# Contents

Preface.....	ix
About the Historic Images .....	xi
Acknowledgments.....	xiii
<b>Chapter 1 Introduction.....</b>	<b>1</b>
<b>Chapter 2 Early Observations of Electrical Phenomena in Nature.....</b>	<b>3</b>
2.1 Definition of the Phenomenon .....	3
2.2 How the Problem Was Initiated in the Early 1950s.....	3
2.2.1 Historical Background.....	3
2.2.2 Charge Separation Mechanisms in Clouds .....	4
2.2.3 Electrical Charges Associated with Clouds .....	4
References .....	5
<b>Chapter 3 Early Observations .....</b>	<b>7</b>
3.1 How Do These Values Relate to the Potentials That Developed? .....	7
References .....	10
<b>Chapter 4 Early Measurements.....</b>	<b>13</b>
References .....	14
<b>Chapter 5 Early Laboratory Measurements in Water and Dilute Solutions .....</b>	<b>17</b>
References .....	24
<b>Chapter 6 Measurements in Pure Water .....</b>	<b>27</b>
References .....	30
<b>Chapter 7 Freezing Potentials in Aqueous Solutions .....</b>	<b>31</b>
References .....	35
<b>Chapter 8 Freezing Potential Measurements in Soils.....</b>	<b>37</b>
References .....	47
<b>Chapter 9 Scope of the Studies of Electrical Potentials during Freezing/Thawing .....</b>	<b>49</b>
References .....	54
<b>Chapter 10 Description of the Work Done in the National Research Council Canada, Ottawa.....</b>	<b>55</b>
Appendix A: Experimental Setup in NRCC Laboratories .....	56

Appendix B: Laboratory Experiments in Moist Soils .....	65
Appendix C: Explanation of the Reversal of Potentials While Freezing .....	67
References .....	67
<b>Chapter 11 Freeze–Thaw Studies at Carleton University, Department of Geography and Environmental Sciences .....</b>	<b>69</b>
References .....	75
<b>Chapter 12 Field Studies .....</b>	<b>77</b>
12.1 Illisarvik Site .....	77
12.2 Inuvik Site .....	80
References .....	85
<b>Chapter 13 Results and Discussions of Field Studies .....</b>	<b>87</b>
13.1 Illisarvik Site .....	87
13.2 Inuvik Site .....	87
References .....	90
<b>Chapter 14 Field Studies of EFP in Freezing Lakes in Inuvik .....</b>	<b>91</b>
References .....	95
<b>Chapter 15 Results from Lake Studies in Inuvik: Upland and Delta Lakes .....</b>	<b>97</b>
Reference .....	99
<b>Chapter 16 Concluding Remarks .....</b>	<b>101</b>
How It Works .....	102
Scientific Use .....	102
Justification for Continuing Investigations on Electrical Potentials and Other Electro-Kinetic Phenomena Occurring during Freezing of Soils and Solutions .....	103
Reference .....	103
<b>Appendix A: Background: Basic Information of Potential Measurements .....</b>	<b>105</b>
Ground .....	105
Coulomb’s Law .....	105
Electric Flux and Gauss’s Law .....	107
Charge Transport and Electric Current .....	107
Reference .....	107
<b>Appendix B: Calculations of Charge Concentration at a Metal/ Dielectric Interface and Force of Adhesion .....</b>	<b>109</b>
References .....	113
<b>Appendix C: Geophysical Methods Used in Permafrost Investigations .....</b>	<b>115</b>
Electrical Methods .....	115
C.1 Electrical Resistivity .....	117

C.2 Galvanic Resistivity Data.....	120
C.3 Surface Geophysical Methods .....	120
C.4 Time-Domain Reflectometry in Permafrost .....	121
C.4A Principles of Time-Domain Reflectometry Measurements.....	122
C.4B Ground-Penetrating Radar .....	124
References .....	124
<b>Bibliography .....</b>	<b>129</b>
<b>Index.....</b>	<b>139</b>
