

PROCEEDINGS OF SPIE

***Seventh International Conference
on Traffic Engineering
and Transportation System
(ICTETS 2023)***

**Ali Reza Ghanizadeh
Hongfei Jia**
Editors

**22–24 September 2023
Dalian, China**

Organized by
Shandong Jiaotong University (China)

Sponsored by
AEIC Academic Exchange Information Centre (China)

SPIE

Volume 13064

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 13064

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Seventh International Conference on Traffic Engineering and Transportation System (ICTETS 2023)*, edited by Ali Reza Ghanizadeh, Hongfei Jia, Proc. of SPIE 13064, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

xi *Conference Committee*

Part One

TRAFFIC FLOW FORECASTING AND TRAFFIC SAFETY MANAGEMENT

- 13064 02 **A heuristic method of combined loading and distribution plan with truck stability** [13064-5]
- 13064 03 **Research on risk identification of human errors of train dispatchers in high-speed railway**
[13064-147]
- 13064 04 **The influence of aerodynamic characteristics on the aerodynamic brake plate of high-speed train** [13064-190]
- 13064 05 **Causes analysis of subgrade typical problems in high-speed railway integrated commissioning and testing and corresponding countermeasures** [13064-67]
- 13064 06 **Research on environmental logistics optimization strategy based on ISM-MICMAC model**
[13064-151]
- 13064 07 **Research on passenger flow forecasting model for urban rail transport** [13064-34]
- 13064 08 **Research on the trajectory planning of logistics drones in mountainous environments based on heuristic algorithm** [13064-123]
- 13064 09 **Optimization of emergency daily necessities distribution path** [13064-127]
- 13064 0A **Research on the fatigue strength of the installation bracket of the platform detection device under complex environments** [13064-148]
- 13064 0B **Research on ship traffic flow prediction based on GTO-CNN-LSTM** [13064-47]
- 13064 0C **Research on freeway traffic flow prediction method based on Att-Conv-LSTM model**
[13064-133]
- 13064 0D **Research on simulation and modeling methods for road flood damage** [13064-32]
- 13064 0E **Safety and efficiency characteristics of mixed traffic flow** [13064-106]
- 13064 0F **Event-triggered tube model predictive control for high-speed trains trajectory tracking based on robust reachable set** [13064-59]
- 13064 0G **Research on the risk of marine transportation channel for imported soybeans in China**
[13064-111]

- 13064 OH **Research on EMPC for multi-objective optimal control of high-speed trains under parametric uncertainty** [13064-61]
- 13064 OI **Long-term traffic flow prediction based on multi-scale perceptual change** [13064-158]
- 13064 OJ **Optimization of cross-line train operation scheme of urban rail transit based on OD passenger flow** [13064-104]
- 13064 OK **Research on emergency evacuation of tunnel based on improved ant colony algorithm** [13064-7]
- 13064 OL **Simulation study on passing capacity of port waterway based on traffic flow characteristics** [13064-193]
- 13064 OM **Survey on traffic flow prediction methods based on graph convolution neural network** [13064-19]
- 13064 ON **Causal analysis of container loss accidents based on AHP-CV and 24 model** [13064-100]
- 13064 OO **Simulation and optimization of large passenger flow passenger transport organization in Chengdu East Railway Station based on AnyLogic** [13064-145]
- 13064 OP **Flow velocity prediction method based on deep learning** [13064-11]
- 13064 OQ **Detection of motor vehicle carbon emissions on urban road sections based on video sensing technology** [13064-130]
- 13064 OR **Multi-objective optimization of joint scheduling of berth and quay crane under green ports** [13064-153]
- 13064 OS **Research on influencing factors of driving behavior energy consumption based on multi-driving conditions** [13064-84]
- 13064 OT **Optimization of rolling stock circulation plan for passenger-freight co-transportation with flexible train composition mode** [13064-69]
- 13064 OU **Research on obstacle detection between train tracks based on multi-sensor fusion** [13064-162]
- 13064 OV **Heterogeneous fusion graph neural network for traffic prediction** [13064-33]
- 13064 OW **Deep learning based traffic flow prediction model on highway research** [13064-4]
- 13064 OX **TPformer: a deep graphic transformer for long-term traffic flow prediction from node perspective** [13064-8]
- 13064 OY **Evaluation of the effectiveness of search and rescue ships in rescuing the overboard personnel based on cloud model** [13064-40]
- 13064 OZ **Emergency research on passenger ro-ro transportation accidents in Qiongzhou Strait based on game theory** [13064-14]

- 13064 10 **An improved AIS trajectory prediction model based on TrAISformer** [13064-53]
- 13064 11 **Multi-level optimization of hazardous chemicals sales and transportation** [13064-113]
- 13064 12 **A propagation model of ship collision causation based on complex network dynamics theory**
[13064-107]
- 13064 13 **Research on scheduling optimization of trains in rail-sea intermodal coal supply chain**
[13064-86]
- 13064 14 **Research on optimization of inventory demand forecast in cloud infrastructure supply chain**
[13064-152]

TRAFFIC MONITORING AND TRANSPORTATION ROUTE PLANNING

- 13064 15 **Development of advanced noise reduction system for rail transit vehicles based on TRIZ theory**
[13064-191]
- 13064 16 **Construction and empirical study on a synergy degree model of the composite system of cold chain logistics and fresh agricultural product circulation in a certain province** [13064-97]
- 13064 17 **Research on carrying capacity of the high-speed rail station based on multi-objective optimization and simulation verification** [13064-178]
- 13064 18 **Path optimization research for in-vehicle navigation systems** [13064-65]
- 13064 19 **Design of the new W-beam guardrail terminals structure and simulation in full collision**
[13064-64]
- 13064 1A **Method for determining median opening length in multi-lane conversion of expressway renovation and expansion projects** [13064-160]
- 13064 1B **An appertaining parking lot entrances and exits layout method considering safety and efficiency synergistic optimization** [13064-109]
- 13064 1C **Fatigue risk management based pilot sleep monitoring validation experiment** [13064-62]
- 13064 1D **Research on container liner route design considering carbon emissions** [13064-181]
- 13064 1E **Mixed traffic flow characteristics analysis based on simulation approach** [13064-25]
- 13064 1F **Study on location-selection of shared bicycle parking sites based on multi-objective programming** [13064-138]
- 13064 1G **Braking strategy based on permanent magnet linear eddy current braking** [13064-143]
- 13064 1H **Vehicle brake disc temperature monitoring technology** [13064-3]

- 13064 1I **Research on the green wave control of signalized intersections of the Longmen Road in Tianjin** [13064-120]
- 13064 1J **Strength analysis of subway bogie frame based on experiment** [13064-188]
- 13064 1K **Adaptability evaluation of wind-solar-hydrogen-energy storage in port-ship multi-energy integration system based on AHP-TOPSIS** [13064-135]
- 13064 1L **Simulation study on traffic organization mode of double-decker highway** [13064-20]
- 13064 1M **Research on the inventory control of electric multiple units spare parts considering lateral transshipments** [13064-171]
- 13064 1N **Improving traffic efficiency at merge bottleneck: a combined variable speed limit and logic rule-based lane change control approach** [13064-132]
- 13064 1O **Truck scheduling optimization for port collection and distribution based on multi-dimensional space-time network** [13064-110]
- 13064 1P **Research on development indicators of transportation in cold region cities** [13064-180]
- 13064 1Q **Evacuation route planning in disaster situations** [13064-85]
- 13064 1R **An improved path planning method for ships considering motion characteristics** [13064-146]
- 13064 1S **Vessel speed optimization study under emission control area region** [13064-15]
- 13064 1T **Research on the optimization of intermodal empty container reposition** [13064-23]
- 13064 1U **Research on the location selection of R Enterprise's distribution center based on analytic hierarchy process and grey relational degree method** [13064-24]
- 13064 1V **Research on path planning of driverless vehicle based on improved A* algorithm** [13064-88]
- 13064 1W **Research on passenger path planning of urban rail transit in interval interruption scenario** [13064-119]
- 13064 1X **Selection and simulation analysis of electric vehicle power system** [13064-186]
- 13064 1Y **Evacuation traffic optimization affected by urban waterlogging** [13064-48]
- 13064 1Z **Research on application of security early warning mechanism of vehicle networking based on 5G environment** [13064-46]
- 13064 20 **Joint optimization of train scheduling and rolling stock utilization planning: a virtual composition mode** [13064-94]
- 13064 21 **A heuristic approach to stowage planning for ro-ro ships** [13064-93]

Part Two

- 13064 22 **Optimization of urban rail transit timetables for metropolitan commuter train cross-track operations** [13064-22]
- 13064 23 **Research on the influence of wheel polygons on vehicle dynamics performance** [13064-187]
- 13064 24 **A study on the siting of urban two-level joint distribution stations considering vehicle capacity** [13064-163]
- 13064 25 **Analytical model of airport passenger transportation transfer mode choice based on air travel characteristics** [13064-166]
- 13064 26 **SITE selection and optimization for urban epidemic prevention material distribution points** [13064-131]
- 13064 27 **A method for evaluating the level of connectivity between public transport and slow-moving transport systems around rail stations** [13064-128]

TRAFFIC NETWORK DESIGN AND DATA ANALYSIS

- 13064 28 **Mathematical model of receiver location with unknown transmitter number** [13064-169]
- 13064 29 **A detection frame selection method for distinguishing between solid and dashed lane lines using LiDAR** [13064-105]
- 13064 2A **Coordinated control method for communication time-delayed train formation based on Lyapunov-Krasovskii functional** [13064-139]
- 13064 2B **Research on quantitative evaluation model of human error probability of high-speed railway train dispatchers** [13064-134]
- 13064 2C **Application of optimized BPR function in pedestrian evacuation** [13064-129]
- 13064 2D **Identification and spatio-temporal characterization of urban functional areas based on POI data** [13064-149]
- 13064 2E **Research on data sharing and exchange technology in the railway industry based on blockchain** [13064-164]
- 13064 2F **Research on intersection evaluation method based on high-precision spatial-temporal trajectory data** [13064-122]
- 13064 2G **Research on cut-in scenario identification algorithm based on risk assessment** [13064-177]
- 13064 2H **Research on cloud-based safe computing platform resource prediction** [13064-39]
- 13064 2I **YOLO series object detection networks optimized with luminance attention mechanism network** [13064-174]

- 13064 2J **Optimizing capacitated hub-and-spoke airline network under disruption** [13064-70]
- 13064 2K **Architecture design of Chinese digital highway standard system** [13064-144]
- 13064 2L **Supply chain network optimization for EMU spare parts considering same-model inventory pooling** [13064-183]
- 13064 2M **Evaluation method for installation scheme of the radar-video integrated based on technique for order preference by similarity to ideal solution** [13064-87]
- 13064 2N **Ship trajectory data compression based on SH-DP algorithm** [13064-91]
- 13064 2O **Data-driven traffic accident analysis and prediction using machine learning models: a case study of Philadelphia city** [13064-140]
- 13064 2P **Corridor selection method of new highway based on NNIA genetic algorithm** [13064-74]
- 13064 2Q **Improved SSD for crew fatigue driving detection algorithm** [13064-28]
- 13064 2R **Analysis of the topological properties and robustness of Chongqing metro network** [13064-98]
- 13064 2S **Yangtze River inland waterway bulk carrier sealing status recognition on improved YOLOv5 algorithm** [13064-18]
- 13064 2T **Numerical Investigation on the collision of container ships considering the influence of material failure criterion** [13064-68]
- 13064 2U **Mining of taxi passenger-seeking regions based on grid-optimised DBSCAN algorithm** [13064-121]
- 13064 2V **Integrated models and algorithms for enhancing service level and capacity utilization in railway operations** [13064-170]
- 13064 2W **Continuous spatial-temporal convolutional networks based neural control differential equations for traffic forecasting** [13064-21]
- 13064 2X **Analysis of the influence of weather factors on the transfer volume between shared bicycles and public transport** [13064-50]
- 13064 2Y **Research on vehicle body load identification method based on simulation and real measurement** [13064-184]
- 13064 2Z **Train energy efficiency optimization scheme based on speed profile correction curve** [13064-173]
- 13064 30 **Ship trajectory clustering based on improved Hausdorff distance** [13064-168]
- 13064 31 **Path efficiency of urban transport based on GPS data** [13064-99]

- 13064 32 **Research on the influence factors of intercity highway bus flow distribution based on random forest algorithm** [13064-43]
- 13064 33 **TOPSIS based on parallel simulated annealing algorithm for multi-objective aircraft landing problem** [13064-137]
- 13064 34 **Design of hydrometeorological data transmission for mountainous waterway based on BeiDou short message** [13064-49]
- 13064 35 **Material distribution scheme and design in emergencies based on Dijkstra algorithm** [13064-80]

INTELLIGENT TRANSPORTATION AND AUTONOMOUS DRIVING MODELING

- 13064 36 **Rainy-day travel time prediction based on Kalman filter algorithm** [13064-114]
- 13064 37 **Real-time response control oriented method for discriminating the headway property of unsaturated headways at green light release** [13064-118]
- 13064 38 **Lane change decision model for connected and autonomous vehicle considering game behavior in the interweaving area** [13064-89]
- 13064 39 **Mixed traffic flow characteristics analysis under different proportion of autonomous vehicles** [13064-27]
- 13064 3A **Research on trajectory prediction of vehicle lane change for autonomous driving based on inverse reinforcement learning** [13064-75]
- 13064 3B **Design and application of transport planning analysis and data service platform based on flexible architecture technology** [13064-92]
- 13064 3C **Research on five typical scenario automatic recognition methods based on lidar target data** [13064-179]
- 13064 3D **A vehicle images occlusion removal recognition method based on contextual self-encoder** [13064-115]
- 13064 3E **Precise stop control of high-speed trains based on refined adaptive terminal sliding mode control** [13064-96]
- 13064 3F **A method for evaluating the impact of port shoreline planning on fishing vessels based on automatic identification system cluster analysis** [13064-136]
- 13064 3G **Accuracy control of train automatic driving parking: a case study of Nanning Rail Transit Line 4** [13064-55]
- 13064 3H **The positive impact of intelligent aids to navigation on maritime transportation** [13064-17]
- 13064 3I **A shared parking allocation method in central urban area based on optimal comprehensive benefits** [13064-156]

- 13064 3J **A method for intelligent generation of decision information for urban road maintenance** [13064-126]
- 13064 3K **Research on fault analysis and health management technology of 25Hz phase-sensitive track circuit** [13064-189]
- 13064 3L **Performance test and evaluation of cooperative vehicle infrastructure system information interaction based on broadcast Wi-Fi in closed test field** [13064-60]
- 13064 3M **Research on automatic prediction system of ship motion situation based on artificial intelligence technology** [13064-38]
- 13064 3N **Research on regional accessibility and evolution of spatial structure: based on the demonstration of the core zone 30a of the Silk Road economic belt** [13064-10]
- 13064 3O **Expressway traffic flow prediction based on wavelet noise reduction and time graph convolution** [13064-81]
- 13064 3P **A rail service life prediction model based on BP neural network** [13064-141]
- 13064 3Q **Key technologies of automatic operation control logic for urban rail transit comprehensive inspection trainset** [13064-82]
- 13064 3R **Bayesian network model construction of ship accidents under small sample conditions** [13064-167]
- 13064 3S **Research on ship route and speed optimization considering rolling meteorological data: intelligent decision design based on genetic algorithm** [13064-9]
- 13064 3T **Based on the logistics and transportation planning and simulation in the field of intelligent transportation** [13064-36]
- 13064 3U **Optimal method of extreme scenarios for intelligent driving vehicle testing based on time window** [13064-63]
- 13064 3V **Prediction model for expressway traffic flow of regional central cities based on time-segments** [13064-185]
- 13064 3W **Path optimisation study of door-to-door bulky waste collection by pure electric vehicles based on hard time window constraints** [13064-12]
- 13064 3X **A 3D map construction method for autonomous vehicles in unknown environment** [13064-76]
- 13064 3Y **Resilience evaluation of container shipping network based on cascade failure** [13064-101]
- 13064 3Z **Development and application of intelligent trackless track laying transportation equipment for urban rail transit projects** [13064-72]
- 13064 4O **Autonomous collision avoidance method based on improved artificial potential field in the traffic separation scheme waters** [13064-159]
