Table of Contents

Title	Page range
Investigating Silence in Online EFL Classes Among University Students in China	1
Research Personalized Learning Report Generation--An Example from a Course on Integration of Information Technology and Physics Curriculum	6
AI Empowered Quantitative Evaluation Method for Handwritten Chinese Character	12
Automatic Knowledge Graph Construction over Efficient Information Extraction Networks	18
Robots as Recipients: The Effect of Familiarity on Children's Sharing Behavior in Children-Robot	25
Construction and management of experimental platform with virtual integrated real equipment for electronics or information specialized subject	31
The problem difficulty impact on machine solving of math word problems	36
Knowledge guidance combined with end-to-end method to solve math word problem without implicit knowledge	44
Enhanced Convolutional Neural Networks Based Learner Authentication for Personalized E-Learning System	52
A Mathematical Concepts Enhanced Annotation Model for Chinese Arithmetic Word Problems	59
The effect of different instructional video formats on mental fatigue in the learning process —— brain functional network analysis	64
Algorithm Skeleton Mining Based on Optimized Pre-training Mechanisms in Survey Paper	72
Is Metaverse Better than Video Conferencing in Promoting Social Presence and Learning Engagement?	77
Visual Amplification of Geometry Problems: A Method for Synchronized Highlighting in Text and Diagrams	82
Mining the Relationship between Teacher Behavior, Eye-Gaze and Gesture in Classroom Teaching: A Multi-Dimension Analysis Approach	89
The geometric neural solution combined with text diagram parsing	95
Research on Global Education Artificial Intelligence Hotspots from the Perspective of Knowledge Graph	102
Understanding Individual Differences in Reading Chinese Traditional Poetry Using Hidden Markov Models	108
Ongraph Vector Computing for Solving Explicit Arithmetic Word Problems	113
Landscape and Trends in the Application of Artificial Intelligence in Medical Education	118
Mining Topic Structure of AI Algorithmic Literature	124
Geometry Arithmetic Problem Recommendation Based on Scene-Enhanced BERT	130
A Personalized Intelligent Tutoring System for Mathematics Homework	136
Entity Recognition in Arithmetic Word Problem Based on BERT and Boundary Detection	143
Innovation points mining from scientific papers with deep learning models	148
A Statistical Framework for Measuring the Efficacy of Peer Review on Students' Performance	155
Live Coding in the Classroom: Evaluating Its Impact on Student Performance Through ANOVA and ANCOVA	162
Extending the Relative Approach toward Teaching Effectiveness for Studying and Predicting Educational Equity Gaps	168
Prompt Incorporates Math Knowledge to Improve Efficiency and Quality of Large Language Models to Translate Math Word Problems	172
Visual-Semantic Refinement Network: Towards Exploring the Capabilities of Decoder in Scene Text Recognition	177
Scientific Paper Classification by Fusing BERT and GCN	185
Robust Batch Relation Preserving for Lifelong Unsupervised Domain Adaptation	191
Embedding Coordinates in Transformer for Behavior Recognition in Classroom Scenarios	198
Adoption of Teaching Strategies Leveraging on Augmented Reality & Virtual Reality in Higher Education in Less Developing Countries: A Case of BURUNDI	204
Development of a Web-Based Student Portal System for University Students	209
Robot intervention in social skills of children with autism: a review of the latest three years*	217
Review of research on synonym equivalence relation mining	225
Cross Lagged Analysis of Exam Anxiety, State Anxiety, Trait Anxiety, and Test Scores among Ninth Grade Students	231
A Generative AI-based Teaching Material System Using a Human-In-The-Loop Model	237
A Teacher and Student Facial Expression Recognition Model Based on Classroom Teaching Videos	245
Computer Game-Based Social Skill Intervention for Children with Autism Spectrum Disorder	251
The Framework Design of an Intelligent Task Assignment System for Team Collaboration	256
A Deep Understanding Video Q&A System for Film Education in Acting Department	263
Why technology-supported classrooms: An analysis of classroom behavior data from AIGC	270
Evaluation of Large Scale Language Models on Solving Math Word Problems with Difficulty Grading	287
An Experimental Study of Unsupervised Rank Aggregation Methods in World University Rankings	292
Leveraging Blockchain Technology for a secure IoT data sharing	300
Cloud and IoT Cybersecurity Applied to Environmental Science in Critical National Infrastructure	307
A Machine Solving Method for Math Word Problem via Enhanced Semantic Representation	314
