2023 6th International Conference on Computer Network, Electronic and Automation (ICCNEA)

ICCNEA 2023

Table of Contents

Message from the General Chair ..... **xvi**
Message from the Program Chair ..... **xvii**
Welcome Message ..... **xviii**
Organizing Committee ..... **xix**
Sponsors ..... **xx**

Computer Science and Engineering

Improving the Accuracy of Iris Recognition Based on Attention Mechanism 1
Zike Wang (Xi'an Technological University, China), Jianguo Wang (Xi'an Technological University, China), and Lei Zhong (Xi'an Technological University, China)

MA-Unet3+ Segmentation Network of Remote Sensing Image Based on ECA Block 5
Lang Gao (Xi'an Technological University, China), Jianguo Wang (Xi'an Technological University, China), and Xin Ye (Xi'an Technological University, China)

A Framework for Endoscopic Image Classification Enhanced by Deep Transfer Learning 10
Shaojie Zhao (Shanghai University of Engineering Science, China), Siqi Yi (Central South University, China), Cong Cao (Central South University, China), Juan Cheng (Central South University, China), Yuqing Ye (Central South University, China), and Menglin Kong (Central South University, China)

An Improved Algorithm of Detecting Abnormal Data in Geological Disaster System 15
Yupeng Chen (Xi'an Technological University, China) and Jianguo Wang (Xi'an Technological University, China)

A New Approach for Iris Segmentation Based on U-Net 20
Yan Yang (Xi'an Technological University, China) and Jianguo Wang (Xi'an Technological University, China)

A Study of Multimodal Identification Methods 25
Jianjian Feng (Xi'an Technological University, China) and Jianguo Wang (Xi'an Technological University, China)

Application of Three-Dimensional Reconstruction Based on Improved ICP Algorithm 30
Long Qin (Xi'an Industrial and Commercial College), Zihao Liu (The 705 Research Institute China State Shipbuilding Corporation Limited), Rui Yang (School of Computer Science and Engineering, Xi'an Technological University), and Fan Yu (Xi'an Industrial and Commercial College)

Based on Remote Fire Path Planning Method Under the Background of Joint Operations 36
Zhiming Guo (China Research and Development Academy of Machinery Equipment, China), Zilong Bai (China Research and Development Academy of Machinery Equipment, China), Jun Ye (Troop No 31306 of PLA, China), Wei Wang (Center for Strategic Assessment Academy of Military Science, China), Liang Gao (China Research and Development Academy of Machinery Equipment, China), and Hu Qiao (Xi'an Technological University, China)

Construction of Knowledge Graph for Special Machining 41
Kaixin Gong (Xi'an Technological University, China) and Hui Yao (Xi'an Technological University, China)

Hidden Markov-Based Pilot Condition Monitoring 44
Lina Gao (Xi'an Technological University, China), Changyuan Wang (Xi'an Technological University, China), and Jinna Xue (Xi'an Technological University, China)

Integrating Star Graph and Dynamic Intent Awareness for Session-Based Recommendation 49
Mingyi Mao (Beijing Technology and Business University, China) and Jiayi Xu (Beijing Technology and Business University, China)

Model Design and Research of Power Communication Equipment Evaluation Based on AI 56
Lifeng Li (Jin Hua Power Supply Branch, State Grid Zhejiang Electric Power Co., Ltd, China) and Zhanhao Yang (Xi'an University of Posts and Telecommunications, China)

Prediction of Protein Secondary Structure Based on Lightweight Convolutional Neural Network 60
Junyan Zhao (Xi'an Technological University, China) and Qinkun Xiao (Xi'an Technological University, China)

Quadrotor UAV Virtual Reality Verification Platform 65
Zilu Qin (Xi'an Technological University, China), Ying Lu (Xi'an Technological University, China), Wanying Song (Xi'an Technological University, China), Lichen Pang (Xi'an Technological University, China), Yanfang Fu (Xi'an Technological University, China), and Shaochun Qu (Xi'an Technological University, China)

Reinforcement Learning Scheduling Research for Edge Servers 70
Yonggui Han (Xi'an Technological University, China) and Zhongsheng Wang (Xi'an Technological University, China)

Reliability Prediction Based on SVR and Improved SCSO 76
Xiaojun Bai (Xi'an Technological University, Xi'an, China), Hongyue Liu (Xi'an Technological University, Xi'an, China), and Gong Meng (Beijing Aerospace Automatic Control Institution, China)

Research and Implementation of Image Defogging Based on Deep Learning 82
Ao Li (Xi'an Technological University, China) and Zhongsheng Wang (Xi'an Technological University, China)

Research of Image De-Noising Based on Deep Learning 86
Kai Li (Xi'an Technological University, China) and Zhongsheng Wang (Xi'an Technological University, China)

Research on Chinese Event Extraction Method with No-Trigger 91
Yi Li (Xi'an Technological University, China), Chaoyang Geng (Xi'an Technological University, China), and Dan Yang (Xi'an Technological University, China)

Research on Dim Target Detection Model Based on Eye Movement Data 96
Sirui Wang (Xi'an Technological University, China) and Changyuan Wang (Xi'an Technological University, China)

Research on Dual Channel Medical Short Text Intention Recognition Algorithm 101
Chao Wang (Xi'an Technological University, China), Yongyong Sun (Xi'an Technological University, China), and Fei Xu (Xi'an Technological University, China)

Research on Multilevel Degradater Model Under Unsupervised Learning 106
Jieyi Lv (Xi'an Technological University, Xi'an, Shaanxi, China) and Zhongsheng Wang (Xi'an Technological University, China)

Research on Multi-Load AGV Scheduling Based on Improved Genetic Algorithm 110
Ruoxuan Xu (Xi'an Technological University, China), Li Yan (Xi'an Technological University, China), Yufei Li (Xi'an Technological University, China), and Buqing Jie (Xi'an Technological University, China)

Research on Sentiment Analysis Fusion Based on Neural Network 115
Yuanyuan Ma (Xi'an Technological University, China), Yongyong Sun (Xi'an Technological University, China), and Fei Xu (Xi'an Technological University, China)

Research on Target Recognition and Tracking Technology Based on Laser Point Cloud 120
Long Qin (Xi'an Industrial and Commercial College, China), Yanxi Wei (Xi'an Technological University, China), Fan Yu (Xi'an Industrial and Commercial College, China), and Zihao Liu (The 705 Research Institute China State Shipbuilding Corporation Limited, China)

Research on the Application of Digital Signature in University Electronic Government System 125
Tianma Wang (International Education Institute, North China Electric Power University, China), Dongmei Zhao (College of Computer and Cyber Security, Hebei Normal University; Key Laboratory of Network and Information Security in Hebei Province, China), and Jianjun Qi (International Education Institute, North China Electric Power University, China)

Research on the Design of Digital Surface Interface for Virtual Gear Measurement Center Based on VC++ 129
Huan Zhang (Xi'an Technological University, China), Chunxia Lu (Xi'an Technological University, China), and Linyan Wang (Xi'an Technological University, China)

Small Target Detection Optimization Algorithm Based on Improved YOLOv5 134
Shijie You (Xi'an Technological University, P. R. China), Yan Hui (Xi'an Technological University, P. R. China), Xiuhua Hu (Xi'an Technological University, P. R. China), and Panpan Yang (Xi'an Technological University, P. R. China)

Target RCS Prediction Based on Residual Structure and Data Augmentation 139
Jiale Lv (Xi'an Technological University, China) and Quan Wang (Xi'an Technological University, China)

Network Technology and Engineering

A Novel Texture Mapping Method for Fringe Projection Profilometry 144
Feng Chen (Chengdu University of Information Technology, China), Shengjie Wang (Key Laboratory of Flight Techniques and Flight Safety, China), Min Zhong (Chengdu University of Information Technology, China), Chao Xiao (Chengdu University of Information Technology, China), and Yikun Lyu (Chengdu University of Information Technology, China)

A Spatial-Temporal Detecting Method for Low-Altitude Slow and Small Target 148
Feng Chen (Chengdu University of Information Technology, China), Shengjie Wang (Key Laboratory of Flight Techniques and Flight Safety, China), and Yikun Lyu (Chengdu University of Information Technology, China)

A Study of Task Offloading Strategies in IoV 152
Jingyun Wei (Xi'an Technological University, China) and Xiangyang Liang (Xi'an Technological University, China)

Anti-Jamming Research of UAV Communication Based on Link-16 Datalink 157
Lijun Liu (Xi'an Technological University, China), Yanfang Fu (Xi'an Technological University, China), Qinjie Li (Xi'an Technological University, China), Ying Lu (Xi'an Technological University, China), Zijian Cao (Xi'an Technological University, China), and Yifan Chen (Xi'an Technological University, China)

Automated Channel Pruning Strategy Based on Artificial Bee Colony Algorithm 162
Gang Liu (Xi'an Technological University, China) and Yufeng Zhao (Xi'an Technological University, China)

Delay and Energy Consumption Optimization Method for Dependent Task Unloading 167
Xingxing Chou (Shaanxi University of Science and Technology, China), Wei Wang (Shaanxi University of Science and Technology, China), and Wei Ren (Shaanxi University of Science and Technology, China)

DV-Hop Localization Strategy Based on Beacon Node Confidence Analysis 173
Han Shen (Xi'an Technological University, China) and Zhongsheng Wang (Xi'an Technological University, China)

Investigating Transformer-Based Approach for Small-Sample Object Detection 179
Tiantian Lv (Xi'an Technological University, China), Yaoxuan Yuan (Xi'an Technological University, China), and Jianguo Wang (Xi'an Technological University, China)

Laser Point Cloud Target Detection Based on Improved PointPillars 184
Hui Xu (Tianjin University of Technology and Education, China), Feng Du (Tianjin University of Technology and Education, China), Yongpeng Chen (Tianjin University of Technology and Education, China), Jiquan Wu (Tianjin University of Technology and Education, China), Junhui Zhang (Tianjin University of Technology and Education, China), and Yuyang Du (Leicester International Institute, Dalian University of Technology, China)

Learning to Predict Tendency of CVE Vulnerability 188
Kai Long (Xi'an Technological University, China), Junjun Guo (Xi'an Technological University, China), and Kunpeng Yang (Xi'an Technological University, China)

Optimized Spatio-Temporal Feature Representation Based on 3D-CNN Motor Image Decoding 193
Jianing Shen (Xi'an Technological University, China), Qinkun Xiao (Xi'an Technological University, China), Leran Chang (Xi'an Technological University, China), and Songtao Jia (Northwest Industries Group Co, China)

Research on Key Technology of Power Spatiotemporal Big Data with Beidou Communication 199
Hongzhen Yang (Information and Telecommunication Branch, State Grid Zhejiang Electric Power Co., Ltd, China), Weiping Shao (State Grid Zhejiang Electric Power Co., Ltd, China), Wei Jiang (State Grid Corporation of China, China), and Chao Fan (Information and Telecommunication Branch, State Grid Zhejiang Electric Power Co., Ltd, China)

Research on Line Loss Estimation Based on Improved K-Means++ and Elman Neural Network 203
Ji Xiao (State Grid Chong Qing Electric Power Company Marketing Service Center name of organization, China), Ke Zheng (State Grid Chong Qing Electric Power Company Marketing Service Center name of organization, China), Jiaming Zhang (State Grid Chong Qing Electric Power Company Marketing Service Center name of organization, China), Jie Du (State Grid Chong Qing Electric Power Company Marketing Service Center name of organization, China), Shishun Tan (State Grid Chong Qing Electric Power Company Marketing Service Center name of organization, China), and Yu Su (State Grid Chongqing Electric Power Company Qijiang Power Supply Branch, China)

Research on Super-Resolution Image Processing Based on Deep Learning 207
Yuyan Lu (Photoelectrical Engineering Institute, Xi'an Technological University, China) and Yubian Wang (Belarusian State University of Transport, Republic of Belarus)

Research on the Application of Artificial Intelligence Technology in Network Security 211
Bozhi Xiao (Xi'an Technological University, China), Shengquan Yang (Xi'an Technological University, China), and Shujuan Huang (Xi'an Technological University, China)

Research on the Application of Artificial Intelligence Technology in Network Security 216
Haige Li (Xi 'an Automobile Vocational University, China) and Hao Zuo (Xi 'an Automobile Vocational University, China)

Sensing Image Super-Resolution Reconstruction Based on the UNet Decoding Network 222
Na Zhang (Xi'an Technological University, China), Qinkun Xiao (Xi'an Technological University, China), and Songtao Jia (Technical Department of Northwest Industrial Group Limited Company, China)

The Application and Impact of Artificial Intelligence Technology in International Trade 228
Lan Wu (Chongqing Vocational Institute of Engineering, China; Southwest Jiaotong University, China)

Electronic Technology and Engineering

Multi-Circular SAR Trajectory Design Based on Wavenumber Spectrum Analysis 233
Lina Chu (Army Engineering University, Shijiazhuang Campus, China), Yanheng Ma (Army Engineering University, Shijiazhuang Campus, China), Bin Song (Army Engineering University, Shijiazhuang Campus, China), Sen Yang (Army Engineering University, Shijiazhuang Campus, China), Bingxuan Li (Army Engineering University, Shijiazhuang Campus, China), and Wei Li (Army Engineering University, Shijiazhuang Campus, China)

Poisson Noise Image Restoration Based on Bregman Proximal Gradient 239
Huan Li (Xi'an Technological University, China), Wenjuan Zhang (Xi'an Technological University, China), Shujian Huang (Xi'an Technological University, China), and Feng Xiao (Xi'an Technological University, China)

Research on Network Voltage Analysis Algorithm for Power System Transient Stability 244
Qingcheng Fang (Information and Telecommunication Branch, State Grid Zhejiang Electric Power Co., Ltd, China), Hongzhen Yang (Information and Telecommunication Branch, State Grid Zhejiang Electric Power Co., Ltd, China), Wenjie Kong (Information and Telecommunication Branch, State Grid Zhejiang Electric Power Co., Ltd, China), Yao Yu (Information and Telecommunication Branch, State Grid Zhejiang Electric Power Co., Ltd, China), and Yi Zhou (Tai Zhou Power Supply Branch, State Grid Zhejiang Electric Power Co., Ltd, China)

Research on the Key Technology of Non-Contact Vital Signs Monitoring 249
Xiaowen Guo (Key Laboratory of man-machine-environment, CNGC, Institute for Hygiene of Ordnance Industry, China), Shuwen Guo (Key Laboratory of man-machine-environment, CNGC, Institute for Hygiene of Ordnance Industry, China), Yaxin Zhao (Key Laboratory of man-machine-environment, CNGC, Institute for Hygiene of Ordnance Industry, China), and Jiamiao Shi (Xi'an Technological University, China)

Research on Vibration Monitoring System for Large Vibrating Screens 254
Chunyan Zhu (Xi'an Peihua University, China)

Target Localization of Short Vertical Line Array Based on Least Squares Method 258
Shaochun Qu (Xi'an Technological University, China), Zhipeng Cai (North Automatic Control Technology Institute, China), and Jing Ma (Xi'an Technological University, China)

Wavefront Reconstruction Method Based on Improved U-Net 262
Jiaojiao Zhao (Xi'an Technological University, China), Chunyang Wang (Xi'an Technological University, China), and Xiaoce Yang (Xi'an Technological University, China)

Automation Control and Engineering

A Flexible Calibration Method for Fringe Projection Profilometry 267
Yikun Lyu (Chengdu University of Information Technology, China), Feng Chen (Chengdu University of Information Technology, China), and Shengjie Wang (Key Laboratory of Flight Techniques and Flight Safety, China)

A Rolling Bearing Fault Prediction Model Based on LSSVM-HMM 271
Jingyi Li (Xi'an Technological University, China) and Bailin Liu (Xi'an Technological University, China)

A Trade-off Method for a Joint Land Combat Equipment Scale System 276
Zhiming Guo (China Research and Development Academy of Machinery Equipment, China), Zilong Bai (China Research and Development Academy of Machinery Equipment, China), Jun Ye (Troop No 31306 of PLA, China), Wei Wang (Consulting Center for Strategic Assessment, Academy of Military Science, China), Liang Gao (China Research and Development Academy of Machinery Equipment, China), and Hu Qiao (Xi'an Technological University, China)

A Whale Optimization Algorithm of Assembly Planning in Pulsating Production 281
Hanqi Wu (Xi'an Technological University, China) and Yan Cao (Xi'an Technological University, China)

Autonomous Path Planning for Mobile Robots in Multi Obstacle Environments 286
Qiong Du (Tianjin University of Technology and Education National, China), Feng Du (Tianjin University of Technology and Education National, China), Jianfeng Cheng (Tianjin University of Technology and Education National, China), Lei Qi (Tianjin University of Technology and Education National, China), Penghao Ji (Tianjin University of Technology and Education National, China), and Bo Huang (Tianjin University of Technology and Education National, China)

Autonomous Path Planning of AGV Obstacle Avoidance Based on Improved Q-Learning 290
Li Yan (Xi'an Technological University, China), Lili Yang (Xi'an Technological University, China), and Yufei Li (Xi'an Technological University, China)

Braking Energy Recovery of Pure Electric Vehicles with Compound Control Strategy 296
Qing Wang (Tianjin University of Technology and Education, China), Lei Zhang (Tianjin University of Technology and Education, China), Xiaolong Liu (Tianjin University of Technology and Education, China), Yajuan Li (Tianjin University of Technology and Education, China), Yao Wang (Tianjin University of Technology and Education, China), and Yang Zhang (Tianjin University of Technology and Education, China)

Construct and Analysis of Metal Cutting Tool Remanufacturing Service Model 301
Ziyan Zhu (Xi'an Technological University, China), Yan Cao (Xi'an Technological University, China), Leijie Fu (Xi'an Technological University, China), and Chaoyi Dong (Xi'an Technological University, China)

Design and Engineering Analysis of Intelligent Display Rack 305
Ziqi Yang (Xi'an Technological University, China), Xueming Qian (Xi'an Technological University, China), Heng Lv (Xi'an Technological University, China), Hanyu Lou (Xi'an Technological University, China), Quancheng Qu (Xi'an Technological University, China), Tao Liu (Xi'an Technological University, China), and Ge Wang (Xi'an Technological University, China)

Design and Implementation of an Epidemic Prevention Sanitizer Robot 312
Shuangming Wang (Shaanxi Technical College of Finance & Economics, China) and Tuo Zhang (Shaanxi Technical College of Finance & Economics, China)

Design and Implementation with Enclosed Automatic Mobile Factory for UHV GIS 316
Hongzhen Yang (Information and Telecommunication Branch, State Grid Zhejiang Electric Power Co., Ltd, China), Qingcheng Fang (Information and Telecommunication Branch, State Grid Zhejiang Electric Power Co., Ltd, China), Yi Zhang (Information and Telecommunication Branch, State Grid Zhejiang Electric Power Co., Ltd, China), Jianpeng Zhao (Information and Telecommunication Branch, State Grid Zhejiang Electric Power Co., Ltd, China), and Xinghang Zheng (Information and Telecommunication Branch, State Grid Zhejiang Electric Power Co., Ltd, China)

Development and Application of Teaching Experiment Platform for Automobile Major 320
Xianping Gao (Tianjin University of Technology and Education, China), Yao Wang (Tianjin University of Technology and Education, China), Yanyun Xing (Tianjin University of Technology and Education, China), Kaixin Wei (Tianjin University of Technology and Education, China), and Baojun Liu (Jiangsu Transportation Design and Research Institute, China)

Equipment System Optimization Method Based on Cost-Efficiency Analysis 325
Hu Qiao (Xi'an Technological University, China), Jun Lin (Xi'an Technological University, China), Zhiming Guo (China Research and Development Academy of Machinery Equipment, China), Liang Gao (China Research and Development Academy of Machinery Equipment, China), Jun Ye (Troop No 31306 of PLA, China), and Jiawei Xu (Xi'an Technological University, China)

Joint Modeling of Multi-Domain Digital Twins for Lithium Battery Pack 330
Yue Su (Xi'an Technological University, China), Jie Wu (Xi'an Technological University, China), Xi Zhang (Xi'an Technological University, China), Shuai Lei (Xi'an Technological University, China), and Zekun Li (Xi'an Technological University, China)

Motion Planning and Optimal Control of AEB System Under Different Adhesion Coefficients Road 336
Penghao Ji (Tianjin University of Technology and Education, China), Feng Du (Tianjin University of Technology and Education, China), Jiquan Wu (Tianjin University of Technology and Education, China), Jianfeng Cheng (Tianjin University of Technology and Education, China), Qiong Du (Tianjin University of Technology and Education, China), and Lei Qi (Tianjin University of Technology and Education, China)

Multi-Objective FJSP Based on Multi-Agent Reinforcement Learning Algorithm 341
Shilin Huo (Xi'an Technological University, China) and Wenfeng Wu (Xi'an Technological University, China)

Optimal Design and Research on Performance Parameters of Double Scissor Mechanism 344
Yuehong Wang (Shaanxi Energy Institute, China) and Yajuan Wang (Shaanxi Energy Institute, China)

Optimization of SVM Based on IPSO Algorithm for Tool Life Prediction 349
Xianghong Gao (Xi'an Technological University, China) and Yan Cao (Xi'an Technological University, China)

Parameters Optimization of ADRC Based on DBO Algorithm 354
Xiang Li (Shanghai Jiao Tong University, China), Chaochen Gu (Shanghai Jiao Tong University, China), and Chao Chen (Shanghai Jiao Tong University, China)

Property Personnel Management System Based on BLE Technology 359
Yang Tao (Nanchang Institute of Science and Technology, China), Xinling Huang (Nanchang Institute of Science and Technology, China), and Lijuan An (Nanchang Institute of Science and Technology, China)

Real-Time Voice Command Recognition System Based on DTW and MFCC 364
Yuanzi He (Guangdong University of Science and Technology, China), Yang Tao (Nanchang Institute of Science and Technology, China), and Lijuan An (Nanchang Institute of Science and Technology, China)

Reinforcement Learning of Aerial Combat Maneuver Decisions Based on UAVs Situation 370
Jingyu Zhang (Xi'an Technological University, China), Zhongxiao Chen (Xi'an Technological University, China), Yang Zhang (Xi'an Technological University, China), and Jianing Shen (Xi'an Technological University, China)

Remaining Useful Life Prediction of Aircraft Engines Based on FA-SDAE-BiGRU 376
Xiaojun Bai (Xi'an Technological University, China), Yunpeng Sun (Xi'an Technological University, China), and Gong Meng (Beijing Aerospace Automatic Control Institution, China)

Research of the Development of Riveting Technology and Riveting Institutions 382
Xiwei Gu (Xi'an Technological University, China) and Yan Cao (Xi'an Technological University, China)

Research on Super-Twisting Sliding Mode Control Based on Disturbance Observer 385
Jue Lei (Xi'an Technological University, China), Chunyang Wang (Xi'an Technological University, China), and Jinyang Yu (Changchun University of Science and Technology, China)

Research on Denture Feature Matching Point Cloud Data Based on Deep Learning 391
Danni Song (Xi'an Technological University, China) and Baolong Liu (Xi'an Technological University, China)

Research on Mental Robot Based on Knowledge Graph 395
Mingxu Han (Dalian Institute of Science and Technology, China), Huimei Wei (Dalian Institute of Science and Technology, China), Yao Li (Dalian Institute of Science and Technology, China), Jingyu Li (Dalian Institute of Science and Technology, China), and Siqi Ma (Dalian Institute of Science and Technology, China)

Research on Optimization of UAVs Supertorsional Sliding Modules Based on Variable Load Applications 401
Shuai Lei (Xi'an Technological University, China), Jie Wu (Xi'an Technological University, China), Yue Su (Xi'an Technological University, China), Zekun Li (Xi'an Technological University, China), and Siying Zheng (Xi'an Technological University, China)

Research on Risk Identification and Evaluation of Gree Product R&D in Manufacturing Industry Based on R-AHP 407
Ruiqing Hao (Xi'an Technological University, China; Xi'an Aeronautical Polytechnic Institute, China), Yunxiu Sai (Xi'an Shiyou University, China), and Juange Bian (Xi'an Aeronautical Polytechnic Institute, China)

Research on Target Measurement Technology Based on Air-Based Multi-UAV System 412
Na Li (Xi'an Technological University, China), Bin Lei (Xi'an Technological University, China), and Chen Su (Xi'an Technological University, China)

Research on the Application of Digital Twin in Bridge Rotation Construction 419
Yanming Liu (State Key Laboratory of Rail Transit Engineering Informatization (FSDI), China), Fei Xu (Xi'an Technological University, China), Zhenghua Yang (Xi'an Technological University, China), Yan Deng (Xi'an Technological University, China), and Xing Wang (Xi'an Technological University, China)

Research on the Cloud Flash Knot Platform Based on Yolov5 Item Detection 424
Xin Bai (Dalian Institute of Science and Technology, China), Mingyuan Chen (Dalian Institute of Science and Technology, China), Tao Ye (Dalian Institute of Science and Technology, China), Lijuan Wang (Dalian Institute of Science and Technology, China), and Huimei Wei (Dalian Institute of Science and Technology, China)

Research on the Practice of Green Supply Chain Management of Foreign Trade Enterprises 428
Lan Wu (Chongqing Vocational Institute of Engineering, China; Southwest Jiaotong University, China)

Research on UAV Route Planning Based on Global Improved Ant Colony Algorithm 432
Xiaoling Wang (Chengdu University of Electronic Science and Technology, China) and Yuanyuan Wang (Chengdu University of Electronic Science and Technology, China)

Research on Video Tracking Algorithm Based on Yolo Target Detection 437
Jiayong Qu (Xi'an Technological University, China) and Shifang Zhang (Xi'an Technological University, China)

Risk Assessment of Lane Change Status for Intelligent Vehicle Based on Fuzzy Bayesian 440
Lei Qi (Tianjin University of Technology and Education, China), Feng Du (Tianjin University of Technology and Education, China), Yuyang Du (Leicester International Institute, Dalian University of Technology, China), Jianfeng Cheng (Tianjin University of Technology and Education, China), Qiong Du (Tianjin University of Technology and Education, China), and Penghao Ji (Tianjin University of Technology and Education, China)

Robustness Analysis for Electric Vehicle Based on Uncertainty from Power Battery Packs 445
Lei Zhang (Tianjin University of Technology and Education, China), Qing Wang (Tianjin University of Technology and Education, China), Jiwei Zan (Automobile Inspection and Maintenance Dept. Tianjin Xiqing Secondary Vocational School, China), and Lixue Liang (Automotive Maintenance Department, Yingkou City Agricultural Engineering School, China)

Route Optimization in the Inbound Logistics Based on Ant Colony Algorithm 449
Jiashan Zhang (Chongqing Vocational Institute of Engineering, China) and Xiaoqun Lin (Chongqing Vocational Institute of Engineering, China)

Author Index **453**
