SPIE

**Volume 12594**

Proceedings of SPIE 0277-786X, V. 12594

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Second International Conference on Electronic Information Engineering and Computer Communication (EIECC 2022)*, edited by Lidan Wang, Proc. of SPIE 12594, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

## OPTOELECTRONIC INFORMATION PROCESSING AND ELECTROMECHANICAL CONTROL

---

- 12594 02 **On the study of energy efficiency of fixed-wing UAV assisted in-band full-duplex relaying** [12594-2]
- 12594 03 **Effects of color temperature and lighting mode on visual and psychological perception of pedestrians in subway station** [12594-54]
- 12594 04 **Design of a broadband switchable frequency selective rasorber/absorber** [12594-26]
- 12594 05 **3D path planning of UAV based on improved reinforcement learning** [12594-105]
- 12594 06 **14 nm FinFET low-power single port SRAM with power-gating and multi-VDD** [12594-25]
- 12594 07 **Application of power ubiquitous Internet of Things technology in intelligent inspection of unattended substation** [12594-123]
- 12594 08 **Research on the processing algorithm for solar cell characterization data** [12594-63]
- 12594 09 **Research on night patrol system of transmission line based on UAV** [12594-80]
- 12594 0A **Lighting design of landscape sculpture based on subjective evaluation: taking a sculpture in Shenyang as an example** [12594-60]
- 12594 0B **Study on the propagation of 2-D electromagnetic wave in lossy Lorentz material using ADE-FDTD method** [12594-71]
- 12594 0C **Research on fault risk prediction method of distribution network based on situational awareness** [12594-6]
- 12594 0D **Design optimization of material distribution for mixed model assembly line based on production scheduling sequence** [12594-28]
- 12594 0E **Research on complex electronic system health management technology** [12594-72]
- 12594 0F **The wind power prediction based on hierarchical clustering method** [12594-119]
- 12594 0G **Comparative study of DNN accelerators on FPGA** [12594-114]

- 12594 OH **Research on improving the reliability of key components of wind turbine** [12594-33]
- 12594 OI **Dual-polarized 1-bit coding reflective metasurface with angle insensitivity** [12594-84]
- 12594 OJ **Optimize the operation of IES considering the electric thermal demand response of tiered carbon trading** [12594-99]
- 12594 OK **A 20-dBm W-band power amplifier in 130 nm SiGe BiCMOS technology** [12594-81]
- 12594 OL **Research on causes of failure of direct-drive wind turbine** [12594-61]
- 12594 OM **Research on multi-robot path planning based on deep reinforcement learning** [12594-32]
- 12594 ON **Research on the reflectivity of the end face of film-coated optic fiber for application in fiber optic Fabry-Perot cavity hydrophone** [12594-59]
- 12594 OO **Analysis on the effect of mutual coupling in the eight-channel millimeter wave integrated receiver module** [12594-122]
- 12594 OP **Analysis of component faults and causes of wind turbine** [12594-43]
- 12594 OQ **A time-domain network for laser speech bandwidth extension** [12594-75]
- 12594 OR **Wide-angle electromagnetic lens in millimeter wave band** [12594-98]
- 12594 OS **An interpretable prediction model for pavement performance prediction based on XGBoost and SHAP** [12594-55]
- 12594 OT **What can modern deep-learning models tell us about asphalt road distress classification: an empirical study** [12594-12]
- 12594 OU **Analysis of the factors affecting the fault of photovoltaic power generation equipment** [12594-58]
- 12594 OV **Research on SLAM of mobile robot based on fusion of laser and vision** [12594-45]
- 12594 OW **A systematic novel implementation on photovoltaic power, wind energy, and solar energy models** [12594-51]
- 12594 OX **Optimal design and analysis of fractional-order linear phase filter** [12594-52]
- 12594 OY **Prediction of electricity consumption in Anhui Province based on HP-ARIMA-BP** [12594-73]
- 12594 OZ **A knowledge graph-based Q and A system for agricultural planting technology** [12594-14]

## WIRELESS COMMUNICATION AND SATELLITE POSITIONING TECHNOLOGY

---

- 12594 10 **Design and implementation of disaster prevention science popularization system based on We Chat mini program** [12594-104]
- 12594 11 **Study on 5G mmWave massive-MIMO communication technology** [12594-15]
- 12594 12 **Design and development of information analysis system for vocational students** [12594-85]
- 12594 13 **Research on traffic flow prediction based on temporal convolution multi-attention network** [12594-7]
- 12594 14 **Multi-targets detection using 3D-FFT scheme for TDM-MIMO automotive radar** [12594-16]
- 12594 15 **Construction of interference and noise model for high-frequency channels based on alpha-stable distribution** [12594-53]
- 12594 16 **Design and implementation of earthquake emergency preparedness management system** [12594-127]
- 12594 17 **Analysis of the antenna radiation performance impacted by carbon-fiber composite in aircraft** [12594-23]
- 12594 18 **Advantages and application of HPLC+HRF dual mode communication technology in new type power system** [12594-116]
- 12594 19 **Design and implementation of web log analysis system under the industrial Internet background** [12594-124]
- 12594 1A **Research on network traffic prediction based on multi-feature fusion clustering and XGBoost model** [12594-70]
- 12594 1B **Research on the strategy of service function chain migration of aviation information network** [12594-112]
- 12594 1C **A THZ wireless link self-tracking technology** [12594-62]
- 12594 1D **Phase unwrapping method for 3D measurement based on multi-frequency asynchronous phase shift** [12594-78]
- 12594 1E **Sensor resource management allocation strategy for multi-target tracking in distributed radar network** [12594-10]
- 12594 1F **MyOmics: a galaxy-based analysis and visualization platform for omics data** [12594-95]
- 12594 1G **Research on an efficient method of cable breakpoint location** [12594-121]
- 12594 1H **A novel 3D chaos-based encryption system for satellite communication** [12594-67]

- 12594 1I **Optimization of energy consumption of wireless sensor network for information transmission system of computer numerical control machine** [12594-17]
- 12594 1J **4G and 5G fusion coverage over China high-speed rail** [12594-13]
- 12594 1K **A superformula-based UWB conformal antenna with two notched bands for UAV applications** [12594-35]
- 12594 1L **Parameterization in transient analysis based on polynomial approximation** [12594-49]
- 12594 1M **Research on the application of network coding technology in cloud storage and digital signature** [12594-113]
- 12594 1N **Fine-graded image classification network based on Faster MMAL-Net** [12594-97]
- 12594 1O **Real-time transmission audio and video data stream gateway platform for monitoring and management** [12594-8]
- 12594 1P **Satellite-based sinusoidal Archimedes spiral antenna with circular polarization plane** [12594-46]
- 12594 1Q **Dynamic event-triggered predictive control for networked control systems** [12594-18]
- 12594 1R **Design of time synchronization demonstration device based on scattering communication equipment** [12594-107]
- 12594 1S **A trust-based method for highest node degree clustering in multi-layer mobile networks** [12594-111]
- 12594 1T **5G application performance optimization based on edge microservices live migration** [12594-76]
- 12594 1U **An ultra-wideband cross-band frequency reconfigurable tightly coupled antenna** [12594-37]
- 12594 1V **Compile runtime system technology for airborne high-performance heterogeneous computing** [12594-83]
- 12594 1W **Research on the generation and application of pseudo-random sequences** [12594-111]
- 12594 1X **Research on semantic-based data integration** [12594-56]

---

#### INTELLIGENT ADAPTATION MECHANISM AND ALGORITHM MODELLING

- 12594 1Y **Research on intelligent sorting method of special commodity based on neural network algorithm** [12594-57]
- 12594 1Z **Research on on-line monitoring and intelligent monitoring system of Chinese medicine extraction** [12594-47]

- 12594 20 **Multi-energy optimal dispatching based on multi-objective grey wolf algorithm** [12594-101]
- 12594 21 **SC-FDE timing synchronization improvement algorithm based on genetic algorithm** [12594-20]
- 12594 22 **SampleRadarNet: end-to-end deep convolutional neural networks using small filters for radar-based human activity classification** [12594-27]
- 12594 23 **Latency-optimized task scheduling for dispersed computing** [12594-103]
- 12594 24 **Transformer dual feature enhancement based pedestrian re-identification algorithm** [12594-5]
- 12594 25 **Variational Bayesian adaptation of noise covariances in trajectory PHD filter** [12594-9]
- 12594 26 **Research on adaptive beamforming algorithm based on HL-FDA** [12594-50]
- 12594 27 **Optimization study of virtual machine placement algorithm based on combined prediction** [12594-22]
- 12594 28 **Research on Doppler feature extraction algorithm of underwater target** [12594-39]
- 12594 29 **Application of YOLOv5 algorithm in road crack detection** [12594-19]
- 12594 2A **Security situation awareness algorithm of network information transmission based on intelligent computing** [12594-91]
- 12594 2B **Point cloud denoising with adaptive graph convolution** [12594-82]
- 12594 2C **Robust adaptive beamforming based on covariance matrix reconstruction and SV estimation** [12594-42]
- 12594 2D **Design of digital intelligent factory software based on digital twin** [12594-74]
- 12594 2E **Blind recognition of RSC based on binary artificial bee colony algorithm** [12594-102]
- 12594 2F **Research on time series prediction of terrorist attacks based on ARIMA model** [12594-109]
- 12594 2G **Determination of full cycle condition by linear congruence method** [12594-21]
- 12594 2H **Bilingual teaching resource recommendation method for international trade practice based on knowledge graph and neural network** [12594-118]
- 12594 2I **Design and implementation of teaching aided intelligent land resource management research platform based on J2EE technology** [12594-30]
- 12594 2J **Design and application for transformer district smart fusion terminal under the background of Energy Internet** [12594-31]

- 12594 2K **Downlink power allocation strategy for OTFS-NOMA-based V2X systems** [12594-34]
- 12594 2L **Research on video watermarking algorithm based on MPEG-4** [12594-44]
- 12594 2M **Research on software defect management and automatic repair technology** [12594-4]
- 12594 2N **Adaptive neuron pruning based on hybrid coding of temporal and rate** [12594-106]
- 12594 2O **Adaptive gaze estimation based on channel attention mechanism** [12594-38]
- 12594 2P **ILS signal design based on Gaussian quantified safety for civil aircraft** [12594-108]
- 12594 2Q **FL-SGCN: federated learning on spiking graph convolutional networks** [12594-48]
- 12594 2R **Long-time coherent accumulation algorithm for variable acceleration maneuvering targets based on TRT** [12594-77]
- 12594 2S **Research on the virtual display of travel tools based on Virtools** [12594-86]
- 12594 2T **TOPSIS bird damage evaluation model based on entropy weight method** [12594-93]
