2022 4th International Conference on Intelligent Information Processing (IIP) **IIP 2022**

Table of Contents

Preface	xvi
Conference Committee	xvii

Image Signal Processing and Pattern Recognition

A Siamese Network Fusion Time-Frequency Domain Features for Mental Workload Level Identification	1
<i>Jiaqing Yan (North China University of Technology, China), Dan Li (North China University of Technology, China), Jinzhao Deng (North China University of Technology, China), Hao Wang (Beijing Urban Governance Research Center, China), Zhou Long (North China University of Technology, China), Wenhao Sun (North China University of Technology, China), Weiqi Xue (North China University of Technology, China), Qingqi Zhou (North China University of Technology, China), and Gengchen Liu (North China University of Technology, China)</i>	
Aspect-Level Sentiment Classification Method Based on Graph Convolutional Network and Interactive Attention Mechanism	5
<i>Chen Yang (Nanchang Institute of Technology, China), Xuefeng Fu (Nanchang Institute of Technology, China), Guoqiang Peng (Nanchang Institute of Technology, China), Zhaofeng Jiang (Nanchang Institute of Technology, China), Yong Hu (Nanchang Institute of Technology, China), and Fei Ma (Nanchang Institute of Technology, China)</i>	
Research on Video-Based Character Recognition Method for Train Cargo Cars	9
<i>Mingwei Qi (North China University of Technology, China), Rentao Zhao (North China University of Technology, China), Feiyang Zhang (North China University of Technology, China), ZhiKang Zhao (North China University of Technology, China), and Ziming Zhu (North China University of Technology, China)</i>	
The Polar CenterNet for Radar Signal Identification	14
<i>Lin Wang (Southeast University, China), Siya Mi (Southeast University, China), Ye Tian (Department of Security Technology Research Institute of China Mobile Communications Corporation, China), Fengsheng Wang (Department of Security Technology Research Institute of China Mobile Communications Corporation, China), and Shen He (Department of Security Technology Research Institute of China Mobile Communications Corporation, China)</i>	

Study on the Named Entity Recognition Method Implementation for Food Safety	18
<i>Qi Wang (North China University of Technology, China), Yun-Tao Shi (North China University of Technology, China), Jie Li (North China University of Technology, China), Shuqin Li (North China University of Technology, China), and Meng Zhou (North China University of Technology, China)</i>	
A Temporal Knowledge Graphs Prediction Method for Community Gas Risk	23
<i>Lei Zhao (North China University of Technology, China), YunTao Shi (North China University of Technology, China), Tao Zhang (North China University of Technology, China), and Meng Zhou (North China University of Technology, China)</i>	
Transfer Learning-Based Traffic Identification for UAV-Assisted IoT	28
<i>Mengyuan Zhu (Air Force Engineering University, China), Xin-Yu Hong (Air Force Engineering University, China), Zhuo Chen (People's Liberation Army of China, China), Jia-Xin Zhou (Air Force Engineering University, China), and Na Lv (Air Force Engineering University, China)</i>	
Optimized Deep Forest Emotional Awareness Recognition Based on EEG Rhythm Characteristics ..	37
<i>Jiaqing Yan (North China University of Technology, China), Jinzhao Deng (North China University of Technology, China), Dan Li (North China University of Technology, China), Zhou Long (North China University of Technology, China), Wenhao Sun (North China University of Technology, China), Weiqi Xue (North China University of Technology, China), Qingqi Zhou (North China University of Technology, China), and Gengchen Liu (North China University of Technology, China)</i>	
Design and Implementation of a Radio Frequency Fingerprint Identification System	42
<i>Haonan Zeng (Guilin University of Electronic Technology, China) and Yuelei Xie (Guilin University of Electronic Technology, China)</i>	
Edge Intelligence with Long-Distance Micro Objection Detection and Low-Light Image Enhancement for Oil Gas Pipeline Monitoring	47
<i>Mi Yan (State Pipe Network Group West-to-East Gas Transmission Branch, China), Haifeng Wang (State Pipe Network Group West-to-East Gas Transmission Branch, China), and Huiming Zhang (State Pipe Network Group West-to-East Gas Transmission Branch, China)</i>	
Traffic Signs Recognition Model Over Data Augmentation Based on Yolov5	52
<i>Shuang Shan (North China University of Technology, China) and Gongwu Chen (North China University of Technology, China)</i>	
Deep Learning-Based Chinese Speech Recognition in Food Safety Field	56
<i>Zhe Dong (North China University of Technology, China), Weihai Ai (North China University of Technology, China), Song Luo (North China University of Technology, China), and Xiaoyao Han (North China University of Technology, China)</i>	
Copula Entropy-Based PCA Method and Application in Process Monitoring	61
<i>Yingpeng Wei (Shanghai Institute of Technology, China) and Li Wang (Shanghai Institute of Technology, China)</i>	

License Plate Recognition Based on YOLOv5-LPRNet	65
<i>Yuntao Shi (North China University of Technology, China), Hong-Fei Zhang (North China University of Technology, China), Tao Zhang (North China University of Technology, China), and Wei Guo (North China University of Technology, China)</i>	
Unpaired Image-to-Image Translation using Generative Adversarial Networks with Coordinate Attention Loss	68
<i>Xiangdan Hou (Hebei University of Technology, China), Jinlin Song (Hebei University of Technology, China), and Hongpu Liu (Hebei University of Technology, China)</i>	
Construction of Power Knowledge Graph Based on Entity Relation Extraction	77
<i>Qionglan Na (State Grid Jibei Information & Telecommunication Company, China), Dan Su (State Grid Jibei Information & Telecommunication, China), Jiaojiao Zhang (State Grid Jibei Information & Telecommunication Company, China), Xin Li (State Grid Jibei Information & Telecommunication Company, China), and Na Xiao (State Grid Jibei Information & Telecommunication Company, China)</i>	
Research and Application of Fruit and Vegetable Recognition Based on Deep Learning	81
<i>MaLi Sun (Anhui Xinhua University, China), ChengWei Sun (Anhui Xinhua University, China), and XiaoHui Zhang (Anhui Xinhua University, China)</i>	
Deep Recurrent Neural Network for Ground-Penetrating Radar Signal Denoising	85
<i>Chongpeng Tian (Shandong Technology and Business University, China), Mei Hong (Shandong Technology and Business University, China), Dongying Li (Shandong Technology and Business University, China), and Da Yuan (Shandong Technology and Business University, China)</i>	
Multi-Class Target Detection for Optical Remote Sensing Images Based on Improved RetinaNet.....	89
<i>Lingzhuo Kong (North China University of Technology, China), Lin Li (North China University of Technology, China), Shengye Xu (North China University of Technology, China), and Jianhong Han (North China University of Technology, China)</i>	
Research on the Realization of Multilingual Speech Synthesis and Cross-Lingual Sound Cloning in Tibetan	93
<i>Guangming Li (Northwest Minzu University, China), Guanyu Li (Northwest Minzu University, China), Yugang Dai (Northwest Minzu University, China), Zhihao Song (Northwest Minzu University, China), and Lin Meng (Northwest Minzu University, China)</i>	
Evaluation of Radar Health Status Based on Fuzzy Comprehensive Evaluation of Cloud Mode	98
<i>Yangyang Sun Li (Early Warning Academy, China), Qing Hua Liu (Early Warning Academy, China), Qi Qing Fang (Early Warning Academy, China), Gen Liu (Early Warning Academy, China), and Ya Min Hu (Early Warning Academy, China)</i>	
Research on the Co-Construction and Sharing Mode of 5G Base Stations in Power Infrastructure	103
<i>Yubin Zhang (Dongguan Power Supply Bureau, China)</i>	
A Deep Fusion Network for Violence Recognition	107
<i>Zhimin Song (Northeastern University, China), Wuwei Zhang (Northeastern University, China), and Dongyue Chen (Northeastern University, China)</i>	

Construction of Knowledge Graph Based on Traffic Violations in Beijing	113
<i>Jie Li (North China University of Technology, China), Yuntao Shi (North China University of Technology, China), Shuqin Li (North China University of Technology, China), and Qi Wang (North China University of Technology, China)</i>	
An Aggregation Method Based on Cosine Distance Filtering	117
<i>Degang Wang (Information Engineering University, China), Yi Sun (Information Engineering University, China), Qi Gao (Information Engineering University, China), and Fan Yang (Information Engineering University, China)</i>	

Wireless Communication Propagation and Model Detection

Study on IOT Based WMS for Production Line of Aerospace Servo System	122
<i>Enming Song (Beijing Institute of Precision Mechatronics and Controls, China), Zhenkun Song (Beijing Institute of Precision Mechatronics and Controls, China), Yue Yue (Beijing Institute of Precision Mechatronics and Controls, China), and Qiwei Zhang (Beijing Institute of Precision Mechatronics and Controls, China)</i>	
Fault Diagnosis of Batch Process Based on Improved Time Convolution Network and Efficient Channel Attention	129
<i>X.X. Liang (Hebei University of Technology, China) and L. Guo (Hebei University of Technology, China)</i>	
Multi-Subject Information Interaction and One-way Hash Chain Authentication Method for V2G Application in Internet of Vehicles	134
<i>Jian Zhang (State Grid Tianjin Electric Power Company), Lei Li (Marketing Service Center of State Grid Tianjin Electric Power Company), Weidong Liu (Marketing Service Center of State Grid Tianjin Electric Power Company), and Xiaohui Li (Marketing Service Center of State Grid Tianjin Electric Power Company)</i>	
Design and Development of High Voltage Power and Vacuum System for Proton Transfer Reaction Mass Spectrometry	138
<i>Min Ren (North China University of Technology, China), Ji-Wen Chen (North China University of Technology, China), and Ming Li (North China University of Technology, China)</i>	
Research on P2P Default Risk Prediction Based on Logistic Regression	143
<i>Tao Zhang (North China University of Technology, China) and Wenhao Sun (Beijing University of Technology, China)</i>	
Box Straight Line Detection Method Based on Two PCA and DBSCAN	147
<i>Xiao Li (Guangdong Power Grid Co., Ltd, China), Zhong Xu (Guangdong Power Grid Co., Ltd, China), Heping Peng (Guangdong Power Grid Co., Ltd, China), Hongbin Wang (Guangdong Power Grid Co., Ltd, China), and Qingdan Huang (Guangdong Power Grid Co., Ltd, China)</i>	

Study on Prediction Mechanism of High-Speed Traffic Accidents Based on Space-Time Meteorological Grid	155
<i>Wei Zhang (Chengdu University of Information Technology, China), Jun Lu (Chengdu University of Information Technology, China), Min Zhao (Chengdu University of Information Technology, China), Lei Liang (Chengdu University of Information Technology, China), Ran Tang (Chengdu University of Information Technology, China), and Jiakai Peng (Chengdu University of Information Technology, China)</i>	
Research on Query Process Optimization of InterPlanetary File System Layered System Based on Cuckoo Filter	159
<i>Min Zhao (Chengdu University of Information Technology, China), Jun Lu (Chengdu University of Information Technology, China), Wei Zhang (Chengdu University of Information Technology, China), Lei Liang (Chengdu University of Information Technology, China), Ran Tang (Chengdu University of Information Technology, China), and Jiakai Peng (Chengdu University of Information Technology, China)</i>	
DoS: Abstractive Text Summarization Based on Pre-Trained Model with Document Sharing	163
<i>Xingxing Ding (China Aerospace Academy of Systems Science and Engineering, China), Ruobing Wang (China Aerospace Academy of Systems Science and Engineering, China), Zhong Zheng (Aerospace Hongka Intelligent Technology (Beijing) CO., LTD., China), Xuan Liu (China Aerospace Academy of Systems Science and Engineering, China), Quan Zhu (China Aerospace Academy of Systems Science and Engineering, China), Ruiqun Li (Aerospace Hongka Intelligent Technology (Beijing) CO., LTD., China), Wanru Du (China Aerospace Academy of Systems Science and Engineering, China), and Siyuan Shen (China Aerospace Academy of Systems Science and Engineering, China)</i>	
Monte Carlo Simulation for Inertia Moment Measurement Test of Seaplane Model	167
<i>Shengzhe Shi (AVIC Special Vehicle Research Institute, China), Ting Jiang (AVIC Special Vehicle Research Institute, China), Fan Wang (AVIC Special Vehicle Research Institute, China), and Xiao-Long Zheng (AVIC Special Vehicle Research Institute, China)</i>	
Negative Review Detection Model Based on LightGBM	171
<i>Chengying Zhu (Zhengzhou University, China), Jingyi Yao (Zhengzhou University, China), Gege Zhao (Zhengzhou University, China), Sinuo Wang (Zhengzhou University, China), Shasha Liu (Zhengzhou University, China), and Zhaoyang Liu (Zhengzhou University, China)</i>	
A Chinese Entity-Relation Extraction Method Via Improved Machine Reading Comprehension	175
<i>Tianci Shang (Chinese Academy of Military Science, China), Baosong Deng (Chinese Academy of Military Science, China), and Tingsong Jiang (Chinese Academy of Military Science, China)</i>	
Research on the Practical Application Analysis of EDA in Mathematical Electronic Technology	181
<i>Xiaojiang Li (Tianjin University of Technology, China) and Renjun Wang (Tianjin University of Technology, China)</i>	
Chinese Overlapping Event Extraction Method Based on Bert - Text CNN Fusion	188
<i>Ling Gan (Chongqing University of Posts and Telecommunications, China) and Zaijun Zhang (Chongqing University of Posts and Telecommunications, China)</i>	

Microstrip 5G Receiver Design & Simulation	193
<i>Shang Liu (University of Leeds, UK)</i>	
Research on Key Technology of Substation Integrated Self-Monitoring Management System	201
<i>Qiang Jin (State Grid Shanxi electric power company Linfen Power Supply Company), Fen Zheng (State Grid Shanxi electric power company Linfen Power Supply Company), Xutong Xie (State Grid Shanxi electric power company Linfen Power Supply Company), and Zhi Xun (State Grid Shanxi electric power company Linfen Power Supply Company)</i>	
Research on Multi-hop Reasoning Question and Answer Model for Foodborne Disease Incidents ..	205
<i>Yun-Tao Shi (North China University of Technology, China), Yi-Xian Bai (North China University of Technology, China), Tao Zhang (North China University of Technology, China), and Wei-Chuan Liu (North China University of Technology, China)</i>	

Wireless Network Security and Intelligent Computing

Application of Data Processing in Company Customer Management Based on K-Means Clustering Algorithm	209
<i>Hang Qian (Tulane University, United State)</i>	
Parameter Optimization and Its Application of Support Vector Machines Based on Improved Particle Swarm Optimization Algorithm	213
<i>Lu Zhou (Liaoning Institute of Science and Technology, China) and Yu Cui (Siemens Ltd., China)</i>	
Indoor and Outdoor Joint Location Algorithm for Power Smart Supply Chain Park	217
<i>Youtao Jiang (State Grid Tianjin Electric Power Company, China), Lei Hao (State Grid Tianjin Electric Power Company, China), Xiaoyuan Han (State Grid Tianjin Electric Power Company, China), and Hongxin Tian (State Grid Tianjin Electric Power Company, China)</i>	
A Secure Access Algorithm of Terminal Equipment Based on Cryptography and Blockchain Applied in New Type of Power System	221
<i>Zhiwen Yu (Guangdong Grid Co, China), Shiming Li (Guangdong Grid Co, China), Wenjie Zheng (Guangdong Grid Co, China), Ruifeng Zhao (Guangdong Grid Co, China), and Aibeiduo Li (Tianjin University, China)</i>	
Link Prediction Algorithm Based on Time-Step Weights and Node Similarities	227
<i>Cong Lin (Guangxi Southern Power Grid Company Limited, China), Yating Su (Guangxi Southern Power Grid Company Limited, China), and Longwen Yang (Guangxi Southern Power Grid Company Limited, China)</i>	
A Distributed Objects' Information Safe Access and Data Privacy Protection Algorithm in Smart Grid	232
<i>Kaiwen Zeng (Guangdong Grid Co, China), Jiangang Lu (Guangdong Grid Co, China), Wenxin Guo (Guangdong Grid Co, China), Reifeng Zhao (Guangdong Grid Co, China), and Zhibiao Guo (Tianjin University, China)</i>	

Research on Power Gateway Design Based on Edge Computing	236
<i>Huafeng Luo (State Grid Zhejiang Electric Power Co., Ltd, China), Chaowen Dong (State Grid Hangzhou Power Supply Company, China), Hui Zhou (State Grid Zhejiang Electric Power Co., Ltd, China), Liuwang Wang (State Grid Zhejiang Electric Power Co., Ltd, China), Jun Yu (State Grid Zhejiang Electric Power Co., Ltd, China), and Ji He (Hangzhou Dolay Electronic Technology Co., Ltd, China)</i>	
Application of Ant Colony Algorithm in Reconfiguration of Power System Distribution Network	241
<i>Bo Wang (Energy Development Research Institute, China), Yining Ma (Energy Development Research Institute, China), Luyao Pei (Energy Development Research Institute, China), Liang Sui (Energy Development Research Institute, China), and Cheng Xu (Energy Development Research Institute, China)</i>	
Student Achievement Analysis and Prediction Based on Educational Data	245
<i>Tao Zhang (North China University of Technology, China) and Qisheng Liu (North China University of Technology, China)</i>	
Research on Credit Risk Prediction Based on Cart Classification Tree	250
<i>Tao Zhang (North China University of Technology, China) and Rui Zhou (Beijing University of Technology, China)</i>	
High-Altitude Parabolic Detection Method Based on GMM Model and SORT Algorithm	254
<i>Yun-Tao Shi (North China University of Technology, China), Qi Luo (North China University of Technology, China), Tao Zhang (North China University of Technology, China), and Cheng-Yue Hao (North China University of Technology, China)</i>	
Object Detection Algorithm Based on Fusion of Spatial Information	258
<i>Youquan Hu (North China University of Technology, China)</i>	
An Adaptive CFAR Threshold Determination Algorithm Based on IR-UWB Radar	262
<i>Jinlong Zhang (Northwest Normal University), Xiaochao Dang (Northwest Normal University; Gansu Province Internet of Things Engineering Research Center), and Le Wang (Gansu Province Internet of Things Engineering Research Center; Northwest Normal University)</i>	
An Ion Transport System for Mass Spectrometer	268
<i>En-Zhi Hao (North China University of Technology, China), Zi-Han Qiang (North China University of Technology, China), and Yu-Tian Wang (North China University of Technology, China)</i>	
Graph Attention Network Fraud Detection Based On Feature Aggregation	272
<i>Tao Zhang (North China University of Technology, China) and Senyu Gao (North China University of Technology, China)</i>	
Research on MPTCP Protocol Based on Erasure Codes	276
<i>Yang Song (Nanchang Hangkong University College of Software, China), Yaqi Yuan (Nanchang Hangkong University College of Software, China), and Yubin Chen (Nanchang Hangkong University College of Software, China)</i>	

Harmonic and Interharmonic Detection and Analysis of Neural Network Power System Based on Big Data	283
<i>Weixin Liu (Xinjiang Electric Power Company, China), Xia Pan (Xinjiang Electric Power Company, China), Xiaolei Zhang (Xinjiang Electric Power Company, China), and Bingde Duan (Xinjiang Electric Power Company, China)</i>	
Building an Onboard High-Performance Computing Platform Based on SpaceWire and SpaceFibre	287
<i>Weiwei Liu (Beijing Institute of Spacecraft System Engineering, China), Bowen Cheng (Beijing Institute of Spacecraft System Engineering, China), Yalong Pang (Beijing Institute of Spacecraft System Engineering, China), and Yuehua Niu (Beijing Institute of Spacecraft System Engineering, China)</i>	
Utilizing Benign Files to Obfuscate Malware via Deep Reinforcement Learning	293
<i>Jiyao Gao (Sichuan University, China) and Zhiyang Fang (Sichuan University, China)</i>	
Fraud Web URL Detection Based on Bi-LSTM	298
<i>Xiuqing Ji (Zhengzhou University, China), Huawei Song (Zhengzhou University, China), Fangjie Wan (Zhengzhou University, China), and Kaizhan Huang (Zhengzhou University, China)</i>	
M-PASOA: A Multi- Orientation Mission Dispatching Strategy Based on Probabilistic Adaptive Seagull Optimization in Cloud Computing	302
<i>Yaoxin Li (Shandong University of Science and Technology, China) and Hao Wang (Shandong University of Science and Technology, China)</i>	
Auxiliary Classifier Generative Adversarial Network Assisted Intrusion Detection System	307
<i>Kejun Zhang (Beijing Electronic Science and Technology Institute, China), Haocong Qin (Beijing Electronic Science and Technology Institute, China), Yuhan Jin (Beijing Electronic Science and Technology Institute, China), Hangyu Wang (Xidian University, China), and Xinying Yu (Beijing University of Posts and Telecommunications, China)</i>	
An Ant Colony Optimization Algorithm with Variable Neighborhood Search for Vehicle Routing Problems with Time Windows on Road Networks	312
<i>Mingde Liu (China Telecom Research Institute, China), Yingbin Zhang (China Telecom Research Institute, China), Ling Li (China Telecom Research Institute, China), and Zhiming Yang (China Telecom Research Institute, China)</i>	
Modeling of Emergency Logistics System Based on Complex Network Theory	316
<i>Boyu Feng (Airforce Engineering University, China), Nan Zhang (Airforce Engineering University, China), Zhihao Zhang (Airforce Engineering University, China), and Lei Zhang (Airforce Engineering University, China)</i>	

Intelligent Technology and Robot Modelling

Design of Remote Interactive System Based on Internet of Things	320
<i>Zhen Chen (Xijing College, China), Jian-Feng Wang (Xijing College, China), Cheng Zhang (Xijing College, China), and Zhao Wang (Xijing College, China)</i>	

A Shared Control Method of Intelligent Vehicle Based on Priority Weights	324
<i>Gang Li (North China University of Technology, China), ZhongHua Pang (North China University of Technology, China), Dehui Sun (North China University of Technology, China), and Pengfei Shang (North China University of Technology, China)</i>	
Faster R-CNN-Based Fire Risk Sensing Technology for Communities	328
<i>Yang Zou (North China University of Technology, China), Yun-Tao Shi (North China University of Technology, China), Tao Zhang (North China University of Technology, China), Wei Guo (North China University of Technology, China), and Xiang Yin (North China University of Technology, China)</i>	
A Novel Multi-UAV Patrol Path Planning Method Based on Evolutionary Multi-Objective Optimization	332
<i>Longmei Li (Naval University of Engineering, China), Shuai Zhou (Naval University of Engineering, China), and Zheng Wang (Naval University of Engineering, China)</i>	
Design and Implementation of Special Sensor Network for Sewage Treatment Plant Oriented to Big Data	336
<i>Luyan Yu (Beijing University of Technology, China), Xuesong Xie (Beijing University of Technology, China), Xiaoling Zhang (Beijing University of Technology, China), and Changfei Shi (Beijing University of Technology, China)</i>	
Customer-Side Internet of Things Service Platform Architecture Based on IoT Technology	340
<i>Yu Zhang (State Grid Ningxia Electric Power Company, China), Jitao Huang (State Grid Ningxia Electric Power Company, China), Minrong Wu (State Grid Ningxia Electric Power Company, China), Wenhao Niu (State Grid Ningxia Electric Power Company, China), Yifei Shu (State Grid Ningxia Marketing Service Center, China), and Jincai Wu (State Grid Ningxia Electric Power Company WuZhong Power Supply Company, China)</i>	
A Fast 3D Multi-Object Tracking Method Based On Motion and Appearance Features	344
<i>Jingyi Xu (Nanjing University of Science and Technology, China) and Zhian Zhang (Nanjing University of Science and Technology, China)</i>	
IOT Application-Intelligent Tracking Car SPRESENSE -Base	350
<i>Xiaona Kang (Chengdu Neusoft University, China), XiQiao Kang (Chengdu Neusoft University, China), Shaozhen Wang (Chengdu Neusoft University, China), Jiguo Chai (Chengdu Neusoft University, China), Sai Shen (Chengdu Neusoft University, China), and Mingju Mao (Chengdu Neusoft University, China)</i>	

Longitudinal and Transverse Trajectory Tracking of Unmanned Vehicle Based on Dual PID and LQR	355
<i>Yanan Tu (Henan Carrey Vehicle Testing and Certification Center Co., LTD., China; Yellow River Jiaotong University, China), Yanjie Wu (Henan Carrey Vehicle Testing and Certification Center Co., LTD., China; Yellow River Jiaotong University, China), Yixuan Li (Henan Carrey Vehicle Testing and Certification Center Co., LTD., China; Yellow River Jiaotong University, China), Peng Zhang (Henan Carrey Vehicle Testing and Certification Center Co., LTD., China; Yellow River Jiaotong University, China), Zhijun Guo (Henan University of Science and Technology, China), and Yakun Yin (Henan University of Science and Technology, China)</i>	
Analysis and Research on the Application of Artificial Intelligence and Computational Intelligence in the Internet of Things	360
<i>Zeng Yun (Guilin University of Technology, China)</i>	
Research and Analysis on Network Model of Enterprise Technology Research and Development and Innovation Based on STATA Software	365
<i>Fei Yu (Guilin University of Electronic Science and Technology, China) and Wenjing Wu (Guilin University of Electronic Science and Technology, China)</i>	
Intelligent System Construction Method Based on Smart Contract	370
<i>Tianxiang Xu (University of Jinan, China) and Chang Liu (Chang Liu Jiangsu Fengren Information Technology Co., Ltd., China)</i>	
A Mongolian-Chinese Neural Machine Translation Model Based on Transformer's Two-Branch Gating Structure	374
<i>Genmao Zhang (Inner Mongolia University of Technology, China), Yonghong Tian (Inner Mongolia University of Technology, China), Jia Hao (Inner Mongolia University of Technology, China), and Junjin Zhang (Inner Mongolia University of Technology, China)</i>	
Neural Network Modeling of Nonlinear Systems Based on Extreme Learning Machine	378
<i>Yishan Gong (Shenyang University of Technology, China) and Linzhu Wang (Shenyang University of Technology, China)</i>	
A Real-Time Smoke Early Warning Method Based on Spark and Improved Random Forest	383
<i>Bowen Wang (Shanghai Polytechnic University, China) and Jian Zheng (Shanghai Polytechnic University, China)</i>	
Fire Risk Assessment Based on SMOTE and Bayesian Network	388
<i>Yanhe Shi (North China University of Technology, China) and Jian-Bo Gao (North China University of Technology, China)</i>	
Robust Value Class Data Based Block Data Storage	392
<i>Fei Liang (State Grid Key Laboratory of Information & Network Security, China), Xiuli Huang (State Grid Key Laboratory of Information & Network Security, China), Peng Gao (State Grid Key Laboratory of Information & Network Security, China), and Xianzhou Gao (State Grid Key Laboratory of Information & Network Security, China)</i>	
Knowledge and Experience Guided Heterogeneous Multi-UAV Mission Planning Method	396
<i>Weijiang Zhou (Space Engineering University, China), Hongxing Zheng (Harbin Institute of Technology, China), and Xudong Xie (Harbin Institute of Technology, China)</i>
