

PROCEEDINGS OF SPIE

Workshop on Electronics Communication Engineering (WECE 2023)

Weilin Xu
Editor

27–29 October 2023
Guilin, China

Organized by
Guilin University of Electronic Technology (China)

Sponsored by
Guilin University of Electronic Technology (China)

Published by
SPIE

Volume 12973

Proceedings of SPIE 0277-786X, V. 12973

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Workshop on Electronics Communication Engineering (WECE 2023)*, edited by Weilin Xu, Proc. of SPIE 12973, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

ADVANCED ELECTRONIC TECHNOLOGY AND ENGINEERING

- 12973 02 **Wide EDO handling range chopper amplifier based on high linearity PRs bulk-feedback DSL**
[12973-1]
- 12973 03 **Transient circuit model study of train VCB operation disturbance to axle counting system**
[12973-2]
- 12973 04 **A novel quantum well RTD with intensive and continuous current oscillation in the bias voltage
range higher than 3.15 V** [12973-7]
- 12973 05 **Modeling and impedance matching of bonding wires in multi-chip interconnection of electric
sensor** [12973-9]
- 12973 06 **High performance and low area interconnect structure based on AXI** [12973-10]
- 12973 07 **On the application of inexact computation for low power SHA-256** [12973-11]
- 12973 08 **A liquid crystal phase shifter based on artificial surface plasmon** [12973-16]
- 12973 09 **Deep learning algorithm for advanced level-3 inverse-modeling of silicon-carbide power
MOSFET devices** [12973-20]

INTELLIGENT COMMUNICATION SYSTEM AND DATA TRANSMISSION BASED ON SENSORS

- 12973 0A **GPR multi-frequency data fusion algorithm based on regional energy characteristics** [12973-12]
- 12973 0B **An indoor positioning system based on visible light and multi-sensor fusion** [12973-14]
- 12973 0C **Active noise control system based on the combined CNN-LSTM network** [12973-15]
- 12973 0D **DP-TBD algorithm based on Hungarian assignment algorithm** [12973-17]
- 12973 0E **Review of propagation characteristics of tropospheric scattering channels** [12973-18]

MODERN CRYPTOGRAPHY THEORY AND INFORMATION SECURITY

- 12973 0F **Parameter estimation for free-space continuous variable quantum key distribution based on PointNet** [12973-4]
- 12973 0G **A wide-area multi-factor identity authentication scheme based on PKI** [12973-5]
- 12973 0H **Time-series correlation analysis of BOLD fMRI data was performed based on the mental process of cognitive control** [12973-21]
