

PROCEEDINGS OF SPIE

AOPC 2022: Biomedical Optics

Junle Qu
Ling Fu
Cuiping Yao
Editors

18–19 December 2022
ONLINE, China

Sponsored by
Chinese Society for Optical Engineering (CSOE) (China)

Technical Sponsor
SPIE

Organized by
Tianjin University (China)
University of Electronic Science and Technology of China (China)
Nanjing University of Science and Technology (China)
Beijing Institute of Space Mechanics and Electricity (China)
Science and Technology on Low-light-level Night Vision Laboratory (China)
Science and Technology on Electro-Optical Information Security Control (China)

Volume 12560

Proceedings of SPIE 0277-786X, V. 12560

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *AOPC 2022: Biomedical Optics*, edited by Junle Qu, Ling Fu, Cuiping Yao, Proc. of SPIE 12560, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

BIOMEDICAL OPTICS

- 12560 02 **Standard model eyes of ophthalmometers and measurement comparison** [12560-1]
- 12560 03 **Research on the spectral polarization characteristics of teeth in different age groups** [12560-2]
- 12560 05 **Identification of individual red blood cells by single-cell Raman spectroscopy combined with machine learning** [12560-6]
- 12560 06 **Quantitative analysis of mouse pancreatic ductal adenocarcinoma using FLIM on tissue sections** [12560-7]
- 12560 07 **FLIM as an identification tool for analyzing mouse esophageal squamous cell carcinoma tissue sections** [12560-8]
- 12560 08 **Modeling and analysis of reverse-fixed piezoelectric tube fiber scanner for two-photon endomicroscopy** [12560-9]
- 12560 09 **Artificial intelligence-based identification of brain CT medical images** [12560-11]
- 12560 0A **Test and analysis of glare effect of incoherent directional beam** [12560-12]
- 12560 0B **The optimal measurement matrix with minimal condition number for double Stokes-Mueller polarimetry** [12560-13]
- 12560 0C **Accurate optical rotation measurement by using spatial polarization modulation and digital image processing** [12560-14]
- 12560 0D **POCT detection device based on thermal convection fluorescence PCR amplification** [12560-15]
