2023 4th International Conference on Computer, Big Data and Artificial Intelligence (ICCBD+AI) **ICCBD-AI 2023**

Table of Contents

Welcome Message	xix
Conference Committee	xx
Reviewers	xxii

ICCBD+AI 2023

2-D General Network Based on Channel-Space Attention for Medical Image Segmentation	1
<i>Xiaoping Zhou (Anhui University, China), Dayu Tan (Anhui University, China), Yansen Su (Anhui University, China), and Chunhou Zheng (Anhui University, China)</i>	
A Causal Inference Method Based on Front-Door Criterion and Difference in Differences for Analyzing Traffic Conditions	6
<i>Yixuan Ding (Southern University of Science and Technology, China), Qianqian Wang (Southern University of Science and Technology, China), Zimo Qi (Southern University of Science and Technology, China), Liuxin Zhu (Southern University of Science and Technology, China), Youxin Zhu (Southern University of Science and Technology, China), Lizhuo Luo (Southern University of Science and Technology, China), and Lili Yang (Southern University of Science and Technology, China)</i>	
A Comparison of Gastrointestinal Image Segmentation by U-Net Based on Ensemble of U-Net Models and Single Model	13
<i>Chenxu Wang (China University of Geosciences, China)</i>	
A Dense Crowd Tracking Method Using Density Map and Optical Flow	20
<i>Dianxi Su (China Energy Longyuan Environmental Protection Co., Ltd., China), Tao Wang (China Energy Longyuan Environmental Protection Co., Ltd., China), Ruoxuan Yu (China Energy Longyuan Environmental Protection Co., Ltd., China), and Jiaxin Li (China Energy Longyuan Environmental Protection Co., Ltd., China)</i>	
A Differential Constrained Optimization Algorithm Based on Component Model	25
<i>Yuan Chen (Wuhan Institute of Technology, China) and Xin Nie (Wuhan Institute of Technology, China)</i>	
A High-Precision Food Image Classification Method with a Small Number of Parameters	33
<i>Xi Li (Jiangsu University of Science and Technology, China), Yuanjiang Li (Jiangsu University of Science and Technology, China), Xiang Zou (Jiangsu University of Science and Technology, China), and Tianwei Ren (Jiangsu University of Science and Technology, China)</i>	

A Hybrid Optimization Approach for Human Activity Using Smartphone Sensors	37
<i>Fieni Kouassi Fieni (Chongqing University of Posts and Telecommunications, China) and Fengjun Shang (Chongqing University of Posts and Telecommunications, China)</i>	
A Method for Extracting Information from Long Documents that Combines Large Language Models with Natural Language Understanding Techniques	43
<i>Linjie Chen (China Mobile Information Technology Company Limited, China), Min Sun (China Mobile Information Technology Company Limited, China), Jiarong Liu (China Mobile Information Technology Company Limited, China), Pengyong Ding (China Mobile Information Technology Company Limited, China), Yuliang Ma (China Mobile Information Technology Company Limited, China), Li Li (China Mobile Information Technology Company Limited, China), Lili Qian (China Mobile Information Technology Company Limited, China), and Yang Yang (China Mobile Information Technology Company Limited, China)</i>	
A Multi-Party Logistic Regression using the Adam Method	48
<i>Zongze Li (Science and Technology on Communication Security Laboratory, China), Chaoxi Zhu (Science and Technology on Communication Security Laboratory, China), Wei Zhao (Science and Technology on Communication Security Laboratory, China), and Xiaopeng Yu (Science and Technology on Communication Security Laboratory, China)</i>	
A Non-Euclidean Causal Discovery Algorithm in Metric Spaces	53
<i>Fan Kuai (Hefei University of Technology, China) and Jing Yang (Hefei University of Technology, China)</i>	
A Novel CNN Plus Transformer Network for EEG-Based Automatic Sleep Staging	58
<i>Jingfan Zhang (Jinan University-University of Birmingham Joint Institute, China), Yuyang Xue (South China Normal University, China), and Yifei Li (Jinan University-University of Birmingham Joint Institute, China)</i>	
A Novel Data Statistical Analysis Method Based on Hyper-Erlang Distribution	66
<i>Dan Yang (National University of Defense Technology, China) and Mengjun Li (National University of Defense Technology, China)</i>	
A Pyramid Network Using Scale Agnostic Attention for Single Image Reflection Removal	72
<i>Xu Kuang (Fuzhou University, China), Yuanbo Zhou (Fuzhou University, China), Xinxin Hu (Fuzhou University, China), Jiajun Zhang (Fuzhou University, China), Ruipeng Gang (Academy of Broadcasting Science, National Radio of Television Administration, China), Chenming Liu (Academy of Broadcasting Science, National Radio of Television Administration, China), Qinquan Gao (Fuzhou University, China), and Tong Tong (Fuzhou University, China)</i>	
A Real-time Method for Detecting Canada Goldenrod Based on an Improved YOLOv5 Network ...	78
<i>Lei Zhang (Changzhou University, China), Ziyang He (Changzhou University, China), Shiming Yin (Changzhou University, China), Peng Zhang (Suzhou Chien-shiung Institute of Technology, China), Jingmei Jin (Suzhou Chien-shiung Institute of Technology, China), and Jun Liu (Suzhou Chien-shiung Institute of Technology, China)</i>	
A Smart Contract Vulnerability Detection Method Based on Program Dependency Graph	84
<i>Yuyan Sun (UESTC, China), Shiping Huang (UESTC, China), Guozheng Li (Guizhou Radio and Television Information Network Co., Ltd., China), Ruidong Chen (UESTC, China), Yangyang Liu (UESTC, China), and Qiwen Jiang (UESTC, China)</i>	

A Sparse Feature Clustering-Based Stain Normalization Method for Pathological Images	90
<i>Bian Qian (Mapua University, Philippines; Xi'an Siyuan University, China) and Elcid A. Serrano (Mapua University, Philippines)</i>	
A Survey About the Decision-Making of Self-Driving Based on Deep Reinforcement Learning ..	94
<i>Jin Zhang (Beijing Union University, China), Nan Ma (Beijing University of Technology, China), Yongqiang Yao (Beijing Shuncheng High Technology Corporation, China), Cheng Wang (Beijing Union University, China), and Zhixuan Wu (Beijing University of Posts and Telecommunications, China)</i>	
Adaptive Latent Distribution Margin GAN for Imbalanced Data Classification	100
<i>Bing Hu (Shanghai Maritime University, China), Jin Liu (Shanghai Maritime University, China), Zhengjie Xi (Shanghai Maritime University, China), and Xingye Li (Shanghai Maritime University, China)</i>	
Adaptive Recognition of Modulated Signals Based on Complex Convolutional Neural Networks ..	105
<i>Lei Huang (College of Information Engineering Shanghai Maritime University, China)</i>	
Advancing Predictive Models: Unveiling LightGBM Machine Learning for Data Analysis	109
<i>ZiHan Cai (Hunan University of Finance and Economics, China), HuaJun Huang (Hunan University of Finance and Economics, China), Guang Sun (Hunan University of Finance and Economics, China), ZiQiang Li (Hunan University of Finance and Economics, China), and ChengJu. OuYang (Hunan University of Finance and Economics, China)</i>	
An Attention-Based CNN Algorithm to Predict Hard-To-Predict Branches	113
<i>Juan Fang (Beijing University of Technology, China), Jingming Guo (Beijing University of Technology, China), Yubin He (Beijing University of Technology, China), Min Cai (Beijing University of Technology, China), and Xiaobin Xu (Beijing University of Technology, China)</i>	
3D ConvNet+: A Lightweight Adaptive Network for 3D Medical Image Segmentation	118
<i>Dayu Tan (Anhui University, China), Manman Shi (Anhui University, China), Yansen Su (Anhui University, China), and Chunhou Zheng (Anhui University, China)</i>	
An Influence Spread Blocking Maximization Method Based on Node Mixed Blocking Gain	123
<i>Xiaohang Wang (Naval University of Engineering, China), Yongjie Li (Naval University of Engineering, China), Lei Yu (Naval University of Engineering, China), Xuqi Yang (Unit 31628 of PLA, China), Qianqian Li (Unit 92020 of PLA, China), and Xiao Fan (Unit 95174 of PLA, China)</i>	
Analysis of Hot Spots and Trends in Firefighting Research Based on the Statistical Method of CiteSpace	130
<i>Bingjian Song (China Fire Rescue College, China) and Xiaojun Xu (China Fire Rescue College, China)</i>	
Application of an Improved YOLOv7 Model in Disease and Pest Detection for Lychee Trees ...	138
<i>Cuihua Ma (Hainan Normal University, China), Zhenwan Li (Hainan Normal University, China), and Haixia Long (Hainan Normal University, China)</i>	

Application of Comprehensive Water Quality Labeling Index Method in Water Quality Evaluation of Xiangjiang River	147
<i>Hao Li (Hunan Normal University, China), Chen Xue (Hunan Normal University, China), Lingyu Song (Hunan Normal University, China), Ziwen Yu (Hunan Normal University, China), Jianjun Zhang (Hunan Normal University, China), and Ke Xiao (Hunan Institute of Metrology and Test, China)</i>	
Application of Deep Learning Neural Networks in Sports Shoe Brand Classification Task	152
<i>Biao Li (Hunan University of Finance and Economics, China), Guang Sun (Hunan University of Finance and Economics, China), Haoyu Sheng (Central South University, China), and Junjun Liu (Hunan University of Finance and Economics, China)</i>	
Application of Fuzzy Comprehensive Evaluation Method Based on AHP in the Selection of Medical Air Compressor Types	159
<i>Wang Gu (Central South University, China), Sang Wang (Hunan Genewell Medical Technology Co., Ltd, China), and Dongmei Huang (Central South University, China)</i>	
Audio Scene Recognition Algorithms - Based on Topic Models and Graph Attention Networks	165
<i>Siyuan Guo (Shanghai Institute Of Technology, China), Xianfeng Li (Changxing Branch, Xinhua Hospital, Shanghai Jiao Tong University School of Medicine, China), and Zongwei Li (Shanghai Institute Of Technology, China)</i>	
Automatic Extraction and Representation of Procedural Knowledge from Manuals	170
<i>Zengkun Liu (University of Auckland, New Zealand), Xinfeng Ye (University of Auckland, New Zealand), Jinsong Bao (Donghua University, China), and Yuqian Lu (University of Auckland, New Zealand)</i>	
Automatic Knowledge Structuration of Automotive User Manual for Question Answering	184
<i>Yunfei Fang (Zhejiang University, China), Yong Chen (Geely Automobile Research Institute, China), Zhonglin Jiang (Geely Automobile Research Institute, China), Jun Xiao (Zhejiang University, China), and Yanli Ge (Jiangxi Biotech Vocational College, China)</i>	
Automatic Registration of Mobile LiDAR Data and Multi-lens Combined Images using Image Initial Poses	191
<i>Xiaofeng Jin (NIMTE, Chinese Academy of Sciences, China), Jianfei Ge (NIMTE, Chinese Academy of Sciences, China), Jiangjian Xiao (NIMTE, Chinese Academy of Sciences, China), Gen Xu (NIMTE, Chinese Academy of Sciences, China), and Xiaolu Zhang (NIMTE, Chinese Academy of Sciences, China)</i>	
BeOAC: Blockchain-Enabled Offline Audit Scheme in Cross-Chain Interaction	200
<i>Xina Hong (Nanjing University of Aeronautics and Astronautics, China), Yuqian Zhou (Nanjing University of Aeronautics and Astronautics, China), Dan Li (Nanjing University of Aeronautics and Astronautics, China), and Weiwei Wei (Nanjing University of Aeronautics and Astronautics, China)</i>	
Big Data Analysis of Female Dysmenorrhea Based on Multiple Machine Learning Methods	208
<i>Xu Zhang (Shandong University of Science and Technology, China), Lifeng Deng (Shandong University of Science and Technology, China), Wenxiao Song (China United Network Communications Co., Ltd., China), and Yahui Xiao (Shandong University of Science and Technology, China)</i>	

Big Data Visualization Analysis of Rice Seedling Quantity Based on UAV	214
<i>WenJing Zhu (Jiangsu University, China), ShiYuan Dai (Jiangsu University, China), ZhanKang Feng (Jiangsu University, China), KaiWen Duan (Jiangsu University, China), ChangFeng Shao (Jiangsu University, China), and XinHua Wei (Jiangsu University, China)</i>	
A Planning Method for Resuming Collaborative Coverage Tasks when Multiple Robot Nodes Loss.....	221
<i>Jintao Guo (China Energy Longyuan Environmental Protection Co., Ltd., China), Dianxi Su (China Energy Longyuan Environmental Protection Co., Ltd., China), Fei Wang (China Energy Longyuan Environmental Protection Co., Ltd., China), and Ruixiang Zhu (China Energy Longyuan Environmental Protection Co., Ltd., China)</i>	
BigChain: Consolidating Blockchain Client for Scalable Analysis	227
<i>Zhaoxian Wang (University of Electronic Science and Technology of China, China), Kuanlu Fan (University of Electronic Science and Technology of China, China), Lingwei Chao (University of Electronic Science and Technology of China, China), and Ruini Xue (University of Electronic Science and Technology of China, China)</i>	
Blockchain-Based Federated Learning via Model Training	232
<i>Rui Wang (Qiyuan lab, China) and Jiong Wang (Robotics Engineering Center, The 21st Research Institute of China Electronics Technology Group Corporation, China)</i>	
Clustering Analysis of Water Usage Structures Based on Knowledge Graph	241
<i>Jianzhuo Yan (Beijing University of Technology, China), Han Jiao (Beijing University of Technology, China), Hang Zhang (Beijing Institute of Water Science and Technology, China), Yongchuan Yu (Beijing University of Technology, China), Jianhui Chen (Beijing University of Technology, China), and Shiwei Zhou (Beijing University of Technology, China)</i>	
Compressed Representation for 3D Human Pose Estimation using WiFi Signal	251
<i>Qijia Zheng (University of Science and Technology of China, China), Bin Liu (University of Science and Technology of China, China), and Jinyang Huang (Hefei University of Technology, China)</i>	
Context-Aware DL-Based Approach Combining GNN and Attention for CSI-Based Indoor Localization	256
<i>Daobo Sun (Harbin Engineering University, China), Haohao Yu (Harbin Engineering University, China), Tao Dong (Harbin Engineering University, China), Xiangxu Meng (Harbin Engineering University, China), and Bin Tang (Harbin Engineering University, China)</i>	
Cross-Modality Pedestrian Re-Identification via Modality Data Homogenization and Cross-Layer Feature Aggregation	261
<i>Zhengjie Xi (Shanghai Maritime University, China), Jin Liu (Shanghai Maritime University, China), Bing Hu (Shanghai Maritime University, China), and Xingye Li (Shanghai Maritime University, China)</i>	
Cross-Person Human Activity Recognition Method Based on the HARG Model	266
<i>Xinyang Zhang (Xi'an University of Science and Technology (XUST), China), Peng Xin (XUST, China), Jing Zhang (XUST, China), Miao Liu (Xi'an University of Science and Technology (XUST), China), Hengyi Yue (XUST, China), and Minghui Hou (XUST, China)</i>	

Decrypting the Chao-Based Image Encryption via a Deep Autoencoding Approach	271
<i>Yongwei Wang (SIAS, Zhejiang University, China), Kan Ming (Northwest University, China), Chen He (Northwest University, China), and Z. Jane Wang (University of British Columbia, China)</i>	
Deep-Reinforcement-Learning-Based Proportional Computation Offloading With User Equipment in Smart Home Edge Computing	276
<i>Haohang Xie (Beijing University of Posts and Telecommunications, China), Yunlong Tian (Qingdao Haier Technology Co., Ltd; National Engineering Research Center for Digital Home Network, China), Li Niu (Qingdao Haier Intelligent Home Appliance Technology Co., Ltd, China), Miao Wang (Haier Youjia Intelligent Technology (Beijing) Co., Ltd, China), and Yonghua Li (Beijing University of Posts and Telecommunications, China)</i>	
Design and Development of Intelligent Inventory System for Small and Micro Enterprise Warehousing	281
<i>Jinguang Wang (Tongji University, China), Pengzhong Li (Tongji University, China), Liang Luo (Tongji University, China), and Hongbin Sun (Tongji University, China)</i>	
Design and Implementation of Perceptron-Based Branch Predictor	286
<i>Juan Fang (Beijing University of Technology, China), Yubin He (Beijing University of Technology, China), Jingming Guo (Beijing University of Technology, China), Min Cai (Beijing University of Technology, China), and Yumin Hou (Beijing University of Technology, China)</i>	
Design and Implementation of Tianjin Earthquake Warning Network System Based on Cloud Computing	291
<i>Luqiang Sun (Tianjin Earthquake Agency, China), Lei Liu (Tianjin Electronic Information College, China), Keqiang Wang (Tianjin Earthquake Agency, China), and Hong Zhu (Tianjin Earthquake Agency, China)</i>	
Design of a Full Process License Plate Detection System Based on Deep Learning and Cloud Platform System	296
<i>Fei Ren (Nanjing Intelligent Transportation Information Co., Ltd; Mapua University, Philippines), Tao Zhang (Nanjing Intelligent Transportation Information Co., Ltd, China), ChunMei Zhang (Nanjing Intelligent Transportation Information Co., Ltd, China), MengHan Yao (Nanjing Intelligent Transportation Information Co., Ltd, China), Jian Wang (Nanjing Intelligent Transportation Information Co., Ltd, China), and Bonifacio T Doma (bt doma@mapua.edu.ph)</i>	
Design of Intelligent Robot for Drug Delivery	300
<i>Haojiang Li (Hunan Normal University, China), Hao Li (Hunan Normal University, China), Chen Xue (Hunan Normal University, China), and Jianjun Zhang (Hunan Normal University, China)</i>	
Distributed Cooperative Jamming Task Allocation Algorithm Based on Improved Multi-Pheromone Ant Colony Algorithm	305
<i>Xiao Yan (National University of Defence technology, China), Qingping Wang (National University of Defence technology, China), Yanqi Wang (National University of Defence technology, China), and Chao Wang (National University of Defence technology, China)</i>	

Enhanced Assessment of Auditory Perception Function in Disorders of Consciousness using a Minimalist Wearable Brain-Computer Interface	313
<i>Chenxin Xue (South China University of Technology, China), Jun Xiao (South China University of Technology, China), Huang Wu (South China University of Technology, China), Li Hu (South China University of Technology, China), Jiahui Pan (South China Normal University; Pazhou Laboratory, China), and Yuanqing Li (South China University of Technology; Pazhou Laboratory, China)</i>	
Enhancing Emotional Support Capabilities of Large Language Models through Cascaded Neural Networks	318
<i>Kai Chen (Tsinghua University, China), Xianchang Kang (Tsinghua University, China), Xingyu Lai (Tsinghua University, China), and Zijun Ni (Tsinghua University, China)</i>	
Enhancing Erythematous-Squamous Disease Diagnosis: A Hybrid Approach with SVM SMOTE and Feature-Selection-Based Random Forest Model	327
<i>Xiangdong Huang (Hunan University of Finance and Economics, China), Haoyu Sheng (Central South University, China), Guang Sun (Hunan University of Finance and Economics, China), and Hangjun Zhou (Hunan University of Finance and Economics, China)</i>	
Enhancing Image Classification with Bayesian Neural Networks: Improved Training Techniques and Decision Strategies for Reliable AI Support in Uncertainty-Sensitive Tasks	332
<i>Yan. Cheng. Liu (Hunan University of Finance and Economics, China), Hua. Jun. Huang (Hunan University of Finance and Economics, China), and Yi. Wen. Wang (Hunan University of Finance and Economics, China)</i>	
Enhancing Multiple Linear Regression for Price Prediction: A PCA-Integrated Approach	337
<i>ZiQiang Li (Hunan University of Finance and Economics, China), Lin Lang (Hunan University of Finance and Economics, China), Guang Sun (Hunan University of Finance and Economics, China), ZiHan Cai (Hunan University of Finance and Economics, China), and ZeNan. Luo (Hunan University of Finance and Economics, China)</i>	
Enhancing Passive Target Localization Technology in UAV Low Frame-rate Image Sequences with a Joint Registration and Tracking Module	342
<i>Haojun Jian (National University of Defense Technology, China), Gongjian Wen (National University of Defense Technology, China), Xuxiang Fan (National University of Defense Technology, China), Junlong Chen (National University of Defense Technology, China), Dongdong Li (National University of Defense Technology, China), and Yangliu Kuai (National University of Defense Technology, China)</i>	
Enhancing Social Recommendation with Global Dependency Modeling Base on Self-Attention Graph Neural Network	350
<i>Yiqi Liu (Bohai University, China), Xing Xing (Bohai University, China), Zhichun Jia (Bohai University, China), and Yunxi Li (Bohai University, China)</i>	
Exploration of Text Classification Algorithms Based on Word Vector Techniques	355
<i>Duanwu Yan (Nanjing University of Science and Technology, China), Bangguo Tong (Nanjing University of Science and Technology, China), and Yuhan Wang (Nanjing University of Science and Technology, China)</i>	
Extracting Behavior Events from Epidemic Daily Reports by Combining Deep Learning and Adversarial Training	360
<i>Shaofu Lin (Beijing University Of Technology, China), Shiwei Zhou (Beijing University Of Technology, China), Zhe Xu (Beijing University Of Technology, China), and Jianhui Chen (Beijing University Of Technology; Ministry of Education, China)</i>	

Feature Memory and Deep Cross Network for Parameter Prediction of Offshore Drilling	368
<i>Ruidong Zhao (Beijing University of Posts and Telecommunications, China), Ranhong Bie (Beijing University of Posts and Telecommunications, China), Kai Lang (Beijing University of Posts and Telecommunications, China), Zhiming Yin (CNOOC Research Institute Co., Ltd, China), Zhong Li (CNOOC Research Institute Co., Ltd, China), Deqiang Tian (CNOOC Research Institute Co., Ltd, China), and Yonghua Li (Beijing University of Posts and Telecommunications, China)</i>	
Flink Stream Big Data Parallel Operator Design and Topsis Performance Evaluation	373
<i>Hang Zhang (Changchun University of Science and Technology, China)</i>	
Fluid Inclusion Detection Based on Improved YOLOX	378
<i>Hui Li (China University of Mining and Technology, China), Junjia Fan (Research Institute of Petroleum Exploration and Development, PetroChina, China), Xiaojie Xu (University of Science and Technology of China, China), Lijun Wang (Inner Mongolia Yitai Coal Co., Ltd., China), and Meng Lei (China University of Mining and Technology, China)</i>	
Foot Pressure Analysis Based on Flexible Thin Film Sensors	384
<i>Menghan Zhang (Beijing University of Technology, China), Jingyan Zhang (Beijing University of Technology, China), Jiayin Li (Beijing University of Technology, China), Xiaozhou Wang (Beijing University of Technology, China), Yifan Li (Beijing University of Technology, China), and Wenli Zhang (Beijing University of Technology, China)</i>	
FraudNet: A Network-Centric Method for Balancing and Detecting Anomalies in Healthcare Insurance	389
<i>JiaLi Hai (Hubei University of Chinese Medicine, China), Kai Chang (Hubei University of Chinese Medicine, China), Liangzhi Yuan (Hubei University of Chinese Medicine, China), and Run Wang (Hubei University of Chinese Medicine, China)</i>	
FSCPUnet: A Blind Denoising U-Shaped Network Based on Swin Transformer and Convolution ...	395
<i>Maosen Ding (Xidian University, China) and Ying Chen (Beijing Electronic Science Technology Institute, China)</i>	
Gated Graph Attention Recommendation Based on Long- Term and Short-term Preference	401
<i>YeChuan Lin (Liaodong University, China), XiangLan Jin (Liaodong University, China), and Xiaojian Liu (Liaodong University, China)</i>	
Graph Structure Based Vehicle Trajectory Prediction	406
<i>Ningjun Dang (POWERCHINA Northwest Engineering Corporation Limited, China), Yifang Gao (POWERCHINA Northwest Engineering Corporation Limited, China), and Xinwei Zhou (POWERCHINA Northwest Engineering Corporation Limited, China)</i>	
GRU Prediction Method For Digital Cryptocurrency Prices	412
<i>Mengxian Yao (Hunan University of Finance and Economics, China), Guang Sun (Hunan University of Finance and Economics, China), and Jiale Liu (China Highway Engineering Consulting Corporation, China)</i>	

HACE-Rec: Heterogeneous Graph Attention-Based User-Content Interaction Feature Extraction and Personalized Recommendation	417
<i>Changbao Li (North China Institute of Computing Technology, China), Pingli Gu (North China Institute of Computing Technology, China), Shulong Wang (North China Institute of Computing Technology, China), Yuan Yuan (North China Institute of Computing Technology, China), He Jia (North China Institute of Computing Technology, China), and Bo Cheng (Beijing University of Posts and Telecommunications, China)</i>	
Improving BMRC Based on Joint Classifier for Aspect Sentiment Triplet Extraction	424
<i>Biqing Zeng (South China Normal University, China), Yiyun Song (South China Normal University, China), and Siying Zhou (South China Normal University, China)</i>	
Incorporating Large Language Models into Named Entity Recognition: Opportunities and Challenges	429
<i>Zhizhao Luo (Beijing Institute of Computer Technology and Application, China), Yuting Yang (Beijing Institute of Computer Technology and Application, China), Rui Qi (China Life Property & Casualty Insurance Company Limited, China), Zhi Fang (Beijing Institute of Computer Technology and Application, China), Yikai Guo (Beijing Institute of Computer Technology and Application, China), and Youchen Wang (Beijing Institute of Computer Technology and Application, China)</i>	
Initialization with Description Information and Incorporating Structure Learning for Efficient Dynamic Knowledge Graph Embedding	434
<i>Yao Liu (Beihang University, China), Ye Liu (Beihang University, China), and Xin Wang (Tsinghua University, China)</i>	
K-Nearest Neighbors Ratio Sum Discriminant Analysis Algorithm	439
<i>Heqing Lu (GuangDong University of Technology, China)</i>	
Logistics Demand Forecasting Based on BP Neural Network Model Optimized by Genetic Algorithm	445
<i>Qiannan Luo (Shanghai Institute of Technology, China)</i>	
Measuring the Influencing Factors for Enterprises Adoption of Big Data: Prioritizing by Decision Making Process by using Dematel-ANP Technique	451
<i>Ximei Liu (Zhejiang Sci-Tech University, China), Zahid Latif (Beijing University of Posts and Telecommunications, China), Daoqi Xiong (Hangzhou Lv'an Digital Technology Co., Ltd, China), and Yang Lu (Zhejiang Sci-Tech University, China)</i>	
ME-Net: A Multiscale and Edge-Aware Network for Retinal Vessel Segmentation	456
<i>Dingsheng Chen (Hubei University of Technology, China), Cong Wu (Hubei University of Technology, China), and Hang Zhang (Hubei University of Technology, China)</i>	
Method and Application for Estimating the Density of Broiler Flocks Based on Deep Learning.	461
<i>XiaoLin Zhang (Shandong University of Science and Technology, China), Xin Peng (East China University of Science and Technology, China), Kaixun He (Shandong University of Science and Technology, China), and Ningfan Zhong (Shandong University of Science and Technology, China)</i>	
Mining Top k Best Libraries in Metaverse with Random Access and Sequential Access	466
<i>Yubing Wu (Jinan University, China), Yifeng Lin (Jinan University, China), Yuer Yang (The University of Hong Kong, China), Tong Ji (Jinan University, China), Wei Xu (Guangzhou Huanan Business College, China), and Lu Cui (Guangzhou University of Chinese Medicine, China)</i>	

Moment Distribution of Hyper-Erlang Distribution and its Approximation Application	473
<i>Dan Yang (National University of Defense Technology, China) and Mengjun Li (National University of Defense Technology, China)</i>	
Motion Planning of Targeted Tea Leaves Harvesting by Manipulator Based on State Parsing ...	479
<i>Haodong Luo (Guizhou University, China), Mo Wang (Guizhou University, China), Changxing Wu (Guizhou University, China), Yue Li (Guizhou University, China), Jianxing Li (Guizhou University, China), and Linjie Lei (Guizhou University, China)</i>	
MTCNet: A Multi-Scaled Temporal Convolution Network for Sleep Apnea Detection from Single-lead ECG Signal	485
<i>Qifeng Han (Heilongjiang University, China), Xingfeng Lv (Heilongjiang University, China), Lichang Song (Heilongjiang University, China), Hui Xu (Heilongjiang University, China), and Yang Zhang (Heilongjiang University of Chinese Medicine, China)</i>	
Multi-Directional Total Variation Hyperspectral Image Dstriping Based on Tensor Decomposition and Group Sparsity	490
<i>Lizhen Deng (Nanjing University of Posts and Telecommunications, China), Guoxia Xu (Nanjing University of Posts and Telecommunications, China), Zhongyang Wang (Nanjing University of Posts and Telecommunications, China), and Hu Zhu (Nanjing University of Posts and Telecommunications, China)</i>	
Multi-Encoder with Entity-Aware Embedding Framework for Distantly Supervised Relation Extraction	495
<i>Biqing Zeng (South China Normal University, China) and Jianchun Liang (South China Normal University, China)</i>	
Non-Imaging Real-Time Detection and Tracking of Fast-Moving Objects Using a Single-Pixel Detector	501
<i>Fengming Zhou (Nanjing thunder and lightning Information Technology Co., Ltd, China), Shulin Ke (Nanjing thunder and lightning Information Technology Co., Ltd, China), and Zhiqiang Ma (Nanjing thunder and lightning Information Technology Co., Ltd, China)</i>	
Nonlinear Facial Attribute Editing Method Based on Autoencoder in StyleGAN Latent Space ..	508
<i>Qixian Kuang (Chongqing Technology and Business University, China), Xiping He (Chongqing Technology and Business University, China), Chutian Yang (Chongqing Technology and Business University, China), and Xiaoqin Xie (Chongqing Technology and Business University, China)</i>	
Research on Automatic and Efficient Digital Image Recognition Technology for Citrus Pest Based on Neural Network	513
<i>Chengju Ouyang (Hunan University of Finance and Economics, China), Guang Sun (Hunan University of Finance and Economics, China), and Jiale Liu (China Highway Engineering Consulting Corporation, China)</i>	
On Early Prediction and Diagnosis of Heart Disease Based on Random Forest Algorithm	519
<i>HaiBo. Zhang (Hunan University of Finance, China) and FeiYan. Lin (Hunan University of Finance, China)</i>	
Ontology Modeling and Rule Execution Optimization in Smart Home Systems	524
<i>Mengqi Han (Beijing University of Posts and Telecommunications, China) and Yonghua Li (Beijing University of Posts and Telecommunications, China)</i>	

Optimization Methods for Random Forest Models in Early Diabetes Prediction	529
<i>Yiwen Wang (Hunan University of Finance and Economics, China), Jiale Liu (China Highway Engineering Consulting Corporation, China), Qi Xia (Hunan University of Finance and Economics, China), and Kedong Huang (Hunan University of Finance and Economics, China)</i>	
Optimization of Transmission in Heterogeneous Integrated Networks for Active Distribution Substation	534
<i>Pan Zhang (State Grid Tianjin Electric Power Company Electric Power Research Institute, China), Lei Wu (State Grid Tianjin Electric Power Company Electric Power Research Institute, China), Chao Pang (State Grid Tianjin Electric Power Company Electric Power Research Institute, China), and Enchao He (Tianjing Sanyuan Electric Power Intelligent Technology Co., Ltd., China)</i>	
Overview of Marine Object Detection Based on Image	539
<i>Jinxiong Gao (Hainan University, China), Xu Geng (Hainan University, China), Yonghui Zhang (Hainan University, China), and Tingfang Tan (Hainan University, China)</i>	
PoissonNet: Single Image Detail Enhancement Based on Poisson Regression	549
<i>He Jiang (CUMT, China), Ziqiang Wang (CUMT, China), Ping Zheng (CUMT, China), Haoxiang Zhang (CUMT, China), Yuze Wang (CUMT, China), Boming Song (XZHMU, China), and Deqiang Cheng (CMUT, China)</i>	
Polarization Insensitive Programmable Metasurface RCS Controlling Based on Deep Learning	554
<i>Xiaobei Bian (National University of Defense Technology, China), Shaowei Yong (National University of Defense Technology, China), Hantao Xu (National University of Defense Technology, China), Ziyang Gu (National University of Defense Technology, China), Guanchao Chen (National University of Defense Technology, China), Yufei Fu (National University of Defense Technology, China), and Qingqing Zhang (National University of Defense Technology, China)</i>	
Pre-Trained Language Model for Chinese Frame Semantic Parsing Based on Electric Power Dataset	559
<i>Xiaohui Wang (State Grid Laboratory of Grid Advanced Computing and Applications, China), Yundan Liang (State Grid Corporation of China, China), Chenwei Gui (University of International Relations, China), Boya Wang (University of International Relations, China), and Gaozhou Wang (State Grid Shandong Electric Power Company, China)</i>	
Price Prediction Model Based on Multi-Source Information Fusion	565
<i>Jie Yang (Shandong Agricultural University, China), Chao Zhang (Shandong Agricultural University, China), Pingzeng Liu (Shandong Agricultural University, China), and Junmei Wang (Shandong Agricultural University, China)</i>	
Identifying Antibiotic Resistance in Pathogenic Bacteria Through SVM and Neural Network Predictive Models	571
<i>Kezhu Wang (Hunan University of Finance and Economics, China), Hangjun Zhou (Hunan University of Finance and Economics, China), and Mengzhi Shen (Hunan University of Finance and Economics, China)</i>	
Proportional Feature Pyramid Network for Lane Detection	576
<i>Jiapeng Hui (Shenzhen Polytechnic University; University of Science and Technology Liaoning, China), Guoyun Lian (Shenzhen Polytechnic University, China), Jiansheng Wu (University of Science and Technology Liaoning, China), Shuting Ge (University of Science and Technology Liaoning, China), and Jinfeng Yang (Shenzhen Polytechnic University, China)</i>	

Price Prediction and Analysis Based on the LightGBM Regression Model	580
<i>ShengYu. Huang (Hunan University of Finance and Economics, China)</i>	
Remote Sensing Based Grassland Net Primary Productivity Analysis	585
<i>Xinyue Li (Northwest A&F University, China), Shuyin Zhang (Northwest A&F University, China), Fan Zhang (Northwest A&F University, China), and Zhiguo Xie (Shaanxi Academy of Forestry, China)</i>	
Research and Development of Quality Problem Case Base Under the Background of Industrial Big Data	590
<i>Zhicheng Liu (Tongji University, China), Pengzhong Li (Tongji University, China), and Liang Luo (Tongji University, China)</i>	
Research and Implementation of Movie Recommendation System Based on Knowledge Graph	595
<i>Lixia Luo (Hunan University of Information Technology, China), Zuoliu Huang (Hunan University of Information Technology, China), and Qitao Tang (Hunan University of Information Technology, China)</i>	
Research on Deep Learning-Based Network Intrusion Detection Model	600
<i>Yan Lu (Hunan Open University, China), Qiufen Yang (Hunan Open University, China), and Huadeng Lu (Hunan Open University, China)</i>	
Research on Information Propagation Model of Two-Layer Network Based on Node Importance ..	607
<i>Yuhang Fan (City Institute, Dalian University of Technology, China), Huijuan Yan (City Institute, Dalian University of Technology, China), and Daiqing Yu (City Institute, Dalian University of Technology, China)</i>	
Unveiling Valuable Insights: Leveraging Apriori Algorithm for Association Rule Mining and Analysis	612
<i>Juanxia He (Hunan University of Finance and Economics, China), Lin Lang (Hunan University of Finance and Economics, China), Biao Li (Hunan University of Finance and Economics, China), and Weiyi Xiong (Hunan University of Finance and Economics, China)</i>	
Research on Logical Understanding of Video Surveillance Systems Based on Knowledge Graphs ..	617
<i>Shikai Jin (Tiangong University, China), Chunming Tang (Tiangong University, China), and Yan Li (Tianjin Port Information Technology Development Co., China)</i>	
Research on Low-dose CT Image Enhancement Algorithm Based on CycleGAN Improvement	623
<i>Zhenduo Wang (Mapua University, Philippines; Xi'an Siyuan University, China) and Mary Jane C. Samonte (Mapua University, Philippines)</i>	
Research on Network Pruning Based Target Detection Model for CenterFusion	628
<i>Junlong Duan (Hunan Normal University, China), Yumei Li (Hunan Normal University, China), Changshun Jiang (Hunan Normal University, China), and Hao Lan (Hunan Normal University, China)</i>	
Research on Precipitation Catastrophe Based on Wavelet Permutation Entropy Algorithm	633
<i>Guilan Luo (Dali University, China), Anshun Hu (Dali University, China), Caikui Wang (Dali University, China), and Xin Ma (Dali University, China)</i>	
Research on the Application of Convolutional Neural Networks in Intelligent Editing for Short Video	639
<i>Luwen He (Xiamen University of Technology, China) and Zhenli Lai (Xiamen University of Technology, China)</i>	

RGB-D Point Cloud Correction using Information of Adjacent Frames	645
<i>Jiadun Wang (GuangXi University, China), Shengtao Li (Sun Yat-Sen University, China), and Kai Huang (Sun Yat-Sen University, China)</i>	
Road Traffic Accident Severity Prediction Under Unbalanced Data	650
<i>Jiaxin Lu (Southern University of Science and Technology, China), Zhejun Huang (Southern University of Science and Technology, China), and Lili Yang (Southern University of Science and Technology, China)</i>	
Robust Lane Detection with Knowledge Distillation	655
<i>Zhenhuan Yang (POWERCHINA Northwest Engineering Corporation Limited, China), Yifang Gao (POWERCHINA Northwest Engineering Corporation Limited, China), and Weifeng Guo (POWERCHINA Northwest Engineering Corporation Limited, China)</i>	
Scenic Buildings Recognition Based on MobileNetV1 Network and Transfer Learning	661
<i>Haiwen Feng (Shenyang University of Technology, China) and Fan Fan (Shenyang University of Technology, China)</i>	
SCLFD: A Novel Latency Fault Detection Approach for Service Composition	666
<i>Zhenjie Zhang (Hangzhou Dianzi University, China), Zhanfeng Shen (Hangzhou Dianzi University, China), Xiaobin Xu (Hangzhou Dianzi University, China), and Hong He (Hangzhou Dianzi University, China)</i>	
Siamese Network Based CDC For Tile Color Difference Detection	671
<i>Songsen Yu (South China Normal University, China), Yunheng Wu (South China Normal University, China), and Hengtuo Cui (South China Normal University, China)</i>	
Social Recommendation Algorithm Based on Fusion Graph Convolutional Neural Network and Gated Recurrent Unit Network	676
<i>Di Ding (Huaxin Consulting Design & Research Institute, China), Hui Wang (Huaxin Consulting Design & Research Institute, China), and Zhiwen Li (China Ordnance Industry Computer Application Technology Institute, China)</i>	
Spatiotemporal Hotspot Pattern Analysis of Air Travel Passengers with Long Short-Term Memory Networks	681
<i>Kun Zhang (China Airport Planning and Design Institute Co., Ltd., China), HuiRu Zhang (China Airport Planning and Design Institute Co., Ltd., China), and Song Huo (China Civil Aviation Engineering Consulting Co., Ltd., China)</i>	
The Problem of Goods Distribution Based on Genetic Algorithm	687
<i>Qingbo Song (Dalian Jiaotong University, China), Lifang Zhang (Dalian Jiaotong University, China), and Donglin Xu (Dalian Jiaotong University, China)</i>	
Tibetan Web Text Clustering Based on Contrast Learning	692
<i>Rui Zhang (Minzu University of China, China) and Yuan Sun (Minzu University of China, China)</i>	
Time-Delayed Geodemographic Scaling Algorithm for Fast COVID-19 Simulation	700
<i>Sijin Wu (Southern University of Science and Technology, China), Zhenqing Wu (Southern University of Science and Technology, China), Lang Mo (Southern University of Science and Technology, China), Zhejun Huang (Southern University of Science and Technology, China), and Lili Yang (Southern University of Science and Technology, China)</i>	

Time-Driven Temporal Block-Based Correlation Filter for Visual Tracking	706
<i>Bin Li (China Academy of Electronics and Information Technology, China), Chengyuan Liu (China Academy of Electronics and Information Technology, China), Shuwen Chen (Nanjing University of Posts and Telecommunications, China), Liyuan Cui (Nanjing University of Posts and Telecommunications, China), and Rui Zhang (Nanjing University of Posts and Telecommunications, China)</i>	
Trip Purpose Identification of Urban Residents Based on Taxi GPS Data and POI Data	711
<i>Yahui Xiao (Shandong University of Science and Technology, China), Lifeng Deng (Shandong University of Science and Technology, China), Xu Zhang (Shandong University of Science and Technology, China), and Baohe Song (Shandong University of Science and Technology, China)</i>	
Ultra-Short-Term Forecast of Wind Speed in Qingdao Port Based on Spatiotemporal Large Graph Network Model	717
<i>Meijin Yang (Jiaozhou Meteorological Bureau of Qingdao Meteorological Bureau, China), Fan Yang (Service Center of Qingdao Meteorological Bureau, China), Shan Jiang (University of Chinese Academy of Sciences, China), and Zhifeng Liu (Huangdao Meteorological Bureau of Qingdao Meteorological Bureau, China)</i>	
University Course Recommendation Based on Multi-Source Educational Knowledge Graph ...	727
<i>Junsheng Peng (Northwestern Polytechnical University, China), Jiang Long (Northwestern Polytechnical University, China), Yangming Guo (Northwestern Polytechnical University, China), Jin Wang (Northwestern Polytechnical University, China), and Bo Zheng (Northwestern Polytechnical University, China)</i>	
Unsupervised Defect Detection Based on Fast Retrieval of Deep Feature	733
<i>Lingchuan Wu (Automation Research Institute Co., Ltd. of China South Industries Group Corporation, China), Feng Qiu (Automation Research Institute Co., Ltd. of China South Industries Group Corporation, China), Bo Zhang (Automation Research Institute Co., Ltd. of China South Industries Group Corporation, China), and Jinyong Guo (Automation Research Institute Co., Ltd. of China South Industries Group Corporation, China)</i>	
XGBoost-Enhanced Prediction and Interpretation of Heart Disease Using SHAP Values	738
<i>QunYi Mao (Hunan University of Finance and Economics, China), WangDong Jiang (Hunan University of Finance and Economics, China), Guang Sun (Hunan University of Finance and Economics, China), and DaiWei Zeng (Hunan University of Finance and Economics, China)</i>	
YOLOv7-VD: An Algorithm for Vehicle Detection in Complex Environments	743
<i>Chunyu Li (Guangxi University of Science and Technology, China), Guangxing Tan (Guangxi University of Science and Technology, China), Chengpeng Wu (Guangxi University of Science and Technology, China), and Mingze Li (Guangxi University of Science and Technology, China)</i>	
YOLOv8-MixFaster: A Lightweight Traffic Sign Recognition Algorithm	748
<i>Guangjing Chen (Changchun University, China), Chunfeng Li (Changchun University, China), Cunjiang Yu (Changchun University, China), Yiming Jiang (Changchun University, China), Chengshuo Li (Changchun University, China), and Qi Song (Changchun University, China)</i>
