# 2023 International Conference on Mechatronics, IoT and Industrial Informatics (ICMIII) **ICMIII 2023**

## Table of Contents

Message from the General Chair ..... xix

### 2023 International Conference on Mechatronics, IoT and Industrial Informatics

Mobile Application System for Online Surveys and Questionnaires .....	1
<i>Ramiz Salama (AI and Robotics Institute, Near East University Nicosia, Turkey), Fadi Al-Turjman (AI and Robotics Institute, Near East University; University of Kyrenia, Turkey), and Chadi Altrjman (Waterloo University, Canada)</i>	
Splitting Tensile Properties Intelligent Detection and Computer Numerical Simulation of Pavement Base .....	11
<i>Zhiyuan Li (Fujian Jiangxia University, China) and Feng Chen (Fujian Jiangxia University, China)</i>	
Design of fin Structured Underwater Data Center Enclosure Based on Integer Programming .....	15
<i>Zhong Wang (Shandong University of Science and Technology, China), Saisai Lyu (Shandong University of Science and Technology, China), Jiyuan Song (Shandong University of Science and Technology, China), and Jianzhi Yu (Shandong University of Science and Technology, China)</i>	
Structural Design of Eagle-Like Fluttering Aircraft Based on Bionic Principle .....	20
<i>Yu Xin (Century College of Beijing University of Posts and Telecommunications, China), Chaorui Zhou (Century College of Beijing University of Posts and Telecommunications, China), Wenhui Bai (Century College of Beijing University of Posts and Telecommunications, China), Pengcheng Li (Century College of Beijing University of Posts and Telecommunications, China), Baihui Ma (Century College of Beijing University of Posts and Telecommunications, China), and Jianping Ran (Century College of Beijing University of Posts and Telecommunications, China)</i>	

Parametric Design and Simulation Analysis of Rotary Kiln .....	26
<i>Dawei Xiao (Shandong Soil Pollution Prevention and Control Center, China), Heng Liang (Shandong Academy of Environmental Sciences Environmental Engineering Co., Ltd, China), Yang Liu (Shandong Academy of Environmental Sciences Environmental Engineering Co., Ltd, China), and Peng Du (Shandong Academy of Environmental Sciences Environmental Engineering Co., Ltd, China)</i>	
Process Design and Simulation Analysis of Plasma Furnace Disposal of Solid Waste .....	30
<i>Heng Liang (Shandong Academy of Environmental Sciences Environmental Engineering Co., Ltd, China), Dawei Xiao (Shandong Soil Pollution Prevention and Control Center, China), Yang Liu (Shandong Academy of Environmental Sciences Environmental Engineering Co., Ltd, China), and Peng Du (Shandong Academy of Environmental Sciences Environmental Engineering Co., Ltd, China)</i>	
Strength Check of Crankshaft Based on Double Shear Strength Theory .....	35
<i>Bo Wang (Air Force Engineering University, China), Ting Li (Air Force Engineering University, China), and Yizhuo Jiang (Southwest Minzu University, China)</i>	
Dynamic Analysis of Crank Slider Mechanism with Clearance of Rotating Pair .....	40
<i>Sheng He (Tiangong University, China), Guoguang Jin (Tiangong University; Tianjin Key Laboratory of Advanced Mechatronics Equipment Technology, China), Zhimin Wang (Tiangong University, China), and Jun Liu (Tiangong University, China)</i>	
An Accident Case Analysis of Brake Failure .....	47
<i>Qiu Yongjun (Chongqing Special Equipment Inspection and Research Institute, China), Liu Zhangxu (Chongqing Special Equipment Inspection and Research Institute; Key Laboratory of Electromechanical Equipment Security in Western Complex Environment for State Market Regulation, China), and Kang Dugang (Chongqing Special Equipment Inspection and Research Institute; Key Laboratory of Electromechanical Equipment Security in Western Complex Environment for State Market Regulation, China)</i>	
Strength Calculation and Analysis of Diesel Engine Base Based on Finite Element Method .....	50
<i>Xiangyi Zou (National Deep Sea Center; Shanghai Maritime University, China) and Guohe Jiang (Shanghai Maritime University, China)</i>	
Characteristics Analysis for Floating Raft Isolation System Based on FEM and PPIGA .....	54
<i>Xiangyi Zou (National Deep Sea Center; Shanghai Maritime University, China), Gang Wu (Shanghai Maritime University, China), and Guohe Jiang (Shanghai Maritime University, China)</i>	
Design and Simulation Analysis of EFP Warhead .....	58
<i>Zhang Hang (PLA Army Academy of Artillery and Air Defense, China), Chen Kai (PLA Army Academy of Artillery and Air Defense, China), and Lian Xinan (PLA Army Academy of Artillery and Air Defense, China)</i>	
A Rotatable Deployable Structure Based on Planar Double-Chain Mechanism .....	62
<i>Zihao Chen (Nanjing University of Aeronautics and Astronautics, China)</i>	

Application and Prospect of 3D Printing Technology in Aerospace .....	66
<i>Simin Cao (International Cooperation Center of China Aerospace, CASC, China) and Zhongchuan Shi (International Cooperation Center of China Aerospace, CASC, China)</i>	
Application of Differential Evolution Algorithm in the Identification of Hydrodynamic Coefficients of Vehicles .....	70
<i>Pu Miao (Northwest Institute of Mechanical and Electrical Engineering, China), Rui Wang (Northwest Institute of Mechanical and Electrical Engineering, China), Jiawen Wang (Northwest Institute of Mechanical and Electrical Engineering, China), Xiaobin Qi (Northwest Institute of Mechanical and Electrical Engineering, China), and Ruijie Li (Northwest Institute of Mechanical and Electrical Engineering, China)</i>	
Research on the Design and Implementation Method Based on Livestock Carcass Boning and Segmentation Workstation .....	75
<i>Tian Chenghua (Beijing Research Institute of Automation for Machinery Industry Co., Ltd, China), Zhao Hongjian (Beijing Research Institute of Automation for Machinery Industry Co., Ltd, China), Jia Pei (Beijing Research Institute of Automation for Machinery Industry Co., Ltd, China), Gu Cong (Beijing Research Institute of Automation for Machinery Industry Co., Ltd, China), Wang Song (Beijing Research Institute of Automation for Machinery Industry Co., Ltd, China), Wang Haitao (Beijing Research Institute of Automation for Machinery Industry Co., Ltd, China), and Zhao Lei (Beijing Research Institute of Automation for Machinery Industry Co., Ltd, China)</i>	
Symmetric Bi2O2S Design of S one-Dimensional Photonic Crystal and its Application in Picosecond Fiber Laser .....	79
<i>Yuqian Gong (Yanbian University, China) and Huimin Wang (Yanbian University, China)</i>	
Research on Performance of Helical Intake Port of Diesel Engine Based on Numerical Simulation .....	84
<i>Zhou Chunyan (Shandong Vocational College of Science and Technology, China)</i>	
Research on Computer Modeling Method of Milling Surface Topography Based on Multi Parameters and Micro-Geometry Simulation Algorithm .....	88
<i>Jianfeng Gou (Xi'an University of Technology; Sichuan Engineering Technical College, China), Guangpeng Zhang (Xi'an University of Technology, China), and Li Meng (Deyang Products Quality Supervision &amp; Inspection Institute, China)</i>	
Dynamic Analysis of a 3-DOF Translational Parallel Mechanism with Hinged End Structure .....	92
<i>Jun Liu (Tiangong University, China), Dong Liang (Tiangong University; Tianjin Key Laboratory of Advanced mechatronics Equipment Technology, China), Guoguang Jin (Tiangong University; Tianjin Key Laboratory of Advanced mechatronics Equipment Technology, China), and Boyan Chang (Tiangong University, China; Tianjin Key Laboratory of Advanced mechatronics Equipment Technology, China)</i>	

Structural Design and Research of Symmetrical Y-Tube Under Cold and Hot Mixed Flow .....	101
<i>Guoqi Wang (Wenzhou University, China), Songming Xiong (Wenzhou University, China), Chejian Li (Wenzhou University, China), Wenxian Huang (Wenzhou University, China), and Miao Zhang (Wenzhou University, China)</i>	
Multi-Angle Damage Analysis of Apple Picking Based on Finite Element Method .....	109
<i>Haipeng Qiu (Harbin University of Science and Technology, China) and Han Liu (Harbin University of Science and Technology, China)</i>	
Operation Reliability Evaluation of Bearing Components Based on SSA-LSTM .....	116
<i>Xianhui Wu (Tiangong University, China) and Tao Xi (Tiangong University, China)</i>	
Efficient and Equivalent Control Method for 5 DOF air Floating Platform .....	121
<i>Wang Hao (Beijing Institute of Precision Mechatronics and Controls; Laboratory of Aerospace Servo Actuation and Transmission, China), Wang Shanda (Beijing Institute of Precision Mechatronics and Controls; Laboratory of Aerospace Servo Actuation and Transmission, China), Guo Guangyao (Beijing Institute of Precision Mechatronics and Controls; Laboratory of Aerospace Servo Actuation and Transmission, China), Liu Yinan (Beijing Institute of Precision Mechatronics and Controls; Laboratory of Aerospace Servo Actuation and Transmission, China), and He Chao (Beijing Institute of Precision Mechatronics and Controls; Laboratory of Aerospace Servo Actuation and Transmission, China)</i>	
Optimization Design of Radial Compensation Structure of Bidirectional Involute Internal Gear Pump .....	127
<i>Yantao Zhang (Naval University of Engineering, China), Zongbin Chen (Naval University of Engineering, China), and Jian Liao (Naval University of Engineering, China)</i>	
Influence of Coupling form of Annular Regenerator in Coaxial Refrigerator .....	139
<i>Xuanling He (Tianjin University of Technology, China)</i>	
Application of Symmetric Key Algorithm in Data Security Design of Smart Grid .....	143
<i>Yifan Zhang (Inner Mongolia Power Research Institute, China), Chaoyu Yu (Inner Mongolia Power Research Institute, China), Yuqiang Wang (Inner Mongolia Power Research Institute, China), Junfei Han (Inner Mongolia Power Research Institute, China), Ming Zhong (Inner Mongolia Power Research Institute, China), Haijun An (Inner Mongolia Tianda Tiancai Information Technology Co., Ltd, China), and Ningping Yuan (Inner Mongolia Medical University, China)</i>	
Big Data Technology Application In Software Security Vulnerability Analysis .....	148
<i>Hao Chen (Tianjin University of Technology, China) and Xiaoting Mou (Tianjin University of Technology, China)</i>	
Research on Data Security Risk of Intelligent and Connected Vehicles .....	153
<i>Yujia Li (China Automotive Technology and Research Center Co., Ltd, China), Yueyou Wang (China Automotive Technology and Research Center Co., Ltd, China), Jue Wang (China Automotive Technology and Research Center Co., Ltd, China), Hanbing Wu (China Automotive Technology and Research Center Co., Ltd, China), and Xianzhao Xia (China Automotive Technology and Research Center Co., Ltd, China)</i>	

Research on Safety Testing and Evaluation Technology of Artificial Intelligence System for Automatic Driving .....	159
<i>Xuan Huang (The 5th Electronic Research Institute, Laboratory of MIIT for Intelligent Products Testing and Reliability, China), Linyi Huang (The 5th Electronic Research Institute, Laboratory of MIIT for Intelligent Products Testing and Reliability, China), Guowei Tong (The 5th Electronic Research Institute, Laboratory of MIIT for Intelligent Products Testing and Reliability, China), Xundao Zhou (The 5th Electronic Research Institute, Laboratory of MIIT for Intelligent Products Testing and Reliability, China), Huawei Xu (The 5th Electronic Research Institute, Laboratory of MIIT for Intelligent Products Testing and Reliability, China), and Hongping Shen (The 5th Electronic Research Institute, Laboratory of MIIT for Intelligent Products Testing and Reliability, China)</i>	
The Installation Accuracy Solution Design and Realization of Manned Spacecraft .....	163
<i>Dongyong Jia (Institute of Spacecraft System Engineering, China), Zhenhao Zhao (Institute of Spacecraft System Engineering, China), Bin Han (Institute of Spacecraft System Engineering, China), and Enjie Tian (Institute of Spacecraft System Engineering, China)</i>	
Prediction of Spatial Distribution of PM2.5 Pollution Based on Machine Learning Random Forest Optimized LUR Model .....	170
<i>Feng Wen (Xi'an Polytechnic University, China), Lei Liu (Xi'an Polytechnic University, China), Ping Zhang (Xi'an Polytechnic University, China), Wenjie Ma (Xi'an Polytechnic University, China), and Zhibo Li (Xi'an Polytechnic University, China)</i>	
Poincare Cross Section Classification Based on Vision Transformer .....	174
<i>Yan Sun (Southwest Jiaotong University, China)</i>	
Design and Implementation of an air-Floating Type Vehicle for the Transport of very Large Spacecraft .....	179
<i>Tonghui Liu (Beijing Institute of Spacecraft Environment Engineering, China), Jiahao Chen (Beijing Institute of Spacecraft Environment Engineering, China), Pengfei Wang (Beijing Institute of Spacecraft Environment Engineering, China), Lingqiang Meng (Beijing Institute of Spacecraft Environment Engineering, China), and Chengli Zhang (Beijing Institute of Spacecraft Environment Engineering, China)</i>	
Numerical Simulation of Stress Induced by Impact Load on Seal of Control Rod Drive Mechanism .....	183
<i>Xuandong Wu (Wolong Electric Nanyang Explosion Protection Group Co., Ltd., China), Huaijin Xu (Wuhan Second Ship Design and Research Institute, China), Qiang Zhao (Wolong Electric Nanyang Explosion Protection Group Co., Ltd., China), Suifeng Zou (Wuhan Second Ship Design and Research Institute, China), Qingsong Luo (Wuhan Second Ship Design and Research Institute, China), Zhigang Ma (BMC Sealing Technology (Suzhou) Co., Ltd., China), Honghe Qin (Wolong Electric Nanyang Explosion Protection Group Co., Ltd., China), Xianwei Zhao (Wolong Electric Nanyang Explosion Protection Group Co., Ltd., China), and Fanfu Kong (Wuhan Second Ship Design and Research Institute, China)</i>	

Stress and Fatigue Life Studies of Solder Joints in an Advanced Packaging with Chiplet .....	187
<i>Kaiyuan Liu (Jilin University, China), Houyun Qin (Jilin University, China), Jiarui Guo (Jilin University, China), and Yi Zhao (Jilin University, China)</i>	
Development of Sealing Structure of Control Rod Drive Mechanism and Its Prototype Test .....	192
<i>Huaijin Xu (Wuhan Second Ship Design and Research Institute, China), Honghe Qin (Wolong Electric Nanyang Explosion Protection Group Co., Ltd.; BMC Sealing Technology (Suzhou) Co., Ltd., China), Jiaxing Han (BMC Sealing Technology (Suzhou) Co., Ltd., China), Suifeng Zou (Wuhan Second Ship Design and Research Institute, China), Qingsong Luo (Wuhan Second Ship Design and Research Institute, China), Weitao Wang (Wolong Electric Nanyang Explosion Protection Group Co., Ltd., China), Xianxing Liu (Wuhan Second Ship Design and Research Institute, China), and Ruhua Cai (Wuhan Second Ship Design and Research Institute, China)</i>	
Design and Simulation Analysis of Flexible Hinge Structure in Digital Micromirror Device .....	196
<i>Lin Xia (Shanghai Open University Jiading Branch, China)</i>	
Research on Air-Wake Rejection Based on Direct Lift Control and Nonlinear ADRC for Carrier Landing .....	199
<i>Song Liting (Naval Aviation University, China), Zhang Yang (Naval Academy, China), Qu Xiaolei (Shenyang Aircraft Design and Research Institute, China), and Wenhai Wu (Naval Aviation University, China)</i>	
Structural Design and Analysis of Marine Composite Propellers Based on Ply Process .....	204
<i>Jinrui Wang (Tongji University, China), Xiaodong Yi (Shanghai Marine Equipment Research Institute, China), Xin Zhou (Shanghai Marine Equipment Research Institute, China), Wenkai Yang (Shanghai Marine Equipment Research Institute, China), Shigang Zhou (Tongji University, China), Kai Zhang (Tongji University, China), and Bailin Zheng (Tongji University, China)</i>	
A Study on Dynamic Response of Tunnel Blasting using Numerical Simulation and Finite Element Analysis Software .....	210
<i>Lei Wenjuan (Changjiang Polytechnic, China)</i>	
Research on the Fault Tree Analysis of Aeroengine High- Energy Debris Intolerance Based on the Monte Carlo .....	218
<i>Fang Guo (Aero Engine Academy of China, China), Huiyun Yang (Aero Engine Academy of China, China), Jiawei Liu (Aero Engine Academy of China, China), and Haitao Ren (China Aero-Polytechnology Establishment, China)</i>	
Design and Analysis of Pipeline Maintenance Robot .....	223
<i>Chengzhen Wang (Dalian Polytechnic University, China), Junyi Cong (Dalian Polytechnic University, China), Ce Yang (Dalian Polytechnic University, China), and Yiran Feng (Dalian Polytechnic University, China)</i>	
Motion Model Building and Output Power Research of wave Energy Device .....	226
<i>Ruoqi Chen (South China University of Technology, China), Jinbiao Chen (South China University of Technology, China), and Chaohui Lu (South China University of Technology, China)</i>	

Design Study on the Maximum Output Power of wave Energy Device and the Corresponding Optimal Damping Coefficient .....	232
<i>Weihang Han (Air Force Engineering University, China), Ziyu Sun (Air Force Engineering University, China), and Zihao Jia (Air Force Engineering University, China)</i>	
Research on the Maximum Output Power of wave Energy Based on Hydrodynamic Analysis .....	238
<i>Bo Wang (Anhui University of Technology, China), Jian He (Anhui University of Technology, China), Linxi Li (Anhui University of Technology, China), and Kang Qian (Anhui University of Technology, China)</i>	
Modeling and Solving of Oscillator Kinematics and Optimal Damping Coefficients .....	245
<i>Yuhuang Jia (Huaqiao University, China), Caiyun Xie (Huaqiao University, China), and Jianghua Liu (Huaqiao University, China)</i>	
Joint Estimation of Vehicle Mass and Road Grade Based on Recursive Kernel Density Optimization .....	251
<i>Yu Wang (Tianjin University, China), Yiyao Liu (Tianjin University, China), and Tao Chen (Tianjin University, China)</i>	
Optimization Design of Rear Safety Belts Based on MADYMO Simulation .....	257
<i>Yu Zeng (Luzhou Vocational and Technical College, China) and Yan Mo (Sichuan Police College, China)</i>	
A Mechanical Model for Analyzing wave Energy Output Devices .....	261
<i>Baojun Geng (Sichuan University, China) and Yinning Zhu (Sichuan University, China)</i>	
Research on Manufacturing Deformation and Residual Stress of Metal Additive Based on Clustering Extraction Algorithm .....	267
<i>Guanqiang Hou (Shenyang Aerospace University, China)</i>	
Research on Motion Control and Trajectory Planning Algorithm of Mobile Manipulator Based on Deep Learning .....	271
<i>Nanshan Feng (Guangdong Industry Polytechnic, China) and Song Wu (Guangdong Industry Polytechnic, China)</i>	
Condition Monitoring and Evaluation of Marine Machinery Based on Support Vector Machine Algorithm .....	275
<i>Lin Xia (Wuhan Institute of Shipbuilding Technology, China)</i>	
Simulation and Control System Optimization of Pure Electric Vehicle Air Conditioning System Based on Multi-Objective Genetic Algorithm .....	280
<i>Fuhua Liu (YiBin Vocational and Technical College, China) and Sheng Lai (Sichuan University of Science Engineerin, China)</i>	
Simulation of Pier Ground Motion Wave Propagation Based on Machine Learning Algorithm and FEPG Finite Element Analysis System .....	286
<i>Jiaqi Ren (Earthquake Agency of Ningxia Hui Autonomous Region, China), Yuan Yuan (Earthquake Agency of Ningxia Hui Autonomous Region, China), Chenxi Wang (Earthquake Agency of Ningxia Hui Autonomous Region, China), and Jianliang Wang (Earthquake Agency of Ningxia Hui Autonomous Region, China)</i>	

Study on Forming and Properties of Heat Resistant Low Expansion High Silicon Aluminum Alloy Based on Genetic Algorithm .....	292
<i>Zhiyong Li (Guangdong Technology College, China; National University of Malaysia, Malaysia) and Azman Jalar (National University of Malaysia, Malaysia)</i>	
Numerical Control Machining Simulation and Machining Route Optimization of Mould Based on Genetic Algorithm .....	297
<i>Lifeng Sun (Harbin Huade University, China)</i>	
Life Prediction Model of Aero-Engine Main Bearing Based on Genetic Algorithm .....	302
<i>Shuang Xia (Sanya Aviation and Tourism College, China) and Richeng Chen (HNA Aviation Technic Company Limited, China)</i>	
Adaptive Hierarchical Optimization of Sculpture 3D Printing Based on Fuzzy PID Algorithm .....	307
<i>Longcheng Cui (Universiti Malaysia Sabah, Malaysia; Yibin University, China) and Musinin Misdih (Universiti Malaysia Sabah, Malaysia)</i>	
Fault Detection Method of Motor Bearing Based on Improved Random Forest Algorithm .....	311
<i>Yi Jiang (University of South China, China)</i>	
Control Method of Clamping Mechanism of Fruit Sorting Robot Based on Machine Vision .....	315
<i>Danping Chen (Hainan Vocational University of Science and Technology, China), Han Zhou (Hainan Vocational University of Science and Technology, China), Shuaijun Lv (Hainan Vocational University of Science and Technology, China), Zongwen Yu (Hainan Vocational University of Science and Technology, China), and Zhida Chen (Hainan Vocational University of Science and Technology, China)</i>	
Research on Scheduling Optimization Algorithm of Picking Job in Logistics Automated Warehouse Based on Chaotic Genetic Algorithm .....	320
<i>Fanju Zeng (Harbin Huade University, China), Yuejuan Huang (Harbin Huade University, China), Juan Ding (Harbin Huade University, China), Xin Li (Harbin Huade University, China), and Yuding Liu (Harbin Huade University, China)</i>	
Intelligent Optimization Prediction Algorithm for Statistical Data Based on Recurrent Neural Network .....	325
<i>Dan Li (Alibaba (Beijing) Software Services Co., Ltd, China) and Zhanbo Zhao (Peking University, China)</i>	
Animation Character Color Matching Generation Algorithm Based on Improved Generation Confrontation Network .....	331
<i>Jie Shen (Anhui Vocational College of Mechanical and Electrical Technology, China)</i>	
Adaptive Stochastic Inventory Control Algorithm for Supply Chain Based on Deep Learning Supported By Internet of Things .....	336
<i>Lijun Fan (Hunan University of Technology and Business, China)</i>	
Modeling and Algorithm of Position Optimization of Redundant Arc Welding Robot Based on Particle Swarm Optimization .....	341
<i>Jingyi Bi (Harbin Huade University, China) and Changwei Li (Harbin Huade University, China)</i>	
Image Retrieval Technology and System Implementation of Handicraft Based on Genetic Algorithm .....	347
<i>Yannan Cai (Jilin Animation Institute, China)</i>	

Motion Control Algorithm for Automatic Welding of Complex Intersecting Line Joints Based on Deep Learning .....	352
<i>Ben Wu (Harbin Huade University, China)</i>	
Research on Fault Tree Analysis of Ship Electrical Accident Based on Cloud Model .....	357
<i>Xiangrong Xu (Jiangsu Shipping College, China)</i>	
Power Data Integrity Verification Model Based on Blockchain Technology .....	362
<i>Biyang Sun (State Grid Gansu Electric Power Company Information Communications Company, China), Fazheng Luo (State Grid Gansu Electric Power Company Information Communications Company, China), Xin Jin (State Grid Gansu Electric Power Company Information Communications Company, China), and Zhenwei Yang (State Grid Gansu Electric Power Company Information Communications Company, China)</i>	
Multi-Sensor Information Fusion Algorithm Based on Adaptive Background Information .....	367
<i>Yamei Bai (Harbin Huade University, China) and Changyu Zhang (Harbin Huade University, China)</i>	
Design of Remote Sensing Image Multi-Dimensional Visualization Fusion System Based on Visual Communication .....	371
<i>Hongjun Zhou (Yellow River Conservancy Technical Institute, China)</i>	
Ultrasonic Imaging Detection of Welding Joint Defects of Pressure Pipeline Based on Phased Array Technology .....	375
<i>Tao Chen (Hangzhou Special Equipment Inspection and Research Institute, China), Qing Du (Hangzhou Special Equipment Inspection and Research Institute, China), Weizhong Li (Hangzhou Special Equipment Inspection and Research Institute, China), Shuiping Sheng (Hangzhou Special Equipment Inspection and Research Institute, China), and Hong Zhou (College of Chemical and Biological Engineering of Zhejiang University, China)</i>	
Research on Bike-Sharing Demand Forecasting and Intelligent Scheduling Method Based on Spatio-Temporal Data .....	380
<i>Li Jiang (Tongji Zhejiang College, China)</i>	
Motion Planning of Warehouse Automation Robot Based on Recurrent Neural Network .....	385
<i>Xiangmei Li (Yantai Sci. &amp; Tech. Innovation Promotion Centre, China)</i>	
Research on Cache Management of Streaming Media Distribution Network Based on Data Mining Technology .....	390
<i>Hui Yan (Shandong Women's University, China) and Lihua Sun (Shandong Women's University, China)</i>	
Development of Public Management Information Platform Based on Data Mining Technology .....	394
<i>Mingshi Li (Jiangxi University of Applied Science, China)</i>	
Distributed Decision-Making Model and Algorithm of Enterprise Organization Based on Fuzzy Relation .....	398
<i>Xiaojun Rao (Jiangxi University of Applied Science, China)</i>	
Intrusion Detection Technology of Natural Resource Information System in The Internet of Things Environment .....	403
<i>Xianlian Yang (Planning and Preparation Research Center, China) and Qianzhong Liu (Planning and Preparation Research Center, China)</i>	

Research on Privacy Protection of Dynamic Dataset Republication Based on Local Modularity .....	407
<i>Hongyun Chen (Nantong Institute of Technology, China), Xingqin Lv (Nantong Institute of Technology, China), Huanxiao Xu (Nantong Institute of Technology, China), Xiangxiang Mei (Nantong Institute of Technology, China), and Yangyan Zhu (Nantong Institute of Technology, China)</i>	
Research on Intelligent Hybrid Prediction of Financial Time Series Based on Support Vector Machine .....	411
<i>Wenya Cui (Shanghai University of Finance and Economics, China)</i>	
Construction of Human Resource Management Matching Model Based on Fuzzy Control Algorithm ..	415
<i>Chunguang Miao (Harbin Huade College, China) and Lei Zhang (Harbin Huade College, China)</i>	
Research on Modeling Method of Virtual Reality Animation Scene Based on Motion Capture .....	420
<i>Changjun Wang (Hubei University of Technology, China)</i>	
Research on Dance Action Recognition Algorithm Based on Deep Learning Network in Input Layer .....	424
<i>Zhixuan Liao (Yunnan University of Business Management, China)</i>	
Research on Japanese-Chinese Statistical Machine Translation Based on Improved Ant Colony Algorithm .....	428
<i>Wei Zhang (Guangdong University of Science &amp; Technology, China), Huan Lian (Guangdong University of Science &amp; Technology, China), and Xiaojie Zhang (Guangdong University of Science &amp; Technology, China)</i>	
Algorithm Design of Self-Driving Vehicle Based on Visual Sensing Technology .....	432
<i>Xinyi Zheng (Wuhan University of Technology, China) and Wei Su (Wuhan University of Technology, China)</i>	
Research on Health Assessment and Fault Prediction Method of Aircraft Electromechanical System Based on Fault Tree .....	437
<i>Hui Wang (Weifang Engineering Vocational College, China), Sichao Lv (Weifang Engineering Vocational College, China), Shan Su (Weifang Engineering Vocational College, China), and Kai Li (Weifang Engineering Vocational College, China)</i>	
Research on Material Forming and Control Engineering Optimization Based on Computational Intelligence .....	442
<i>Xiaoyan Liu (Anhui Vocational and Technical College, China)</i>	
Research and Implementation of Virtual Human Motion Simulation Platform Based on Python ....	447
<i>Ying Wu (Hainan Vocational University of Science and Technology, China), Mei Zhong (Hainan Vocational University of Science and Technology, China), Fang Wan (Hainan Vocational University of Science and Technology, China), and Langqi Liang (Hainan Vocational University of Science and Technology, China)</i>	
Feature Recognition Method of Digital Piano Audio Signal Based on CNN .....	452
<i>Wenxuan Jiang (Weifang Engineering Vocational College, China), Yaqi Guo (Weifang Engineering Vocational College, China), and Jiulian Li (Weifang Engineering Vocational College, China)</i>	

Algorithm Research of University Financial Early pre-Alarm System Based on BP Neural Network .....	457
<i>Xiaoqing Mou (Weifang Engineering Vocational College, China) and Weiwei Yang (Weifang Engineering Vocational College, China)</i>	
Brain-Like Intelligent Data Mining Mechanism Based on Convolutional Neural Network .....	461
<i>Renjun Wen (China Comservice Enrising Information Technology Co., Ltd., China), Liqiang Song (China Comservice Enrising Information Technology Co., Ltd., China), and Yani Lin (Chengdu University of Technology, China)</i>	
Multi-Sensor Information Fusion Algorithm Based on Edge Information .....	466
<i>Chunbao Liu (Jilin University, China)</i>	
Research on Electronic Differential System of Electric Vehicle Based on Computer Vision .....	471
<i>Yunfeng Chen (Guangzhou Foreign Language School, China)</i>	
Real-Time Detection and Tracking of Moving Images in Automobile Intelligent Driving System Based on Machine Vision .....	476
<i>Xiaolan Gao (Tianfu Information Vocational College, China) and Honghua Zhao (Tianfu Information Vocational College, China)</i>	
Rendering Design of Painting Style Based on Depth Neural Network .....	481
<i>Xu Yao (KeYi College of Zhejiang Sci-Tech University, China) and Jingjing Jiang (Zhejiang Business Technology Institute, China)</i>	
Research on Multi-Objective Job Shop Scheduling of Intelligent Manufacturing System Based on Machine Learning Algorithm .....	486
<i>Xueyu Huang (Jiangxi University of Science and Technology, China) and Zike Liao (Jiangxi University of Science and Technology, China)</i>	
Establishment of SWAT Model Spatial Database Based on PSO Optimization Algorithm .....	491
<i>Zhan Wang (Henan Polytechnic University, China), Dao Jia (Henan Polytechnic University, China), and Zhanliang Yuan (Henan Polytechnic University, China)</i>	
Research on Manufacturing Process Planning Technology of Aero-Engine Blades Based on Particle Swarm Optimization .....	496
<i>Ming Yuan (AECC Harbin Dongan Engine Co., Ltd., China)</i>	
Research on Intelligent Anti-Collision System for Automobile Driving Based on Machine Vision .....	500
<i>Honghua Zhao (Tianfu Information Vocational College, China) and Xiaolan Gao (Tianfu Information Vocational College, China)</i>	
Research on Basic Data Sharing System of Education Management Based on Cloud Storage .....	504
<i>Linjing Jia (Jiangxi university of Applied Science, China) and Lei Tan (Jiujiang institute of technology, China)</i>	
Research and Performance of Information Management System Algorithm Based on Multi-Intelligence Technique .....	509
<i>Qingsong Chang (Weifang Engineering Vocational College, China) and Weiyan Feng (Weifang Engineering Vocational College, China)</i>	
Research on Graphic Design Image Processing Technology Based on Scene Dynamic Correction ...	513
<i>Weiyan Feng (Weifang Engineering Vocational College, China), Qingsong Chang (Weifang Engineering Vocational College, China), and Xiaoliang Xu (Weifang Engineering Vocational College, China)</i>	

Analysis of Moving Object Detection Algorithm in Video Sequence Images Based on Edge Symmetry .....	518
<i>Weixing Tang (Yunnan Vocational College of Judicial Police, China)</i>	
Research on Fine Identification Method of Tunnel Geological Digital Drilling Based on Artificial Neural Network .....	523
<i>Zhifa Zeng (China Merchants Chongqing Highway Engineering Testing Center CO., LTD, China)</i>	
Condition Monitoring and Diagnosis Technology of Mechanical Equipment Based on Optimal Preview Control Algorithm .....	527
<i>Yubo Pan (The Second Construction Limited Company of China Construction Eighth Engineering Division, China) and Anhua Dou (The Second Construction Limited Company of China Construction Eighth Engineering Division, China)</i>	
Construction of Aviation Intelligent Computer Aided Training System Based on Swarm Intelligence Optimization Algorithm .....	532
<i>Rui Zhang (Weifang Engineering Vocational College, China)</i>	
Research on Agricultural Machinery Technology Based on Numerical Simulation .....	538
<i>Shuangqi Ge (Rencheng District Agricultural Machinery Modernization Development Promotion Center, China) and Shuling Zhao (Rencheng District Agricultural Machinery Modernization Development Promotion Center, China)</i>	
Computer System Breakdown Intelligent Analysis Simulation Model Based on Deep Learning .....	543
<i>Bihua Zhuo (Officers College of PAP Department of Information and Communication, China)</i>	
Optimization of Multi-Strategy Machine Translation System Based on AI Technology .....	548
<i>Lirong He (Tongren University, China)</i>	
Risk Assessment of Optical Fiber Communication Network Based on BP Network Optimized By Genetic Algorithm .....	552
<i>Huale Zhang (State Grid Anhui Electric Power, China), Xiaowei Wang (State Grid Anhui Electric Power, China), Rui Cheng (State Grid Anhui Electric Power, China), Lanlan Zhang (State Grid Anhui Electric Power, China), Huiji Chen (State Grid Anhui Electric Power, China), and Jingxue Liu (Hefei City College, China)</i>	
Research on Optimization of Computer and Network Security Protection System Based on Neural Network .....	556
<i>Meng Song (Weifang Engineering Vocational College, China) and Kunwen Qin (Weifang Engineering Vocational College, China)</i>	
Design of Mechanical Intelligent Action Control System Based on BP Neural Network Algorithm .....	561
<i>Lei Shi (Marine Design &amp; Research Institute of China, China), Yi Feng (Marine Design &amp; Research Institute of China; Shanghai Key Laboratory of Ship Engineering, China), Honggang Wei (Marine Design &amp; Research Institute of China; Shanghai Key Laboratory of Ship Engineering, China), Shuai Yuan (Marine Design &amp; Research Institute of China, China), and Yang Meng (Marine Design &amp; Research Institute of China, China)</i>	

Research on Trajectory Clustering and Driving Route Optimization of New Energy Vehicles Based on Fuzzy Clustering Algorithm .....	566
<i>Chunhua Kong (Jilin Communications Polytechnic, China) and Lige Ma (Jilin Communications Polytechnic, China)</i>	
Research on Dynamic Simulation of Gas Turbine Based on Ant Colony Algorithm .....	571
<i>Heqiang Wei (State Pipe Network group United Pipeline United Pipeline Co., Ltd. Western part of the company, China)</i>	
Multi-Objective Optimization Model of Electric Power Fine Construction Based on Multi-Objective Genetic Algorithm .....	576
<i>Lin Xing (State Grid Hebei Electric Power Co., Ltd, China), Yamin Wang (State Grid Hebei Electric Power Co., Ltd, China), Mingfu Li (State Grid Hebei Electric Power Co., Ltd, China), Nan Cheng (State Grid Hebei Electric Power Co., Ltd, China), and Hailiang Wu (State Grid Hebei Electric Power Co., Ltd, China)</i>	
Research on Mechanical Design of Automatic Flood Control Gate Based on Ant Colony Algorithm .....	582
<i>Ziqiang Guo (State Grid Lanzhou Power Supply Company, China), Tao Sun (State Grid Lanzhou Power Supply Company, China), Tianyi Zhang (State Grid Lanzhou Power Supply Company, China), Chengjia Bao (State Grid Lanzhou Power Supply Company, China), and Yapen Wu (State Grid Lanzhou Power Supply Company, China)</i>	
Finite Element Analysis of Hybrid Magnetic Bearing Motor Based on MagNet Software .....	587
<i>Yu Wang (Nanjing University of Science and Technology, China)</i>	
Optimization of Dynamic Routing Algorithm in SDN Network Based on Data Mining .....	592
<i>Xinghua Yang (China Satellite Maritime Tracking and Control Department, China), Mingbo Liu (China Satellite Maritime Tracking and Control Department, China), Zhouhui Jiao (China Satellite Maritime Tracking and Control Department, China), and Chaoyu Mu (China Satellite Maritime Tracking and Control Department, China)</i>	
Construction of Computer Software Development System Based on Artificial Intelligence .....	597
<i>Yuxin Zhang (Chongqing University of Posts and Telecommunications, China)</i>	
Design of Face Recognition Fatigue Driving Detection System Based on Improved YOLO Algorithm .....	602
<i>Binyan Zhang (Hohai University, China)</i>	
Control Strategy of Power Intelligent System of Electric Vehicle Based on Improved Particle Swarm Optimization .....	607
<i>Dan Hou (Harbin Huade University, China), Yuejuan Huang (Harbin Huade University, China), and Fanju Zeng (Harbin Huade University, China)</i>	
Design of Data Center of Multi-Station Fusion Smart Energy Station Based on Convolutional Neural Network .....	611
<i>Guanghua Lu (State Grid Information &amp; Telecommunication Co., Ltd., Cihna), Wei Zhang (State Grid Information &amp; Telecommunication Co., Ltd., Cihna), Mingbo Liu (State Grid Information &amp; Telecommunication Co., Ltd., Cihna), Rui Hou (State Grid Information &amp; Telecommunication Co., Ltd., Cihna), and Lei Gao (State Grid Information &amp; Telecommunication Co., Ltd., Cihna)</i>	

Design and Development of Power System Supply Chain Intelligent Cloud Management System Based on Blockchain .....	616
<i>Chao Wang (State Grid ICT Group Beijing Guo Dian Tong Network Technology Co., China), Xi Chen (State Grid ICT Group Beijing Guo Dian Tong Network Technology Co., China), and Ying Wang (State Grid ICT Group Beijing Guo Dian Tong Network Technology Co., China)</i>	
Simulation of Production Scheduling System in Automated Manufacturing Workshop Based on Markov Model .....	621
<i>Juan Ding (Harbin Huade University, China), Yuding Liu (Harbin Huade University, China), Fanju Zeng (Harbin Huade University, China), Yuejuan Huang (Harbin Huade University, China), and Xin Li (Harbin Huade University, China)</i>	
Optimization of PID Parameters of Hydraulic Servo Control System Based on Machine Learning Algorithm .....	627
<i>Fengjuan Wang (Automotive Institute Sanmenxia Polytechnic, China)</i>	
Modeling and Optimization of Distributed Scheduling for Intelligent Manufacturing Based on Machine Learning .....	631
<i>Liping Zhao (Guangdong University of Science and Technology, China), Xianzhou Hou (Guangdong University of Science and Technology, China), and Zhe Luo (Hunan University of Science and Engineering, China)</i>	
Research on Efficiency Optimization Control of Induction Motor Based on Fuzzy PID Control .....	635
<i>Zhan Wang (723th Institute Of China Shipbuilding Industry Corporation, China), Shuang Xia (723th Institute Of China Shipbuilding Industry Corporation, China), Hua Yu (723th Institute Of China Shipbuilding Industry Corporation, China), and Yue Fan (723th Institute Of China Shipbuilding Industry Corporation, China)</i>
