Volume 12264

Proceedings of SPIE 0277-786X, V. 12264

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Sensors, Systems, and Next-Generation Satellites XXVI*, edited by Sachidananda R. Babu, Arnaud Hélière, Toshiyoshi Kimura, Proc. of SPIE 12264, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

US MISSIONS

12264 02 **Celebrating a decade of successful joint polar satellite system (JPSS) operations and preparing for JPSS-2 launch [12264-2]**

EUROPEAN MISSIONS

12264 03 **Next generation gravity mission design activities within the mass change and geoscience international constellation [12264-6]**

12264 04 **IASI-NG instrument development and verification status [12264-7]**

12264 05 **Copernicus CO2M mission for monitoring anthropogenic carbon dioxide emissions from space: payload status [12264-8]**

12264 06 **Geometric calibration of an airborne imager by natural angular targets: rainbow, glory, and hot spot [12264-10]**

JAPANESE MISSIONS I

12264 07 **ALOS-4/PALSAR-3 current status [12264-12]**

12264 08 **Extending JAXA's long-term L-band SAR forest observation legacy with ALOS-4/PALSAR-3 [12264-13]**

JAPANESE MISSIONS II

12264 09 **ALOS-2 disaster mapping processing and its implementation in an operational system [12264-14]**

12264 0A **Development of the wide-swath and high-resolution optical imager (WISH) onboard Advanced Land Observing Satellite-3 (ALOS-3) [12264-15]**

12264 0B **Greenhouse gas observation by TANSO-3 onboard GOSAT-GW [12264-16]**

12264 0C **On-orbit performance of hyperspectral imager suite (HISUI) [12264-17]**

SMALL SATELLITES

12264 OD **CarbonCGI road map to observe faint GHG source's emissions with high resolution observing system** [12264-20]

12264 OE **Compact fire infrared radiance spectral tracker (c-FIRST)** [12264-21]

ON-GROUND AND IN-ORBIT CALIBRATION

12264 OF **SNPP and N20 VIIRS thermal emissive bands calibration comparison using the GEO-LEO double difference method** [12264-25]

HYPERSPSCTRAL AND FOCAL PLANE CALIBRATION

12264 OG **CHIARA: an ultra-high dynamic range hyperspectral image sensor for remote sensing** [12264-28]

12264 OH **Modeling a point-spread function originating from multiple reflection of light in the substrate of array sensor: the case of Akatsuki/IR2** [12264-18]

POSTER SESSION

12264 OI **MODIS TEB electronic crosstalk correction update and impact on L1B product uncertainty** [12264-31]

12264 OJ **Step-by-step alignment methodology for high resolution payloads using theodolite** [12264-32]

12264 OK **VIIRS TEB calibration uncertainty analysis** [12264-34]

12264 OL **Constraining the parameter space for robust in-orbit refocusing of TDI-based imaging systems** [12264-36]

12264 OM **Innovative volume-sharing multi-aperture payload for high resolution small satellites** [12264-38]
