Volume 12720

Proceedings of SPIE 0277-786X, V. 12720

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *2022 Workshop on Electronics Communication Engineering*, edited by Letian Huang, Proc. of SPIE 12720, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

2022 WORKSHOP ON ELECTRONICS COMMUNICATION ENGINEERING

- 12720 02 **Intent prediction-based industrial data flow scheme** [12720-8]
- 12720 03 **Information extraction and analysis for the night time light data of two sides of Helan Mountain from 1992 to 2013** [12720-19]
- 12720 04 **Research on big data circulation and application architecture** [12720-6]
- 12720 05 **Coupling capacitor design and optimization for high speed circuits** [12720-2]
- 12720 06 **Design of a Q-band FSS with controllable numbers of the band** [12720-7]
- 12720 07 **A new march test for FinFET memory functional fault detection** [12720-12]
- 12720 08 **Spectral and energy efficiency analysis of IRS-assisted dual UAVs detection system** [12720-1]
- 12720 09 **A high-performance DRL-based mobile edge offloading for elastic satellite network** [12720-4]
- 12720 0A **Research on near field communication (NFC) technology of E-CNY hard wallet** [12720-9]
- 12720 0B **Railway vehicle network control system based on artificial intelligence** [12720-44]
- 12720 0C **Application research of computer communication technology in network remote control** [12720-45]
- 12720 0D **Analysis of key technologies in IoT information security** [12720-46]
- 12720 0E **An efficient CNN-RNN recognition network for complex interference signal** [12720-3]
- 12720 0F **Artificial intelligence technology pushes forward the modernization of firepower weapon equipment** [12720-5]
- 12720 0G **A frequency-tunable dual-band polarization conversion metasurface** [12720-13]
- 12720 0H **Simulation of heat exchanger temperature control based on Smith predictive fuzzy PID** [12720-18]

- 12720 0I **APF-APSO: UAV swarm cooperation algorithm for multi-target search in complex reconnaissance environments** [12720-21]
- 12720 0J **Realization of online detection algorithm for circularity of automobile electrical wiring terminal based on machine vision** [12720-17]
- 12720 0K **A novel vision-guided strategy for accurately delivering the drill pipe of the horizontal directional drilling rigs** [12720-27]
- 12720 0L **Full-size visual inspection system and method for semiconductor packaging lead-frame** [12720-34]
- 12720 0M **Design of a photometric stereo-based depth camera for robotic 3D reconstruction** [12720-40]
- 12720 0N **Analysis of cutting performance and pressure characteristics of mine water jet cutting machine** [12720-14]
- 12720 0O **Design and optimization of liquid state machine for handwritten digit recognition** [12720-16]
- 12720 0P **Prediction of single-track deposition quality in additive manufacturing of NiTi shape memory alloy** [12720-23]
- 12720 0Q **Effect of toolholder stiffness on the product surface roughness in turning process by using the simulation method** [12720-25]
- 12720 0R **Design and analysis of bridge-lever composite flexure mechanisms supporting parallel tip-tilt motion stages** [12720-26]
- 12720 0S **Theoretical analysis for a novel quasi-zero stiffness air spring vibration isolation system** [12720-28]
- 12720 0T **Investigation into machining characteristics of silicon carbide ceramics using ultrasonic vibration-assisted grinding method** [12720-29]
- 12720 0U **A time-varying string length method for a suppression string vibration** [12720-39]
- 12720 0V **Experimental study of asymmetric rolling of HSS M2** [12720-43]
- 12720 0W **Data-driven fault detection of rotating machinery using synthetic oversampling and generative adversarial network** [12720-20]
- 12720 0X **Energy consumption modeling and optimization of part machining process based on feature** [12720-30]
- 12720 0Y **Analysis and experimental verification on load-deflection resistance of integrated four-column load cell** [12720-31]
- 12720 0Z **Research on the application of CNC cutting tool manufacturing technology in intelligent era** [12720-32]
- 12720 10 **Design analysis of intelligent machinery manufacturing process** [12720-36]

- 12720 11 **Improved handle design of mold case circuit breaker based on ergonomics [12720-37]**
- 12720 12 **Springback prediction for sheet metal cold stamping using convolutional neural networks [12720-38]**
- 12720 13 **Methods of auto parts design based on reverse engineering [12720-41]**
