PROCEEDINGS OF SPIE

Third International Conference on High Performance Computing and Communication Engineering (HPCCE 2023)

Haw Su Cheng
Danilo Pelusi
Editors

22–24 December 2023
Changsha, China

Organized by
Nanchang Hangkong University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13073

Proceedings of SPIE 0277-786X, V. 13073

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Third International Conference on High Performance Computing and Communication Engineering (HPCCE 2023)*, edited by Haw Su Cheng, Danilo Pelusi, Proc. of SPIE 13073, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

COMPUTER MODELING AND TARGET DETECTION

13073 02 **Network security enhancement strategies for power distribution station based on attack graphs** [13073-43]

13073 03 **Weighted and Mumford-Shah losses for weakly supervised semantic segmentation** [13073-23]

13073 04 **Design and implementation of fuzzy-based natural routing system for mobile Internet of Things** [13073-52]

13073 05 **Research on surface garbage collection device based on YOLOv7** [13073-11]

13073 06 **Optimization of edge computing task offloading based on multi-agent game** [13073-58]

13073 07 **Migrating monolith system to microservices with directed graph attention neural network** [13073-25]

13073 08 **Research on elastic parallel computing environment based on cloud-native virtualization** [13073-6]

13073 09 **Job resource prediction and completion status prediction on large-scale computing platforms** [13073-30]

13073 0A **Multi-level supervised vision language model based steel surface defect detection** [13073-16]

13073 0B **EGCR: an enhanced graph neural network for cache replacement** [13073-62]

13073 0C **K-means aided spatio-temporal CNN-LSTM network for air quality forecasting** [13073-38]

13073 0D **Malware detection method based on TPE optimized stacking** [13073-26]

13073 0E **Oil well acoustic dynamic liquid level detection based on EEMD** [13073-55]

13073 0F **Research on the optimization of local lane segmentation in BEV based on dynamic serpentine convolution** [13073-9]

13073 0G **SEC-RDMA: a scheme to enhance security for RDMA one-sided operations** [13073-22]

13073 0H **Research on the correlation of building mechanical and electrical installation material names based on HMM-NF** [13073-21]

13073 0I **Fault tree generation and analysis based on extended SysML model** [13073-37]

13073 0J **Implementation and application analysis of DNP3 security authentication** [13073-35]

13073 0K **Maximum entropy inverse reinforcement learning-based trajectory planning for autonomous driving** [13073-68]

13073 0L **Application of black box genetic algorithm in network security vulnerability mining** [13073-77]

ADVANCED ALGORITHM AND DATABASE APPLICATION

13073 0M **Network performance oriented study of sensor nodes combining improved COOT and MOAHA algorithms** [13073-81]

13073 0N **Enhancing the application of the grey wolf optimizer algorithm in USV path planning: a research study** [13073-39]

13073 0O **Weighted median autoregressive graph filters** [13073-4]

13073 0P **Research on time-frequency synchronization algorithm and timing device of BDS satellite common-view** [13073-53]

13073 0Q **Two-dimensional DOA estimation algorithm based on unitary ESPRIT under parallel nested arrays** [13073-80]

13073 0R **A garbage collection algorithm combining hot-cold separation and wear leveling in raw flash file systems** [13073-67]

13073 0S **Time difference of arrival location method based on improved dung beetle optimizer algorithm** [13073-17]

13073 0T **Orangutan: a compression algorithm for precision-redundant floating-point time series** [13073-3]

13073 0U **Research on monitoring and analysis technology of power data flow interface in external interaction scenarios** [13073-61]

13073 0V **Graded diagnosis of nuclear cataracts utilizing precision localization and deep learning algorithms** [13073-24]

13073 0W **Multi-objective construction machinery group configuration optimization based on improved particle swarm optimization algorithm** [13073-14]

13073 0X **Abnormal data detection method of energy consumption of green building power equipment based on LOF algorithm** [13073-74]

13073 0Y **Research on spatial-temporal data fusion algorithm of sensors** [13073-47]

13073 0Z **An auction-based algorithm for task offloading in industrial IoT** [13073-12]

13073 10 **An improved YOLOV5-based algorithm for detecting unauthorized personnel intrusion on tracks for reducing railway security risks** [13073-10]

13073 11 **Fast response method of power supply resources based on simulated annealing algorithm** [13073-51]

13073 12 **FPGA-based multipliers for elliptic curve cryptography** [13073-18]

13073 13 **Optimization design of absorbing materials based on improved genetic algorithm** [13073-5]

13073 14 **Ant colony optimization-based multi-objective task scheduling algorithm for supercomputing internet workflow** [13073-8]

13073 15 **Multi-label classification algorithm for green certificate issued text based on blockchain technology** [13073-75]

WIRELESS COMMUNICATION AND DIGITAL SIGNAL PROCESSING

13073 16 **Research on transmission control technology of microwave signal with high density** [13073-76]

13073 17 **Requirements modeling for weather modification services based on problem frames** [13073-34]

13073 18 **Research and application of communication network guarantee regions with less-developed network** [13073-54]

13073 19 **Advancing weakly supervised semantic segmentation using class activation map augmented with graph attention module** [13073-2]

13073 1A **The impact of unmanned aerial vehicle maneuver on satellite communication under the traction of far field flight demands** [13073-56]

13073 1B **Closed-form expression of DOP based on effective computation** [13073-19]

13073 1C **A multi-objective optimization register clustering method** [13073-15]

13073 1D **MCTB-GPSR: aeronautical ad hoc networks movement change triggers beacon routing based on GPSR** [13073-48]

13073 1E **Design and implementation of semantic communication system for unmanned vehicles** [13073-33]

13073 1F **Research on the application of zero trust framework in the design of power system network architecture** [13073-78]

13073 1G **Weakly supervised MS-LiDAR point cloud classification based on kernel convolutional semantic query network** [13073-46]

13073 1H **Design of circularly polarized antenna for high-power harmonic radar** [13073-42]

13073 1I **The technique of parsing vehicle wiring harness tooling diagram based on pattern recognition** [13073-60]

13073 1J **A detection method toward yellow dragon disease spreads using spark and deep learning** [13073-69]

13073 1K **Signal transmission technology for power grid construction sites based on space high-speed laser communication** [13073-7]

13073 1L **Expandable residual attention-based high-performance embedded gesture recognition** [13073-65]

13073 1M **Research on route planning method of UAV hangar collaborative operation for transmission line inspection** [13073-59]

13073 1N **Improved YOLOv7-based photovoltaic panel defect detection** [13073-13]

13073 1O **Enhancing sentence semantic matching with isotropic batch normalization and generalized pooling operator** [13073-70]

13073 1P **Electromagnetic interference suppression technology of power system and civil aviation communication navigation monitoring equipment** [13073-45]

13073 1Q **Algorithm for generating secure communication protocol test sequences under hyperparameter optimization of correlation vector machines** [13073-57]

13073 1R **Covert communication in power Internet of Things** [13073-32]
