

PROCEEDINGS OF SPIE

Tenth European Seminar on Precision Optics Manufacturing

Gerald Fütterer
Christine Wünsche
Oliver W. Föhnle
Alexander Haberl
Editors

18–19 April 2023
Teisnach, Germany

Organized by
Deggendorf Institute of Technology (Germany)
Technology Campus Teisnach (Germany)

Technical Cosponsor and Publisher
SPIE

Volume 12755

Proceedings of SPIE 0277-786X, V. 12755

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Tenth European Seminar on Precision Optics Manufacturing*, edited by Gerald Fütterer, Christine Wünsche, Oliver W. Föhnle, Alexander Haberl, Proc. of SPIE 12755, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

ISBN: 9781510667587

ISBN: 9781510667594 (electronic)

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

TENTH EUROPEAN SEMINAR ON PRECISION OPTICS MANUFACTURING

- 12755 02 **Experimental investigations on the manufacturing of fused silica freeform surfaces by means of fine and ultra-fine grinding [12755-11]**
- 12755 03 **Superposition of cryogenic and ultrasonic assisted machining of Zerodur [12755-15]**
- 12755 04 **Plasma jet polishing of optical surfaces [12755-2]**
- 12755 05 **Analysis of flexibility in precision glass molding (PGM) [12755-4]**
- 12755 06 **Ultrasonic-assisted drilling of preforms for fibre optics [12755-5]**
- 12755 07 **Fast, semi-automated geometric and functional characterization of miniaturized lenses using optical coherence tomography-based systems and wavefront sensors [12755-3]**
- 12755 08 **Acoustic emissions in the glass polishing process: a possible approach for process monitoring [12755-8]**
- 12755 09 **Simulation of system transmission values for different angles of incidence [12755-6]**
- 12755 0A **Conceptual considerations for the paperless production of ophthalmic lenses [12755-20]**
