

PROCEEDINGS OF SPIE

Third International Conference on Optics and Communication Technology (ICOCT 2023)

Chao Zuo
Editor

15–17 September 2023
Changchun, China

Organized by
Changchun College of Electronic Technology (China)
Global Scientific Research Association (China)

Published by
SPIE

Volume 12971

Proceedings of SPIE 0277-786X, V. 12971

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Third International Conference on Optics and Communication Technology (ICOCT 2023)*, edited by Chao Zuo, Proc. of SPIE 12971, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*
vii *Introduction*

OPTOELECTRONICS TECHNOLOGY AND SUPERCONDUCTING MATERIALS APPLICATION

- 12971 02 **Design of the telecentric lens for two adjacent surfaces simultaneous imaging of semiconductor Thermo Electric Cooler (TEC) components** [12971-6]
- 12971 03 **Theoretical investigation of a novel Mach-Zehnder-Interferometer-based external cavity diode laser used for tunable diode laser absorption spectroscopy system** [12971-12]
- 12971 04 **A vertical T-electrode modulator with low-loss and high-speed** [12971-15]
- 12971 05 **Ultrasensitive terahertz biosensor based on asymmetric metamaterial with a discontinuous dielectric layer** [12971-24]
- 12971 06 **Design and simulation of achromatic metalens based on topology optimization** [12971-18]
- 12971 07 **Research on laser decoy anti-interference technology based on pseudo-random encryption** [12971-42]
- 12971 08 **Design polar codes with 3×3 kernel matrix based on piecewise Gaussian approximation** [12971-10]
- 12971 09 **Research on timing synchronization algorithm for OFDM systems in Rician channel** [12971-22]
- 12971 0A **High precision automatic balanced homodyne detector for quantum information processing based on proportional-integral-derivative** [12971-9]
- 12971 0B **An underwater image enhancement method based on Swin transformer** [12971-21]
- 12971 0C **Image enhancement and edge detection for defect identification using infrared thermal wave radar imaging** [12971-34]
- 12971 0D **DNU-Net for infrared small target detection** [12971-35]
- 12971 0E **DDCU-Net: dual dynamic convolutional U-Net for infrared small-target detection** [12971-32]
- 12971 0F **A broadband deconvolution beamforming acceleration method** [12971-28]
- 12971 0G **Telephoto camera calibration based on robust homography matrix** [12971-4]

- 12971 OH **Research on surface defect detection of aerospace electronic components based on machine vision** [12971-25]
- 12971 OI **Road target detection under complex weather based on YOLOv5-CGa algorithm** [12971-2]

WIRELESS COMMUNICATION AND IMAGE INFORMATION PROCESSING

- 12971 OJ **Multi-channel optical module based on PLCC packaging** [12971-23]
- 12971 OK **Analysis of the test and evaluation method of vehicle radio antenna** [12971-33]
- 12971 OL **Research on the application of quantum communication in intelligent and connected vehicle cybersecurity** [12971-11]
- 12971 OM **Optical module sensitivity optimization and applications** [12971-26]
- 12971 ON **Decentralized signal detection via first-order approximate message passing for uplink massive MIMO systems** [12971-31]
- 12971 OO **A trellis decoding based on Massey trellis for polar codes with a ternary kernel** [12971-17]
- 12971 OP **High-precision measurement of satellite-borne SAR signal bandwidth based on channelized waterfall diagrams** [12971-5]
- 12971 OQ **The method for extracting rural residential areas from remote sensing images based on improved YOLOv8** [12971-8]
- 12971 OR **Design polar codes with large kernels based on reciprocal channel approximation** [12971-13]
- 12971 OS **SwinGAN: a generative adversarial network-based algorithm for generating Qin bamboo slips character images** [12971-3]
- 12971 OT **Video quality assessment based on deep learning** [12971-30]
- 12971 OU **Hyperspectral remote sensing image feature classification algorithm based on attention U2net** [12971-37]
- 12971 OV **Photoelectric pod image fusion algorithm based on LatLRR and NSCT** [12971-36]
- 12971 OW **Research on underwater image enhancement algorithm based on physical model** [12971-20]
- 12971 OX **Detection of rotating small targets in remote sensing images based on improved yolov5s** [12971-7]
- 12971 OY **Hybrid spatial-channel attention and global-regional context aggregation feature for polyp segmentation** [12971-39]
