2023 12th International Conference of Information and Communication Technology (ICTech)

ICTech 2023

Table of Contents

Preface ..... **xxii**
Acknowledgement ..... **xxiii**
Editorial ..... **xxiv**
Conference Organization ..... **xxvii**
International Advisory Committee ..... **xxviii**
Program Review Committee ..... **xxix**
Reviewers ..... **xxxii**

Computer & Information Science

Speed Control of PMSM Based on Improved Whale Optimization Algorithm 1
Nan Zhang (Shenyang University of Chemical Technology, China) and Meng Chen (Shenyang CASNC Technology Co., Ltd., China; Shenyang Institute of Computing Technology Chinese Academy of Sciences, China)

Named Entity Recognition in Fire Control Texts Based on BERT 7
Xiangru Meng (University of Chinese Academy of Sciences, China), PengFei Cao (University of Chinese Academy of Sciences, China), and ManNing Ma (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Medical Assistant Visual Teaching System based on VTK 13
Mo Su (Shenyang Institute of Computing Technology Co., Ltd., CAS; University of Chinese Academy of Sciences, China), Mingrui Hu (Shenyang Institute of Computing Technology Co., Ltd., CAS; University of Chinese Academy of Sciences, China), Ning Wang (Shenyang Institute of Computing Technology Co., Ltd., CAS, China), Jianzhong Qiao (Northeastern University, China), Yanjun Gao (The Fourth Affiliated Hospital of China Medical University, China), and Guanglu Qi (Shenyang Fire Science and Technology Research; Institute of MEM, China)

Research and Improvement of Mosquitto Theme Subscription Mechanism 19
Yuyi Liu (University of Chinese Academy of Sciences, China) and Pin Wang (University of Chinese Academy of Sciences, China)

RDF Date Storage Scheme Based on Graph Database 24
LiuLong Fang (Shenyang University of Chemical Technology, China) and Chulan Ren (Shenyang University of Chemical Technology, China)

Overview of Distributed Task Scheduling 29
Ruifeng Guo (University of Chinese Academy of Sciences, China), Hongliang Wang (University of Chinese Academy of Sciences, China), Youkang Li (University of Chinese Academy of Sciences, China), and Pengfei Xiu (University of Chinese Academy of Sciences, China)

Bi-Mapping Between RDF and Property Graphs 34
Guanghui Zhang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Bo Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Liping Bu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Research on Improved General Property Graphs Query Method Based on TinkerPop 40
Jiahao Wang (University of Chinese Academy of Sciences, China) and Song Wang (University of Chinese Academy of Sciences, China)

An Ameliorated Algorithm of Hybrid Vulture Optimization Based on Lens Reverse Learning Strategy 46
Liping Bu (Shenyang Institute of Computing Technology Chinese Academy of Science, China), Shaojie He (University of Chinese Academy of Science, China), and Te Zhou (Neusoft Group Co., Ltd., China)

A Collaborative Filtering Algorithm with Improved User Similarity Calculation for Enhanced Recommendation Accuracy and Personalization 51
Shili Ding (University of Chinese Academy of Sciences, China), Yue Fan (University of Chinese Academy of Sciences, China), Jing Liu (Taishan University, China), and Yonghong Zhang (Shandong University, China)

Knowledge Graph Completion Algorithm Based On Multimodal Representation Learning 55
Chang Liu (University of Chinese Academy of Sciences, Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Dongsheng Yang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Bihui Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Liping Bu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Research on Algorithm of Multi-Type and Multi-Objective Vehicle Routing Problem with Time Windows 59
Haiyan Shi (Shenyang University of Chemical Technology, China), Jun Liu (Shenyang University of Chemical Technology, China), Funan Peng (Shenyang University of Chemical Technology, China), and Qingfeng Qin (Shenyang University of Chemical Technology, China)

The Improvement of Scheduling Algorithm Based on Token Bucket and Weighted Fair Queue 66
Zaiqun Wu (Baise University, China), Huanchang Qin (Baise University, China), Xiaomei Song (Baise University, China), Guangyan Fu (Baise University, China), and Jiangfeng Li (Baise University, China)

Named Entity Recognition Based on Boundary Enhanced for Chinese Electronic Medical Records… 73
Xueliang Chen (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Tianming Liu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Gongzheng Tang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), and Yunjiang Liu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences; Laboratory of Big Data and Artificial Intelligence Technology, Shandong University, China)

An Attention-Based Entity Linking Method for Chinese Knowledge Base Question Answering System 78
Qianqian Han (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China) and Cen Gao (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China)

Simulation of Traditional Culture Communication Model Based on Big Data Algorithm 83
Zhang Qi (Northwest Minzu University, China)

Network Adaptation Method for Ghost Imaging 88
Yue Zhou (Xi'an Jiaotong University, China), Yuchen He (Xi'an Jiaotong University, China), Jianming Yu (Xi'an Jiaotong University, China), Shuai Mao (Xi'an Jiaotong University, China), and Chong Wang (Xi'an Jiaotong University, China)

Performance Analysis of Cognitive Wireless Network Based on Multi-Relay Collaboration 93
Yuhan Yang (Guangzhou, China) and Jianquan Yang (Guangzhou, China)

Data Center Traffic Rescheduling Algorithm Based on Ant Colony Optimization Algorithm 98
Shibin Li (Chongqing University of Posts and Telecommunications, China) and ZhaoHua Long (Chongqing University of Posts and Telecommunications, China)

Wordle Simulation System based on Human Brain Thinking 103
Mingkun Jiang (Wuhan University of Technology, China)

Maintenance and Repair of Windshields for High Speed Multiple Units 110
Yongrong Jin (HuNan Railway Professional Technology College, China), Xiaoli Chen (HuNan Railway Professional Technology College, China), and Chunmian Chen (HuNan Railway Professional Technology College, China)

Fusion of Visible and Infrared Images Using Efficient Online Convolutional Dictionary Learning 117
ChengFang Zhang (Intelligent Policing Key Laboratory of Sichuan Province, Sichuan Police College, China) and Kai Yi (Intelligent Policing Key Laboratory of Sichuan Province, Sichuan Police College, China)

Design of Mobile Geographic Information System Based on Android 122
Lei Xiang (Hunan Automotive Engineering Vocational College, China), Jun Guo (Hunan Automotive Engineering Vocational College, China), and Xike Zhang (Shenzhen National Climate Observatory, China)

P2P Traffic Identification under Dual Protocol Stack Based on the C4.5 Decision Tree Algorithm 127
Xiaodong He (Yunnan Normal University, China)

Artificial Intelligence

XGBoost-Based Alignment Determination of Rotation Axis under Leakage Field 132
Dongmei Li (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China) and Zunyan Bo (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China)

Attention-LSTM-Based Prediction Model of PM2.5 Hourly Concentration 137
Liu Yang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Di Zhang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), JianXi Li (Liaoning Ecological and Environmental Monitoring Center, China), LiXing Kang (Liaoning Ecological and Environmental Monitoring Center, China), and SiTong Zhao (Shenyang No.22 Middle School, China)

Construction Method of Power Knowledge Map Based on Deep Neural Network Model 142
Chuang Zheng (Shenyang Institute of Computing Technology Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Tong Li (Northeastern University; State Grid Liaoning Electric Power Research Institute, China), Jin He (Information communication branch of Liaoning Electric Power Co., Ltd, China), and Zhanguo Wang (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China)

Research on Improved Faster R-CNN in Stacked Artifact Recognition 146
Weiguang Han (University of Chinese Academy of Sciences, China) and Xuesong Han (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

A Workshop Safety Inspection Model Based on Deep Learning 151
WeiJie Li (Shenyang University of Chemical Technology; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), LiaoMo Zheng (University of Chinese Academy of Sciences; Shenyang CASNC Technology Co., Ltd.; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Yang Zhao (Shenyang University of Chemical Technology, China), and ShiYu Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Code Recommendation Based on Deep Learning 156
Hao Sun (University of Chinese Academy of Sciences, China), ZhiFei Xu (The Chinese University of Hongkong, China), and Xu Li (Beijing Zhongke Zhihe Digital Technology Co., Ltd, China)

Design and Implementation of Domestic Garbage Classification System Based on Deep Learning Model Fusion 161
Wanqing Long (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Xiaojun Xia (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Ying Gao (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Yongxu Zhong (University of Chinese Academy of Sciences; Chongqing Institutes of Green and Intelligent Technology, Chinese Academy of Sciences, China)

H-CE: An Event Correlation Discriminant Model Based on Event Composition Features and Embedded Representation 167
Xiaowei Chen (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Huajun Sun (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), and Bihui Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Fatigue Monitoring and Awakening System Based on Eye Electrical and Head Movement Parameters Monitoring 174
YueFang Dong (University of Sciences and Technology of China; Chinese Academy of Sciences, China), HaiLong Zhu (Chinese Academy of Sciences, China), Zhe Zhou (Chinese Academy of Sciences, China), and Weiwei Fu (University of Sciences and Technology of China; Chinese Academy of Sciences, China)

Improved Bacteria Feeding Algorithm which based on Adaptive Probability 179
Cen Gao (Shenyang Institute of Computing Technology, Chinese Academy of Sciences Shenyang, China) and Xiangning Zhu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences Shenyang, China)

Prediction of Coagulant Dosage in Waterworks Based on Ensemble Learning 184
Yingtao Hu (University of Chinese Academy of Sciences, China), Yonghong Zhang (Shandong University, China), Duan Jian (Institute of Future Artificial Intelligence Technology and Innovative Applications, China), and Jin Li (University of Chinese Academy of Sciences, China)

Industrial Pollutant Forecast Based on Time Convolutional Networks 190
Di Zhang (University of Chinese Academy of Sciences, China), Zhengguang Wang (University of Chinese Academy of Sciences, China), Yan Qiu (The Open University of Deyang, China), and Jianxun Wei (Fuxin Ecological Environment Monitoring Center, China)

Machining Simulation Application Based on Improved Marching Cubes Algorithm 197
Shiqi Zhang (Shenyang University of Chemical Technology, China), Yi Hu (Shenyang CASNC Technology Co., Ltd, China), and Zepeng Li (Shenyang University of Chemical Technology, China)

A Multi-Model Fusion Method for Remaining Engine Life Prediction 202
Zepeng Li (Shenyang University of Chemical Technology, China), Yi Hu (Shenyang CASNC Technology Co., Ltd, China), Jun Wang (Shenyang University of Chemical Technology, China), and Shiqi Zhang (Shenyang University of Chemical Technology, China)

Between Detection and Segmentation: A Row Selection Based Detector for Crop Line Detection in Paddy Field 207
Dongsheng Yang (Shenyang Institute of Computing Technology, Chinese Academy of Science, China), Juanyong Luo (University of Chinese Academy of Science, China), and Shuhong Lu (University of Southern California, US)

Inversion and Prediction of Carbon Emissions Based on Remote Sensing Data and BP-XGBoost Model 217
Guodong Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Ning Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Xiaolei Zhou (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Yan Qiu (The Open University of Deyang, China)

Improved Polar Decoder Based on Modular Neural Network Structure 224
Yuhan Yang (Guangzhou, China) and Jianquan Yang (Guangzhou, China)

A New Multimodal Video Detection Model and Dataset 230
Bihui Yu (University of Chinese Academy of Sciences, China), Jingxuan Wei (University of Chinese Academy of Sciences, China), Shaojie He (University of Chinese Academy of Sciences, China), Shuyue Tan (University of Chinese Academy of Sciences, China), Linzhuang Sun (University of Chinese Academy of Sciences, China), and Chang Liu (University of Chinese Academy of Sciences, China)

Research on Intention Recognition of Educational Counseling Combining BERT and Concept Map 236
Sida Gao (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China) and Yuqian Bao (Nanjing Agricultural University, China)

Multi-Body Collaborative Scheduling Strategy Based on Bessel Curve and Grey Wolf Algorithm… 241
Chunrun Su (Wuhan University of Technology, China), Borui Zhang (Wuhan University of Technology, China), and Yujia Li (Wuhan University of Technology, China)

Research on Key Technology and Application of Epidemiological Survey Using Knowledge Graph..... 249
Dan Liu (China Electronic Port Data Center Guangzhou Branch, China), Yanbin Zhang (Guangzhou Customs Technology Center, China), Lina Chao (China Electronic Port Data Center Guangzhou Branch, China), Yang Su (Guangzhou Customs Technology Center, China), Peiyan Qi (Guangzhou International Travel Health Care Center, China), Daojun Ye (Guangzhou Customs District, China), Hongda Lin (Guangzhou Customs District, China), Xiuying Fan (Guangzhou Customs District, China), Qingwen Feng (Guangzhou Customs District, China), and Jinshun Zhou (China Electronic Port Data Center Guangzhou Branch, China)

Reparameterization of a Lightweight Network for Strawberry Flowers Detection 255
XueYing Lin (Chongqing University of Technology, China), Jie Zhou (Chongqing University of Technology, China), Shu Pu (Chongqing University of Technology, China), Bao Zhou (Chongqing University of Technology, China), and YuJin Wang (Chongqing University of Technology, China)

Application of Seq2Seq Model based on TCN-GRU to Multivariate Water Quality Time Series Prediction 261
Yankun Hu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Ning Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Li Lyu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Xiaolei Zhou (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), and Meng Fang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China)

Application of Continuous Time Link Prediction in Traceability of Water Environment Pollution 266
Meng Fang (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Li Lyu (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Ning Wang (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Xiaolei Zhou (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Yankun Hu (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Data Science & Management

SAFD: A Statistical Analysis-Based Feature Point Descriptor 271
Liaomo Zheng (University of Chinese Academy of Sciences; Shenyang CASNC Technology Co., Ltd.; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Yuhu Han (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Qiongwei Zhang (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Lunxing Li (University of Chinese Academy of Sciences; Shenyang CASNC Technology Co., Ltd.; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

COVID-19 Trend Prediction Using CLS-Net Hybrid Model 277
YaShu Chen (Shenyang University of Chemical Technology, China), Jun Liu (Shenyang University of Chemical Technology, China), and Bo Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Design of Distributed Timing Job Scheduling System for Data Analysis Platform 283
LuJun Lin (University of Chinese Academy of Sciences, China) and Yue Tian (University of Chinese Academy of Sciences, China)

Medical Data Sharing Scheme Based on Blockchain-Based Attribute Proxy Re-Encryption 288
MingLiang Zhang (Shenyang University of Chemical Technology, China) and Li Li (Shenyang University of Chemical Technology, China)

Construction of Automobile Consumer Evaluation Model Based on Data Mining Algorithm under the Background of Digital Transformation 294
Li Yang (China Automotive Technology and Research Center Co., Ltd., China; China Auto Information Technology (Tianjin) Co., Ltd., China), Haipeng Cao (China Automotive Technology and Research Center Co., Ltd., China; China Auto Information Technology (Tianjin) Co., Ltd., China), Rui Sun (China Automotive Technology and Research Center Co., Ltd., China; China Auto Information Technology (Tianjin) Co., Ltd., China), and Fan Zhang (China Automotive Technology and Research Center Co., Ltd., China; China Auto Information Technology (Tianjin) Co., Ltd., China)

Credit Text Similarity Calculation Method Combined with Contrast Learning 299
XinTong Li (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China) and BiHui Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Rendering Optimization of Massive Map Annotation Point Data Based on Multi Strategy Fusion 304
Zhijie Wei (University of Chinese Academy of Sciences, China), Xiaolei Zhou (University of Chinese Academy of Sciences, China), Wentai Xing (Qinghai Academy of Building Materials Science, China), Changlin Bao (Qinghai Academy of Building Materials Science, China), Cheng Zhou (Suzhou Jiaoke Group Co., Ltd, China), and Ruipu Cao (Suzhou Jiaoke Group Co., Ltd, China)

Using Fuzzy Clustering with SVM in Credit Classification 310
Ruiqi Feng (Central University of Finance and Economics, China), Lu Han (Central University of Finance and Economics, China), and Muzi Chen (Central University of Finance and Economics, China)

Internet Financial Data Mining and Analysis Based on Internet Data 317
Xinyu Wang (Wuhan University-of Technology, China) and Wenbin Xing (Wuhan University-of Technology, China)

Risk Assessment Method of Major Hazard in Ammunition Depot Based on G1- Fuzzy Comprehensive Evaluation 327
Fancheng Kong (Air Force Logistics Academy, China), Wei Chen (Air Force Logistics Academy, China), Song Gao (Air Force Logistics Academy, China), and Xiaoyu Tan (Air Force Logistics Academy, China)

Real-Time Classification and Detection of Garbage Based on Improved Yolov5 and Embedded System 333
Xuetao Liu (Yangtze University, China)

Big Data Analysis of Digital Music Resources Based on Deep Learning 342
Dan Wu (Huaihua Normal College, China) and Jianmin Zhao (Huaihua Normal College, China)

Construction of Music Popular Trend Prediction Model Based on Big Data Algorithm 346
Dan Wu (Huaihua Normal College, China) and Jianmin Zhao (Huaihua Normal College, China)

Blockchain Technology & IoT

Design and Implementation of Industrial Internet Application Layer Protocol Integrating AES and RSA Encryption Algorithm 351
YanQing Zhao (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Yi Hu (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), XiYang Zhang (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), YongZe Ma (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and YanXin Li (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Web-Based Optimization and Expansion of Multimodal High School Entrance Examination Data Visualization 357
Wei Zhang (University of Chinese Academy of Sciences, China), Duan Jian (University of Chinese Academy of Sciences, China), HongLiang Wang (University of Chinese Academy of Sciences, China), and YongHong Zhang (Shandong University, China)

Design and Implementation of Secure Transmission Architecture for IIOT Based on Blockchain..... 363
Xiyang Zhang (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences Shengyang, China), Yongze Ma (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences Shengyang, China), Yi Hu (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences Shengyang, China), and Yanqing Zhao (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences Shengyang, China)

Trusted Charity System Based on Blockchain Access Control 369
Jingang Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China) and Weifan Chen (University of Chinese Academy of Sciences, China)

Knowledge Graph Construction Method for Mobile IOT Management Platform Device Anomaly . 376
Ning Zhang (State Grid Jibei Infomation & Telecommunication Company, China), Fangjian Shang (State Grid Jibei Infomation & Telecommunication Company, China), and Xin Li (State Grid Jibei Infomation & Telecommunication Company, China)

A Crawler Detection Method for The College Entrance Examination Information Website 383
YaoYao Chen (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Yue Fan (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Xin Li (Criminal Investigation Police University of China, China), and YongHong Zhang (Shandong University, China; Institute of Future Artificial Intelligence Technology and Innovative Applications, China)

Application of Encryption Technology in Information Security of the Internet of Things Perception Layer 388
Jian Yin (Guangdong Weide Information Technology Co., Ltd, China), Congyi Zheng (Guangdong Weide Information Technology Co., Ltd, China), and Dongxi Zheng (Guangdong Weide Information Technology Co., Ltd, China)

A Data Driven Digital Twin Visualization Method for Motion Control 393
Guotai Liu (University of Chinese Academy of Sciences, China), Na Sun (The 703 Research Institute of CSSC, China), and Dong Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Shenyang CASNC Technology Co., Ltd., China)

Research and Application of Distribution Network Dispatching Operation Based on Digital Twinning Technology 399
Junfeng Qiao (State Grid Laboratory of Power Cyber-Security Protection & Monitoring Technology, State Grid Smart Grid Research Institute Co., LTD., China), Zhujian Ou (Nantong Power Supply Company, State Grid Jiangsu Electric Power Co., LTD., China), Lin Peng (State Grid Laboratory of Power Cyber-Security Protection & Monitoring Technology, State Grid Smart Grid Research Institute Co., LTD., China), Fuyun Zhu (Nantong Power Supply Company, State Grid Jiangsu Electric Power Co., LTD., China), Aihua Zhou (State Grid Laboratory of Power Cyber-Security Protection & Monitoring Technology, State Grid Smart Grid Research Institute Co., LTD., China), and Pei Yang (State Grid Laboratory of Power Cyber-Security Protection & Monitoring Technology, State Grid Smart Grid Research Institute Co., LTD., China)

Analysis of China's Blockchain Technology Innovation Situation Based on Patent Metrology 404
Jiang Tao (Shanghai University of Political Science and Law, China) and Hu Shuijing (Shanghai University of Political Science and Law, China)

Communication & Power Systems

TALCLIP: CLIP for Temporal Action Localization 408
Ke Wang (University of Chinese Academy of Sciences, China) and Bihui Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Power Distribution Network Fault Recovery Based on Improved DQN Algorithm 412
Aixin Li (University of Chinese Academy of Sciences, China) and Bo Han (University of Chinese Academy of Sciences, China)

Research on Power Voice Based on WaveNet+LSTM Improvement 419
HanJun Wang (University of Chinese Academy of Sciences, China), MingYun Zhu (University of Chinese Academy of Sciences, China), and Qun Wang (University of Chinese Academy of Sciences, China)

Design and Implementation of Fast Start and Recovery of CNC System Based on AM335x 424
Hao Li (University of Chinese Academy of Sciences, China) and Pin Wang (University of Chinese Academy of Sciences, China)

Improved k-Prototype Clustering Algorithm for Plant-Side of Power Monitoring System 429
Yu Chang (University of Chinese Academy of Sciences, China), Yong Xiang (Shenyang Institute of Computing Technology, Chinese Academy of Science, China), Xing Chang (Shenyang Institute of Computing Technology, Chinese Academy of Science, China), and Xiaokang Ren (University of Chinese Academy of Sciences, China)

Research on Industrial Non-Destructive Testing Technology Based on Improved YOLOv5s 435
Bo Yu (University of Chinese Academy of Sciences, China), Wenhao Chen (University of Chinese Academy of Sciences, China), and Wei Wang (Northeastern University, China)

Research on Defect Segmentation Algorithm of Industrial Products Based on Transformer 441
Bo Yu (University of Chinese Academy of Sciences, China), Zijian Yan (University of Chinese Academy of Sciences, China), and Wei Wang (Northeastern University, China)

Design of Energy-Saving Ventilation Monitoring System 446
Tong Zhu (Nantong University, China) and YongJie Yang (Nantong University, China)

Research and Implementation of Electric Supply Reliability Evaluation Model for Distribution Network 450
Junfeng Qiao (State Grid Key Laboratory of Information, Network Security of State Grid Smart Grid Research Institute Co., LTD, China), Chenhong Huang (Qingpu Power Supply Company, State Grid Shanghai Electric Power Company, China), Aihua Zhou (State Grid Key Laboratory of Information & Network Security, State Grid Smart Grid Research Institute Co, LTD, China), Hua Gu (Qingpu Power Supply Company, State Grid Shanghai Electric Power Company, China), Lin Peng (State Grid Key Laboratory of Information & Network Security, State Grid Smart Grid Research Institute Co, LTD, China), Xingde Huang (Qingpu Power Supply Company, State Grid Shanghai Electric Power Company, China), Xiaofeng Shen (Qingpu Power Supply Company, State Grid Shanghai Electric Power Company, China), and Jingde Chen (Qingpu Power Supply Company, State Grid Shanghai Electric Power Company, China)

Research and Expectation of a New Generation of Smart Energy Meter based on IR46 Standard 455
Wenlin Xu (State Grid Hunan Electric Power Limited Company, China), Peng Zhang (State Grid Hunan Electric Power Limited Company, China), Weijie Zeng (Hunan Province Key Laboratory of Intelligent, Electrical Measurement and Application Technology, State Grid Hunan Electric Power Limited Company Power Supply Service Center (Metrology Center), China), Chao Liu (State Grid Hunan Electric Power Limited Company, China), Xi Liu (State Grid Hunan Electric Power Limited Company, Power Supply Service Center (Metrology Center), China), and Xiangyu Wang (State Grid Hunan Electric Power Limited Company, Power Supply Service Center (Metrology Center), China)

Research on Time-Space-Frequency Multi-Domain Conflict Detection Method for UAV Cluster Mission Planning 464
Xue Junjie (Air Force Engineering University, China), Zhu Jie (Air Force Engineering University, China), Xiao Jiyang (Air Force Engineering University, China), and Kang Weijie (Rocket Force University of Engineering, China)

Realization of Flexible Scaling Technology for Computing Tasks in Power Automation System Based on Container 469
Yuan Gao (NARI Group Corporation (State Grid Electric Power Research Institute), China), Wenjie Gu (NARI Group Corporation (State Grid Electric Power Research Institute), China), Boyu Chen (NARI Group Corporation (State Grid Electric Power Research Institute), China), Peng Fu (NARI Group Corporation (State Grid Electric Power Research Institute), China), and Wei Liu (NARI Group Corporation (State Grid Electric Power Research Institute), China)

Implementation of IEEE1588 Protocol Based on STM32H750 476
XinFei Xiong (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Fang He (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Yan Li (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), WenZe Han (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), and YanFei Jiao (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China)

Research on Connectivity and Coverage of WSNs Based on Complex Network Characteristics 484
Peng Geng (Nanjing Institute of Technology, China), Annan Yang (Tongda College of Nanjing University of Posts & Telecommunications, China), and Yan Liu (Nanjing Institute of Technology, China)

Comparative Study of Enhanced Partial Discharge Photoelectric Sensing Technology Based on UV Fluorescent Photoconductor 489
Hongliang Liu (State Grid Beijing Electric Power Research Institute; State Grid Beijing Electric Power Company, China), Hongjing Liu (State Grid Beijing Electric Power Research Institute; State Grid Beijing Electric Power Company, China), Nan He (State Grid Beijing Electric Power Research Institute; State Grid Beijing Electric Power Company, China), Wang Miao (State Grid Beijing Electric Power Research Institute; State Grid Beijing Electric Power Company, China), and Lie Fang (State Grid Beijing Electric Power Research Institute; State Grid Beijing Electric Power Company, China)

Rolling Bearing Fault Feature Extraction Based on EMD-CEP-SR Algorithm 494
Jian Ma (Shanghai DianJi University, China), Xu Xu (Shanghai Maritime University, China), QinXiao Chen (Shanghai DianJi University, China), ChenGuang He (Shanghai DianJi University, China), and ChenYa Su (Shanghai DianJi University, China)

TSN and 5G Integrated Network Cross-Domain Scheduling and Routing Method for Power Control Business 503
Weijun Zheng (State Grid Jiaxing Electric Power Supply Company, China), Ying Wang (State Grid Jiaxing Electric Power Supply Company, China), Bin Du (State Grid Jiaxing Electric Power Supply Company, China), Yifei Zhou (State Grid Jiaxing Electric Power Supply Company, China), Qi Ge (State Grid Jiaxing Electric Power Supply Company, China), Jiming Yao (State Grid Smart Grid Research Institute Co., Ltd, China; State Grid Laboratory of Electric Power Communication Network Technology, China), and Liang Zhu (State Grid Smart Grid Research Institute Co., Ltd, China; State Grid Laboratory of Electric Power Communication Network Technology, China)

Construction of Meteorological Emergency Communication System Based on Portable Satellite Emergency Communication Station 509
Jun-Jun Liu (High-tech Institute, China), Shi-Fang Hai (High-tech Institute, China), Zi-Ru Wang (High-tech Institute, China), Yan Zhao (High-tech Institute, China), and Xuesong Shi (High-tech Institute, China)

Research on Real-Time SLAM Algorithm Based on ROS Node 515
Jiaji Fan (Wuhan University of Technology, China)

Abnormal Data Detection Algorithm for Wireless Sensor Networks Based on PLC 521
Zhaoxia Zhang (Hunan Chemical Vacational Technology College, China)

Research on Power Dispatching Speech Recognition Based on Improved Transformer 526
HanJun Wang (University of Chinese Academy of Sciences, China) and HaoYang Lin (University of Chinese Academy of Sciences, China)

An Algorithm Model of Power Grid Maintenance Ticket based on Bert 531
Guoqiang Zhang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences Beijing, China) and Qun Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences Beijing, China)

A Density Routing Algorithm in Wireless Sensor Networks for Dangerous Chemicals Monitoring..537
Zuozan Chen (Yulin Normal University, China), JianHong Wang (Yulin Normal University, China), Bing Xu (Yulin Normal University, China), Lei Xiao (Yulin Normal University, China), and Jun Long (Yulin Normal University, China)

Research and Implementation of Electric Power Line Loss Analysis Technology Based on Artificial Intelligence Algorithm 545
Junfeng Qiao (State Grid Key Laboratory of Information & Network, Security of State Grid Smart Grid Research Institute Co., LTD, China), Aihua Zhou (State Grid Key Laboratory of Information & Network, Security of State Grid Smart Grid Research Institute Co., LTD, China), Lin Peng (State Grid Key Laboratory of Information & Network, Security of State Grid Smart Grid Research Institute Co., LTD, China), Lipeng Zhu (State Grid Key Laboratory of Information & Network, Security of State Grid Smart Grid Research Institute Co., LTD, China), Sen Pan (State Grid Key Laboratory of Information & Network, Security of State Grid Smart Grid Research Institute Co., LTD, China), and Pei Yang (State Grid Key Laboratory of Information & Network, Security of State Grid Smart Grid Research Institute Co., LTD, China)

Topology Recognition of Power Internet of Things based on Absolute Correlation Degree and Clustering Algorithm 551
Yan Li (Beijing China-power Information Technology Co.ltd, China), Wenjun Zhu (Beijing China-power Information Technology Co.ltd, China), Wensheng Wang (Beijing China-power Information Technology Co.ltd, China), Yvkai Feng (Beijing China-power Information Technology Co.ltd, China), and Jiyuan Shi (Beijing China-power Information Technology Co.ltd, China)

Research on High-Frequency Current Sensor and Measurement Method Based on Magnetic Sensor Array 556
Aichao Yang (State Grid Jiangxi Power Service Management Center, China), Ming Liu (State Grid Jiangxi Power Service Management Center, China), Yi Wang (State Grid Jiangxi Power Service Management Center, China), Yu Wu (State Grid Jiangxi Power Service Management Center, China), Liang Zhu (State Grid Jiangxi Power Service Management Center, China), and Yajun Fan (State Grid Jiangxi Power Service Management Center, China)

ICT Applications

Construction of Sensitive Image Datasets Based on Generative Methods 563
Chang Liu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Jie Zhang (Liaoning University, China), Bihui Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Jingxuan Wei (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Xiaowei Chen (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), and Hongxin Yang (Liaoning University, China)

A Sensitive Image Generation Method Based on Improved PatchGAN 568
Shilin Zhang (Shenyang Chemical University, China), Hongliang Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China; Human-Computer Interaction System Engineering Research Center, China), and Liang Wang (Shenyang Chemical University, China)

Research on Debonding Degree of Building Exterior Wall Bricks Based on ISSAKELM Algorithm . 573
RunZi Feng (Shenyang University of Chemical Technology, China), RanRan An (Shenyang University of Chemical Technology, China), and Li Li (Shenyang University of Chemical Technology, China)

Image Segmentation Algorithm in Complex Environment Based on Improved SOLOV2 581
RenJian Zhou (Shenyang University of Chemical Technology; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), LiaoMo Zheng (University of Chinese Academy of Sciences Beijing; Shenyang CASNC Technology Co., Ltd.; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), ChuLan Ren (Shenyang University of Chemical Technology, China), and ShiYu Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

PLR-Based Heat Treatment Process State Identification Method 586
YanXin Li (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Yi Hu (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Zeng Tao (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), YanQing Zhao (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and JunLong Zhang (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Design Method of Component-Based Party Building Visualization Large-Screen System 591
Wei Qin (University of Chinese Academy of Sciences, China), Jin Li (University of Chinese Academy of Sciences Shenyang, China), Xu Li (Beijing Zhongke Zhihe Digital Technology Co., Ltd, China), and Shijie Zhao (Shijiazhuang Municipal Party Committee and Municipal Government Decision-Making Advisory Committee, China)

A Quality Control Model for Lung Cancer Based on A Standardized Treatment Mode 597
LiYing Dong (University of Chinese Academy of Sciences, China), Ning Wang (University of Chinese Academy of Sciences, China), Kui Zhao (University of Chinese Academy of Sciences, China), and Ming Ma (General Hospital of Northern Theater Command, China)

Water Quality Prediction based on CEEMDAN-LSTM-LINREG Model 602
Peng Zhang (Shenyang Institute of Computing Technology, University of Chinese Academy of Sciences, China), XiaoLei Zhou (Shenyang Institute of Computing Technology, University of Chinese Academy of Sciences, China), ShouZheng Liu (Liaoning Environmental Monitoring Association, China), and ZhiQiang Dou (Shenyang Ecological Environment Monitoring Center of Liaoning Province, China)

A Vein Segmentation Method Based on Improved U-Net 609
Hongliang Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Liang Zhu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China), Changyi Deng (Institute of Software, China Industrial Control Systems Cyber Emergency Response Team, China), and Pengfei Xiu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences; University of Chinese Academy of Sciences, China)

Translation-Equivalence-Based Unsupervised Ghost Imaging 614
Shuai Mao (Xi'an Jiaotong University, China), Yuchen He (Xi'an Jiaotong University, China), Jianming Yu (Xi'an Jiaotong University, China), Yue Zhou (Xi'an Jiaotong University, China), Chong Wang (Xi'an Jiaotong University, China), and Juan Chen (Xi'an Jiaotong University, China)

Magnetic Flux Leakage Image Detection in Axial Alignment based on ResNet 619
Zhicong Zhang (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Shuaihui Guo (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Dongmei Li (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Ying Gao (University of Chinese Academy of Sciences; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Regional Air Quality Prediction Model Based on Deep Belief Network 626
Xue Bai (Shenyang Institute of Computing Technology, China Academy of Sciences; University of Chinese Academy of Sciences, China) and Zhe Zhang (Shenyang Institute of Computing Technology, China Academy of Sciences; University of Chinese Academy of Sciences, China)

Maritime Emergency Search and Rescue Early Warning System Based on Sonar Positioning 633
Xiaoqi Hu (Wuhan University of Technology, China), Zhenyuan Liu (Wuhan University of Technology, China), and Shuo Li (Wuhan University of Technology, China)

Face Mask Recognition and Normative Detection Algorithm Based on Attention Mechanism Fusion and Image Filtering 640
WenYu Chen (Cllege of Artifical Intelligence Tianjin University Science and Technology, China), Lei Qian (Cllege of Artifical Intelligence Tianjin University Science and Technology, China), Yang Li (Cllege of Artifical Intelligence Tianjin University Science and Technology, China), YiPeng Xu (Cllege of Artifical Intelligence Tianjin University Science and Technology, China), JieMing WeiMo (Cllege of Artifical Intelligence Tianjin University Science and Technology, China), and TingTing Zhao (Cllege of Artifical Intelligence Tianjin University Science and Technology, China)

Study on Application of VR Technology in Teaching Tourism Management Courses 646
Youmeng Ke (Yunnan University, China)

Author Index **651**
