2023 International Conference on Smart Electrical Grid and Renewable Energy (SEGRE) **SEGRE 2023**

Table of Contents

Welcome Message	xvi
Organizing Committee	xviii
Editorial Board	xx

SEGRE 2023

Multi-Objective Optimization of Community Flexible Load Scheduling with Tripartite Participation	1
<i>Liping Guo (Inner mongolia university of technology; Engineering Research Center of Large Energy Storage Technology, Ministry of Education, China), Yanqiang Wang (Inner mongolia university of technology; Engineering Research Center of Large Energy Storage Technology, Ministry of Education, China), and Yu Chen (Inner mongolia university of technology; Engineering Research Center of Large Energy Storage Technology, Ministry of Education, China)</i>	
Research on Electricity Carbon Emission Accounting Based on Classified Carbon Emission Factors	8
<i>Yimin An (State Grid Xinjiang Electric Power Co. Ltd, China), Yin Liu (State Grid Xinjiang Electric Power Co. Ltd, China), Mao Fan (State Grid Xinjiang Electric Power Co. Ltd, China), Mingxuan Li (State Grid Xinjiang Electric Power Co. Ltd, China), Shengcheng Xie (State Grid Xinjiang Electric Power Co. Ltd, China), Yifan Liang (State Grid Xinjiang Electric Power Co. Ltd, China), Lei Ma (Xinjiang University, China), Yanting Kang (Xinjiang University, China), and Wenjun Zhao (Xinjiang University, China)</i>	
Power Adaptive Allocation Strategy for Multi-Stack Fuel Cell Performance	13
<i>Jianlin LI (Qinghai University, China), Laijun Chen (Qinghai University, China), Yongqing Guo (Qinghai University, China), Hengrui Ma (Qinghai University, China), and Zedong Zhang (Qinghai University, China)</i>	
A Compound MPPT Optimization Method Based on Natural Selection Particle Swarm-Incremental Conductance	18
<i>Xiaoyu Zheng (SouthWest University of Science and Technology, China), Ke Li (SouthWest University of Science and Technology, China), Yi Yu (SouthWest University of Science and Technology, China), Min Wang (SouthWest University of Science and Technology, China), Qianding Chen (SouthWest University of Science and Technology, China), and Bo Cai (SouthWest University of Science and Technology, China)</i>	

Fault Prognosis for Li-ion Battery Packs of Electric Vehicles: An Integrated Method	24
<i>Guijie Wang (Central South University, China), Wantong Xie (Central South University, China), Kun Fang (Central South University, China), Zhixun Gong (Central South University, China), Wei Yuan (Central South University, China), and Heng Li (Central South University, China)</i>	
A Method to Calculate the Short Circuit Current and a Novel Protection Scheme for Cross-Country Faults in Resonant Grounding System	32
<i>Haowei Chen (The Eastern Operation and Maintenance Division of State Grid Hubei Ultra-high Voltage Company, China), Pan Lv (The Eastern Operation and Maintenance Division of State Grid Hubei Ultra-high Voltage Company, China), Kaibo Tang (The Eastern Operation and Maintenance Division of State Grid Hubei Ultra-high Voltage Company, China), Kai Wan (The Eastern Operation and Maintenance Division of State Grid Hubei Ultra-high Voltage Company, China), Fei Yu (The Eastern Operation and Maintenance Division of State Grid Hubei Ultra-high Voltage Company, China), and Cheng Gui (The Operation and Maintenance Division of State Grid Hubei Ultra-high Voltage Company, China)</i>	
Optimization of Control Strategies for Hybrid Energy Storage Systems Based on Model Prediction	39
<i>Qiang Wang (Dalian Polytechnic University, China) and Yanping Wang (Dalian Polytechnic University, China)</i>	
MAC Layer Security Protection Based on Dynamic Trust Evaluation Mechanism	44
<i>Yuxuan Ye (Information Communication Company State Grid Hubei Electric Power Co., Ltd., China), Ziyang Zhu (Wuhan University, China), Yixi Wang (Information Communication Company State Grid Hubei Electric Power Co., Ltd., China), Rongtao Liao (Information Communication Company State Grid Hubei Electric Power Co., Ltd., China), Lei Li (Information Communication Company State Grid Hubei Electric Power Co., Ltd., China), Xian Luo (Information Communication Company State Grid Hubei Electric Power Co., Ltd., China), and Shengwei Wang (Information Communication Company State Grid Hubei Electric Power Co., Ltd., China)</i>	
A Novel False Data Injection Method Targeting on Time-Series Analysis in Smart Grid	50
<i>Sheng Hong (Beihang University, China), Xiao Zhang (Beihang University, China), Jian Kou (State Grid Jibei Zhangjiakou Scenery Storage and Transportation New Energy Co., LTD., China), and Yuhao Sun (Beihang University, China)</i>	
An Electric Vehicle Battery Parameter Identification Method Based on VFFRLS Algorithm and Considering Environmental Temperature Influence	56
<i>Yanling Zhang (Beijing Jiaotong University, China), Qifang Chen (Beijing Jiaotong University, China), Mingchao Xia (Beijing Jiaotong University, China), and Baodi Zhang (Beijing Jiaotong University, China)</i>	
Study on Active Power Error of AC Power Flow and DC Power Flow	62
<i>Jiabao Wu (Inner Mongol University of Technology, China) and Wenyi Li (Inner Mongol University of Technology, China)</i>	

Enhancing Wind Turbine Blade Icing Prediction Accuracy with Immune Evolution Algorithm ..	68
<i>Xiaowei Huai (Hunan Disaster Prevention Technology Co., Ltd., China), Bo Li (Hunan Disaster Prevention Technology Co., Ltd, China), Zelin Cai (State Key Laboratory of Disaster Prevention and Reduction for Power Grid, China), Zhongde Liu (State Power Investment Corporation Jiangxi Electric Power Co., Ltd, China), Qiang Zhou (State Power Investment Corporation Jiangxi Electric Power Co., Ltd, China), and Linwei Huang (Hunan Disaster Prevention Technology Co., Ltd., China)</i>	
Performance Study on a Novel Printed Circuit Heat Exchanger with Variable Geometric Structure	73
<i>Heng Zhang (Shandong University, China), Hongxia Zhao (Shandong University, China), Tingting Xu (Shandong University, China), Xiaofei Dong (Shandong University, China), and Guangpeng Li (Shandong Institute of Commerce and Technology, China)</i>	
False Data Injection Attack Detection of Cyber-Physical Charging Systems Based on Time-Frequency Analysis	80
<i>Chao Hu (Central South University, China), Peishun Fan (Central South University, China), Yuxin Li (University College London, UK), I-Ju Chiu (Central South University, China), Yibin Wang (Central South University, China), Yiquan Zhou (Central South University, China), Yi Li (Hunan Post and Telecommunication College, China), and Heng Li (Central South University, China)</i>	
Research on the Transition Mode from an Existing Distribution Network to a low Redundancy Grid	89
<i>Xiaoli Meng (China Electric Power Research Institute, China), Wei Liu (China Electric Power Research Institute, China), Yuanhong Liu (China Electric Power Research Institute, China), Hai Chen (China Electric Power Research Institute, China), and Rui Li (China Electric Power Research Institute, China)</i>	
The Impact of Coordinated Configuration of Photovoltaic, Energy Storage, and Grid Structure on the Operational Efficiency of the Power Grid	96
<i>Wei Liu (China Electric Power Research Institute, China), Rui Li (China Electric Power Research Institute, China), Yuanhong Liu (China Electric Power Research Institute, China), Hai Chen (China Electric Power Research Institute, China), and Hui Hui (China Electric Power Research Institute, China)</i>	
Research on Coordinated Optimization and Scheduling of Active Distribution Network Source-Load-Storage in Thermal Power Plants	104
<i>Yuhang Cai (Inner Mongolia University of Technology, China), Lian Suo (Inner Mongolia University of Technology, China), and Jiong Wu (Inner Mongolia University of Technology, China)</i>	
Constructing an Intelligent Management Platform for Power Scheduling Data Network with Network Security Event Interception Capabilities	113
<i>Yang Jiaqi (State Grid Ningxia Electric Power Co., Ltd., China), Shi Jiafeng (State Grid Ningxia Electric Power Co., Ltd., China), Peng Jianing (State Grid Ningxia Electric Power Co., Ltd., China), Zhang Hongjie (State Grid Ningxia Electric Power Co., Ltd., China), and Zheng Tiejun (State Grid Ningxia Electric Power Co., Ltd., China)</i>	
Research on Optimal Efficiency Control Strategy of Permanent Magnet Synchronous Motor	119
<i>Quanwen Wang (Guangdong power Grid Corporation Meizhou Power Supply Bureau, China), Kai Qin (Guangdong power Grid Corporation Meizhou Power Supply Bureau, China), and Cong Liao (Guangdong power Grid Corporation Meizhou Power Supply Bureau, China)</i>	

Simulation of Grounding Faults of an Energy Storage Station Under Different Grounding Conditions	127
<i>Bohang Zhang (Hunan Disaster Prevention Technology Co., Ltd, China), Zhuang Tang (Hunan Disaster Prevention Technology Co., Ltd, China), and Rou Li (Xi'an Jiaotong University, China)</i>	
TranAD: A Deep Transformer Model for Fault Diagnosis of Lithium Batteries	133
<i>Dantong Wang (Central South University, China), Pan Ruan (Central South University, China), Di Xu (Central South University, China), Wantong Xie (Central South University, China), Xiaolong Chen (Central South University, China), and Heng Li (Central South University, China)</i>	
Multi-Objective Reactive Power Optimization for Distribution Networks with High-Penetration of New Energy	140
<i>Honghong Lin (South China University of Technology, China), Tao Yu (South China University of Technology, China), Guiyuan Zhang (China Southern Power Grid Industry Investment Group Co., Ltd.; China Southern Power Grid Company Limited, China), and Xiaoshun Zhang (Northeastern University, China)</i>	
Research on Integrated Control Strategy of Thermal Power Generation and Energy Storage Combined Secondary Frequency Modulation Based on ACE and SOC Partition	146
<i>Bo Wei (Inner mongolia university of technology, China) and Wenyi Li (Inner mongolia university of technology, China)</i>	
Study on Service Demand Model of Backbone Communication Network in New Power System	153
<i>Guangze Wu (State Grid Information &Telecommunication Branch, China), Bozhong Li (State Grid Information &Telecommunication Branch, China), Jianing Niu (State Grid Information &Telecommunication Branch, China), Dequan Gao (State Grid Information &Telecommunication Branch, China), and Ruyi Zhang (State Grid Information &Telecommunication Branch, China)</i>	
Optimization Strategies and Benefit Allocation of Virtual Power Plants Considering Different Risk Preferences	160
<i>Peng Li (Electric Power Economic Research Institute; State Grid Henan Electric Power Company, China), Jiawei Li (Xiamen University, China), Wanting Wei (Beijing Xinyuan Intelligent Interconnection Technology Company Limited, China), Wenjing Zu (Electric Power Economic Research Institute; State Grid Henan Electric Power Company, China), Qinchen Yang (Electric Power Economic Research Institute; State Grid Henan Electric Power Company, China), and Huixuan Li (Electric Power Economic Research Institute; State Grid Henan Electric Power Company, China)</i>	
Study and Application of the Secondary Circuit Automatic Detection Technology of SCD Files Based on Rule Base	167
<i>Jian Niu (Electric Power Research Institute of State Grid Ningxia Electric Power Co., LTD., China), Jianan He (Electric Power Research Institute of State Grid Ningxia Electric Power Co., LTD., China), Lei Li (Electric Power Research Institute of State Grid Ningxia Electric Power Co., LTD., China), Haitao Liu (Electric Power Research Institute of State Grid Ningxia Electric Power Co., LTD., China), Fang Wang (Electric Power Research Institute of State Grid Ningxia Electric Power Co., LTD., China), Zibo Liu (Electric Power Research Institute of State Grid Ningxia Electric Power Co., LTD., China), and Yuyang Sun (Shandong Xincheng Tongzhou Electric Power Technology Co., LTD., China)</i>	

Grid-Forming Control of VSC-HVDC for Power Systems with High Proportion of Converter-Based Sources	175
<i>Yanfeng Wang (Grid Planning & Research Center Guangdong Power Grid Co., Ltd., China), Mengze Yu (Grid Planning & Research Center Guangdong Power Grid Co., Ltd., China), Xiangsheng Lei (Grid Planning & Research Center Guangdong Power Grid Co., Ltd., China), Xinghua Wang (Grid Planning & Research Center Guangdong Power Grid Co., Ltd., China), and Sheng Liu (Guangdong Electric Power Design Institute Co., Ltd., China)</i>	
Design of Aquaculture Grid System Based on Solor Energy and Internet of Things	181
<i>Tianjiao Zhang (Guangxi University, China), Tao Hai (Guangxi University, China), Jinfeng Lu (China Tobacco Guangxi Industrial Co., Ltd, China), Xingye Zhao (Guangxi University, China), Yating Shangguan (Guangxi University, China), and Zhangbo Deng (China Tobacco Guangxi Industrial Co., Ltd Liuzhou, China)</i>	
Short-term Wind Power Probabilistic Forecasting Based on Attention Mechanism and Bidirectional LSTM	188
<i>Naixiao Wang (China Southern Power Grid Company Limited, China), Xinlei Cai (China Southern Power Grid Company Limited, China), Zhuofan Xu (Harbin Institute of Technology, China), Yufeng Guo (Harbin Institute of Technology, China), and Tingxiang Zhang (Harbin Institute of Technology, China)</i>	
Operation Optimization of Multi-Voltage-Level AC-DC Hybrid Distribution Network with Multi-Layer Consumption of Photovoltaic Generation	193
<i>Chaoyi Zhang (Xi'an Jiaotong University, China), Liuzhu Zhu (State Grid Anhui Electric Power Co. Ltd, China), Hui Zhang (State Grid Anhui Electric Power Co. Ltd, China), Zaibin Jiao (Xi'an Jiaotong University, China), Keer Ning (Xi'an Jiaotong University, China), and Junshan Liu (Xi'an Jiaotong University, China)</i>	
Research on Electric Vehicle Charging Load Zoning Prediction by Calculation and Demand Response	200
<i>Yuqian Zhai (Tianjin University of Technology)</i>	
Control Strategy for Voltage Profile Improvement of VSC-MVDC System in Urban Power Grid	208
<i>Yanfeng Wang (Grid Planning & Research Center Guangdong Power Grid Co., Ltd., China), Mengze Yu (Grid Planning & Research Center Guangdong Power Grid Co., Ltd., China), Xiangsheng Lei (Grid Planning & Research Center Guangdong Power Grid Co., Ltd., China), Xinghua Wang (Grid Planning & Research Center Guangdong Power Grid Co., Ltd., China), and Sheng Liu (Guangdong Electric Power Design Institute Co., Ltd., China)</i>	
Optimization of Electric-Gas Integrated Energy System Based on Reversible Solid Oxide Cell Considering Gas Composition	214
<i>Haoyu Yu (Xi'an Jiaotong University, China), Wanli Ma (Xi'an Jiaotong University, China), Ruhuan Li (Xi'an Jiaotong University, China), Zitong Qiu (Xi'an Jiaotong University, China), Haonan Li (Xi'an Jiaotong University, China), Jun Zhou (Xi'an Jiaotong University, China), and Kai Wu (Xi'an Jiaotong University, China)</i>	
Research on Anomaly Monitoring Algorithm of Smart Grid Based on Graph Neural Network .	221
<i>Yu Zhang (Tianjin University of Technology, China)</i>	

Analysis of the Influence of Geothermal Fluid Fouling Behavior on Geothermal Power Generation Performance and Research on Descaling Strategy	228
<i>Xiang Zhang (Power china HuaDong Engineering Corporation Limited, China), Jianping Yuan (Power china HuaDong Engineering Corporation Limited, China), Yuan Zhao (Power china HuaDong Engineering Corporation Limited, China), Qian Duan (Tianjin University, China), Jun Gao (Power china HuaDong Engineering Corporation Limited, China), Bo Zhu (Power china HuaDong Engineering Corporation Limited, China), Ruoxue Yan (Tianjin University, China), Dabiao Wang (Fuzhou University, China), and Qingsong An (Tianjin University, China)</i>	
A New Training Method for Photovoltaic Forecasting Based on ELM Auto-Encoder and Sparrow Search Algorithm	240
<i>Yiwen Ge (Nanjing University of Science and Technology, China), Hao Quan (Nanjing University of Science and Technology, China), Zixiong Li (Nanjing University of Science and Technology, China), Wenjie Zhang (Hong Kong Polytechnic University, Hong Kong), and Dazhi Yang (Harbin Institute of Technology, China)</i>	
Self-Powered Triboelectric Sensor with Data Classification Model Based on Support Vector Machine and Convolutional Neural Network	246
<i>Yudian Zhang (Beijing University of Chemical Technology, China), Chenhao Xu (Beijing University of Chemical Technology, China), Yonghao Huang (Beijing University of Chemical Technology, China), Xinying Li (Beijing University of Chemical Technology, China), Yuqi Zhang (Beijing University of Chemical Technology, China), and Quan Yuan (Beijing University of Chemical Technology, China)</i>	
A Rapidly Updated Numerical Model for Power Grid Rainstorm Forecast	252
<i>Lei Wang (State Key Laboratory of Disaster Prevention and Reduction for Power Grid Transmission and Distribution Equipment, China), Tao Feng (State Key Laboratory of Disaster Prevention and Reduction for Power Grid Transmission and Distribution Equipment, China), Zelin Cai (State Key Laboratory of Disaster Prevention and Reduction for Power Grid Transmission and Distribution Equipment, China), Li Li (State Key Laboratory of Disaster Prevention and Reduction for Power Grid Transmission and Distribution Equipment, China), Xunjian Xu (State Key Laboratory of Disaster Prevention and Reduction for Power Grid Transmission and Distribution Equipment, China), and Yangyi Ou (State Key Laboratory of Disaster Prevention and Reduction for Power Grid Transmission and Distribution Equipment, China)</i>	
Topology Identification Method of Low-Voltage Station Area Based on Hierarchical Clustering Algorithm and WDDTW Distance	257
<i>Yifei Liu (Harbin Institute of Technology, China), Rong Cao (State Grid Heilongjiang Electric Power Company Limited, China), Yufeng Guo (Harbin Institute of Technology, China), and Yingwei Wang (Harbin Institute of Technology, China)</i>	
Energy Scheduling Strategy and RTDS Simulation Analysis of Wind/ Solar/ Storage Independent System	265
<i>Linjing Hu (Inner Mongolia University of Technology, China), Jiachen Wang (Inner Mongolia University of Technology, China), and Tengda Zheng (Inner Mongolia University of Technology, China)</i>	
Research on Load Prediction Method Based on Deep Learning in Smart Grid	270
<i>Jiawen Huang (Tianjin University of Technology, China)</i>	

Zero-Carbon Emission Microgrid Control Based on Photovoltaic Battery-Supercapacitor Hybrid Energy Storage	276
<i>Jian Yang (Hunan University, China), Yifeng Liu (Tsinghua University, China), Xiaohong Wang (Tsinghua University, China), and Sixing Xu (Hunan University, China)</i>	
DC Impedance Modeling and Stability Analysis of Wind Farm Integrated MMCHVDC System with Coordinated Frequency Support Control Strategy	282
<i>Ganghua Zhang (Huazhong University of Science and Technology, China), Wang Xiang (Huazhong University of Science and Technology, China), Zheng Zhao (State Grid economic and Technological Research Institute Co., Ltd, China), and Kuan Zheng (State Grid economic and Technological Research Institute Co., Ltd, China)</i>	
Capacity Planning Method for Water, Light and Storage Combined Power Generation System of Clean Energy System	288
<i>Yuanshou Xi (Economic Research Institute; State Grid Xizang Electric Power Co., Ltd., China), Yunyao Chen (Economic Research Institute; State Grid Xizang Electric Power Co., Ltd., China), Chengchen Huang (Economic Research Institute; State Grid Jiangsu Electric Power Co., Ltd., China), Bin Li (Economic Research Institute; State Grid Xizang Electric Power Co., Ltd., China), Yuzhou Chen (Economic Research Institute; State Grid Xizang Electric Power Co., Ltd., China), and Yaoxia Du (Economic Research Institute; State Grid Xizang Electric Power Co., Ltd., China)</i>	
Construction of Energy Flow Model for Direct Drive Fan Grid-Connected System	293
<i>Wangyang Du (North China Electric Power University, China)</i>	
Analysis and Design of Building-Integrated Solar Photovoltaic Thermal Model Considering Meteorological Characteristics	299
<i>Tao Hai (Guangxi University, China), Yating Shangguan (Guangxi University, China), Jianfeng Lu (China Tobacco Guangxi Industrial Co., Ltd, China), Jun Wang (Hualan Design Group Co., Ltd, China), Tianjiao Zhang (Guangxi University, China), and Daize Lu (Guangxi Communication Planning and Design Consulting Co., Ltd, China)</i>	
Simulation Study of Waste Heat Recovery from Oily Wastewater Outside Smooth and Rough Elliptical Tubes	306
<i>Dean Kong (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Mingshu Song (State Grid Xinjiang Electric Power Company Limited, China), Jiangshan Liu (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Wenqing Zhao (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Xin Zheng (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Xiaoyu Wang (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Hao Lu (Xinjiang University, China), and Zhu Zhang (Xinjiang University, China)</i>	
Integrated Multi-Energy Scheduling Strategy for Smart Community Based on Twin Delayed Deep Deterministic Policy Gradient	311
<i>Mengfei Wen (Changsha Preschool Education College, China), Yujie Wang (Central South University, China), Jie Chen (Central South University, China), and Ren Zhu (Changsha Preschool Education College, China)</i>	

A DC Microgrid Attack Detection Strategy Based on Complete Ensemble Empirical Mode Decomposition with Adaptive Noise	318
<i>Mengfei Wen (Changsha Preschool Education College, China), Yian Wen (Changsha University of Science & Technology, China), Yu Zhang (Central South University, China), Zhongke Zhang (Central South University, China), and Ren Zhu (Changsha Preschool Education College, China)</i>	
Prediction of Renewable Energy in China Based on Grey Prediction Model	324
<i>Haiyun Huang (Nanchang Institute of Technology, China), Shaoshuo Qiu (Nanchang Institute of Technology, China), Dong Liu (Nanchang Institute of Technology, China), Xuan Yi (Nanchang Institute of Technology, China), and Qianru Song (Nanchang Institute of Technology, China)</i>	
Forecast Overhead Transmission Lines Icing Based on Weighted Regression of Multiple Meteorological Factors	329
<i>Xiaowei Huai (Hunan Disaster Prevention Technology Co., Ltd., State Key Laboratory of Disaster Prevention and Reduction for Power Grid, China), Bo Li (Hunan Disaster Prevention Technology Co., Ltd., State Key Laboratory of Disaster Prevention and Reduction for Power Grid, China), Linwei Huang (Hunan Disaster Prevention Technology Co., Ltd., State Key Laboratory of Disaster Prevention and Reduction for Power Grid, China), Shenglin Liu (Changsha Rail Transit Group Co. Ltd, China), Siguo Zhu (Disaster Prevention and Reduction Center of Hunan Electric Power, State Key Laboratory of Disaster Prevention and Reduction for Power Grid, China), and Ke Hu (Changsha Rail Transit Group Co. Ltd, China)</i>	
Optimal Configuration of Feeder-Tied Distributed Energy Hub with Refined Modeling of Photovoltaic Power Output	335
<i>Zhe Qian (Harbin Institute of Technology, China), Wenting Wang (Harbin Institute of Technology, China), and Dazhi Yang (Harbin Institute of Technology, China)</i>	
Short-term Output Prediction of Photovoltaic Power Stations Based on EWTLSTM Method	342
<i>Yaning Wang (Lanzhou Jiaotong University, China) and Jun Li (Lanzhou Jiaotong University, China)</i>	
Charging Strategy Optimization for Li-ion Batteries Based on Thermal Safety Constraints	348
<i>Chao Lyu (Harbin Institute of Technology, China), Yankong Song (Harbin Institute of Technology (Shenzhen), China), Shijie Cong (Harbin Institute of Technology, China), and Lixin Wang (Harbin Institute of Technology (Shenzhen), China)</i>	
Study on DC Ice-Melting Rate and Critical Anti-Icing Current of Overhead Contact Line	354
<i>Bo Li (Hunan Disaster Prevention Technology Co., Ltd., State Key Laboratory of Disaster Prevention and Reduction for Power Grid, China), Linwei Huang (Hunan Disaster Prevention Technology Co., Ltd., State Key Laboratory of Disaster Prevention and Reduction for Power Grid, China), Pingyang Xu (Hunan Changzhutan Rail Transit West Loop Construction Co. LTD, China), Qi Chen (Changsha Rail Transit Group Co. LTD, China), Xiaowei Huai (Hunan Disaster Prevention Technology Co., Ltd., State Key Laboratory of Disaster Prevention and Reduction for Power Grid, China), and Yubin Deng (Changsha Rail Transit Group Co. LTD, Changsha Rail Transit Operation Co. LTD, China)</i>	

Modeling and Control Strategy of Wind Hydrogen Storage Energy System	360
<i>Quanrui Mu (Inner Mongolia University of Technology, China), Hua Li (Inner Mongolia University of Technology, China), Tianze Yuan (Inner Mongolia University of Technology, China), and Dong Jia (Inner Mongolia University of Technology, China)</i>	
Demand Response Capability Analysis of Central air Conditioners Based on Group Rotation Control	367
<i>Jianbin Lu (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., China), Shuai Han (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., China), Shiya Ruan (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., China), and Ning Wu (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., China)</i>	
A Multi-Objective Optimization Approach for Photovoltaic and Battery Sizing in an Off-Grid Power System	373
<i>Fanhao Wei (Harbin Institute of Technology, China), Guoming Yang (Harbin Institute of Technology, China), and Dazhi Yang (Harbin Institute of Technology, China)</i>	
Extra-High-Penetration Photovoltaic Generation Hybrid Power Dispatching Strategy in Rural Electric Distribution Area	380
<i>Di Ge (State Grid Henan Electric Power Company Xuchang Power Supply Company Xuchang, China), Zhifei Cai (State Grid Henan Electric Power Company Xuchang Power Supply Company Xuchang, China), Shangji Chen (State Grid Henan Electric Power Company, Country), Haiyang Li (State Grid Henan Electric Power Company, Country), and Ziqiang Wang (State Grid Henan Electric Power Company, Country)</i>	
Adjustable Load Forecasting Method Based on Endemical Mode Decomposition with Bidirectional Long Short-Term Memory	385
<i>Dan Lu (State Grid Henan Economic Research Institute, China), Hongyan Zhang (State Grid Henan Electric Power Company, China), Ping Zhang (State Grid Henan Economic Research Institute, China), Han Fu (State Grid Henan Electric Power Company, China), Pan Luo (State Grid Henan Electric Power Company, China), and Haotian Ma (North China Electric Power University, China)</i>	
Capacity Aptimization Allocation of Hydrogen Production System for Wind-Solar Complementary Power Generation	391
<i>Dong Jia (Inner Mongolia University of Technology, China), Hua Li (Inner Mongolia University of Technology, China), Yang Li (Jingneng (Xilin Gol) Power Generation Co.LTD, China), Hailong Zhang (Jingneng (Xilin Gol) Power Generation Co.LTD, China), and Tianze Yuan (Inner Mongolia University of Technology, China)</i>	
Numerical Simulation of Ash and Slag Deposition in Supercritical Tangential Boiler	399
<i>Yongji Li (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Qing Zhu (State Grid Xinjiang Electric Power Company Limited, China), Dean Kong (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Hongzhi Han (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Yonghao Kang (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Jiahui Liang (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Wenjun Zhao (Xinjiang University, China), Mengxin Zhu (Xinjiang University, China), and Shangwen Huang (Xinjiang University, China)</i>	

PEMFC Modeling Simulation and Application	404
<i>Yang Li (Jingneng (Xilinguole) Power Generation Co., Ltd., China), Hongsheng Li (Jingneng (Xilinguole) Power Generation Co., Ltd., China), Hailong Zhang (Jingneng (Xilinguole) Power Generation Co., Ltd., China), Jikang Wang (Inner Mongolia University of Technology, China), and Yufei Peng (Shenzhen Water Planning and Design Institute Co., Ltd, China)</i>	
Locating and Allocating Warehouse Facilities and Prosumer Microgrid in Transactive Energy Paradigm	410
<i>Honglin Li (The University of Texas at Dallas, USA), Tongdan Jin (Texas State University, USA), and Emily Fainman (Texas State University, USA)</i>	
An Optimal Dispatching Model for Interconnected Power Grid Based on Security Region	416
<i>Bao Li (China Southern Power Grid, China), Qian Ma (China Southern Power Grid, China), Hefeng Zhai (China Southern Power Grid, China), Xin Zhou (China Southern Power Grid, China), Yuan Zeng (Tianjin University, China), and Junzhi Ren (Tianjin University, China)</i>	
Learning-Aided Life Cycle Prediction of Batteries in Data Centers	422
<i>Ziting Zhang (China Telecom Research Institute, China), Xiaoyu Chi (Beijing University of Posts and Telecommunications, China), Tao Wang (China Telecom Corporation Limited, China), Rui Meng (Beijing University of Posts and Telecommunications, China), Liang Jin (Beijing University of Posts and Telecommunications, China), and Yu Zeng (China Telecom Research Institute, China)</i>	
Hybrid Energy Storage Capacity Optimization of wind-Hydrogen System Based on Improved NSGA-II	429
<i>Xinyu Zhang (Inner Mongolia University of Technology, China), Hua Li (Inner Mongolia University of Technology, China), Yang Li (Jingneng (Xilinguole) Power Generation Co., Ltd., China), and Jikang Wang (Inner Mongolia University of Technology, China)</i>	
Research on CO2 Emission Prediction of Coal-Fired Power Plant Based on RBF Neural Network ...	437
<i>Dachuang Cheng (Electric Power Research Institute State Grid Corporation of China, China), Jingyi Xiao (Electric Power Research Institute State Grid Corporation of China, China), Lei Sun (Electric Power Research Institute State Grid Corporation of China, China), Yan Liu (Electric Power Research Institute State Grid Corporation of China, China), Yuxiang Feng (Electric Power Research Institute State Grid Corporation of China, China), Yanting Kang (Xinjiang University, China), Lei Ma (Xinjiang University, China), and Hao Lu (Xinjiang University, China)</i>	
A Small Current Ground Fault Diagnosis Method Based on Big Data Random Matrix	442
<i>Jieyun Zheng (Economic and Technological Research Institute State Grid Fujian Electric Power Co. Ltd, China), Zhuolin Chen (Economic and Technological Research Institute State Grid Fujian Electric Power Co. Ltd, China), Zhanghuang Zhang (Economic and Technological Research Institute State Grid Fujian Electric Power Co. Ltd, China), Ying Shi (Economic and Technological Research Institute State Grid Fujian Electric Power Co. Ltd, China), Yudi Fang (Economic and Technological Research Institute State Grid Fujian Electric Power Co. Ltd, China), and Meiqi Pan (Shanghai Jiao Tong University, China)</i>	

A Multi-Mode Low Energy Consumption System Control and Reliability Evaluation Method ..	446
<i>Ying Zhang (Beijing Institute of Aerospace Automatic Controls, China), Yifei Zhao (Beijing Institute of Aerospace Automatic Controls, China), Zhanggang Lv (Beijing Institute of Aerospace Automatic Controls, China), Shihui Wang (Beijing Institute of Aerospace Automatic Controls, China), and Bo Yang (Beijing Institute of Precision Mechatronics and Controls, China)</i>	
Frequency Safety Control Strategy Based on Multistage Coordination Following Disturbance ..	451
<i>Zifeng Li (Dalian University of Technology, China), Yixuan Su (Dalian University of Technology, China), Xian Wu (Northeast Branch of State Grid Corporation of China, China), Ping Li (Electrical Power Research Institute of State Grid Liaoning Electric Power Supply Co. Ltd., China), and Weidong Li (Dalian University of Technology, China)</i>	
Analyses of Generator Stator Cooling Water Flow Protection On-Line Verification	458
<i>Weidong Yan (GD Power Development Co., Ltd., China) and Dan Pei (Electric Power Research Institute State Grid Liaoning Electric Power, China)</i>	
An Efficient Energy Harvesting Technology for TENG–Electric Filed Hybrid System	462
<i>Changming Ding (Hunan University, China), Dongping Zheng (Hunan University, China), and Sixing Xu (Hunan University, China)</i>	
Numerical Simulation of Micro-Encapsulated Carbon Dioxide Absorber Mass Transfer Process using Comsol	466
<i>Jiahao Liang (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Yonghao Kang (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Xin Zheng (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Wenqing Zhao (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Xiaoyu Wang (Research Institute State Grid Xinjiang Electric Power Company Limited, China), Dean Kong (Research Institute State Grid Xinjiang Electric Power Company Limited, China), and Huachen Liu (Xinjiang University, China)</i>	
Transmission Line Geological Hazard Detection Based on UAV LiDAR DEM and InSAR	470
<i>Zhaohua Tang (State Key Laboratory of Disaster Prevention & Reduction for Power Grid, China), Zhen Fang (State Key Laboratory of Disaster Prevention & Reduction for Power Grid, China), Yicheng Sun (State Key Laboratory of Disaster Prevention & Reduction for Power Grid, China), Yi Ouyang (State Key Laboratory of Disaster Prevention & Reduction for Power Grid, China), and Huayu Zhang (State Key Laboratory of Disaster Prevention & Reduction for Power Grid, China)</i>	
Study on Micrometeorological On-Line Monitoring Method for Transmission and Transformation Power Station	476
<i>Di Dong (Henan Electric Power Survey & Design Institute, China), Jing Sun (Henan Electric Power Survey & Design Institute, China), Lijuan Cheng (Henan Electric Power Survey & Design Institute, China), and Jinlong Li (China Communications Construction Group Design Institute Co., Ltd, China)</i>	
Author Index	483
