## TABLE OF CONTENTS

|                                                                                                                    |    |
|--------------------------------------------------------------------------------------------------------------------|----|
| Raspberry Pi Pico Based Real Time Patient Health Monitoring System.....                                            | 1  |
| <i>M. Sahaya Sheela, T. Shanthi, T. Arun Kumar, M. Muthuraja</i>                                                   |    |
| Drugex : The Drug Extincter App .....                                                                              | 6  |
| <i>D Thamizhselvi, Mohammed Inamul Hassan M, R Vishal Amrith, R Avudainayaki</i>                                   |    |
| CHECK BUS - Bus Monitoring System for MTC Buses.....                                                               | 12 |
| <i>Valarmathi V, Prasanth Raj M, Srihari V</i>                                                                     |    |
| Visual Information Translator Using Smart Glasses for Blind .....                                                  | 19 |
| <i>T. P. Rani, S Susila Sakthy, P Kalaichelvi, Vignesh T, Priyadharshan M</i>                                      |    |
| Virtualization Using Docker Container for Reproducible Desktop Environment .....                                   | 25 |
| <i>Manikandan. J, Kirubakaran. K, Yuvanesh. N, Dhino Bilgates J, Haresh S</i>                                      |    |
| Fake App Detection Using Sentiment Analysis.....                                                                   | 29 |
| <i>T. P. Rani, S Susila Sakthy, P Kalaichelvi, Prasanth S, Venkatesh S</i>                                         |    |
| Industrial Automation Using IoT.....                                                                               | 35 |
| <i>T. Porselvi, A. K. Saranraj, B. Peroli Rikthish, M. Prabakaran, Shalini Priya, Hemalatha</i>                    |    |
| Unveiling Hidden Patterns: Exploration of Data Dependencies in Disease Prediction .....                            | 40 |
| <i>Durga Devi. P, Akila. K</i>                                                                                     |    |
| Multi-Disease Prediction Using Machine Learning .....                                                              | 46 |
| <i>Sathya V, Sriram S, Bhuvanesh G</i>                                                                             |    |
| Aspect-Based Sentiment Analysis: An Extensive Study of Techniques, Challenges, and Applications.....               | 52 |
| <i>Pavithra S S, Chitrakala S</i>                                                                                  |    |
| Computer Aided Alzheimer's Disease Diagnosis from Brain Imaging Dataset - A Review .....                           | 58 |
| <i>Bharathi U, Chitrakala S</i>                                                                                    |    |
| Outlier Detection in Indoor Localization Using “Random Forest” and “Support Vector Machine” .....                  | 64 |
| <i>G. Uganya, M. Sathesh, M. Sahaya Sheela, N. Nalini</i>                                                          |    |
| Person Identification and Movement Analysis for Surveillance Using Machine Learning and Web Scraping.....          | 69 |
| <i>Shali A, Hari Prashanth P, Shriram S, Mohammed Assel S, Deepak Rishi G, Hemavathi S</i>                         |    |
| IoT Smart City Air Quality Monitoring System Using Arduino.....                                                    | 73 |
| <i>N. Gopinath, A. Chinnasamy, Sachin K, Sakthiraj S, Ravindharan S</i>                                            |    |
| Automatic Accident Detection System.....                                                                           | 77 |
| <i>Sreeraman R, Thrinam Vishwakumaar M E, Muralidharan J, Devibalan K</i>                                          |    |
| Route-Based User Segmentation and Clustering: A Machine Learning Approach for Enhanced Transportation Service..... | 82 |
| <i>Jegan Amarnath J, Raizudeen S, Kiran Kumar S</i>                                                                |    |
| Agro Gen-Next.....                                                                                                 | 86 |
| <i>Sankari Subbiah, Sanjay Krishna B, Lalith Vijay G</i>                                                           |    |

|                                                                                                                                |     |
|--------------------------------------------------------------------------------------------------------------------------------|-----|
| E-Commerce System Using Augmented Reality .....                                                                                | 91  |
| <i>Ranjana R, Kathiravan Rm, Sudarsan I</i>                                                                                    |     |
| Crack Detection for Metal Surfaces Using Deep Learning Model.....                                                              | 96  |
| <i>Soma Prathibha, Kaajal Krishnamurthy, Sohna Krishnamurthy, Jothika S</i>                                                    |     |
| Blind Cicerone.....                                                                                                            | 102 |
| <i>Kavitha V, Manimala G, Kothai S, Rashmi T</i>                                                                               |     |
| Decoding Emotions Using Deep Learning Approach to EEG-Based Emotion Recognition.....                                           | 109 |
| <i>Rajeswari Rajesh Immanuel, S. K. B. Sangeetha</i>                                                                           |     |
| Heart Disease Classification Using Different Transfer Learning Models .....                                                    | 115 |
| <i>Vinoth Murugan, Damodar Panigrahy</i>                                                                                       |     |
| Auto Climate Deducer Using Data Science and Machine Learning.....                                                              | 121 |
| <i>G. Manimala, Anushree U, Gayathri M, Shivani T S</i>                                                                        |     |
| State-Of-Art Techniques for Effective Segmentation and Classification of Pancreatic Cancer Using Deep Learning: A Review ..... | 126 |
| <i>Chaithanyadas K. V, G. R. Gnana King</i>                                                                                    |     |
| Network Anomaly Based Detection Using Multivariate Correlation Analysis Technique .....                                        | 136 |
| <i>Anitha T, Bose S, Logeswari G, Maheswaran N, Vijayalakshmi S, Prabhu D</i>                                                  |     |
| Empowering Deaf and Mute Children Through Computer Vision.....                                                                 | 142 |
| <i>Lakshmi G, Pranav S, Sathya Prakash S, Deepak S</i>                                                                         |     |
| Careex - An AI Assisted Career Guidance and Eligibility Prediction System.....                                                 | 148 |
| <i>Soma Prathibha, G. Shamini, Dharshini S, U. Rusitha</i>                                                                     |     |
| Grouping Based Wrong Way Vehicle Detection.....                                                                                | 154 |
| <i>Lakshmi G, Brindha S, Banu Priya Prathaban, Rashmi A</i>                                                                    |     |
| Smart Dustbin Navigator .....                                                                                                  | 159 |
| <i>V. Kavitha, Jayanth M, Sivakumaran N, Rohan Benny</i>                                                                       |     |
| MediID: Medicine Identification System Displaying Simplified Uses of the Medicine Using Python .....                           | 164 |
| <i>S. Gurusubramani, K. Aparna, Bhavani Kumari, H. Sinduja, S. Sowmiya</i>                                                     |     |
| Intelligent Smart Trolley System Using Arduino .....                                                                           | 169 |
| <i>G. Uganya, A. Sahaya Anselin Nisha, R. Vinoth, A. Joseph Lourdu Rajah</i>                                                   |     |
| Missing Child Tracking System Using Deep Learning Methodologies .....                                                          | 174 |
| <i>S. Gurusubramani, Haritha C B, Nivetha A, Shamsunnisa Z</i>                                                                 |     |
| Alcohol Detection and Theft Alert System for Vehicles.....                                                                     | 180 |
| <i>Myvizhi Selvi V, Sakthivelu S, Gokula Krishnan R, Sriganesh N</i>                                                           |     |
| Track the Stop.....                                                                                                            | 184 |
| <i>Fathima Mubarakkaa M, Ummu Sabura H, Pradiksha M S, Shalini S, Kalpana Devi A</i>                                           |     |
| Reconfigurable Computer Architecture for Signal Processing Applications.....                                                   | 190 |
| <i>N. Ashokkumar, Kavitha Thandapani, P. Nagarajan, P. Kabilamani, B. Manimaran, M. Krishnamurthy</i>                          |     |

|                                                                                                                             |     |
|-----------------------------------------------------------------------------------------------------------------------------|-----|
| Raspberry-Pi Based Exigence Informer .....                                                                                  | 194 |
| <i>S. Saranya, S. Sreevarshan, P. Kishore, K. Vishal Vaseekaran, G. Sudha, Sankari Subbiah</i>                              |     |
| Design of an Efficient Mac Unit for DSP Applications.....                                                                   | 198 |
| <i>S. Saranya, G. Sudha, Sankari Subbiah, Devi Priya. P, Rajalakshmi. B, Surya. S</i>                                       |     |
| Design of Converter for Improvement of LVRT Capability in Grid Integrated PV System.....                                    | 203 |
| <i>G. Ezhilarasi, R. Senthil Kumar</i>                                                                                      |     |
| Detection of Brain Tumor Using YOLOv5 Algorithm .....                                                                       | 210 |
| <i>Aravintharaj. S, Mithileshan. M, B. Priya</i>                                                                            |     |
| Curie – a Smart Voice Assistant Based Hospital Companion with Medicine Dispenser .....                                      | 217 |
| <i>A Harini, S Thejasvi, Varshini U Abinaya, S. Sumathi</i>                                                                 |     |
| Comparative Study of Customer Churn Prediction Based on Data Ensemble Approach .....                                        | 222 |
| <i>S. Dinesh Kumar, K. Soundarapandiyam, S. Meera</i>                                                                       |     |
| Estimation of Meteorological Drought Prediction by SPEI Using SVM .....                                                     | 232 |
| <i>K. Neela, P. Shobha Rani</i>                                                                                             |     |
| Indoor Campus Navigation Using Web Application System for Seamless University Mobility.....                                 | 238 |
| <i>U Tharani Chitra, Rajesh K, Harshitha M, Priyadharshini S</i>                                                            |     |
| Subjective Analysis and Progressive Assistance of Psychological Disorders .....                                             | 242 |
