2023 9th International Symposium on System Security, Safety, and Reliability (ISSSR) **ISSSR 2023**

Table of Contents

Message from the Symposium Chairs	xv
Organizing Committee	xvii
Steering Committee	xviii
Program Committee	xix
Keynote Speaker I	xxi
Keynote Speaker II	xxii
Keynote Speaker III	xxiii

I-A: Reliability Assessment and Modeling I

Advances in Active Learning Kriging Surrogate Models for Reliability Assessment	1
<i>Zhiqiang Zhao (Northeastern University; Key Laboratory of Vibration and Control of Aero-Propulsion System Ministry of Education, China), Liyang Xie (Northeastern University; Key Laboratory of Vibration and Control of Aero-Propulsion System Ministry of Education, China), and Bingfeng Zhao (Northeastern University; Key Laboratory of Vibration and Control of Aero-Propulsion System Ministry of Education, China)</i>	
A Comparison Between Two Frameworks for Reliability of System Based on Multi-Source Data Fusion	11
<i>Xiang Jia (National University of Defense Technology, P. R. China)</i>	
A Review of Parameter Estimation Methods of the Three-Parameter Weibull Distribution	20
<i>Xiaoyu Yang (Northeastern University, P. R. China), Liyang Xie (Northeastern University, P. R. China), Yaoyao Liu (Northeastern University, P. R. China), and Bingfeng Zhao (Northeastern University, P. R. China)</i>	
Reliability Modeling of Complex Systems Considering Correlated Component Life	32
<i>Xinyao Zhang (University of Science and Technology Beijing, China), Lechang Yang (University of Science and Technology Beijing; City University of Hong Kong, China), Chunyan Ling (City University of Hong Kong, China), and Aibo Zhang (University of Science and Technology Beijing, China)</i>	

The Extended BITA-ZK Heuristic for Multi-Type Component Assignment Problems Under Parametric Uncertainty	37
<i>Yida Shi (Shanghai Jiao Tong University, China), Wang Chao (State Key Laboratory of Massive Personalized Customization System and Technology, China), Yumei Wang (State Key Laboratory of Massive Personalized Customization System and Technology, China), XiaoPing Lu (State Key Laboratory of Massive Personalized Customization System and Technology, China), and Siqi Qiu (SJTU Paris Elite Institute of Technology, Shanghai Jiao Tong University, China)</i>	

I-B: Safety and Risk Management I

Consideration in WSN Applying for the Health Monitoring of Transport Aircraft	44
<i>Bin Yao (Commercial Aircraft Corporation of China, Ltd), Rongshan Tang (Commercial Aircraft Corporation of China, Ltd), and Shuangyun Ma (Commercial Aircraft Corporation of China, Ltd)</i>	
Feasibility Study on Thickness Measurement of Coated ZrO ₂ Using Optical Coherence Tomography	49
<i>Jinjian Li (University of Electronic Science and Technology of China, China), Yaoyu Ding (University of Electronic Science and Technology of China, China), Tianyi Zhao (University of Electronic Science and Technology of China, China), Chenguang Lei (University of Electronic Science and Technology of China, China), and Libing Bai (University of Electronic Science and Technology of China, China)</i>	
Managing System Failure Risk: Performance Control and Mission Abort Decisions	55
<i>Qiu Qingan (Beijing Institute of Technology, China)</i>	
Research on Risk Synergetic Governance Mode for Safety Production Accidents of Urban Gas Pipeline Network	62
<i>Yilin Sun (Southwest Petroleum University, China) and Xiaoqiang Zheng (Southwest Petroleum University, China)</i>	
Optimal Mission Abort Planning for Partially Observable System	71
<i>Fanping Wei (Beihang University, China), Shihan Zhou (Beihang University, China), Xiaobing Ma (Beihang University, China), and Li Yang (Beihang University, China)</i>	

I-C: Machine Learning and Data Analysis I

Global Nuclear Weapons Trends Forecast Via Machine Learning	77
<i>Xinlong Zhang (Shanghai Business School, China), Jingdong Wang (Shanghai Business School, China), Shao Qi (Shanghai Business School, China), Pan Liu (Shanghai Business School, China), Li Li (Yichun University, China), and W. Eric Wong (University of Texas at Dallas, USA)</i>	
Architectures and Applications of U-net in Medical Image Segmentation: A Review	84
<i>Jundi Wang (Beijing University of Posts and Telecommunications, China), Lei Han (Beijing University of Posts and Telecommunications, China), and Dongsheng Ran (Beijing University of Posts and Telecommunications, China)</i>	

Statistical Characteristics Analysis of Damage Parameters of Aero-Engine Rotor System Based on Artificial Neural Network	95
<i>Jianpeng Chen (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China), Liyang Xie (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China), Bingfeng Zhao (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China), Hongqiu Wu (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China), and Xiaoyu Yang (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China)</i>	
An Empirical Knowledge Representation Model Based on Similarity Measures of Multi-Compression-Layers for LRE Operational State Identification	106
<i>Fudong Li (Xi'an Jiaotong University, PR China), Jinglong Chen (Xi'an Jiaotong University, PR China), and Zijun Liu (Xi'an Aerospace Propulsion Institute, China)</i>	

II-A: Reliability Assessment and Modeling II

Dynamic Reliability-Based Optimization for the Graduation Precision of End Gear Tray	113
<i>Bingxiang Wang (Northeastern University, China), Xianzhen Huang (Northeastern University; Key Laboratory of Vibration and Control of Aero Propulsion Systems Ministry of Education of China, China), Miaoxin Chang (Northeastern University, China), and Xingang Wang (Guangdong University of Petrochemical Technology, China)</i>	
Reliability Allocation of Adjusting Mechanism of Variable Geometry Turbine Based on Improved Agree Method	123
<i>Hongqiu Wu (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China), Xuehong He (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China), Yi Wang (AECC Shenyang Engine Research Institute, China), Wenxue Qian (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China), and Kai Zhou (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China)</i>	
Reliability Modeling for Fatigue Life of Cutterhead of Tunnel Boring Machine	131
<i>Chong Li (Liaoning Petrochemical University, PR China), Peng Gao (Liaoning Petrochemical University, PR China), Liyang Xie (Northeastern University, PR China), and Jianmin Ren (Liaoning Petrochemical University, PR China)</i>	
Reliability Study of Friction Clutch Based on FMECA	137
<i>Shunjun Fu (Shanghai Marine Equipment Research Institute, China), Qiang Luo (Shanghai Marine Equipment Research Institute, China), Xianglong Ma (Shanghai Marine Equipment Research Institute, China), Cai Hongjun (Shanghai Marine Equipment Research Institute, China), and Ruiyang Ni (Shanghai Marine Equipment Research Institute, China)</i>	

A Characteristic Load Oriented Reliability Allocation Method for Series System with Common Cause Failures	145
<i>Yi Wang (AECC shenyang Engine Research Institute, China), Liyang Xie (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China), Xuehong He (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China), and Hongqiu Wu (Northeastern University; Key Laboratory of Aero Power Equipment Vibration and Control of Ministry of Education, China)</i>	

II-B: Safety and Risk Management II

Fault Warning Method of Guidance, Navigation & Control System Based on Adaptive Correlation Network	N/A
<i>Xiao Xiaoqi (beihang university) and Xu Dan (beihang university)</i>	
Quantitative Risk Assessment and Management of Hydrogen Leaks from Offshore Rocket Launching Platforms	149
<i>Xiangyu Kong (Harbin Engineering University, China), Yan Dong (Harbin Engineering University, China), Jichuan Kang (Harbin Engineering University, China), and Jeom Kee Paik (Harbin Engineering University, China; University College London, United Kingdom)</i>	
Efficiently Verifying Mutually Exclusive Inconsistency of Requirements for Embedded Systems	156
<i>Xiaohong Chen (East China Normal University, China), Kun Ruan (Jilin University, China), Zhi Jin (Peking University, China), Junhu Li (Southwest China Research Institute of Electronic Equipment, China), and Lingling Zheng (Southwest China Research Institute of Electronic Equipment, China)</i>	
A Stable Lifting Convolutional Autoencoder for Anomaly Detection of Turbopump Bearings of Liquid Rocket Engine	168
<i>Zhen Shi (Xi'an Jiaotong University, PR China), Yanyang Zi (Xi'an Jiaotong University, PR China), Jinglong Chen (Xi'an Jiaotong University, PR China), and Mingquan Zhang (Xi'an Jiaotong University, PR China)</i>	
Insulation Coordination Design for Information Technology Equipment with Higher Overvoltage Category	175
<i>Shun Zhang (Cisco Systems (China) Research and Development Co., Ltd., China) and Haiwen Lu (Cisco Systems (China) Research and Development Co., Ltd., China)</i>	

II-C: Machine Learning and Data Analysis II

A Method for Degradation Modeling and Prediction Based on Inverse Gaussian Process Supported by Artificial Neural Network	183
<i>Xiaochuan Duan (Tianmushan Laboratory, Xixi Octagon City, Yuhang District, China; Beihang University, China), Di Liu (Tianmushan Laboratory, Xixi Octagon City, Yuhang District, China; Beihang University, China; Key Laboratory of Flight Techniques and Flight Safety, CAAC, China), Shaoping Wang (Tianmushan Laboratory, Xixi Octagon City, Yuhang District, China; Beihang University, China), and Yaoxing Shang (Tianmushan Laboratory, Xixi Octagon City, Yuhang District, China; Beihang University, China)</i>	
Link Value Estimation Based Graph Attention Network for Link Prediction in Complex Networks	189
<i>Zhiwei Zhang (Suzhou University, China), Xiaoyin Wu (Suzhou University, China), Haifeng Xu (Suzhou University, China), Lin Cui (Suzhou University, China), Haining Zhang (Suzhou University, China), and Wenbo Qin (Suzhou University, China)</i>	
Multi-Source Navigation Sensor Backend Information Fusion Technology Based on D-S Evidence Theory	197
<i>Senzao Liu (School of Automation Engineering; AVIC Chengdu Aircraft Design and Research Institute, China), Kunpeng Li (School of Automation Engineering), Jinhua Mi (School of Automation Engineering; University of Electronic Science and Technology of China, China), Rui Huang (AVIC Chengdu Aircraft Design and Research Institute, China), and Tong Guo (AVIC Chengdu Aircraft Design and Research Institute, China)</i>	
Classification of Multi-Class Weather Image Data	203
<i>Shanshan Li (Suzhou University, China), Wenquan Tian (Suzhou University, China), Xiaoyin Wu (Suzhou University, China), Chengfang Tan (Suzhou University, China), and Lin Cui (Suzhou University, China)</i>	

III-A: Maintenance and Optimization I

Research on Multi Maintenance Stations Scheduling Method for Passenger Elevators with Considering Priority	208
<i>Yimin Wei (Zhejiang Sci-Tech University), Wei Feng (Zhejiang Sci-Tech University), and Yadong Jiang (Shanghai Marine Equipment Research Institute)</i>	
An Investigation on Determining Surface Damage Tolerance of High-Speed Train Axles	217
<i>Lijun Ma (Beijing Jiaotong University, China), Qiang Li (Beijing Jiaotong University, China), and Wenjing Wang (Beijing Jiaotong University, China)</i>	

Research on Degradation Characteristics of Ultrasonic Motors Based on Accelerated Storage Test	223
<i>Zemin Yao (Beijing Key Laboratory of Environment and Reliability Test Technology for Aerospace Mechanical and Electrical Products, China; Key Laboratory of Reliability and Environmental Engineering Technology for National Defense Science and Technology, China; Beijing Institute of Spacecraft Environment Engineering, China), Shouqing Huang (Beijing Key Laboratory of Environment and Reliability Test Technology for Aerospace Mechanical and Electrical Products, China; Key Laboratory of Reliability and Environmental Engineering Technology for National Defense Science and Technology, China; Beijing Institute of Spacecraft Environment Engineering, China), Huiming Zheng (Beijing Institute of Spacecraft Environment Engineering, China), Hao Wang (Beijing Key Laboratory of Environment and Reliability Test Technology for Aerospace Mechanical and Electrical Products, China; Key Laboratory of Reliability and Environmental Engineering Technology for National Defense Science and Technology, China; Beijing Institute of Spacecraft Environment Engineering, China), and Pengfei Wang (Beijing Institute of Spacecraft Environment Engineering, China)</i>	
Remaining Useful Life Prediction Considering Data and Model Uncertainties	230
<i>Yuling Zhan (Zhejiang University, China), Ziqi Wang (Zhejiang University, China), and Zhengguo Xu (Zhejiang University, China)</i>	
A Mixed Method for Estimating Parameters of Three-Parameter Weibull Distribution	237
<i>Renyan Jiang (Wenzhou University, China), Fengping Li (Wenzhou University, China), Wei Xue (Wenzhou University, China), Xiao Li (Wenzhou University, China), and Kunpeng Zhang (Wenzhou University, China)</i>	

III-B: Image and Signal Processing

YOLO-CBD: A Recognition and Detection Method for Cigarette Box Based on YOLOv5	243
<i>Shengchun Li (China Tobacco Chongqing Industrial Co., Ltd, China), Sen Zhou (China Tobacco Chongqing Industrial Co., Ltd, China), Yong Huang (China Tobacco Chongqing Industrial Co., Ltd, China), Changhong Liu (China Tobacco Chongqing Industrial Co., Ltd, China), and Xiaoxiang Deng (China Tobacco Chongqing Industrial Co., Ltd, China)</i>	
Trellis Coded Quantization for JPEG Compression	251
<i>Haoxing Tan (Southwest Jiaotong University, China)</i>	
The Diverse Performance and Synergistic Integration of Multiple Image Coding Methods In X2gokdrive	256
<i>Shuang Qiu (South West Jiaotong University, China) and Haoxing Tan (South West Jiaotong University, China)</i>	
A Novel Method for Medical Semantic Word Sense Disambiguation by Using Graph Neural Network	263
<i>Yuhong Zhang (Henan University of Technology, China), Kezhen Zhong (Henan University of Technology, China), and Guozhen Liu (Henan University of Technology, China)</i>	

III-C: Uncertainty Analysis and Modeling

Flexible Selection for Efficient Latin Hypercube Design Optimization Method in Uncertainty Quantification	273
<i>Dong Liu (Beihang University, China), Jian Shi (Beihang University, China), Chao Zhang (Beihang University, China), and Di Liu (Beihang University, China)</i>	
Vulnerability Assessment of UHV Converter Station Considering Cognitive Uncertainty	280
<i>Hongjun Wang (University of Electronic Science and Technology of China, P.R. China), Kai Wang (University of Electronic Science and Technology of China, P.R. China), Man Luo (State Grid Sichuan Technical Training Center, China), Tangfan Xiahou (University of Electronic Science and Technology of China, China), and Changhua Zhang (University of Electronic Science and Technology of China, China)</i>	
Reliability Analysis of System with Uncertainty Based on Generalized Survival Signature	287
<i>Jinhua Mi (School of Automation Engineering, University of Electronic Science and Technology of China, China; Center for System Reliability and Safety, University of Electronic Science and Technology of China, China), Jie Hu (University of Electronic Science and Technology of China, China), Yan-Feng Li (University of Electronic Science and Technology of China, China), and Dong Sun (University of Electronic Science and Technology of China, China)</i>	

IV-A: Maintenance and Optimization II

A Multi-Stage Quantitative Resilience Optimization Model of Power Systems Subjected to Hurricane Hazards	292
<i>Feng Wang (The State Key Laboratory of Industrial Control Technology, Zhejiang University, China; The Huzhou Institute of Zhejiang University, China), Chenli Shi (The State Key Laboratory of Industrial Control Technology, Zhejiang University, China; The Huzhou Institute of Zhejiang University, China), Jiamu Ling (The State Key Laboratory of Industrial Control Technology, Zhejiang University, China; The Huzhou Institute of Zhejiang University, China), and Zhengguo Xu (The State Key Laboratory of Industrial Control Technology, Zhejiang University, China; The Huzhou Institute of Zhejiang University, China)</i>	
Type Accounting: A Mechanism for Growing Implicit Geo-Number Chains for Multi-Objective Evolutionary Geometry	300
<i>Ziyang Weng (Wuhan University, China), Shuhao Wang (Wuhan University, China), and Ming Yang (Wuhan University, China)</i>	
Structured Process Mining in Maintenance Performance Analysis: A Case Study in the Offshore Oil and Gas Industry	306
<i>Jingrui Ge (Technical University of Denmark, Denmark), Kristoffer Wernblad Sigsgaard (Technical University of Denmark, Denmark), Niels Henrik Mortensen (Technical University of Denmark, Denmark), Kasper Barslund Hansen (Technical University of Denmark, Denmark), and Julie Krogh Agergaard (Technical University of Denmark, Denmark)</i>	

Multi-Objective Optimization of Coal Mill Outlet Temperature Control Using MPC	314
<i>Zengji Zhang (Sinoma International Engineering Co., Ltd., China), Yicheng Zhang (Zhejiang Sci-Tech University, China), Wei Shen (Zhejiang Sci-Tech University, China), and Xukang Lyu (Zhejiang New Rise Digital Technology Co., Ltd., China)</i>	
Performance Evaluation for an Elevator by Analyzing the Vibration Data of the Car	321
<i>Yinmin Wei (Zhejiang Sci-Tech University, P.R.C), Xiaolong Wang (Zhejiang Sci-Tech University, P.R.C), Zheng Lin (Zhejiang Sci-Tech University; Zhejiang Academy of Special Equipment Science, P.R.C), Minjie Shi (Zhejiang Sci-Tech University, P.R.C), and Bin Feng (Hangzhou Youmai Tech.Co., Ltd, P.R.C)</i>	
Research on Modeling and Model Modification Technology for Prediction of Gear Pair Wear Life Under Mixed Lubrication	331
<i>Lihua Meng (Avic China Aero-Polytechnology establishment Department, China), Junyang Li (Chongqing University, China), and Jiang Shao (Avic China Aero-Polytechnology establishment Department, China)</i>	

IV-B: System Simulation, Analysis, and Modeling

Modelica Based General Fault Simulation and Analysis Method	342
<i>Ni Bo (Shanghai Jiaotong University, China), Liu Zhihui (Suzhou Tongyuan Software&Control Tech. Co. Ltd, China), Xi Lifeng (Shanghai Jiaotong University, China), and He Yuan (Suzhou Tongyuan Software&Control Tech. Co. Ltd, China)</i>	
A Parsing-Based Approach for Constructing Executable EFSM	349
<i>Zhijie Pan (Zhejiang Sci-Tech University, China), Ting Shu (Zhejiang Sci-Tech University, China), and Zuohua Ding (Zhejiang Sci-Tech University, China)</i>	
Simulation of Online Emotional Public Opinion via Cellular Automata Model	358
<i>Xinlong Zhang (Shanghai Business School, China), Jingdong Wang (Shanghai Business School, China), Qi Shao (Shanghai Business School, China), Pan Liu (Shanghai Business School, China), and Li Li (Yichun University, China)</i>	
Thermal-Hydraulic Modeling and Simulation of the Electro-Hydrostatic Actuator Hydraulic System Based on Lumped-Parameter Method	361
<i>Haifeng Yang (Hangzhou Applied Acoustics Research Institute, China), Dongjie Ren (Hangzhou Applied Acoustics Research Institute, China), Xinyu Yang (Beihang University, China), Wenxin Lin (Hangzhou Applied Acoustics Research Institute, China), and Benhui Liu (Shanghai Electro-Mechanical Engineering Institute, China)</i>	
Free Vibration Characteristics of Composite Hybrid Lattice Sandwich Panels Through Finite Element Method	369
<i>Weimeng Xie (Wuhan University of Technology, China), Mengzhen Li (Wuhan University of Technology, China), and Haoran Wang (Wuhan University of Technology, China)</i>	

IV-C: Data Transmission and Optimization in Cloud Computing

A Video Transmission Optimization Scheme for Web-Based Cloud Desktop Protocol	376
<i>Danqi Ma (Southwest Jiaotong University, China) and Yinsen Kou (Southwest Jiaotong University, China)</i>	
An Optimised Design for Streaming Media in Cloud Desktop System	386
<i>Wei-Chen Ma (Southwest Jiaotong University, China)</i>	
A Research on USB Device Remote Sharing Methods in Virtual Desktop Environment	391
<i>Luge Yang (Southwest Jiaotong University, China)</i>	

V-A: Maintenance and Optimization III

The Tribute Algorithm: Calculation of Evolutionary Goal Optimization Considering Cooperative Regional Communities	398
<i>Ziyang Weng (Wuhan University, China) and Shuhao Wang (Wuhan University, China)</i>	
Conquering Sorting: A Study of the Distributional Characteristics of Information Entropy-Preserving Evolutionary Groups	406
<i>Ziyang Weng (Wuhan University, China), Shuhao Wang (Wuhan University, China), and Jingwei Zhang (Wuhan University, China)</i>	
A Simple Algorithm for Disintegrating Information Exchange Network of UAV Swarm	414
<i>Louzhaohan Wang (National University of Defense Technology, China), Yun Huang (National University of Defense Technology, China), Haifeng Dai (Unit 31453, China), Guanghan Bai (National University of Defense Technology, China), and Junyong Tao (National University of Defense Technology, China)</i>	
A Network Performance Optimization Solution for X2Go Kdrive in Low-Bandwidth Environments ...	420
<i>Yinsen Kou (Southwest Jiaotong University, China)</i>	
Sensitivity Analysis of Thermal Runaway Side Reaction of Lithium Batteries Based on Morris Method	427
<i>Zhiyi Man (Beihang University, China), Shaoping Wang (Beihang University, China), Chao Zhang (Beihang University, China), and Yun Zhu (AECC Aero-Engine Control System Institute, China)</i>	

V-B: Fast Abstract

A Hybrid Prognostic Framework for Rolling Bearings Based on Health Indicator Construction and the Wiener Process Model	438
<i>Zhiyuan Wang (Southwest Petroleum University, P. R. China), Junyu Guo (Southwest Petroleum University, P. R. China), and Yulai Yang (Southwest Petroleum University, P. R. China)</i>	
Vision Based Leader-Follower Control of Wheeled Mobile Robots Using Reinforcement Learning and Deep Learning	440
<i>Kayleb Garmon (Kennesaw State University, USA) and Ying Wang (Kennesaw State University, USA)</i>	

Fault Diagnosis for Time Series Signal based on Transfer Learning in Time-Frequency Domain	442
<i>Wing-Chong Lo (Centre for Advances in Reliability and Safety Limited (CAiRS), Hong Kong SAR), C.K.M. Lee (The Hong Kong Polytechnic University, Hong Kong SAR), Chak-Nam Wong (Centre for Advances in Reliability and Safety Limited (CAiRS), Hong Kong SAR), and Jingyuan Huang (Centre for Advances in Reliability and Safety Limited (CAiRS), Hong Kong SAR)</i>	
A Static CFG Extraction Scheme for RISC-V Runtime CFI	444
<i>Wenxin Li (Shandong University of Science and Technology, China), Weike Wang (Shandong University of Science and Technology, China), Senyang Li (Shandong University of Science and Technology, China), and Zhenliang An (Shandong University of Science and Technology, China)</i>	
Author Index	447
