**Volume 12922**

Proceedings of SPIE 0277-786X, V. 12922

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Third International Conference on Electronics, Electrical and Information Engineering (ICEEIE 2023)*, edited by Xilong Qu, Proc. of SPIE 12922, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

## COMMUNICATION ENGINEERING

---

- 12922 02 **Research and implementation of abnormal outage behavior prediction and analysis system based on digital twinning technology** [12922-54]
- 12922 03 **Research and implementation of a digital twin model reconstruction method for distribution network based on intelligent adaptation** [12922-57]
- 12922 04 **Research on mobile communication network site optimization setting** [12922-90]
- 12922 05 **A digital photovoltaic station operation monitoring and management system based on communication technology** [12922-100]
- 12922 06 **Research on the operation and communication mechanism of digital photovoltaic stations** [12922-108]
- 12922 07 **The best spatial matrix filter is designed using array signal processing** [12922-89]
- 12922 08 **Comparison and realization of digital circuit and PLC designed four- way responder** [12922-84]
- 12922 09 **Research on frequency response analysis and bandwidth test method of TMR current sensor** [12922-91]
- 12922 0A **Design of communication transmission prediction model based on data mining algorithm** [12922-122]
- 12922 0B **Design of bridge crack detection algorithm based on wireless sensor network** [12922-119]
- 12922 0C **A 5G high-precision synchronization technology based on sub-time reference source is implemented** [12922-120]
- 12922 0D **A review of the transformation from traditional call center to internet call center** [12922-17]
- 12922 0E **Research on the Bluetooth indoor positioning method based on AOA and RSSI** [12922-38]
- 12922 0F **An improved SCOT double weighted quadratic correlation time delay estimation algorithm based on infrasound signal** [12922-12]
- 12922 0G **Multi-sensor system fusion estimation based on improved Kalman filtering** [12922-111]
- 12922 0H **Multi-source data distribution network patrol system based on wireless network** [12922-3]

12922 0I **Telecom 5G user prediction based on data mining and 6G server guidance** [12922-25]

## **ELECTRICAL ENGINEERING**

---

12922 0J **Scheme design of intelligent vehicle auto drive system** [12922-93]

12922 0K **Design of virtual reality interactive autonomous practice platform for modern electrical control technology engineering** [12922-29]

12922 0L **Research on connection management technology of distributed fully asynchronous architecture based on power IoT** [12922-22]

12922 0M **Design of online intelligent patrol system for substation based on deep learning** [12922-95]

12922 0N **Application of interpretability method based on FN-v8 in defect detection of photovoltaic panels** [12922-50]

12922 0O **PMSM optimized predictive flux control based on three vectors** [12922-64]

12922 0P **A multi-visual information synthesis function model-based technique is being looked at for autonomous vehicle detection and monitoring** [12922-115]

12922 0Q **Abnormal data detection method of smart substation based on K-means-SVM** [12922-45]

12922 0R **Research on digital modeling technology based on multi-source data of power grid** [12922-97]

12922 0S **Improved model predictive control for autonomous racecar trajectory tracking** [12922-88]

12922 0T **Research on mechanical and electrical faults feature reduction for circuit breakers** [12922-102]

12922 0U **An improved generalized cubic correlation time delay estimation algorithm for partial discharge localization** [12922-10]

12922 0V **Construction of smart management model for power grid user side based on artificial intelligence and power BD** [12922-103]

12922 0W **Automatic computation of power grid objects using object-oriented modeling and abstract rule syntax** [12922-52]

12922 0X **Critical breakdown criterion of discharge light pulse in gas insulated equipment** [12922-72]

12922 0Y **Research on voltage quality improvement strategies for long power supply lines in Guangzhou region considering small hydropower** [12922-53]

12922 0Z **PMSM sensorless control based on sliding mode control with fuzzy variable gain STA-SMO** [12922-48]

- 12922 10 **Design of intelligent energy feedback system for electric vehicle braking based on fuzzy control algorithm** [12922-69]
- 12922 11 **Design and implementation of labview-based upper computer for car collision avoidance system** [12922-106]
- 12922 12 **Research on defect recognition method of transmission line insulators** [12922-27]
- 12922 13 **Power abnormal data detection and short-term load prediction model construction based on genetic algorithm** [12922-121]
- 12922 14 **Research on autonomous intelligent inspection technology of substation based on image recognition and computer vision** [12922-109]
- 12922 15 **A method of laser point cloud electric line positioning for drone avoidance** [12922-8]
- 12922 16 **Infrared spectroscopy electronic instruments combined with lightweight DResNet12 network for gas identification method research** [12922-6]
- 12922 17 **Fault diagnosis of rolling bearing based on the combination of VMD-ESA and the optimized GBRF** [12922-2]
- 12922 18 **Sensorless control of permanent magnet synchronous motor based on UKF** [12922-80]
- 12922 19 **EMC research of new energy vehicle based on four-leg inverter** [12922-33]
- 12922 1A **Research on dynamic mosaic method of panoramic view images of articulated vehicle** [12922-62]
- 12922 1B **Control measures for improving power supply reliability for mountain power supply station based on 462 mode** [12922-19]
- 12922 1C **Evaluation of vibration and radiated noise of electric vehicle planetary gearbox** [12922-20]
- 12922 1D **Research on assembly sequence planning of servo motor components** [12922-32]
- 12922 1E **Design of drive circuit for turbine electromechanical hydraulic servo valve control** [12922-36]
- 12922 1F **Design and optimization of a novel pneumatic magnetic separator based on multi-physical field coupling simulation** [12922-127]
- 12922 1G **Multispectral characteristic analysis for free metallic particle discharge in SF<sub>6</sub> gas conditions** [12922-82]

## ELECTRONICS

---

- 12922 1H **ESD protection of semiconductor devices and integrated circuits based on immune algorithm** [12922-74]
- 12922 1I **Design of automatic control system for tower crane based on PLC** [12922-35]
- 12922 1J **Application research of distribution network operation analysis method based on digital twin technology** [12922-61]
- 12922 1K **Construction of new power system security protection system combined with zero trust network** [12922-75]
- 12922 1L **Reliability analysis of localized replacement of hipps high voltage protection system** [12922-123]
- 12922 1M **Research on the life test device and application of plastic case circuit breaker** [12922-105]
- 12922 1N **Research on large-scale energy storage for intelligent power system** [12922-101]
- 12922 1O **Research on dual-channel underwater wireless charging system based on magnetic resonance** [12922-66]
- 12922 1P **Structural optimization of DC molded case circuit breakers based on temperature field analysis** [12922-56]
- 12922 1Q **Design of power system fault location and diagnosis system based on improved decision tree algorithm** [12922-107]
- 12922 1R **Geometric error measurement and intelligent error compensation method for CNC machine tools** [12922-76]
- 12922 1S **Transformer fault diagnosis based on IWOA optimized XGBoost** [12922-42]
- 12922 1T **Design of automatic control system of air pressure valve based on closed-loop control** [12922-63]
- 12922 1U **Research on fault diagnosis of integrated environmental control system in aircraft cockpit** [12922-11]
- 12922 1V **Parametric modeling and finite element simulation of gear ring system based on creo and ABAQUS** [12922-13]
- 12922 1W **Analyze the influence of carburized layer thickness and assembly error on the reliability of thin-walled gear ring system based on ABAQUS** [12922-113]
- 12922 1X **Optimization design of frame for hydrogen-oxygen engine with multiple forms based on iSIGHT platform** [12922-14]
- 12922 1Y **CAE-based optimization design of compound inner ball track structure of vertebro-disc group of automobile CVT** [12922-15]

- 12922 1Z **A method of automatic mechanical control based on single chip microcomputer** [12922-16]
- 12922 20 **Harmonic suppression simulation study of ship electric propulsion system** [12922-18]
- 12922 21 **Design and testing of an intelligent variable application system with a small flow rate** [12922-21]
- 12922 22 **Simulation of production line based on digital drive manipulator** [12922-116]
- 12922 23 **Design of a current loop drive system for fast steering mirror** [12922-117]
- 12922 24 **Multi-physics field coupling calculation and test of temperature field for dry-type air-core reactor** [12922-85]
- 12922 25 **Calculation model of hot-spot temperature of transformer winding based on top-oil temperature** [12922-126]

#### **INFORMATION ENGINEERING**

---

- 12922 26 **Research on path configuration strategy of in-band network telemetry detection based on adaptive algorithm and P4** [12922-70]
- 12922 27 **Research and implementation of unified management method for power distribution and distributed new energy data resources** [12922-58]
- 12922 28 **Research on tactical edge cloud service model for joint intelligence** [12922-79]
- 12922 29 **Exploration and research on the construction of electrical and electronics curriculum group of cloud classroom+integration of theory and practice** [12922-55]
- 12922 2A **Simulation of airworthiness examination model of civil aircraft based on big data** [12922-40]
- 12922 2B **Ergonomic analysis and risk assessment model construction of civil aviation aircraft maintenance based on deep learning** [12922-41]
- 12922 2C **Research and implementation of a digital model construction method for adapting to the full life cycle management of fiscal budgeting** [12922-60]
- 12922 2D **Evaluation and decision of task aircraft usage quality based on wavelet neural network** [12922-110]
- 12922 2E **Design of ART program language and interpreter based on Java** [12922-51]
- 12922 2F **A multi-source information fusion method for seismic impact analysis of cultural relics based on knowledge graph** [12922-47]
- 12922 2G **A deep learning-based method of robot path planning** [12922-46]

- 12922 2H **Semantic recognition and detection method based on DSM multi-scale image segmentation technology** [12922-83]
- 12922 2I **Research on natural image semantic segmentation method based on improved U-Net model** [12922-87]
- 12922 2J **Multilayer neural network-based wage forecasting in data science industry** [12922-114]
- 12922 2K **Attitude optimization of unmanned helicopters based on spike neural membrane computing** [12922-28]
- 12922 2L **Construction of foreign trade supply chain information system based on fuzzy clustering algorithm** [12922-92]
- 12922 2M **Design and implementation of scene visualization system based on dual engine structure** [12922-73]
- 12922 2N **Design of university student information management system based on teaching resource sharing** [12922-68]
- 12922 2O **Research on the application of enterprise big data mining based on deep neural network** [12922-71]
- 12922 2P **Research on the application of DT and K-NN-based data mining algorithms in network intrusion monitoring** [12922-112]
- 12922 2Q **Research on flutter test technology of transportation aircraft based on metadata** [12922-4]
- 12922 2R **Research on landing gear shimmy test flight technology based on data warehouse** [12922-5]
- 12922 2S **Research on public opinion analysis of COVID-19 based on machine learning** [12922-23]
- 12922 2T **Emotion analysis and design of internet users based on big data** [12922-31]
- 12922 2U **Search and rescue system of systems modeling and virtual simulation** [12922-34]
- 12922 2V **Identification algorithm of accident road section attribute based on OBD data map matching** [12922-37]
- 12922 2W **End-to-end image dehazing by joint atmospheric scattering and WGAN model** [12922-30]
- 12922 2X **An epidemic protection design of vehicle** [12922-125]
