# 2023 IEEE International Conference on Prognostics and Health Management (ICPHM)

#### Artifical Inteligent for PHM, Including Machine Learning

	A Distributed Fault Detection and Estimation for Formation of Clusters of Small Satellites	
	Ailin Barzegar (University of Windsor, Canada), Afshin Rahimi (University of Windsor, Canada)	1
	Reliable Thermal Monitoring of Electric Machines through Machine Learning	
	Panagiotis Kakosimos (Forskargrand 7 & ABB AB Corporate Research, Sweden)	12
	Towards a Deep Reinforcement Learning based approach for real time decision making	
	Stephan Heyns (University of Pretoria, South Africa), Ricardo Ludeke (University of Pretoria, South Africa)	20
	Deep Learning-Based Virtual Metrology in Multivariate Time Series	
	Siho Han (RTM, Korea (South)), Jihwan Min (RTM, Korea (South)), Jui Ma (RTM, Korea (South)), Gyuil Hwang (RTM, Korea (South)), Taeyeong Heo (RTM, Korea (South)), Young Eun Kim (RTM, Korea (South)), Sungjin Kang (RTM, Korea (South)), Hyojun Kim (PSK Inc., Korea (South)), Kisuk Sung (RTM, Korea (South))	30
Artifica	al Inteligent for PHM , Including Machine Learning	
	Age Feature Enhanced Neural Network for RUL Estimation of Power Electronic Devices	
	Zhonghai Lu (KTH Royal Institute of Technology, Sweden), Rui Shi (KTH Royal Institute of Technology, Sweden), Chao Guo (KTH Royal Institute of Technology, Sweden), Mingrui Liu (KTH Royal Institute of Technology, Sweden)	38
	Discovering Depressurization Events in Service Difficulty Reports using Machine Learning  Nobal Niraula (Boeing, USA), Hai Nguyen (The Boeing Company, USA), Sean Hafner (The Federal Aviation Administration, USA), Logan Branscum (The Federal Aviation Administration, USA), Eric Brown (The Federal Aviation Administration, USA), Jennifer Kansal (The Boeing Company, USA), Ricardo Garcia (The Federal	
	Aviation Administration, USA)	48
	Robust Contrastive Learning and Multi-shot Voting for Multivariate Prognostics  Tony Lindgren (Stockholm University & Scania, Sweden), Olof Steinert (Scania CV AB, Sweden), Sindri Magnùsson (Stockholm University, Sweden), Kaiji Sun (Stockholm University, Sweden)	<b>5</b> 2
	Using Digital Twins for CBM+ and RAMS Decision Support Vincent Mendoza (2233 Pajaro st & Siemens, USA), Johnny Morgan ( & Siemens PLM, USA), Marlene Haag (Siemens, USA)  Exploring the use of PHM for system security and resilience Rajesh Murthy (GAPASK, Canada)	
Standa	rd & Model-based Methods	
	Bearing compound fault diagnosis based on enhanced variational mode extraction algorithm	
	Chaoang Xiao (Tongji University, China), Jianbo Yu (Tongji University, China), Pu Yang (Tencent Incorporation, China), Shang Yue (Tencent Incorporation, China), Ruixu Zhou (Tencent Incorporation, China)	73
	Fault State Prediction Model of Repaired Equipment Considering Maintenance Effect	
	Jiahui Wang (Beihang University, China), Lin Ma (Beihang University, China), Ankang Chen (BUAA, China), Qiannan Liu (BUAA, Sweden), Mingshun Ma (China Agricultural University, China)	79
	A causal graph-based framework for satellite health monitoring	
	Jie Meng (University of Chinese Academy of Sciences, China), Liang Chang (University of Chinese Academy of Sciences, China)	89

### Artifical Inteligent for PHM , Including Machine Learning

	Generative Adversarial Network for State of Health Estimation of Lithium-ion Batteries  Zhuang Ye (Tongji University, China), Jianbo Yu (Tongji University, China), Pu Yang (Tencent Incorporation, China), Shang Yue (Tencent Incorporation, China),	
	Ruixu Zhou (Tencent Incorporation, China)	99
	Intelligent fault diagnosis of rolling bearing based on a deep transfer learning network  Zhenghong Wu (Northwestern Polytechnical University, China), Hongkai Jiang (Northwestern Polytechnical University, China), Sicheng Zhang (School of Civil	
	Aviation, China), Xin Wang (School of Civil Aviation, China), Haidong Shao (Hunan University, China), Haoxuan Dou (Hunan University, China)	105
	Selective Domain Adaptation Network for Lithium-ion Battery Health Monitoring	
	Mengqi Miao (Tongji University, China), Jianbo Yu (Tongji University, China), Pu Yang (Tencent Incorporation, China), Shang Yue (Tencent Incorporation, China),	
	Ruixu Zhou (Tencent Incorporation, China)	112
Artifica	I Inteligent for PHM , Including Machine Learning	
	Convolutional Neural Networks for Gas Turbine Exhaust Gas Temperature and Power Predictions  Thambirajah Ravichandran (University of Waterloo & Tecsis Corporation, Canada), Yuan Liu (Tecsis Corporation, Canada), Amar Kumar (Tecsis Corporation,	
	Canada), Alka Srivastava (Tecsis Corporation, Canada)	119
	Application of Machine Learning for Anomaly Detection in Printed Circuit Boards Imbalance Date Set	113
	Mehrnaz Mirzaei (Concordia University, Canada), Marzieh Saadat (Concordia University, Canada), Farnoosh Naderkhani (Concordia University, Canada)	128
	A Reinforcement Learning Algorithm for Optimal Dynamic Policies of Joint Condition-based Maintenance	
	Hasan Rasay (Kermanshah University of Technology, Iran), Fariba Azizi (Alzahra University, Iran), Mehrnaz Salmani (Concordia University, Canada), Farnoosh	
	Naderkhani (Concordia University, Canada)	134
	Accurate Material Characterization of Wideband RF Signals via Registration-based Curve Fitting Model	
	Yiming Deng (Michigan State University, USA), Deepak Kumar (Michigan State University, USA), Obaid Elshafiey (Michigan State University, USA), Subrata  Mukherjee (Michigan State University, USA), Lalita Udpa (Michigan State University, USA)	400
Sensor	S	
	Bearing fault detection and fault size estimation using an embedded PVDF transducer	
	Bearing fault detection and fault size estimation using an embedded PVDF transducer  Ali Safian (University of Manitoba, Canada), Xihui Liang (University of Manitoba, Canada)	146
		146
	Ali Safian (University of Manitoba, Canada), Xihui Liang (University of Manitoba, Canada)  Mitigating Electrical Losses Through a Programmable Smart Energy Meter Power Theft Algorithm  Daniel Williams (Western New England University, USA), Steven Li (Western New England University, USA), Afsaneh Ghanavati (Wentworth Institute of Technology, USA)	
	Ali Safian (University of Manitoba, Canada), Xihui Liang (University of Manitoba, Canada)  Mitigating Electrical Losses Through a Programmable Smart Energy Meter Power Theft Algorithm  Daniel Williams (Western New England University, USA), Steven Li (Western New England University, USA), Afsaneh Ghanavati (Wentworth Institute of	153
