University of South China, China)

Research on Optimization of Mixed Model Assembly Line Scheduling Based on Genetic Algorithm 345
Lu Jiang (Shanghai Maritime Academy, China)

A Dual-Channel Frequency-Domain Correlation Based Fast Algorithm for Estimating Frequency Difference 351
Shuyan Ni (Space Engineering University, China), Jing Xu (Space Engineering University, China), Lingfeng Cheng (Space Engineering University, China), and Yalun Luo (Space Engineering University, China)

Can Laser Speckle Contrast Imaging be a Quantitative Measurement Using Machine Learning? 355
Xiaoqi Hao (Beijing University of Technology, China), Shuicai Wu (Beijing University of Technology, China), Lan Lin (Beijing University of Technology, China), Yixiong Chen (Beijing Science and Technology Project Manager Management Corporation Ltd, China), Stephen P. Morgan (University of Nottingham, UK), and Shen Sun (Beijing University of Technology, China)

Performance Comparison of Classical Neural Network Algorithms in Emotion Recognition 364
Jiaqi Dong (Hebei University of Environmental Engineering, China) and Kaichen Yu (Case Western Reserve University, United States)

Neuromodulation Based Visual Restoration Methods 369
Yibing Chen (Civil Aviation University of China, China)

DRLFCfuzzer: Fuzzing with Deep-Reinforcement-Learning Under Format Constraints 374
Kairui Gong (Beijing University of Posts and Telecommunications, China), Wenchuan Yang (Beijing University of Posts and Telecommunications, China), Baojiang Cui (Beijing University of Posts and Telecommunications, China), and Chen Chen (Air Force Engineering University, China)

Features Domains and Classification Algorithms in Motor Imagery Brain Computer Interface 381
Weizheng Yuan (Carnegie Mellon University, USA)

PCB Bare Board Defect Detection and Recognition System Based on Machine Vision 386
Yunhao Zhang (Guilin University of Electronic Technology, China), Zhenhai Li (Guilin University of Electronic Technology, China), Donghuan Wu (Guilin University of Electronic Technology, China), Yong Guo (Guilin University of Electronic Technology, China), Tao Liu (Guilin University of Electronic Technology, China), and Yimin Yang (Guilin University Of Aerospace Technology, China)

Guaranteed Network Risk Rating Based on Graph Neural Networks 391
Lina Duo (University of Chinese Academy of Sciences, China), Tong Zhao (University of Chinese Academy of Sciences, China), and Suixiang Gao (University of Chinese Academy of Sciences, China)

Research on Intelligent Language Recommendation Method Based on Emotion Recognition 401
Lei Yang (Guilin University of Electronic Technology, China)

Time-Frequency Joint Frequency Offset Estimation Algorithm for GMSK Modulation 405
Xianwei Zhang (Beijing Institute of Technology, China), Dechun Guo (Beijing Institute of Technology, China), Jianming Zhou (Beijing Institute of Technology, China), and Haocong Ji (Beijing Institute of Technology, China)

Lidar-Camera Fusion Based on KD-Tree Algorithm 410
Yuanzheng Wang (Nanjing University of Aeronautics and Astronautics, China), Wen Hu (Nanjing University of Aeronautics and Astronautics Shenzhen Research Institute, China), Yiwen Zhang (Nanjing University of Aeronautics and Astronautics, China), and Hao Dong (Nanjing University of Aeronautics and Astronautics, China)

A Modified Fast Back-Projection Algorithm for Mini-UAV-Borne FMCW SAR Imaging 415
Fatong Zhang (National University of Defense Technology, China), Yaowen Fu (National University of Defense Technology, China), Ruofeng Yu (National University of Defense Technology, China), and Xiaoyi Sun (National University of Defense Technology, China)

An Algorithm for Locating Reference Points of Cardiac Motion Signals Based on Non-Contact 420
Xianguo Zhang (Chang 'an University, China)

Author Index **425**
