PROCEEDINGS OF SPIE

Third International Conference on Advanced Manufacturing Technology and Electronic Information (AMTEI 2023)

Shamik Tiwari
Jingsong Li
Editors

22–24 December 2023
Tianjin, China

Organized by
Dalian University of Technology (*China*)

Sponsored by
Shanghai Jiao Tong University (China)
Xihua University (China)
AEIC Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13081

Proceedings of SPIE 0277-786X, V. 13081

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Third International Conference on Advanced Manufacturing Technology and Electronic Information (AMTEI 2023)*, edited by Shamik Tiwari, Jingsong Li, Proc. of SPIE 13081, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

SESSION 1 MECHANICAL STRUCTURE DESIGN AND MANUFACTURING TECHNOLOGY

13081 02 **Fault-tolerant controller design of electric multiple unit system for braking based on controlled Lagrangian method** [13081-4]

13081 03 **Investigating the impact of laser surface texture on the modal characteristics of gears using 3D finite element analysis** [13081-24]

13081 04 **Research on vibration mode matching and optimization design of tracked vehicles under multi-source excitation** [13081-49]

13081 05 **Structural design and optimization of transmission for the heat dissipation system of oil fracturing truck** [13081-6]

13081 06 **Analysis of improving the straightness of slender and thin-walled slot waveguides by pre-stressed reverse deformation** [13081-48]

13081 07 **Study of the effect of composite texture surfaces on brake friction squeal behavior** [13081-3]

13081 08 **The influence of adhesive bonding process parameters on the stability of mechanical structures and parameter optimization** [13081-35]

13081 09 **Structural design and dynamic characterization of automatic folding spraybar** [13081-29]

13081 0A **Design of seedling picking mechanism for automatic transplanting machine for nodular vegetables** [13081-32]

13081 0B **A wide beam tri-polarized antenna design** [13081-2]

13081 0C **Fabricating microlens arrays using moving mask projection lithography** [13081-18]

13081 0D **An efficient inverse lithography technology method based on detail-enhanced Pix2Pix network** [13081-52]

13081 0E **Optimization design of air filter housing structure based on computational fluid dynamics** [13081-21]

13081 0F **Simulation of a rubber isolator with three-dimensional vibration reduction characteristics** [13081-44]

13081 0G **Research and calculation on the selection of 5 kinds of desulfurization and denitrification triple box agitator** [13081-51]

SESSION 2 MECHANICAL PERFORMANCE ANALYSIS AND FAULT MONITORING

13081 0H **Short-life turbine blade rack extension analysis and life prediction** [13081-13]

13081 0I **Study on the deformation measurement method of crane main beam based on photoelectric detection** [13081-31]

13081 0J **Dynamic characteristics analysis of wind turbine gear system considering bearing defects** [13081-33]

13081 0K **Research on weld formation of SUS 304 stainless steel by laser oscillating scanning welding** [13081-27]

13081 0L **Research on path planning method of curtain wall installation robot based on improved A* algorithm** [13081-22]

13081 0M **Incremental perceptual vibration hashing autoencoder for machine condition monitoring** [13081-42]

13081 0N **A 0.9V 11.74-13.68GHz class-$F_{2,3}$ CMOS VCO with typical phase noise of -123.66dBc/Hz@1MHz** [13081-39]

13081 0O **Numerical simulation study of erosion failure and corrosion behavior of elbow** [13081-15]

13081 0P **Airport runway foreign object detection adapted to low-light environments** [13081-8]

13081 0Q **Segmentation method of drivable areas of mine roads based on rut texture features** [13081-16]

13081 0R **A review on dynamics of gear systems with gravity effects** [13081-17]

13081 0S **Weld defect detection model based on machine vision** [13081-34]

13081 0T **A gear fault feature extraction method based on adaptive AR model and MOMEDA** [13081-19]

13081 0U **Investigation of ultra-high-frequency induction-assisted laser wire deposition** [13081-43]

13081 0V **Correlation analysis between wind-induced vibration disasters and influencing factors of transmission lines based on machine learning technology** [13081-45]

13081 0W **Analysis of factors affecting the polarisation characteristics of short-wave antennas** [13081-37]

SESSION 3 ELECTRONIC INFORMATION AND AUTOMATION TECHNOLOGY

13081 0X **Low-code penetration testing payload generation tool based on msfvenom** [13081-23]

13081 0Y **Edge-cloud collaborative transfer learning based on stacked sparse autoencoder with data regularization** [13081-10]

13081 0Z **A stiffness modeling method for redundant degree-of-freedom manipulator considering gravity** [13081-25]

13081 10 **Research on radar target radial length extraction algorithm based on U-Net** [13081-50]

13081 11 **Kinematics simulation and analysis of upper limb exoskeleton mechanism** [13081-57]

13081 12 **Anomaly detection method for space payload parameters under telemetry command changes** [13081-20]

13081 13 **Low-light image enhancement based on LAB color space** [13081-46]

13081 14 **Improved WOA algorithm and path planning for UAV** [13081-30]

13081 15 **Secondary cable core verification device based on frequency conversion resonance** [13081-41]

13081 16 **Low-light road image enhancement based on optimized MSR** [13081-7]

13081 17 **Research of micro-holes electrical discharge and electrochemical hybrid machining technology** [13081-40]

13081 18 **Application of electrical discharge machining technology in Ti6Al4V** [13081-38]

13081 19 **Research on the construction of human resources job competency model based on text mining** [13081-47]

13081 1A **An emergency pedestrian collision avoidance system based on V2V communication** [13081-9]

13081 1B **Research on the technical requirements for operation and maintenance of main electrical equipment in the quay base power supply system** [13081-11]

13081 1C **Extrinsic auto-calibration of LiDAR-camera system based on deep learning** [13081-14]
