2022 4th International Conference on Machine Learning, Big Data and Business Intelligence (MLBDBI) **MLBDBI 2022**

Table of Contents

Preface	xiv
Committee Members	xv

Big Data Modelling and Intelligent Information Management

Construction and Application of Multidimensional Analysis Model for Meteorological Infrastructure Resources	1
<i>Cong Guo (National Meteorological Information Centre, China; Meteorological Administration, China), Chao Sun (National Meteorological Information Centre, China; Meteorological Administration, China), Yingjie Wang (National Meteorological Information Centre, China; Meteorological Administration, China), and Da Xu (National Meteorological Information Centre, China; Meteorological Administration, China)</i>	
Joint Extraction Model of Entity Relations Based on BERT-CRF	7
<i>Yuntao Wang (Dalian Maritime University, China), Xiaoxue Zhang (Dalian Maritime University, China), and Ansheng Deng (Dalian Maritime University, China)</i>	
Multidimensional International Logistics Channel Selection Decision Model Based on Second-Order Verifiability Factor Analysis	13
<i>Liangyong Chu (Jimei University, China), Jingu Ding (Jimei University, China), Jiefeng Zheng (Jimei University, China), Wenyu Li (Jimei University, China), Jingyu Wu (Jimei University, China), Zhengjie Chen (Jimei University, China), LinDong Chen (Jimei University, China), CanNi Lin (Jimei University, China), and JiaMei Hu (Jimei University, China)</i>	
Research on Chinese Keyword Extraction Based on the ALBERT pre-Training Model	20
<i>Xiangcheng Zhang (Xiamen University of Technology), Jianfeng Cui (Xiamen University of Technology), and Xu Zhang (Xiamen University of Technology)</i>	
Study on Fairness of Group Recommendation Based on Stochastic Model Checking	28
<i>Chuqin Wang (Nanjing University Of Finance And Economics, China) and Yang Liu (Nanjing University Of Finance And Economics, China)</i>	

The Optimization Method of Multi-Modal Data Hierarchical Cache of Portal Website Based on Accessible Characteristics of Data	35
<i>Bingbing Liu (Information and Communication Branch of State Grid Shanxi, Electric Power Company, China), Hanwei Wu (Information and Communication Branch of State Grid Shanxi, Electric Power Company, China), Xiaowei Hao (Information and Communication Branch of State Grid Shanxi, Electric Power Company, China), and Xin Gong (Information and Communication Branch of State Grid Shanxi, Electric Power Company, China)</i>	
Analysis of User's Power Consumption Behavior Based on K-Means	39
<i>Xinmeng Wang (State Grid Shandong Electric Power Company Heze Power Supply Company Marketing Department, China), Haiqi Li (State Grid Shandong Electric Power Company Heze Power Supply Company Marketing Department, China), Xiaoguang Yi (State Grid Shandong Electric Power Company Heze Power Supply Company Marketing Department, China), Jing Kong (State Grid Shandong Electric Power Company Heze Power Supply Company Marketing Department, China), and Xinling Wang (State Grid Shandong Electric Power Company Heze Power Supply Company Marketing Department, China)</i>	
Cost Interval Determination Technology of Distribution Network Project Based on Project Multi-Attribute Clustering	43
<i>Bo Huang (State Grid Xinjiang Economic Research Institute, China), Qidan Xu (State Grid Xinjiang Economic Research Institute, China), Maimaitiaili Wuer (State Grid Xinjiang Economic Research Institute, China), Yuhong Wang (State Grid Xinjiang Economic Research Institute, China), and Suria Dirishati (State Grid Xinjiang Economic Research Institute, China)</i>	
Pipeline Reliability Assessment Method and Application Based on Probability Distribution Model	46
<i>Yaxing Wen (China Special Equipment Inspection and Research Institute), Pengcheng Liu (Petro China Tarim Oilfield Co. Ltd), Tan Lv (China Special Equipment Inspection and Research Institute), Yaquan Qi (Petro China Tarim Oilfield Co. Ltd), Feng Wang (China Special Equipment Inspection and Research Institute), Jinzhong Chen (China Special Equipment Inspection and Research Institute), and Yilai Ma (China Special Equipment Inspection and Research Institute)</i>	
An Investigation into Big Data of Emergency Rescue Based on an Improved DDRfs	52
<i>Jiabin Deng (Zhongshan Polytechnic, China) and Juanli Hu (Zhongshan Polytechnic, China)</i>	
Research on Paper Influence Evaluation Based on Citation Network	57
<i>Kaiyu Liu (University of Aeronautics and Astronautics), Yujin Kan (University of Aeronautics and Astronautics), Jinmei Liu (University of Aeronautics and Astronautics), and Xuan Wang (University of Aeronautics and Astronautics)</i>	
A Distributed Traceable Anonymous Transaction Scheme	61
<i>Bintao He (Xi'an University of Technology, China) and Shangping Wang (Xi'an University of Technology, China)</i>	

Reliability of Air-Rail Hypernetwork Under the Disturbance of Flight Delays Based on Big Data	65
<i>Feng Xu (NanJing Institute of Technology, China) and Jinfu Zhu (NanJing University of Aeronautics and Astronautics, China)</i>	
A Method for Scholars' Influence Evaluation Based on Representative Papers	71
<i>Jie Wang (Shanxi University of Finance and Economics, China), Yajie Li (Bank Of China Shanxi Branch), Ying Jia (Shanxi University of Finance and Economics, China), and Peng Zhang (Shanxi University of Finance and Economics, China)</i>	
A Chinese Short Text Classification Method Based on Bert Sentence Embedding Integrating External Statistical Features	78
<i>Mingxia Gao (Beijing University of Technology, China) and Jiayi Li (Beijing University of Technology, China)</i>	
Research on Optimization of Sliding Pressure Curve of 300MW Unit Based on Data Mining	84
<i>Dean Kong (Xinjiang Xinneng Group Urumqi Electric Power Construction and Commissioning Institute, China), Jiangshan Liu (State Grid Xin Jiang Company Limited Electric Power Research Institute, China), Zhongxin Shen (Xinjiang Xinneng Group Urumqi Electric Power Construction and Commissioning Institute, China), Xin Zhen (State Grid Xin Jiang Company Limited Electric Power Research Institute, China), Pengpeng Kang (State Grid Xinjiang Electric Power Co., Ltd, China), Wenqing Zhao (State Grid Xin Jiang Company Limited Electric Power Research Institute, China), and Wenhui Zhai (State Grid Xinjiang Electric Power Co., Ltd, China)</i>	
Enhancing BERT-Based Passage Retriever with Word Recovery Method	89
<i>HongYu Chen (Shenzhen University), Bin Qin (Shenzhen University), Yang Yang (Shenzhen University), and JunPeng Zhang (Shenzhen University)</i>	
Order Sorting Optimization of Four-way Shuttle Based Storage and Retrieval System	94
<i>Zhongxin Wang (Beijing Technology and Business University, China) and Yipeng Zhou (Beijing Technology and Business University, China)</i>	

Intelligent Prediction and Pattern Recognition Technique

A Transformer-Based Network for Pollen Particle Classification	98
<i>Dezhong Xu (Beijing University of Technology, China) and Jianqiang Li (Beijing University of Technology, China)</i>	
Research on Web Components and Fingerprint Intelligent Mining Methods	102
<i>Kaiming Yang (Information Engineering University, China), Tianyang Zhou (Information Engineering University, China), Guoren Zhong (National University of Defense Technology, China), Junhu Zhu (Information Engineering University, China), and Ziqiao Zhou (Information Engineering University, China)</i>	
Risk Prediction of Side-Vehicle Lane Change Collision	108
<i>Lanxin Jiao (Beijing Jiaotong University, China) and Jialu Yu (Beijing Jiaotong University, China)</i>	

Research on Universal Gateway Management Design in Complex Test System	112
<i>Shuaihua Gao (Chinese Flight Test Establishment, China), Jianhua Zhang (Chinese Flight Test Establishment, China), Chuanghai Wang (Chinese Flight Test Establishment, China), and Chengxin Wang (Chinese Flight Test Establishment, China)</i>	
Communication Jamming Signal Recognition Method Based on Fractal Dimension and Information Entropy	116
<i>Guan Wang (Air Force Communication NCO Academy, China), Yong Kang (Air Force Communication NCO Academy, China), Hui Wang (Air Force Communication NCO Academy, China), Jing Sun (Air Force Communication NCO Academy, China), Jinyu Wang (Air Force Communication NCO Academy, China), and Zhiwei Zhang (Air Force Communication NCO Academy, China)</i>	
Research on Futures Price Forecast of WVMD-LSTM Model	124
<i>Wei Wei (Chongqing Jiaotong University, China) and Xing Liu (Chongqing Jiaotong University, China)</i>	
Application of YOLOv7 and Transformer Structures to Small Object (license Plate) Detection in Complex Traffic Scenes	128
<i>Tian Xia (Yunji Intelligent Engineering Co., Ltd, China), Ruizhuo Zhang (Yunji Intelligent Engineering Co., Ltd, China), Yongjun Zhang (Yunji Intelligent Engineering Co., Ltd, China), and Baisong Chen (Yunji Intelligent Engineering Co., Ltd, China)</i>	
An Improved Fast Detection Method for Helmets in Complex Construction Environment	132
<i>Haifeng Fan (Zhangye Power Supply Company of State Grid Gansu Electric Power Corporation, China), Kun Jiang (Lanzhou University of Technology, China), Rongyi Hu (Zhangye Power Supply Company of State Grid Gansu Electric Power Corporation, China), Tingting Wang (Zhangye Power Supply Company of State Grid Gansu Electric Power Corporation, China), Long Dong (Zhangye Power Supply Company of State Grid Gansu Electric Power Corporation, China), and Siyu Zhu (Lanzhou University of Technology, China)</i>	
A Method of Named Entity Recognition in Classical Chinese Based on Bert-Ancient-Chinese	137
<i>Ping Feng (Jilin University, China; Changchun University, China; Jilin Provincial Key Laboratory of Human Health State Identification and Function Enhancement), Jingyu Kang (Changchun University, China), Biao Huang (Changchun University, China), Shulai Wang (Changchun University, China), and Jialun Li (Changchun University, China)</i>	
Prediction of High Temperature Performance of Asphalt Mixture Based on Random Forest	142
<i>ChengXin Chen (Strait Green (Fujian) Construction Technology Development Co., Ltd, China) and Hui Lin (Honghui Construction Engineering Co., Ltd., China)</i>	
Virtual Machine Placement in Bigdata Based Cloud Center	147
<i>Jian Chang (State Grid Sichuan Information & Communication Company, China), Cheng Liu (State Grid Sichuan Information & Communication Company, China), Yan Gong (State Grid Sichuan Information & Communication Company, China), Muchuan Yang (State Grid Sichuan Information & Communication Company, China), Hao Yao (State Grid Sichuan Information & Communication Company, China), and Kunling Liu (State Grid Sichuan Information & Communication Company, China)</i>	

Wind Speed Forecasting for Wind Power Production Based on Frequency-Enhanced Transformer .	151
<i>Benxin Deng (Northwestern Polytechnical University, China), Sijie Liu (Northwestern Polytechnical University, China), Yafeng Wu (Northwestern Polytechnical University, China), and ZiLiang Xu (Northwestern Polytechnical University, China)</i>	
A Contrastive Framework for Improving Multi-Turn Response Selection	156
<i>Yang Yang (Shenzhen University), Bin Qin (Shenzhen University), Hongyu Chen (Shenzhen University), and Guandong Lan (Shenzhen University)</i>	
A Recall Model for Programming map Nearest Neighbor Recommendation	160
<i>Zhenshan Gao (Beijing Information Science and Technology University, China), Jianbin Liu (Beijing Information Science and Technology University, China), Yan Wang (Beijing Information Science and Technology University, China), and JingJing He (Beijing Information Science and Technology University, China)</i>	
Research on ArcGIS-Based Emergency Material Dispatching Scheme	164
<i>Lei Zhang (Emergency Rescue Promotion Center, China)</i>	
Neologisms Recognition Technology Based on a Variety of Statistical Indicators	170
<i>Canrui Feng (Tianjin University of Commerce, China) and Jianye An (Tianjin University of Commerce, China)</i>	
Research on Entity Disambiguation Method and Model Construction Based on Knowledge Graph	174
<i>Liang Zhang (China Ship Intelligent Technology Co., LTD., China), Qinhua He (Nanjing Qingyan Transmission Equipment Research Institute Co., LTD., China), Wenting Yu (Beijing University of Posts and Telecommunications, China), and Zhihao Zhou (Beijing University of Posts and Telecommunications, China)</i>	
A Novel Short-Term Load Forecasting Model by TCN-LSTM Structure with Attention Mechanism	178
<i>Heng Li (Southwest University, China), Jian Sun (Southwest University, China), and Xin Liao (Southwest University, China)</i>	
An Improved Method for Farm Birds Detection Based on YOLOv5s	183
<i>Huanxi Zhao (Xiamen University of Technology, China), Dehua Cai (Xiamen University of Technology, China), Zurong Liang (Xiamen University of Technology, China), and Yi Wang (Xiamen University of Technology, China)</i>	
Ergodic Set Regression Models	188
<i>Fumin Wang (Beijing University of Technology, China), Jianzhuo Yan (Beijing University of Technology, China), and Hongxia Xu (Beijing University of Technology, China)</i>	
Research on Intelligent Patrol Inspection of Power Line Based on Hybrid Reality Technology.....	197
<i>Honghan Jin (Liaoning Electric Power Energy Development Group Co., Ltd, PR China), Yining Gang (Liaoning Electric Power Energy Development Group Co., Ltd, PR China), Xin Deng (Liaoning Electric Power Energy Development Group Co., Ltd, PR China), Jinyang Zhao (Liaoning Electric Power Energy Development Group Co., Ltd, PR China), and Dongyang Li (State Grid Liaoning Information and Communication Company, PR China)</i>	
Design of Smart Home Energy Efficiency Management System Based on BLE Technology	201
<i>Jiazheng Lin (Central South University, China)</i>	

Research on Intelligent Identification of Transmission Line by UAV 3D Lidar	207
<i>Wei Liu (State Grid Liaoning Information and Communication Company, PR China), Shiwen Ma (Liaoning Electric Power Energy Development Group Co., Ltd, PR China), Zhenxian Yao (Liaoning Electric Power Energy Development Group Co., Ltd, PR China), Xuesong Liu (Liaoning Electric Power Energy Development Group Co., Ltd, PR China), and Lei Zhang (Liaoning Electric Power Energy Development Group Co., Ltd, PR China)</i>	
K-Shortest Routing for Autonomous Driving	212
<i>Feng Xie (Sanda University, China), Yufei Xie (Lixin University of Accounting and Finance, China), and Soi Hoi Lam (University of Macau, China)</i>	
Automatic Classification of Ceramic-Tiles Based on Random Forest and Combined Features	217
<i>Weibin Qiu (Guangdong University of Technology, China), Xindu Chen (Guangdong University of Technology, China), Lei Wu (Guangdong University of Technology, China), Yangqi Lian (Guangdong University of Technology, China), and Yuesheng Liu (Guangdong University of Technology, China)</i>	
Impact of Perceived Value Uncertainty on Omnichannel	222
<i>Xiaoyu Ma (Shanghai Maritime University, China) and Huaili Chen (Shanghai Maritime University, China)</i>	

Deep Learning and Machine Visualization

Rec-RN: User Representations Learning over the Knowledge Graph for Recommendation Systems	228
<i>Huan Zhao (Northwest A&F University, China), Hui Du (Housing and Urban-Rural Development Bureau of Lincheng County, China), Senqi Yang (Sichuan Agricultural University, China), and Feixiang Yao (Northwest A&F University, China)</i>	
The Application of Machine Learning in Deception Detection: A Study Based on the Effect of Empathy on Deception Detection	234
<i>Buxue Wang (Jiangxi University of Chinese Medicine, China) and Xunbing Shen (Jiangxi University of Chinese Medicine, China)</i>	
A Review of Research on the Application of Deep Reinforcement Learning in Unmanned Aerial Vehicle Resource Allocation and Trajectory Planning	238
<i>Yanan Cai (Beijing Institute of Graphic Communication, China), Erqing Zhang (Beijing Institute of Graphic Communication, China), Yali Qi (Beijing Institute of Graphic Communication, China), and Likun Lu (Beijing Institute of Graphic Communication, China)</i>	
Compression and Enhancement of Speech with Low SNR Based on Deep Learning	242
<i>Mengqian Zhang (Northwestern Polytechnical University, China), Sijie Liu (Northwestern Polytechnical University, China), and Yafeng Wu (Northwestern Polytechnical University, China)</i>	
Research on Local Path Planning Algorithm Based on Frenet Coordinate System	249
<i>Xujie Wang (Wuhan University of Technology, China), Houyu Yu (Wuhan University of Technology, China), and Jiyuan Liu (Wuhan University of Technology, China)</i>	

DNS Tunnel Detection Scheme Based on Machine Learning in Campus Network	253
<i>XiaoDong Li (University of Electronic Science and Technology of China, China), YuanFeng Song (University of Electronic Science and Technology of China, China), and YuQing Li (University of Electronic Science and Technology of China, China)</i>	
Hybrid Recommendation Algorithm Combining user Similarity and Item Similarity	258
<i>JinPing Yu (Jiangxi University of Technology, China) and Yu Li (Jiangxi University of Technology, China)</i>	
Research on Scholars' Influence Based on Data Integration Under the Academic Big Data	264
<i>Shan Qi (Taiyuan Normal University, China), Yajie Li (Bank of China Shanxi Branch, China), Jie Wang (Shanxi University of Finance and Economics, China), and Yali Lv (Shanxi University of Finance and Economics, China)</i>	
Community Detection Algorithm Based on Graph Convolutional Network with Dynamic Cluster Centers Selection	269
<i>Bing Guo (Taiyuan Normal University, China), Liping Deng (Taiyuan University of Technology, China), Jie Wang (Shanxi University of Finance and Economics, China), and Shan Qi (Taiyuan Normal University, China)</i>	
Prediction of New Technical Terms Based on Machine Learning Algorithms	275
<i>Haiying Ren (Beijing University of Technology, China) and Luyao Zhang (Beijing University of Technology, China)</i>	
Performance Optimization Algorithm for CRF Layer of Chinese Sequence Labeling Model Based on Deep Learning	279
<i>Li Zhu (Engineering University of PAP, China), Yue Zhang (Shijiazhuang Division of PLAA Infantry College, China), Yu Dong (National Defense University, China), and Chengyu Cui (China Mobile Chengdu Institute of Research and Development, China)</i>	
Research on Marketing and Data Analysis System Based on Computer Big Data	286
<i>Xuezhu Wu (Macau University of Science and Technology)</i>	
Research on Influencing Factors of Construction Land Area Based on Neural Network	290
<i>Xiaofan Zhu (Nanjing University of Aeronautics and Astronautics, China), Lei Gao (Nanjing University of Aeronautics and Astronautics, China), Yazhou Zhou (Chongqing University, China), and Fan Zhang (Nanjing University of Aeronautics and Astronautics, China)</i>	
An Application of XGBoost Algorithm for Online Transaction Fraud Detection Based on Improved Sailfish Optimizer	294
<i>Hongwei Chen (Hubei University of Technology, China) and Lun Chen (Hubei University of Technology, China)</i>	
Entity-Enhanced Multi-Granularity Pooling BERT for Event Extraction	300
<i>Shunyu Yao (Big Data and Artificial Intelligence Institute, China Telecom Research Institute, China), Jie Hu (Big Data and Artificial Intelligence Institute, China Telecom Research Institute, China), Chuxiong Sun (Big Data and Artificial Intelligence Institute, China Telecom Research Institute, China), Zhiqiao Gao (Big Data and Artificial Intelligence Institute, China Telecom Research Institute, China), and Ning Liu (Big Data and Artificial Intelligence Institute, China Telecom Research Institute, China)</i>	

An Improved Density Peaks Clustering Based on a new Local Density	305
<i>Jing Lu (Northeastern University, China)</i>	
DV-Hop Localization Algorithm Based on Improved Differential Evolution	309
<i>Wei Li (Guizhou Minzu University, China), Zunfu Zhou (Guizhou Minzu University, China), Bin Wang (Guizhou Minzu University, China), and Feng Pan (Guizhou Minzu University, China)</i>	
MEFormer: Multi-Object Tracking with Multi-Scale Feature Enhanced Transformer	315
<i>Yufan Zhang (Chongqing Jiaotong University, China), Xinlong Liu (Chongqing Jiaotong University, China), Lei Deng (Chongqing Jiaotong University, China), and Jianxi Yang (Chongqing Jiaotong University, China)</i>	
A Survey of Deep Learning Methods for MRI Brain Tumor Image Segmentation	318
<i>GuangRui Liu (Southwest Forestry University, China) and YiLi Zhao (Southwest Forestry University, China)</i>	
Research on Filling Method of Tidal Missing Data Based on Gated Recurrent Neural Network	324
<i>Qingsheng Miao (National Marine Data and Information Service, China), Jinkun Yang (National Marine Data and Information Service, China), Yansheng Zhang (National Marine Data and Information Service, China), Yang Yang (National Marine Data and Information Service, China), Shanshan Xu (National Marine Data and Information Service, China), and Guanghao Wei (National Marine Data and Information Service, China)</i>	
Study on Reliability of Online Monitoring System for Transformer Oil Chromatogram Based on Machine Learning	330
<i>Huan Ren (Electric Power Research Institute of State Grid Henan Electric Power Company, China), Tao Su (Shangqiu Power Supply Company of State Grid Henan Electric Power Company, China), Peng Li (Shangqiu Power Supply Company of State Grid Henan Electric Power Company, China), Zeming Wu (Shanghai Jiao Tong University, China), Yajun Jia (Shanghai Jiao Tong University, China), and Junjie Jiang (Shanghai Jiao Tong University, China)</i>	
Personalized Book Recommendation Algorithm Based on Attention Enhancement Mechanism	334
<i>Lei Min (Library of Jiangnan University, China)</i>	
Discrete Particle Swarm Optimization Based on Persuasion Effect for Identifying Influential Nodes	339
<i>Wei Zhang (Heilongjiang University, China), Yong Liu (Heilongjiang University, China), and Jing Yang (Harbin Engineering University, China)</i>	
Research on Geomagnetic Differential Detection Algorithm of Roadside Parking Vehicles	345
<i>Geming Liu (Guangzhou College of Commerce, China) and Wenhai He (Guangzhou College of Commerce, China)</i>	
Prediction of Advertising Click-Through Rate Based on Dual Attention Network	350
<i>Chao Zhang (University of Science and Technology Liaoning, China) and Chunna Zhang (University of Science and Technology Liaoning, China)</i>	
Research on Loan Prediction Based on Interpretable Machine Learning	356
<i>JiXiang Niu (North China University of Technology, China)</i>	

U-SSLN: A U-Net Based and Optimization Preferred Semi-Supervised Learning Network for Medical Image Segmentation	361
<i>Juncheng Liu (Southwest Forestry University, China), Guangrui Liu (Southwest Forestry University, China), and Yili Zhao (Southwest Forestry University, China)</i>	
A Hybrid Model Based on Pre-Trained Language Model and Graph Neural Networks for Scientific Paper Recommendation	372
<i>Suyang Guan (Nanjing University Of Finance And Economics, China) and Ting Jiang (Nanjing University Of Finance And Economics, China)</i>	
Optimisation of Occlusion Data Based on Graph Neural Networks with Joint Objectives	379
<i>Lianwen Lu (Guangzhou Huali College, China), Yuhan Cui (Guangzhou Huali College, China), Xinghua Lu (Guangzhou Huali College, China), Jitao Qiu (Guangzhou Huali College, China), and Zongyuan Ye (Guangzhou Huali College, China)</i>	
Ghostwriting-Federal Learning Key Technology Research for Big Data Privacy Protection	387
<i>ZhengXiong Mao (Information Center of Yunnan Power Grid Co., Ltd, China), Hui Li (Information Center of Yunnan Power Grid Co., Ltd, China), ZuYuan Huang (Information Center of Yunnan Power Grid Co., Ltd, China), Yuan Tian (Information Center of Yunnan Power Grid Co., Ltd, China), XiaoPing Zhao (Information Center of Yunnan Power Grid Co., Ltd, China), and Hang Zhang (Information Center of Yunnan Power Grid Co., Ltd, China)</i>	
Research on Portfolio Optimization Based on Deep Reinforcement Learning	391
<i>Zhengyan Wang (Paris-Saclay University, France), Shurui Jin (The University of Melbourne, Australia), and Wen Li (University of Paris, France)</i>	
Author Index	397
