CONTENTS

Keynote

- The successful deployment of a fatal risk system, designed for the front-line 2
C J Pitzer and J Nel

Case studies and operating practice

- DeGrussa Copper Mine – mine closure experience 27
M Bellamy and H Shedden
- A global review of productivity and operational performance in sublevel caving mines 36
A D Campbell
- Challenges and solutions for deformation management of Cannington's hoisting shaft 49
A Clarkson, C Hall and M Sandy
- Impact testing of raise bore protection mesh 62
M Doran, X Hatch, T Mahoney and G Mungur
- Managing high volume water inflows of 300 L/s in the planning and development of a large scale underground Gold Mine – the Didipio story 70
J P Evert and S Pearce
- Planning for underground mining at Savage River Iron Ore Mine 84
U Singh, P Harper and N Burgio
- Friction rock stabiliser QAQC and a process to investigate high pull test failure rates 94
R Varden, R Hassell and J Player
- The application of critical chain project management to sublevel open stoping at Olympic Dam 110
J Light, L Alford, G Capes and T Woodroffe
- Project and execution of the excavation for a haulage shaft with raise boring techniques 120
M Orunesu Preiata, C Seymour, I Thin and A Pretorius
- Ground support rationalisation at Golden Grove 142
R Varden, P Brenchley, E Jones and J Player
- Operational readiness – what is it and how to get it done? 156
A G L Pratt
- Thin spray liners for face support at Kanmantoo 176
B Roache, J Jardine and B Sainsbury
- Improvement strategies for accurate underground drilling and blasting effectiveness at the Barrick Kibali Gold Mine 188
F M Senda, J P S Kayumba, I Traore and K Musumali

An initial review of conceptual alternative layouts for production areas in Kiirunavaara mine <i>F K Altuntov, B Skawina, J Greberg, H Engberg and I Niia</i>	200
Construction and monitoring of development access into highly stressed rock masses <i>R Talebi, E Villaescusa, N Bustos and C Drover</i>	209
Management of dilution and mining recovery to maximise value <i>R Urie</i>	225
A review of the most common underground slot, winze, rise or raise designs <i>E Wargem and D Tozer</i>	234
Near field blast vibration monitoring for slot or winze blast analysis <i>E Wargem and D Tozer</i>	243
Black Rock Cave (BRC) – overcoming challenging ground conditions and mitigating the impacts to production <i>H Wright, B Hales, A Young, J Harris and L Williams</i>	250
 Collaboration between suppliers, operations and alternative industries	
Performance of fully mechanised rock reinforcement using self-drilling anchors with pumpable resin technology <i>P Jere, R Battison and M Arnold</i>	258
Reverse stoping using wireless initiation at CSA Mine <i>B Small, A Bermingham, R Goodwin, S Watson and M Ireland</i>	269
 Feasibility studies and mine design	
E26 Lift 1 North block cave development and construction <i>R Cunningham, S Melloni and M Greenaway</i>	281
Design of raise caving operations in LKAB mines <i>T Ladinig, M Andersson, M Wimmer and P Gams</i>	295
The design and implementation of the Kibali gold mine off-shaft development <i>T Peters, I Thin, I Traore and O Mulume</i>	310
 Health and safety; and navigating social licence	
Integrated multi-disciplinary auditing and benchmarking of catastrophic hazards for underground mining operations <i>A R Penney and J J L du Plessis</i>	327
 Technology and innovation	
Dashboards, data sources and a modern data platform <i>D Bruce, J Rossiter and L Best</i>	337

The future is electrifying – introduction of a battery electric loader to CSA Mine <i>M Ireland</i>	356
Intersection reinforcement with self-drilling anchors for improved productivity at Kanmantoo <i>J Jardine, B Roache, S Thomas and P Jere</i>	369
No entry mechanised presink of the Wira Hoisting Shaft <i>D Kilkenny, J Clark and C Hill</i>	380
Chamfered backs to improve open stope stability in poor ground conditions <i>G Capes, R Lachenicht and N Mitkas</i>	399
Innovative digital tools shaping the future of sustainable sprayed concrete operations and operator training <i>P Oikkonen and B Aga</i>	407
Mechanised, wireless development charging – Orica’s and Epiroc’s Avatel™ charging solution <i>B Taylor and M Adam</i>	421
Dilution optimisation in sublevel open stoping operations <i>A Vakili</i>	428
Challenges and opportunities in accelerating electrification of underground heavy haulage equipment <i>J Webb, S Cribb, R Derries, M Keegan and M Ratcliffe</i>	439
Author Index	447
