**Volume 13088**

Proceedings of SPIE 0277-786X, V. 13088

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *MIPPR 2023: Remote Sensing Image Processing, Geographic Information Systems, and Other Applications*, edited by Jianguo Liu, Zhong Chen, Changxin Gao, Yang Xiao, Sheng Zhong, Hanyu Hong, Xiaofeng Yue, Proc. of SPIE 13088, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

## REMOTE SENSING IMAGE PROCESSING AND GEOGRAPHIC INFORMATION SYSTEMS

---

- 13088 02 **A method for cloud removal in remote sensing images based on attention mechanism and residual symmetric connection structure** [13088-1]
- 13088 03 **Research on deep learning-based land cover extraction method using multi-source mixed samples** [13088-19]
- 13088 04 **A lossless compression of remote sensing images based on ANS entropy coding algorithm** [13088-21]
- 13088 05 **Research on the impact of change features for remote sensing image change detection** [13088-5]
- 13088 06 **Supervised spiking neural network for SAR image recognition: analysis of encoding methods and performance under strong noise influence** [13088-24]
- 13088 07 **An edge-guided network for building footprint extraction from optical remote sensing images** [13088-13]
- 13088 08 **Planting areas extraction of sugarcane using multi-feature fusion method based on Sentinel-2A satellite images** [13088-25]
- 13088 09 **Remote sensing image cloud detection algorithm based on residual network module and pyramid structure of dilated convolution** [13088-15]
- 13088 0A **Adaptive stripe noise removal model based on spatial characteristics** [13088-16]
- 13088 0B **An iterative attention context fusion network for semantic segmentation of remote sensing image** [13088-26]
- 13088 0C **Analysis and modeling simulation of hyperspectral target characteristics in remote sensing earth observation** [13088-27]
- 13088 0D **Typical scene material classification based on remote sensing image data** [13088-28]

---

## OTHER APPLICATIONS

---

- 13088 0F **Image enhancement model for ultrasonic nondestructive testing based on deep learning super-resolution** [13088-2]

- 13088 OG **Robust diffractive neural networks for resilient all-optical intelligent imaging detection** [13088-3]
- 13088 OH **A robust algorithm for reading recognition of pointer instrument with local matching** [13088-6]
- 13088 OJ **Design and implementation of foreign language teaching system based on cloud platform** [13088-8]
- 13088 OK **Analysis of factors influencing cultural communication on social media and prediction of dissemination effectiveness** [13088-9]
- 13088 OL **An improved watershed foreign object detection of road surface based on adaptive Gaussian threshold** [13088-10]
- 13088 OM **An improved bilateral filtering based on curvature feature for point cloud denoising in road surface detection** [13088-11]
- 13088 ON **Dense center prediction for centerline extraction based on BP network** [13088-12]
- 13088 OO **Accurate laser line extraction algorithm based on morphological features under strong interference** [13088-14]
- 13088 OP **Performance study of two energy beam tracking methods in numerical calculation of radiative heat transfer by Monte Carlo method** [13088-17]
- 13088 OQ **Effects of radiation characteristics on the calculation accuracy of Monte Carlo method in three-dimensional cylindrical radiation heat transfer problem** [13088-18]
- 13088 OR **Railroad switch machine condition monitoring technology based on image recognition** [13088-20]
- 13088 OS **End-to-end speaker recognition system design** [13088-22]
