2024 IEEE/ACM 32nd International Conference on Program Comprehension (ICPC) ICPC 2024

Table of Contents

Message from the ICPC 2024 Chairs	xii
Organizing Committee	xiv
Steering Committee	xv
Program Committees	xvi
Additional Reviewers	xx
Keynotes	xxi

AI-Assisted Program Comprehension

Towards Summarizing Code Snippets Using Pre-Trained Transformers	1
<i>Antonio Mastropaolo (Università della Svizzera Italiana, Switzerland), Matteo Ciniselli (Università della Svizzera Italiana, Switzerland), Luca Pascarella (ETH, Zurich), Rosalia Tufano (Università della Svizzera Italiana, Switzerland), Emad Aghajani (Università della Svizzera Italiana, Switzerland), and Gabriele Bavota (Università della Svizzera Italiana, Switzerland)</i>	
Generating Java Methods: An Empirical Assessment of Four AI-Based Code Assistants	13
<i>Vincenzo Corso (University of Milano - Bicocca), Leonardo Mariani (University of Milano - Bicocca), Daniela Micucci (University of Milano - Bicocca), and Oliviero Riganelli (University of Milano - Bicocca)</i>	
Analyzing Prompt Influence on Automated Method Generation: An Empirical Study with Copilot... 24	
<i>Ionut Daniel Fagadau (University of Milano - Bicocca), Leonardo Mariani (University of Milano - Bicocca), Daniela Micucci (University of Milano - Bicocca), and Oliviero Riganelli (University of Milano - Bicocca)</i>	
Interpretable Online Log Analysis Using Large Language Models with Prompt Strategies	35
<i>Yilun Liu (Huawei), Shimin Tao (University of Science and Technology of China; Huawei), Weibin Meng (Huawei), Jingyu Wang (Beijing University of Posts and Telecommunications), Wenbing Ma (Huawei), Yuhang Chen (University of Science and Technology of China), Yanqing Zhao (Huawei), Hao Yang (Huawei), and Yanfei Jiang (Huawei)</i>	

Do Machines and Humans Focus on Similar Code? Exploring Explainability of Large Language Models in Code Summarization	47
<i>Jiliang Li (Vanderbilt University, USA), Yifan Zhang (Vanderbilt University, USA), Zachary Karas (Vanderbilt University, USA), Collin McMillan (University of Notre Dame, USA), Kevin Leach (Vanderbilt University, USA), and Yu Huang (Vanderbilt University, USA)</i>	
Knowledge-Aware Code Generation with Large Language Models	52
<i>Tao Huang (Shandong Normal University, China), Zhihong Sun (Shandong Normal University, China), Zhi Jin (Peking University, China), Ge Li (Peking University, China), and Chen Lyu (Shandong Normal University, China)</i>	
Enhancing Source Code Representations for Deep Learning with Static Analysis	64
<i>Xueting Guan (The University of Melbourne) and Christoph Treude (The University of Melbourne)</i>	
AthenaLLM: Supporting Experiments with Large Language Models in Software Development ...	69
<i>Benedito de Oliveira (Federal University of Pernambuco, Brazil) and Fernando Castor (Federal University of Pernambuco, Brazil and University of Twente, The Netherlands)</i>	

Code + Documentation Generation

MESIA: Understanding and Leveraging Supplementary Nature of Method-level Comments for Automatic Comment Generation	74
<i>Xinglu Pan (Peking University, China), Chenxiao Liu (Peking University, China), Yanzhen Zou (Peking University, China), Tao Xie (Peking University, China), and Bing Xie (Peking University, China)</i>	
Compositional API Recommendation for Library-Oriented Code Generation	87
<i>Zexiong Ma (Peking University, China), Shengnan An (Xi'an Jiaotong University, China), Bing Xie (Peking University, China), and Zeqi Lin (Microsoft)</i>	
On the Generalizability of Deep Learning-based Code Completion Across Programming Language Versions	99
<i>Matteo Ciniselli (Università della Svizzera italiana, Switzerland), Alberto Martin-Lopez (Università della Svizzera italiana, Switzerland), and Gabriele Bavota (Università della Svizzera italiana, Switzerland)</i>	
ESGen: Commit Message Generation Based on Edit Sequence of Code Change	112
<i>Xiangping Chen (Sun Yat-sen University, China), Yangzi Li (Sun Yat-sen University, China), Zhicao Tang (Sun Yat-sen University, China), Yuan Huang (SUN YAT-SEN UNIVERSITY, China), Haojie Zhou (SUN YAT-SEN UNIVERSITY, China), Mingdong Tang (Guangdong University of Foreign Studies, China), and Zibin Zheng (SUN YAT-SEN UNIVERSITY, China)</i>	
Improving AST-Level Code Completion with Graph Retrieval and Multi-Field Attention	125
<i>Yu Xia (Central South University, China), Tian Liang (Central South University, China), Weihuan Min (Central South University, China), and Li Kuang (Central South University, China)</i>	

Exploring and Improving Code Completion for Test Code	137
<i>Tingwei Zhu (Nanjing University), Zhongxin Liu (Zhejiang University), Tongtong Xu (Huawei), Ze Tang (Nanjing University), Tian Zhang (Nanjing University), Minxue Pan (Nanjing University), and Xin Xia (Huawei)</i>	
Understanding the Impact of Branch Edit Features for the Automatic Prediction of Merge Conflict Resolutions	149
<i>Waad Aldndni (Virginia Tech, USA), Francisco Servant (ITIS Software, Universidad de Malaga, Spain), and Na Meng (Virginia Tech, USA)</i>	
Investigating the Efficacy of Large Language Models for Code Clone Detection	161
<i>Mohamad Khajezade (University of British Columbia, Okanagan Campus), Jie JW Wu (University of British Columbia, Okanagan Campus), Fatemeh Hendijani Fard (University of British Columbia, Okanagan Campus), Gema Rodríguez-Pérez (University of British Columbia), and Mohamed Sami Shehata (University of British Columbia, Okanagan Campus)</i>	

Empirical + Human Studies

CRSP: Emulating Human Cooperative Reasoning for Intelligible Story Point Estimation	166
<i>Rui Han (Beijing University of Posts and Telecommunications, China), Wanjiang Han (Beijing University of Posts and Telecommunications, China), Zhuoyan Han (Beijing University of Posts and Telecommunications, China), Yifan Tian (Beijing University of Posts and Telecommunications, China), Longzheng Chen (Beijing University of Posts and Telecommunications, China), and Ren Han (Beijing University of Posts and Telecommunications, China)</i>	
What Do Developers Feel About Fast-Growing Programming Languages? An Exploratory Study	178
<i>Jahnavi Kumar (Research in Intelligent Software & Human Analytics Lab, Department of Computer Science and Engineering, Indian Institute of Technology Tirupati) and Sridhar Chimalakonda (Research in Intelligent Software & Human Analytics Lab, Department of Computer Science and Engineering, Indian Institute of Technology Tirupati)</i>	
Understanding Regular Expression Denial of Service (ReDoS): Insights from LLM-Generated Regexes and Developer Forums	190
<i>Mohammed Latif Siddiq (University of Notre Dame), Jiahao Zhang (University of Notre Dame), and Joanna C. S. Santos (University of Notre Dame)</i>	
Exploring the Effects of Urgency and Reputation in Code Review: An Eye-Tracking Study	202
<i>Sara Yabesi (Polytechnique Montréal), Mahta Amini (Polytechnique Montréal), Jelena Ristic (McGill University), and Zohreh Sharafi (Polytechnique Montréal)</i>	

On the comprehensibility of functional decomposition: An empirical study	214
<i>Ewan Tempero (University of Auckland), Paul Denny (University of Auckland), James Finnie-Ansley (University of Auckland), Andrew Luxton-Reilly (University of Auckland), Diana Kirk (University of Auckland), Juho Leinonen (University of Auckland), Asma Shakil (University of Auckland), Robert Sheehan (University of Auckland), James Tizard (University of Auckland), Yu-Cheng Tu (University of Auckland), and Burkhard C. Wuensche (University of Auckland)</i>	
Reassessing Java Code Readability Models with a Human-Centered Approach	225
<i>Agnia Sergejuk (JetBrains Research, Serbia), Olga Lvova (JetBrains, Armenia), Sergey Titov (JetBrains Research, Cyprus), Anastasiia Serova (JetBrains, Cyprus), Farid Bagirov (JetBrains Research, Cyprus), Evgeniia Kirillova (JetBrains Research, Germany), and Timofey Bryksin (JetBrains Research, Cyprus)</i>	
Exploring the Impact of Source Code Linearity on the Programmers' Comprehension of API Code Examples	236
<i>Seham Alharbi (University of York, United Kingdom) and Dimitris Kolovos (University of York, United Kingdom)</i>	
Innovating Coding: Evaluating the Impact of Innovative Thinking in Programming	241
<i>Anthonia Njoku (Polytechnique Montréal), Mahta Amini (Polytechnique Montréal), and Zohreh Sharafi (Polytechnique Montréal)</i>	

Bugs, Defects, and Code Quality

What the Fix? A Study of ASATs Rule Documentation	246
<i>Corentin Latappy (Univ. Bordeaux, CNRS, Bordeaux INP, LaBRI, UMR 5800, Promyze, France), Thomas Degueule (Univ. Bordeaux, CNRS, Bordeaux INP, LaBRI, UMR 5800, France), Jean-Remy Falleri (Univ. Bordeaux, CNRS, Bordeaux INP, LaBRI, UMR 5800, Institut Universitaire de France, France), Romain Robbes (Univ. Bordeaux, CNRS, Bordeaux INP, LaBRI, UMR 5800, France), Xavier Blanc (Univ. Bordeaux, CNRS, Bordeaux INP, LaBRI, UMR 5800, France), and Cedric Teyton (Promyze, France)</i>	
SolaSim: Clone Detection for Solana Smart Contracts via Program Representation	258
<i>Che Wang (School of Computer Science, Peking University), Yue Li (Taiyuan University of Technology), Jianbo Gao (School of Computer Science, Peking University), Ke Wang (School of Computer Science, Peking University), Jiashuo Zhang (School of Computer Science, Peking University), Zhi Guan (National Engineering Research Center For Software Engineering, Peking University), and Zhong Chen (School of Computer Science, Peking University)</i>	
The Impact of Compiler Warnings on Code Quality in C++ Projects	270
<i>Albin Johansson (Chalmers University of Technology), Carl Holmberg (Chalmers University of Technology), Francisco Gomes de Oliveira Neto (Chalmers University of Gothenburg), and Philipp Leitner (Chalmers University of Gothenburg)</i>	

Vulnerabilities in AI Code Generators: Exploring Targeted Data Poisoning Attacks	280
<i>Domenico Cotroneo (University of Naples Federico II, Italy), Cristina Improta (University of Naples Federico II, Italy), Pietro Liguori (University of Naples Federico II, Italy), and Roberto Natella (University of Naples Federico II, Italy)</i>	
A Just-in-time Software Defect Localization Method based on Code Graph Representation	293
<i>Huan Zhang (Central South University, China), Weihuan Min (Central South University, China), Zhao Wei (Tencent, China), Li Kuang (Central South University, China), Honghao Gao (Shanghai University, China), and Huaikou Miao (Shanghai University, China)</i>	
SICode: Embedding-Based Subgraph Isomorphism Identification for Bug Detection	304
<i>Yuanjun Gong (Renmin University of China, China), Jianglei Nie (Renmin University of China, China), Wei You (Renmin University of China, China), Wenchang Shi (Renmin University of China, China), Jianjun Huang (Renmin University of China, China), Bin Liang (Renmin University of China, China), and Jian Zhang (SKLCS, Institute of Software, Chinese Academy of Sciences, China)</i>	
Tuning Code Smell Prediction Models: A Replication Study	316
<i>Henrique Gomes Nunes (Federal University of Minas Gerais (UFMG)), Amanda Santana (Federal University of Minas Gerais (UFMG)), Eduardo Figueiredo (Federal University of Minas Gerais (UFMG)), and Heitor Costa (Federal University of Lavras (UFLA))</i>	
Studying Vulnerable Code Entities in R	328
<i>Zixiao Zhao (The University of British Columbia, Canada), Millon Madhur Das (Indian Institute of Technology Kharagpur, Indian), and Fatemeh Fard (The University of British Columbia, Canada)</i>	

New Frontiers - Virtual Reality, Mobile Apps, Smart Contracts, and LLMs

The Sword of Damocles: Upgradeable Smart Contract in Ethereum	333
<i>Yuan Huang (Sun Yat-sen University), Xiaoyuan Wu (Sun Yat-sen University), Quanqi Wang (Sun Yat-sen University), Ziang Qian (Sun Yat-sen University), Xiangping Chen (Sun Yat-sen University), Mingdong Tang (Guangdong University of Foreign Studies), and Zibin Zheng (Sun Yat-sen University)</i>	
Collaborative Software Exploration with Multimedia Note Taking in Virtual Reality	346
<i>Adrian Hoff (IT University of Copenhagen, Denmark), Mircea Lungu (IT University of Copenhagen, Denmark), Christoph Seidl (IT University of Copenhagen, Denmark), and Michele Lanza (USI Lugano, Switzerland)</i>	

No Source Code? No Problem! Demystifying and Detecting Mask Apps in iOS	358
<i>Yijun Zhao (Institute of Information Engineering, Chinese Academy of Sciences, School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Lingjing Yu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Yong Sun (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Qingyun Liu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), and Bo Luo (Department of Electrical Engineering and Computer Science, The University of Kansas, Lawrence, KS, USA)</i>	
How do Hugging Face Models Document Datasets, Bias, and Licenses? An Empirical Study	370
<i>Federica Pepe (University of Sannio), Vittoria Nardone (University of Molise), Antonio Mastropaolo (SEART @ Software Institute Università della Svizzera italiana), Gerardo Canfora (University of Sannio, Italy), Gabriele Bavota (SEART @ Software Institute Università della Svizzera italiana), and Massimiliano Di Penta (University of Sannio, Italy)</i>	
Capturing and Understanding the Drift Between Design, Implementation, and Documentation	382
<i>Joseph Romeo (Università della Svizzera italiana, Switzerland), Marco Raglianti (Università della Svizzera italiana, Switzerland), Csaba Nagy (Università della Svizzera italiana, Switzerland), and Michele Lanza (Università della Svizzera italiana, Switzerland)</i>	
Immersive Software Archaeology: Collaborative Exploration and Note Taking in Virtual Reality	387
<i>Adrian Hoff (IT University of Copenhagen, Denmark), Mircea Lungu (IT University of Copenhagen, Denmark), Christoph Seidl (IT University of Copenhagen, Denmark), and Michele Lanza (USI Lugano, Switzerland)</i>	

Code Analysis and Mining Studies

ASKDetector: An AST-Semantic and Key Features Fusion based Code Comment Mismatch Detector	392
<i>Haiyang Yang (Central South University, Changsha, China), Hao Chen (Central South University, Changsha, China), Zhirui Kuai (Central South University, Changsha, China), Shuyuan Tu (Central South University, Changsha, China), and Li Kuang (Central South University, Changsha, China)</i>	
TaiE: Function Identification for Monolithic Firmware	403
<i>Jintao Huang (Institute of Information Engineering, CAS, China), Kai Yang (Guangxi University, China), Gaosheng Wang (Institute of Information Engineering, CAS, China), Zhiqiang Shi (Institute of Information Engineering, CAS, China), Shichao Lv (Institute of Information Engineering, CAS, China), and Limin Sun (Institute of Information Engineering, CAS, China)</i>	
Rationale Dataset and Analysis for the Commit Messages of the Linux Kernel Out-of-Memory Killer	415
<i>Mouna Dhaouadi (Université de Montréal, Canada), Bentley James Oakes (Polytechnique Montréal, Canada), and Michalis Famelis (Université de Montréal, Canada)</i>	

Lightweight Syntactic API Usage Analysis with UCov	426
<i>Gustave Monce (Univ. Bordeaux, CNRS, Bordeaux INP, LaBRI, UMR 5800, France), Thomas Coutourou (Univ. Bordeaux, CNRS, Bordeaux INP, LaBRI, UMR 5800, France), Yasmine Hamdaoui (Univ. Bordeaux, CNRS, Bordeaux INP, LaBRI, UMR 5800, France), Thomas Degueule (Univ. Bordeaux, CNRS, Bordeaux INP, LaBRI, UMR 5800, France), and Jean-Rémy Falleri (Univ. Bordeaux, CNRS, Bordeaux INP, LaBRI, UMR 5800, Institut Universitaire de France, France)</i>	
CAREER: Context-Aware API Recognition with Data Augmentation for API Knowledge Extraction ...	438
<i>Zhang Zhang (National University of Defense Technology, China), Xinjun Mao (National University of Defense Technology, China), Shangwen Wang (National University of Defense Technology, China), Kang Yang (National University of Defense Technology, China), and Yao Lu (National University of Defense Technology, China)</i>	
TerraMetrics: An Open Source Tool for Infrastructure-as-Code (IaC) Quality Metrics in Terraform	450
<i>Mahi Begoug (ETS Montreal, University of Quebec, Montreal, QC, Canada), Moataz Chouchen (ETS Montreal, University of Quebec Montreal, QC, Canada), and Ali Ouni (ETS Montreal, University of Quebec Montreal, QC, Canada)</i>	
OpenGalaxy: An interactive exploration platform for a visualized GitHub Full Domain collaboration network	455
<i>Xinran Zhang (East China Normal University), Shengyu Zhao (Tongji University), Yen-an Tang (East China Normal University), Xiaoya Xia (East China Normal University), and Wei Wang (East China Normal University)</i>	
HyperCRX: A Browser Extension for Insights into GitHub Projects and Developers	460
<i>Yen-an Tang (East China Normal University, China), Shengyu Zhao (Tongji University, China), Xiaoya Xia (East China Normal University, China), Fenglin Bi (East China Normal University, China), and Wei Wang (East China Normal University, China)</i>	
Author Index	465
