TABLE OF CONTENTS

SESSION 1: EXECUTIVE SESSION

- 1-1 **Metallic Wire and Cable: Recession Risk vs. Green Energy Transition...**2
- 1-2 **Optical Cable: Demand Growth Pared Back as Challenges Mount...**3
- 1-3 **Digital Electricity: Leading the Transition to an Energy Efficient World ...**4
- 1-4 **Global Economic Outlook...**5
- 1-5 **Elements of an Industry Business Plan to be Successful in the World of AI and Electrification...**6

PLENARY LUNCHEON

Keynote Presentation: **Disruptive Opportunities: Building the Ambient Intelligence Backbone**; Scott Klososky, Founding Partner, Future Point of View, LLC...8

PANEL DISCUSSIONS

- **Environmental Sustainability and Recycling for the Cable Industry...**9
- **Fault-Managed Power: A Safe and Disruptive Innovation for Powering the Future...**17
- **Renewable/Offshore Energy...**21

SUPPLIER SPOTLIGHT SESSION

SESSION 2: NETWORK RELIABILITY & MEASUREMENTS

- 2-1 **Power Storage Control Method for Multiple Remote-Operated Optical Fiber Switching Nodes...**28
- 2-2 **A Fiber Inspection Microscope Integrated with Cleaning Function...**33
- 2-3 **Reliable Prediction of Data Center Interconnect Network Flaps via Distributed Acoustic Sensing (DAS) and Supervised Machine Learning...**37
- 2-4 **Artifacts for Measuring Bias and Repeatability of Fiber Inspection Scopes...**41

SESSION 3: DESIGN, TESTING & APPLICATIONS FOR COPPER ETHERNET, POE AND ENERGY CABLES - PART 1

- 3-1 **Extracting and Discriminating Spontaneously Recovering Faults, Case Study on Pressurized Cable...**52
- 3-2 **Impact of Thermal Aging on Safety Performance of Power-Over-Ethernet Cables...**56
- 3-3 **Channel Performance Degradation From Installation Stresses...**63
- 3-4 **Topography Scanner for Quality Control of Power Cable Manufacturing ...**71

SESSION 4: POSTER

- 4-2 **High-Density Optical Cable with Ultra-Low-Loss, Large Effective Area ITU-T G.654.E Optical Fiber...**78
- 4-3 **Evaluation of 165µm Reduced Coating Diameter Fibers for High Density Cable Applications...**83
- 4-4 **High-Density Micro Cable Family with Next Generation 190 Micron Fibers...**90
- 4-5 **Development of a High Fiber Density 432-Fiber Microduct Cable...**96

SESSION 5: SPECIALTY APPLICATIONS

- 5-1 **Sea Trail Results of OCC-SC630 ...**100
- 5-2 **Development and Application of an Air-Blown Optical Cable with Bidirectional Construction...**105
- 5-3 **35 Years Of Fiberoptic Coastal Installations In Norway...**113

SESSION 6: FIBER MANUFACTURING

- 6-1 **Design Process of a 192-Fibre Cable with Fibres Coated to 180µm Diameter...**120
- 6-2 **A Novel Modelling Approach for Sintering of Cylindrical Silica Soot Preform...**127

SESSION 7: CONNECTIVITY

- 7-1 **Liquid Immersion Multi-Fiber Connector for Data Center Cooling System...**132
- 7-2 **Connection Characteristics of Coupled Multicore Fiber Connector...**136
- 7-3 **Optical Transceivers and Structured Cabling with Expanded Beam Connectors as an Alternative to Active Optical Cables...**142
- 7-4 **A VSFF, Multi-Row, Multi-Fiber Connector with Multi-Vendor Interoperability...**152
- 7-5 **A Novel, Low-Loss, Multi-Fiber Connector with Increased Usable Fiber Density...**159
- 7-6 **Sustainable Network Design: Plastic Reduction with Ultra High-Density Cabling with Thinner Coating and VSFF Connector in Data Centers...**166

SESSION 8: MULTI-CORE & SPECIALTY FIBER

- 8-1 **100G/Lane Enabled Multimode Fiber: A High-Speed Solution for Short-Reach VCSEL Transmission...**176
- 8-2 **A Low Crosstalk Weakly Coupled 7-Core Single Mode Fiber...**181
- 8-3 **Multicore Fiber for Space-Constrained, High Bandwidth Density Applications...**184
- 8-4 **Research of Crosstalk Characteristics Based On Weakly Coupled Seven-Core Fiber...**188
- 8-5 **Low-Loss All-Fiber Mode Multiplexer for Weakly-Coupled Few-Mode Fiber...**193
- 8-6 **Crosstalk Characteristics of 200mm Coating 4-Core Fibers in 288-Fiber/864-Fiber Freeform Ribbon Cables...**196
- 8-7 **Low Attenuation Orbital Angular Momentum Fiber...**201

SESSION 9: CODES & STANDARDS

- 9-1 Clarifying the Changes – Update on Revisions To UL'S Certification Documents...206
- 9-2 Emissivity - A Relevant Parameter for Burn Testing According to EN 50399...210
- 9-3 Single Pair – Next Steps...217
- 9-4 Predictive Modeling of Large-Scale Flame Tests on Cables Using Cone Calorimeter...226
- 9-5 Cabling for Fault-Managed Power Systems (What Is Class 4?)...230

SESSION 10: DESIGN, TESTING & APPLICATIONS FOR COPPER ETHERNET, POE AND ENERGY CABLES - PART 2

- 10-1 Extended 10Gbps Data Transmission Over Cat 6A: Facts vs Myths...236
- 10-2 Intra-Pair Skew: About Wave Propagation in Screened Single Pair...240
- 10-3 Coupling Attenuation and Burst Test on Balanced Cables and Cabling Systems...246
- 10-4 Designing of Single-Pair Ethernet Cable...253
- 10-5 Environmental Resilience of Twisted Pair Ethernet Applications at Lengths Greater than 100 Meters...N/A
- 10-6 Relation of Coupling Attenuation and Unbalance Attenuation...260
- 10-7 Measuring and Simulating TCTL in Unbalanced Cable...270
- 10-8 Power Over Communication Cables for Extended Distance: Myths and Misconceptions...277

SESSION 11: CABLE MATERIALS & PROPERTIES

- 11-1 New Advancement in Polyvinylidene Fluoride (PVDF) Materials...284
- 11-2 Foamed PVDF Jacket for Power-Over-Ethernet Cables to Overcome Thermal Aging Challenges...291
- 11-3 Materials Considerations for Laser Printed Jacket Solutions...300
- 11-4 Effects of Filler Surface Modification on Coupling Effects in Halogen Free Flame Retardant Cable Compounds...307
- 11-5 Polyurethane Resin-based FRP Rods as Embedded Strength Members in Optical Fiber Cables...318
- 11-6 Tailored Color Packages for Optimizing the Processing and Performance of Crosslinking Polyolefins...N/A
- 11-7 Fluoropolymer Processing Aid Replacement in Cable Jacketing Compounds...321
- 11-8 Research On Influencing Factors Of Smoke Density In Flame Retardant Optical Cable...329

SESSION 12: CABLE MODELING & DESIGN

- 12-1 Exploration Study of Jacket Shrinkback Test Methods...336
- 12-2 An Analytical Formula of Microbending Sensitivity for Reduced Diameter Optical Fibers...341
- 12-3 Indoor-Outdoor Air Blown Optical Cable...346
- 12-4 Central Tube Cable Design for Easy Access of Embedded Strength Members...351
- 12-5 Hybrid Cables for 4G/5G Technology Networks...355

SESSION 13: OPTICAL FIBER COATING MATERIALS

- 13-2 Next Generation Optical Fiber Coatings with Excellent Accelerated Aging Performance, While Maintaining Robust Draw Processing Capability...362
- 13-3 Impact of Environmental Stresses and Lifetime Aging Simulation on Optical Fiber Coatings...367
- 13-4 Prediction of Physical Properties of Optical Fiber Coating Resins Based on Chemical Kinetics...374
- 13-5 Investigation on Application of Biomass Raw Materials to Optical Fiber Coating Agents...379
- 13-6 UV-Curable High Temperature Resistant Dual Layer Coating System for Specialty Optical Fiber Applications...382

SESSION 14: SPECIALTY INSTALLATION

- 14-1 Installing a Cable in a Duct Solely by the Flow of Water, Faster than the Flow Itself!...392
- 14-2 Cable Jetting Velocity Prediction Model...398
- 14-3 Pre-Connectorized Ultra-High-Density Cable for Easy Installation...404
- 14-4 Fundamental Study of Planar Closure for Wiring on Road Surface...411
- 14-5 Study of Easy Thin Optical Fiber Cabling Method...415
- 14-6 Study on Streamlining Cable Removal Process...422
- 14-7 Methodology to Maintain Low Breaking Load and High Mechanical Reliability in Optical Fiber Drop Cable for Fttx Network...428

SESSION 15: HIGH DENSITY RIBBON

- 15-1 Development of Low Loss Central Core Rollable Ribbon Cable...434
- 15-2 High-Density Cables with 200-Micron Flexible Ribbons...438
- 15-3 Single Jacket Armored Wrapping Tube Cable with Easy Fiber Access...446
- 15-4 High Fiber Density 3456F Flexible Ribbon Indoor/Outdoor Cable for Indoor Outdoor Data Center Applications...451
- 15-5 144F High-Density Ribbon Cable Supporting/Compatible to Legacy Network...456
- 15-6 Optical Fiber Ribbon Cables with Full Color Spectrum...460

POSTER SESSION

- Development of 22.9Kv Submarine Horizontal Directional Drilling (HDD) Power Cable...466
- Experimental Study on Measuring Method of Residual Torsion of Fiber Ribbon...469
- UV Protection and Lightfastness of Outdoor Cables...475
- A Method for Estimating the Combustion Performance (Smoke Density) of Optical Cables Based on Material Thermal Analysis Techniques...479
- Research on Shrinkage Performance of Central Core Tube Optical Cable...483
- Optical Cable Impact on Environmental Performance of Single-Fiber Patchcord...488
- Print Length Verification System...493
- Temperature Performance Study of Loose Tube Materials...497
