

PROCEEDINGS OF SPIE

AOPC 2022: AI in Optics and Photonics

Chao Zuo

Editor

18–19 December 2022

ONLINE, China

Sponsored by

Chinese Society for Optical Engineering (CSOE) (China)

Technical Sponsor

SPIE

Organized by

Tianjin University (China)

University of Electronic Science and Technology of China (China)

Nanjing University of Science and Technology (China)

Beijing Institute of Space Mechanics and Electricity (China)

Science and Technology on Low-light-level Night Vision Laboratory (China)

Science and Technology on Electro-Optical Information Security Control (China)

Published by

SPIE

Volume 12563

Proceedings of SPIE 0277-786X, V. 12563

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *AOPC 2022: AI in Optics and Photonics*, edited by Chao Zuo, Proc. of SPIE 12563, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

AI IN OPTICS AND PHOTONICS

- 12563 02 **A two-stream deep neural network for infrared image enhancement [12563-1]**
- 12563 03 **Calculation of the pulse performance in linear cavity fiber mode-locked based on artificial neural network [12563-5]**
- 12563 04 **Fast Spirulina detection with fixed-focus microscope and deep learning [12563-6]**
- 12563 05 **Research on infrared small target segmentation algorithm [12563-8]**
- 12563 06 **An optimized feature extraction algorithm based on SuperPoint [12563-9]**
- 12563 08 **Lung nodule CT medical image analysis based on deep learning [12563-12]**
- 12563 09 **Research on spectral confocal displacement measurement method based on machine learning [12563-14]**
