2023 International Conference on Computers, Information Processing and Advanced Education (CIPAE)

CIPAE 2023

Table of Contents

Message from the General Chair ..... **xxi**

2023 International Conference on Computers, Information Processing and Advanced Education

Research on Self-Powering Technology of Foreign Object Detection Circuit in Wireless Power Transfer System 1

Jing Xiao (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Haonan Shi (Chongqing University, China), Shaonan Chen (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Xiaorui Wu (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Wenlan Gong (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), and Yuhong Mo (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China)

Multi-Label Classification of Road Cracks Based on Semantic-Aware Mixup 8

Chengyang Xu (Zhejiang University, China), Chunpeng Zhou (Zhejiang University, China), and Zhi Yu (Zhejiang University, China)

A Combined Topology of EV Wireless Charging System to Achieve Dual Parking Power Allocation 13

Xiaorui Wu (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Xiaoyu Zhu (Chongqing University, China), Jing Xiao (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Yuhong Mo (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Wenlan Gong (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), and Ning Wu (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China)

Implementing a Wide Frequency Range Tightly Coupled Wireless Charging System Using Hybrid Topology 19
Xiaorui Wu (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Jiatian Liang (Chongqing University, China), Jing Xiao (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Wenlan Gong (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Yuhong Mo (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), and Ning Wu (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China)

Application Research of Computer Big Data and Internet of Things Technology in International Logistics Intelligent Freight System 25
Fuli Tang (Qingdao Institute of Technology, China)

A Study of Wordle Dataset Based on the World-Heat and ARIMA Model 31
Zicheng Xing (Anhui University, China), Yang Dong (Anhui University, China), and Yuxuan Nie (Anhui University, China)

Research on the Operational Safety Evaluation of a Type of Aircraft Based on Entropy Value Method 35
Zhanhai Wang (Civil Aviation Administration of China, China) and Peng Fu (Civil Aviation University of China, China)

Submarine Induced Magnetic Field Simulation Method Based on Multi-Magnet Combination 39
Dongye Huang (Wuhan University of Science and Technology, China), Jie He (Wuhan University of Science and Technology, China), Yu Wang (Wuhan Ship Communication Research Institute, China), and Zuoshuai Wang (Wuhan Second Ship Design and Research Institute, China)

Adaptive Deep Inference Framework for Cloud-Edge Collaboration 46
Ze Kou (Beijing Jiaotong University, China), Zhen Liu (Beijing Jiaotong University, China), Xinxin Yang (Beijing Jiaotong University, China), and Xiang He (Beijing Jiaotong University, China)

Temperature Prediction Based on EAL Deep Learning Model 50
Ziyan Xiao (Shanxi University, China)

Research on the Application of Artificial Intelligence in the Detection System of Personality and Psychological Characteristics of Minority Students and the Screening System of Suitable Sports Items 54
Rong Zhang (Xinjiang Vocational and Technical College of Communications, China), Qiuxiang Xie (Haikou University of Economics, China), Xiaohui Zhu (Hainan Tropical Ocean College, China), Wenhuan Huang (Hainan College of Economics and Business, China), Weiguo Chen (Hainan Vocational University, China), and Wenting Hao (Hainan College of Economics and Business, China)

Distributed Optimal Scheduling of a Typical Integrated Energy System Considering Communication Cost 59
Yaoming Ma (Liaoning Technical University, China), Jiaxuan Liu (Liaoning Technical University, China), and Fusheng Tan (Liaoning Technical University, China)

Virtual Reality Based Simulation of Key Technology of Coal Mine Power Supply Teaching Experiment 65
Zhipeng Gong (Henan Polytechnic University, China), Dahu Wang (Henan Polytechnic University, China), Guochen Han (Henan Polytechnic University, China), and Zhenzhen Fan (Henan Polytechnic University, China)

Research on Computer Information Hotel Front-End Storage Database Integrated Management System 70
Ying Ning (Wuhan Business University, China)

Application Research of Computer Artificial Intelligence Technology in Dong Embroidery APP Mini Program 74
Yuting Dai (Macau University of Science and Technology, China; Guangxi University of Science and Technology, China)

Research on Root Canal Therapy System Based on Computer and 3D Printing Technology 79
Xiang Zhong (Shaoyang University, China), Cuicui Zhang (The Second Affiliated Hospital of Shaoyang University, China), and Xiaobiao Zhou (The Central Hospital of Shaoyang, China)

Research on Green Cold Chain Logistics Information System Under Computer Big Data 83
Huihui Li (Shandong Institute of Commerce and Technology, China), Na Liu (Shandong Institute of Commerce and Technology, China), and Qingqing Kong (Shandong Institute of Commerce and Technology, China)

Analysis of Wordle Game Mechanism Based on Multi-Task Model 88
Renzhao Liang (Wuhan University, China), Zijun He (Sichuan University, China), Zhuo Zhang (Dalian Jiaotong University, China), Haidong He (China University of Petroleum (East China), China), and Bo Gao (Dalian Jiaotong University, China)

Research on Intelligent Planning Algorithms Based on Machine Learning Optimization 94
Xinning Ding (Beijing Foreign Studies University, China) and Boyu Zheng (Beijing Foreign Studies University, China)

Classification of Violations in the Examination Room Based on Deep Detection Algorithm 100
Tingyu Shen (Beijing Jiaotong University, China), Minwei Zhao (Beijing Jiaotong University, China), and Shiqi Zhang (Beijing Jiaotong University, China)

Prediction of the Reported Results of Wordle Based on ARIMA and GBDT 108
Luja Yang (Nanjing University of Science and Technology, China), Jiayi Zhang (Nanjing University of Science and Technology, China), and Xizhi Yang (Nanjing University of Science and Technology, China)

Understanding Ceramic Pattern Drawing System Based on Computer Artificial Intelligence Color Matching 116
Hu Ting (Jiangxi Arts & Ceramics Technology Institute, China), Shahriman Zainal Abidin (Universiti Teknologi MARA, Malaysia), Verly Veto Vermol (Universiti Teknologi MARA, Malaysia), and Oskar Hasdinor Hassan (Universiti Teknologi MARA, Malaysia)

Research on Artificial Intelligence Computer Intelligent Learning System Under Computer Big Data Technology 121
Xiaohu Zhang (General Education College of Xi'an Eurasia University, China) and Hua Zhao (Library and Information Center of Xi'an Eurasia University, China)

Overview of Image Classification Methods Based on Deep Learning 126
Jinke Huang (Air Force Engineering University, China), Tiancai Yang (Chinese Unit 93525 of the People's Liberation Army, China), and Zhenze Jia (Air Force Communication NCO School, China)

Virtual Human Driving Method Based on Motion Capture 130
Wenmin Wang (China Mobile Online Service Co., Ltd., China), Liping Wu (China Mobile Online Service Co., Ltd., China), Chunya Li (China Mobile Group Design Institute Co., Ltd, China), Sihai Song (China Communications Construction Group Design Institute Co., Ltd, China), and Senke Yang (China Mobile Online Service Co., Ltd., China)

Analysis of Distributed Sharing System of Higher Education Resources Based on Artificial Intelligence Background 136
Qiang Li (Guizhou University of Engineering Science, China; Southwest University, China) and Weinan Deng (Guizhou University of Engineering Science, China)

Fault Identification Method of Power Network Equipment Based on Fusion Neural Network Model 140
Bowen Zhang (China Electric Power Research Institute Co., Ltd., China), Ning Yang (China Electric Power Research Institute Co., Ltd., China), Fei Gao (China Electric Power Research Institute Co., Ltd., China), Hui Fu (State Grid Jiangsu Electric Power Co., Ltd., China), and Jingtan Ma (State Grid Jiangsu Electric Power Co., Ltd., China)

Design and Test of Diesel Engine Rail Pressure Adaptive Controller 146
Jiatian Guo (Shandong Vocational Collage of Science and Technology, China) and Qinglu Zhang (Shandong Vocational Collage of Science and Technology, China)

Research on Embedded Digital Communication Processing System 149
Yong Cao (Army Academy of Armored Forces, China), Yifan Zheng (Army Academy of Armored Forces, China), Caiyun Sun (Army Academy of Armored Forces, China), and Di Zhang (Army Academy of Armored Forces, China)

Medium-Voltage Distribution Network Planning Based on Genetic Tabu Hybrid Algorithm 153
Peng Hu (Jiangsu Frontier Electric Technology Co. Ltd., China), Jun Han (State Grid Jiangsu Economic Research Institute, China), Weiping Zhu (State Grid Jiangsu Electric Power Co. Ltd., China), Hengxiao Hu (State Grid Jiangsu Electric Power Co. Ltd. Huai'an Power Supply Branch, China), Wei Ji (State Grid Jiangsu Electric Power Co. Ltd. Huai'an Power Supply Branch, China), Jian Luo (State Grid Jiangsu Electric Power Co. Ltd. Huai'an Power Supply Branch, China), and Weifeng Zhong (Jiangsu Frontier Electric Technology Co. Ltd., China)

Application Research Based on Computer 3D Digital Photovoltaic Cable Engineering Statistics System 156
Runbiao Liu (Longyuan (Beljing) Wind Power Engineering Design Consulting Co. Ltd, China), Enzhi Cao (Longyuan (Beljing) Wind Power Engineering Design Consulting Co. Ltd, China), Jihong Guo (Longyuan (Beljing) Wind Power Engineering Design Consulting Co. Ltd, China), Qichao Tang (Longyuan (Beljing) Wind Power Engineering Design Consulting Co. Ltd, China), Zhiqiang Fan (Earth View Image Inc, China), and Yanxia Li (Earth View Image Inc, China)

Application of Computer Aided Measurement System in Orthodontics 161
Xiang Zhong (Shaoyang University, China), Cuicui Zhang (The Second Affiliated Hospital of Shaoyang University, China), and Feng'e Li (The Second Affiliated Hospital of Shaoyang University, China)

Research on Seismic Computing System Based on Computer 3D Image Modeling 166
Cheng Kang (Southwest Petroleum University, China)

A Somatic Game-Based Rehabilitation Training System for Mild Cognitive Impairment 172
Jie Ma (Shanghai Jiao Tong University, China) and Suiran Yu (Shanghai Jiao Tong University, China)

Human Motion Trajectory Generation Based on AWR1642 178
Junxuan Yang (Beijing Jiaotong University, China), Sutong Zhang (Beijing Jiaotong University, China), Mingjiang Wang (Beijing Jiaotong University, China), and Weichen Liu (Beijing Jiaotong University, China)

Application Research of Computer Artificial Intelligence Technology in Green Cold Chain Logistics of Agricultural Products 182
Na Liu (Shandong Institute of Commerce and Technology, China), Jie Sun (Shandong Institute of Commerce and Technology, China), and Ce Feng (Shandong Institute of Commerce and Technology, China)

Research on Computer Aided Digital Design and 3D Printing Technology 188
Yan Hu (Wuhan Huaxia Institute of Technology, China)

Research on the Application of Computer Artificial Intelligence Evolutionary Game Technology in the Prevention of Big Data Killing System 194
Tian Liang (Shanghai University, China)

Research on Diabetes Prediction Model Based on Machine Learning Algorithms 200
Na Hu (The Affiliated Hospital of Southwest Medical University, China) and Jiali Gao (Southwest Medical University, China)

Prediction of Length of Stay After Total Hip Arthroplasty Based on XGBoost Algorithm 204
Ran Zhang (The Affiliated Hospital of Southwest Medical University, China) and Xian Jiang (The Affiliated Hospital of Southwest Medical University, China)

Research on Wordle Based on Time Series ARIMA Model and XGBoost Model 208
Fangfei Li (Hohai University, China), Pengkai Guo (Hohai University, China), and Zijun Liao (Hohai University, China)

Comparison and Evaluation of Clustering Algorithms 213
Mengting Ma (Yunnan University, China), Mingchen Liang (Hangzhou Dianzi University, China), and Yao Ji (Xiamen University Malaysia, Selangor)

High-Speed Overtaking Trajectory Planning Based on Multi-Objective Optimization 220
Qun Fan (Shenyang Aerospace University, China) and Gang Liu (Shenyang Aerospace University, China)

The Detection of Hexapod Robot Based on Arduino Environment 224
Xin Li (Tianjin University of Technology, China) and Wenliang Wang (Tiangong University, China)

Infrared Image Processing System Based on AI and Convolutional Neural Network 229
Guikao Yang (Air Force Logistics Academy, China), Guangming Fan (Air Force Logistics Academy, China), and Fengyu Zhou (Air Force Logistics Academy, China)

Application of Computer 3D Visualization Image Technology in Urban Architecture Planning System 235
Cui Wei (Guangling College of Yangzhou University, China)

Research on Computer Database Intrusion Detection Based on Clustering Algorithm 240
Lu Zhang (Tianjin University of Technology, China)

Development of Employee Information Management System Based on B/S Mode and SQL Server Database 245
Ru Xue (Modern College of Northwest University, China)

The Empirical Analysis of College Students' Behavior Based on SSAS 250
Chen Hu (Jianghan University, China)

Research on Sports and Psychological Health Evaluation of College Sudents Based on Fuzzy Clustering Algorithm 254
Yan Shi (Bohai University, China)

Design and Application of Objective Questions Generating Examination Paper System Based on Random Extraction Algorithm 260
Benfeng Yu (Bohai University, China)

Research on Internet Public Opinion Analysis Technology in the New Media Era Based on Hadoop Platform 265
Xiaojie Yang (Liaoning Institute of Science and Engineering, China)

Design of "Data Structure" Resource Platform for Computer Major Based on Cloud Computing 270
Lishuang Zhao (Bohai University, China) and Yanchun Liu (Bohai University, China)

Research on the Auxiliary System of University Mathematics Teaching Based on Computer Artificial Intelligence Technology 275
Changtao Li (Qingdao Institute of Technology, China)

The Study of Ideological and Political Distance Class Based on Computer Internet Big Data 279
Jie Wu (Chongqing Medical and Pharmaceutical College, China) and Lihua Jiang (Chongqing Medical and Pharmaceutical College, China)

Wisdom Tower Crane Network Control System Based on 5G Technology 284
Nian Liu (China Construction Seventh Engineering Bureau Co., Ltd., China), Zhengwei Zhu (China Construction Seventh Engineering Bureau Co., Ltd., China), Yuandong Shi (China Construction Seventh Engineering Bureau Co., Ltd., China), and Dongyang Yin (China Construction Seventh Engineering Bureau Co., Ltd., China)

Research on Grab Algorithm Based on Deep Learning 288
Xinyi Xue (Tianjin University of Technology, China)

Application Research of Computer Artificial Intelligence Technology in Music Symphony Creation System 292
Hua Quan (Huaihua University, China)

Research on Intelligent Film Music Creation System Based on Computer Virtual Reality Technology 297
Jie Liu (Huaihua University, China)

Research on Computer Artificial Intelligence-Assisted College Public English Teaching System 302
Dan Lu (Wuhan University of Science and Technology, China)

The Application of Computer Network Assisted Instruction Technology in College English Innovation Practice Class 307
Xiang Jin (Jiangsu Union Technical Institute, China) and Zhijian Zhao (Jiangsu Union Technical Institute, China)

Research on Virtual College English Learning Aid System of Computer Intelligent Campus 313
Xiang Jin (Jiangsu Union Technical Institute, China) and Zhijian Zhao (Jiangsu Union Technical Institute, China)

Research on the Application of Computer Intelligent 3D Aided Technology in Design Modeling System 318
Chong Fan (Hubei University of Technology, China) and Wei Zhang (Hubei University of Technology, China)

The Analysis and Application of Face Recognition Technology 323
Nan Jiang (Shandong University of Technology, China)

Simulation of Sound Field Distribution in Rotary Condenser Room Based on COMSOL 328
Chen Wei (State Grid Hunan Electric Power Corporation Research Institute, China), Lu Ling (State Grid Hunan Electric Power Corporation Research Institute, China), Hu Sheng (State Grid Hunan Electric Power Corporation Research Institute, China), and Nie Zhihao (Hunan Institute of Engineering, Electrical Engineering and Automation, China)

Analysis of an Efficient Classification Method Based on Density Optimization 332
Linchen Wu (Central University of Finance and Economics, China), Hao Zhang (Donghua University, China), and Zhuoran Wang (Fuzhou University, China)

Classifying the Country of Origin of Traffic Transactions Based on Computer Raw Dataset Data Processing 339
Yichun Wang (Tongji University, China)

Research on Credit-Risk Models via Machine-Learning Algorithms and Logistic Regression for Predicting CBA Consumer Behaviour 344
Ce Fang (Krirk University, Thailand), Te Bu (Krirk University, Thailand), and Fang Fang (Krirk University, Thailand)

A Framework for Human Action Recognition Using Control Features Fusion and Weighted Entropy Based Feature Selection 351
Hecen Li (Guangdong University of Technology, China) and Weichao Xu (Guangdong University of Technology, China)

Research on Improved Particle Swarm Optimization Algorithm Based on Simulated Annealing Algorithm 360
Wu Qingling (Jilin Communications Polytechnic, China) and Jin Yubo (Changchun University of Technology, China)

Research on Visible Light Communication Transceiver and Processing Module 363
Yong Cao (Army Academy of Armored Forces, China), Caiyun Sun (Army Academy of Armored Forces, China), Yifan Zheng (Army Academy of Armored Forces, China), and Di Zhang (Army Academy of Armored Forces, China)

Improved YOLOV5 Based Industrial Surface Defect Detection Method 367
Zefeng Li (City University of Macau, China), Zeyu Zhang (City University of Macau, China), Jixin Ma (University of Greenwich, United Kingdom), and Lele Tian (Macao Polytechnic University, China)

IUCNet: A Novel Semantic Segmentation Network for Overlapping Industrial Parts Detection 371
Kedi Wu (Gansu Agricultural University, China) and Qingcheng Yang (Lanzhou University of Technology, China)

Design and Application of ESC Hydraulic Control Unit Test System 382
Fanzhuo Zeng (China Automotive Engineering Research Institute Co., Ltd., China), Lijie Yang (Chongqing Chang'an Automobile Co., Ltd., China), and Song Huang (Chongqing Special Equipment Inspection and Testing Research Institute, China)

Research on Federated Learning Data Management Method Based on Data Lake Technology 385
Liu Kai (Yunnan Tobacco Company, China), Zhang Liang (Yunnan Huaye Investment Co., Ltd, China), Yang Yaojing (Yunnan Tobacco Company, China), Yan Dazhu (Yunnan Tobacco Company, China), and Zhao Min (Yunnan Tobacco Company Information Center, China)

Research on Computer Intelligent Whole Process Construction Information System in Large International Hub Airport Project 391
Li Zheng (Silpakorn University, Thailand)

Application of Reproductive Genetics: Genetic Algorithm Research and Information System Modeling Based on Gastrointestinal Cancer and Brain Like Engineering 396
Liangyu Li (National University of Malaysia, Malaysia), Hantongzhou Chen (Belarusian State University, Belarus), Yezhi Yuan (Belarusian State University, Belarus), Wentao Hu (Belarusian State University, Belarus), Haoran Jiang (Beijing Century Temple Hospital Affiliated to Capital Medical University Spinal Surgery Department, China), Yuan Gao (The National University of Mongolia, Mongolia), Weijun Hu (State University of St. Petersburg; (Leningrad University), Russia), Lizhong Guo (Peking University, China), Hui Yuan (Xiangtan Central Hospital Affiliated to Hengyang Medical College of Nanhua University, China), and Yi Qin (University Hospital of Valencia, Autonomous University of Barcelon, Spain)

Solid-State High-Power Amplifier Power Synthesis and Failure Analysis 405
Yi Wu (China Satellite Maritime Track &Control Department, China), Shengnan Li (China Satellite Maritime Track &Control Department, China), Li Xu (China Satellite Maritime Track &Control Department, China), and Yang Liu (China Satellite Maritime Track &Control Department, China)

Research on Application of Computer Big Data in Satellite Orbit Multiple Positioning Measurement and Data Processing 409
Ya Wen (Wanjiang University of Technology, China)

Road Pothole Detection Based on AlexNet for Autonomous Driving 414
Xu Chen (Xinjiang Agricultural University, China), Jianing Zhang (Northeast Electric Power University, China), and Jiansong Chen (Tianjin University of Science and Technology, China)

Research on Forecasting Method of Power Grid Communication Service Based on Intelligent Algorithms 419
Fangya Li (Xiaogan Power Supply Company, State Grid Hubei Electric Power Company, China), Jingjing Jiang (Xiaogan Power Supply Company, State Grid Hubei Electric Power Company, China), You Wu (Xiaogan Power Supply Company, State Grid Hubei Electric Power Company, China), Wen Hu (Xiaogan Power Supply Company, State Grid Hubei Electric Power Company, China), and Fan Yang (Xiaogan Power Supply Company, State Grid Hubei Electric Power Company, China)

Deep Neural Network-Based (BMI) Brain-Computer Interface System Design —Development and Evaluation of a BMI Brain-Computer Interface Learning Framework for Rehabilitation 423
Jiayi Cai (Macau University of Science and Technology, China) and Jialiang Cai (Macau University of Science and Technology, China)

Research on Multi-Model Ensemble Machine Learning Methods for Temperature Forecasting 428
Ting Lei (Beijing Meteorological Service Centre, China), Yan Dong (Beijing Meteorological Service Centre, China), Chenxi Jin (Beijing Meteorological Service Centre, China), Jingjing Min (Beijing Meteorological Service Centre, China), and Chao Han (Beijing Meteorological Service Centre, China)

Classification and Prediction of ECG Data Based on Decision Trees and Their Optimization Algorithms 434
Runqiang Xing (Xi'an Technological University, China)

Path Planning and Image Classification Algorithms for Glass Cleaning Robots Based on Hybrid Path Planning and Convolutional Neural Networks 440
Zequn Li (Hohai University, China), Xiao Han (Hohai University, China), Xiao Wang (Hohai University, China), Yu Li (Hohai University, China), and Xingyu Zhu (Hohai University, China)

Gaussian Process for the Machine Learning-Based Smart Fire Detection System 446
Guangyu Li (State Gird Jilin Electric Power Co.Ltd, Baishan Power Supply Company, China), Boyu Yang (State Gird Jilin Electric Power Co.ltd, Baishan Power Supply Company, China), Shaocong Chang (State Gird Jilin Electric Power Co.Ltd, Baishan Power Supply Company, China), Hongbin Yi (State Gird Jilin Electric Power Co.Ltd, Baishan Power Supply Company, China), Yingbo Zhang (State Gird Jilin Electric Power Co.Ltd, Baishan Power Supply Company, China), and Yao Wang (State Gird Jilin Electric Power Co.Ltd, Baishan Power Supply Company, China)

Wordle Data Exploration and Prediction Based on BP-GA Model 453
Luyao Zhou (Wenzhou University of Technology, China) and Peiguang Ruan (Zhuhai College of Science and Technology, China)

Dynamic Knowledge Graph Algorithm for Electricity Knowledge 460
Jingyi Su (NARI Group Co., Ltd, China), Nan Zhang (NARI Group Co., Ltd, China), Zhen Sun (NARI Group Co., Ltd, China), and Wenqing Yang (NARI Group Co., Ltd, China)

Improved PS-InSAR Technology for Disaster Investigation and Monitoring of a Transmission Line Corridor 468
Dongjia Liu (Kunming Bureauo of EHV Transmission Company; Southern Power Grid Co., Ltd., China), Jiangque Fu (Central Southern China Electric Power Design Institute of China Power Engineering Consulting Group, China), Xiongjun Tao (Kunming Bureauo of EHV Transmission Company, Southern Power Grid Co., Ltd., China), Zhiyuan Huang (Central Southern China Electric Power Design Institute of China Power Engineering Consulting Group, China), Yukang Han (Kunming Bureauo of EHV Transmission Company; Southern Power Grid Co., Ltd., China), and Han Cheng (Central Southern China Electric Power Design Institute of China Power Engineering Consulting Group, China)

Study on Condition Monitoring Method of Slurry Circulating Pump Based on Support Vector Machine 473
Lei Zhang (Nanjing Polytechnic Institute, China), Yuhao Chen (Southeast University, China), Shasha Liu (Nanjing Polytechnic Institute, China), and Fei Feng (Nanjing Polytechnic Institute, China)

Mixed Reality and Deep Learning Theory Applied in Radio Frequency Management 478
Jianglei Lu (Shijiazhuang University, China) and Qiufa Zhong (Shijiazhuang University, China)

LPIXray: A Large-Scale Logistics Prohibited Item X-ray Dataset for the Application of Deep Learning in Security Inspection 481
Chengquan He (China Post Technology Co., Ltd., China), Tong Mu (China Post Technology Co., Ltd., China), Weiping Ren (China Post Technology Co., Ltd., China), and Bohua Zhao (China Post Technology Co., Ltd., China)

Design of Automatic Control System for Photovoltaic Cleaning Intelligent Robot Based on 5G Intelligent Technology 486
Liwen Sun (Shandong Institute Commerce and Technology, China), Lina Guo (Shandong Institute Commerce and Technology, China), and Meng Liu (Shandong Institute Commerce and Technology, China)

A Hardware Architecture Design for Interference Rejection of Ultrasound Signals Based on FPGA 492
Yuxuan Lin (South China University of Technology, China), Huangxu Chen (South China University of Technology, China), and Zhaohui Wu (South China University of Technology, China)

Multimodal Emotion Recognition Based on Long-Distance Modeling and Multi-Source Data Fusion 497
Jia Cai (Nanjing University of Posts and Telecommunications, China), Yuhui Lin (Xi'an Jiaotong Liverpool University, China), and Ruihong Ma (Shanghai Normal University, China)

Visible Light Intelligent Inspection of Transmission Line UAV Based on Machine Vision 504
Rui Li (Ultra-High Voltage Company of State Grid Jilin Electric Power Co., Ltd., China), Beimin Xie (Ultra-High Voltage Company of State Grid Jilin Electric Power Co., Ltd., China), Liwei Zhou (China Electric Power Research Institute (Wuhan), China), Bing Du (Ultra-High Voltage Company of State Grid Jilin Electric Power Co., Ltd., China), and Xiaofan Tong (Jilin Siji Technology Co., Ltd., China)

An Optimized Neural Network Approach and its Application to Classification Problems 508
Jie Han (Tongji University, China), Hongru Song (Beihang University, China), and Buyun Chen (Nanjing University of Science and Technology, China)

Performance Analysis of Data Trend with the Combination of ARIMA and Dynamic System 514
Yijia Ma (Communication University of China, China), Siying Wang (Communication University of China, China), and Haojing Cheng (Communication University of China, China)

Intelligent Construction of E-Commerce Product Traceability System Based on Big Data Mining 519
Dan Mu (Dalian Neusoft University of Information, China) and Ping Song (Dalian Neusoft University of Information, China)

Research on Named Entity Recognition Based on ERNIE-BiLSTM-CRF 523
Zhongyuan Bao (Shanghai Normal University, China), Lejun Zhang (Shanghai Normal University, China), and Zhengyu Lu (Donghua University, China)

Research and Application of Optimal LSTM Combinatorial Model Based on Convolutional Neural Network 528
Yihui Cao (Beijing Jiaotong University, China), Yanan Li (Xuzhou Medical University, China), and Yingjie Zong (Sichuan University, China)

Parallel Solution Method for Hamiltonian Equations Based on FPGA and Matlab Programming Verification 533
Songcheng Zhou (Hohai University, China) and Zijian Zhou (Liaoning University, China)

Collusion-Resistant Editable Blockchain with Punishment for Malicious Behavior Using Chameleon Hash Algorithm 540
Chuang Ou (Central South University, China) and Guang Ye (Xi'an Jiaotong-liverpool University, China)

Dynamic Capacity Increase Method of Transmission Line 546
Lei Li (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yixi Wang (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Rongtao Liao (Information & Communication Branch of State Grid Hubei Electric Power Company, China), Yuxuan Ye (Information & Communication Branch of State Grid Hubei Electric Power Company, China), and Jian Zhang (Information & Communication Branch of State Grid Hubei Electric Power Company, China)

Application of Support Vector Machine in Health Assessment of Shipborne Radar Antennas 551
Min Tao (China Satellite Maritime Tracking and Control Department, China), Yu Wang (China Satellite Maritime Tracking and Control Department, China), and Yuxuan Zhang (China Satellite Maritime Tracking and Control Department, China)

Analysis of Wordle Model Based on Machine Learning 556
Xinyuan Wu (Huaqiao University, China) and Jiabo Fan (Huaqiao University, China)

Research on Weakening Control Strategy of Permanent Magnet Synchronous Motor of High Speed Vacuum Cleaner Based on Sliding Mode Observer 562
Mengzhuo Xu (Nanjing University of Science and Technology, China), Ziheng Qiu (Northeast Electric Power University, China), and Zhenhua Wang (Lanzhou University of Technology, China)

Communication Base Station Traffic Prediction Model Based on EMD-RF-Transformer 569
Qinhe Liu (Inner Mongolia University, China), Senlin Wang (Heilongjiang University, China), and Longrui Yang (Lanzhou University of Technology, China)

Personalized Federated Learning with Genetic Algorithm 577
Yu Huang (Northeastern University, China), Zhijie Tang (East China University of Science and Technology, China), and Ang Li (Beijing Jiaotong University, China)

Transformer Oil Micro Water Content Online Monitoring Module Design Based on Linux Platform 584
Qian Wang (State Grid Chongqing Electric Power Research Institute; Chongqing University, China), Xiong Liu (State Grid Chongqing Electric Power Research Institute; Chongqing University, China), Wei Qin (State Grid Chongqing Electric Power Research Institute, China), Qinzhi Jiang (State Grid Chongqing Electric Power Company, China), and Yong Li (State Grid Chongqing Electric Power Research Institute, China)

Research on Real-Time Dispatch Reliability Assessment Algorithm of Smart Grid Based on Neural Network 588
Jinzhou Zhu (Power Dispatching and Controlling Center of Guangdong Power Grid Company Limited, Guangdong Power Grid Company Limited, China), Xinlei Cai (Power Dispatching and Controlling Center of Guangdong Power Grid Company Limited, Guangdong Power Grid Company Limited, China), Zhenfan Yu (Power Dispatching and Controlling Center of Guangdong Power Grid Company Limited, Guangdong Power Grid Company Limited, China), Zijie Meng (Power Dispatching and Controlling Center of Guangdong Power Grid Company Limited, Guangdong Power Grid Company Limited, China), and Yanjun Xue (Beijing QU Creative Technology Co., Ltd., China)

Research on IC Curve Feature Extraction and Lithium Battery SOH Estimation Method Based on QPSO-BP Algorithm 593
Liu Dinghong (CATARC Automotive Test Center (Changzhou) Co., Ltd., China), Wei Lifeng (CATARC Automotive Test Center (Changzhou) Co., Ltd., China), Li Zhaoyang (CATARC Automotive Test Center (Changzhou) Co., Ltd., China), and Liu Lei (CATARC Automotive Test Center (Changzhou) Co., Ltd., China)

Research on Wordle Development Based on Various Machine Learning 603
Binwu Wu (Beijing Jiaotong University, China)

CKF-Based PMSM Local Demagnetization Fault Diagnosis Method 610
Jikun Yang (Beihua University, China), Qi Zhang (Beihua University, China), Shuo Zong (PetroChina Hohhot Petrochemical Company, China), and Jianmin Zhang (Beihua University, China)

Research on the Optimization of Credit Score Card for Solving the QUBO Model Based on Annealing Algorithm and Quantum Computer 617
Wei Chen (Shandong University of Science and Technology, China), Mengyang Zhou (Shandong University of Science and Technology, China), and Lidong Yue (Shandong University of Science and Technology, China)

Currency Recognition Based on Deep Learning 622
Yihao Wang (Wenzhou Kean University, China)

Research on Intelligent Automatic Building Model Based on Computer BIM System 627
Chong Fan (Hubei University of Technology, China) and Wei Zhang (Hubei University of Technology, China)

Improved Hardware Acceleration of Image Quality Simulation for Optical Imaging System 632
Li Ji (Anhui University of Science and Technology, China), Xiang Rongbiao (Ningbo University of Technology, China), and Zeng Fanyi (Tianjin University, China)

Application of Computer Artificial Intelligence Technology in 5G Wireless Transmission Fault Intelligent Diagnosis System 638
Xiaoqing Xu (Eurasia University, China)

EU-BERT: Efficient Unified Named Entity Recognition via Multi-Exit BERT 643
Xinyu Liu (Monash University, China)

Research on Intelligent Big Data Information Monitoring System Based on Computer Machine Learning Technology 650
Yitian Liu (Zhejiang University, China)

Application of Improved LSTM Model and Visualization Analysis in Bike-Sharing Demand Prediction 656
Ke Li (Hunnu Normal University, China) and Nan Qian (Nanjing Forest University, China)

A Used Sailboat Pricing Problem Based on Graph Convolutional Neural Network 662
Zechao Xie (Shenyang University of Technology, China), Xiangxin Yin (Shenyang University of Technology, China), Jiangyan Zhang (Shenyang University of Technology, China), Zelong Xie (Shaanxi University of Technology, China), and Kaiqi Zhuang (Northwest Minzu University, China)

Research on Factor Importance Feature Recognition Algorithm Based on KPCA-GBDT-LightGBM Intelligent Coupling Algorithm 667
Jiaqi Li (Inner Mongolia University of Technology, China), Ran Wang (Northeast Forestry University, China), and Wenfang Zheng (Jilin University, China)

Wordle Result Prediction Based on Machine Learning Algorithm LSTM Model 672
Zechuan Zhang (Beijing University of Technology, China)

Research on Business Model of Organizational Decision Making Supported by Integrated Computer Digital Technology 677
Lei Zheng (Shenzhen Institute of Technology, China), Lu Zhu (Shenzhen Institute of Technology, China), Ming Wang (Shenzhen Institute of Technology, China), and Lijuan Chen (Shenzhen Institute of Technology, China)

Research of SMT Mounter Z-Axis Integral Terminal Sliding Mode Tracking Control 683
Yufeng Wang (Tiangong University, China) and Zhihua Zhu (Tiangong University, China)

Electric Power Information Communication System Based on Information Collection 688
Yue Liu (State Grid Henan Electric Power Information and Communication Branch Company, China), Rui Gong (State Grid Henan Electric Power Information and Communication Branch Company, China), Yujie Wang (State Grid Henan Electric Power Information and Communication Branch Company, China), and Beibei Zhu (State Grid Henan Electric Power Information and Communication Branch Company, China)

Research on the Application of Artificial Intelligence Technology in Power System Equipment Operation and Maintenance 693
Long Tan (State Grid Heilongjiang Electric Power Research Institute, China), Chunming Wei (State Grid Heilongjiang Electric Power Research Institute, China), Chao Xu (State Grid Heilongjiang Electric Power Research Institute, China), and Zhongzhi Qu (State Grid Heilongjiang Electric Power Research Institute, China)

Research on Network Security Image Cryptosystem Based on Computer Vision Technology 698
Feng Yun (Sichuan Technology & Business College, China)

Gray Level Co-Occurrence Matrix-Based Defect Detection Method for Photovoltaic Power Plant Panels 703
Yingchun Guan (Hubei Energy Group New Energy Development Co., Ltd., China), Guangjun Wu (Hubei Energy Group New Energy Development Co., Ltd., China), Wei Huang (Hubei Energy Group New Energy Development Co., Ltd., China), Jun Yan (Hubei Energy Group New Energy Development Co., Ltd., China), Lin Wang (Central Southern China Electric Power Design Institute of China Power Engineering Consulting Group, China), and Yi Yi (Central Southern China Electric Power Design Institute of China Power Engineering Consulting Group, China)

Research on Optimization of E-Commerce Service System Based on Computer 3D Image Vision Technology 708
Jun Zhang (Weifang Engineering Vocational College, China) and Lisha Ma (Weifang Engineering Vocational College, China)

Design of RFID Access Control System Based on 51 Microcontroller 713
Yin Chen (Chongqing Institute of Engineering, China), Haoren Zhao (Chongqing Institute of Engineering, China), Zihong Li (Chongqing Institute of Engineering, China), Shuai Lan (Chongqing Institute of Engineering, China), and Xurui Dai (Chongqing Institute of Engineering, China)

Computer Cloud Computing Technology in the Capture of Colour Information in Visual Communication Design 717
Ming Li (Liaoning Communication University, China)

Ship Target Detection Based on YOLOv3 Algorithm 721
Yao Wang (Chongqing Jiaotong University, China) and Dongzhuo Wang (Chongqing Jiaotong University, China)

Enhancing Performance of Linked Independent Component Analysis: Investigating the Influence of Subjects and Modalities 726
Huashuai Xu (University of Jyväskylä, Finland), Huanjie Li (Dalian University of Technology, China), Tommi Kärkkäinen (University of Jyväskylä, Finland), and Fengyu Cong (Dalian University of Technology; University of Jyväskylä, Finland)

Research on Food Image Recognition of Deep Learning Algorithms 733
Lihua Luo (Guangdong University of Science and Technology, China)

Secure and Efficient Mutual Authentication Protocol for Smart Grid Under Blockchain 738
Zhengping Ruan (Aostar Information Technologies Co., Ltd., China)

The Design of Black Screen Alarm Message Monitoring System Based on Java by ANN 746
Nan Ma (The Second Oil Production Plant of Changqing Oilfield Company, China), Changjun Shui (Changqing Oilfield Company, China), Changqing Li (The Second Oil Production Plant of Changqing Oilfield Company, China), and Binxiang Ma (The Second Oil Production Plant of Changqing Oilfield Company, China)

Using Frequency Domain Dielectric Spectrum for Aging State Evaluation of Transformer Oil Paper Insulation 749
Xiong Liu (State Grid Chongqing Electric Power Research Institute; Chongqing University, China), Wei Qin (State Grid Chongqing Electric Power Research Institute, China), Qian Wang (State Grid Chongqing Electric Power Research Institute; Chongqing University, China), Caiwei Yang (State Grid Chongqing Electric Power Company, China), and Yong Li (State Grid Chongqing Electric Power Research Institute, China)

Simulation Model and Data Acquisition Method for Wind Turbine Group 753
Tiandong Ma (State Grid Ningxia Electric Power Co., Ltd., China), Feng Li (Electric Power Research Institute of State Grid Ningxia Electric Power Co., Ltd., China), Jun Ma (State Grid Ningxia Electric Power Co., Ltd., China), Yong Wang (State Grid Ningxia Electric Power Co., Ltd., China), Hui Ma (Beijing Goldwind Smart Energy Technology Co., Ltd., China), and Yongbin Li (Beijing Goldwind Smart Energy Technology Co., Ltd., China)

Lightweight Graph Convolutional Networks Combining Multimodal Fusion and Spatio-Temporal Attention Mechanisms 759
Biao Guo (Hebei University, China), Jinyue Li (Hebei University, China), and Xuetao Wang (Hebei University, China)

Research for the State of Lithium-ion Battery Health Based on Data-Driven Method 764
Zhuoxing Hu (Yongkang Quality and Technology Monitoring Institute (National Inspection Center for Hardware & Door Product Quality), China), Yongjin Ma (Zhejiang Haber Industry Co., Ltd., China), Jiankang Xu (Yongkang Quality and Technology Monitoring Institute (National Inspection Center for Hardware & Door Product Quality), China), Zhengbing Zhu (Yongkang Quality and Technology Monitoring Institute (National Inspection Center for Hardware & Door Product Quality), China), Feng Xu (Zhejiang Minli Power Tools Co., Ltd., China), Xianggan Ni (Jiangsu University, China), and Zhigang He (Jiangsu University, China)
