**Volume 12944**

Proceedings of SPIE 0277-786X, V. 12944

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Bioinspiration, Biomimetics, and Bioreplication XIV*, edited by Raúl J. Martín-Palma, Mato Knez, Akhlesh Lakhtakia, Proc. of SPIE 12944, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v *Conference Committee*

---

## **SESSION 1 MATERIALS**

- 12944 02 **Bioinspired daytime radiative cooling performance: a new experimental protocol for scaling up passive cooling through the atmospheric windows** [12944-2]
- 12944 03 **Disordered chiral structures** [12944-3]
- 12944 04 **Dynamic excitations in periodic fish scale inspired structures** [12944-4]

---

## **SESSION 2 LOCOMOTION**

- 12944 05 **Biomimetic quadrupedal soft robot using origami cylinder actuator (Craig F. Bohren Best Student Presentation Award 2nd Place)** [12944-7]
- 12944 06 **Avian-inspired wing sweep** [12944-8]
- 12944 07 **Performance analysis of agonist-antagonist SMA micro-wires and resonant compliant joint in bio-inspired bat-like flapping wings** [12944-9]
- 12944 08 **Bio-inspired, 3D printed feather transducers for in flight aerodynamic force and vibration sensing** [12944-10]

---

## **SESSION 3 APPLICATIONS AND DEVICES**

- 12944 09 **Design of a bionic prosthetic foot with energy harvesting** [12944-12]
- 12944 0A **A comprehensive study of ultrasound-enhanced transdermal drug delivery via microneedle array** [12944-13]
- 12944 0B **Invasive insect pest monitoring using low-cost, field deployable, machine-learning-assisted sensor systems** [12944-14]

---

## **SESSION 4 BIOINSPIRED DESIGN I**

- 12944 0C **Rationally designing dynamic protein cross-linked hydrogels across length scales (Invited Paper)** [12944-16]

12944 0D **Optimization of the optical diffuser inspired by *Morpho* butterflies for the feasible fabrication**  
[12944-17]

**SESSION 5 BIOINSPIRED DESIGN II**

---

12944 0E **Enhancing biomimetic design of tap scanning sensors through high-resolution thermal camera-based behavioral studies** [12944-29]

12944 0F **Exploring neuromorphic potentials of silver-based self-directed-channel memristors for artificial synapses in neural network circuits** [12944-24]

**POSTER SESSION**

---

12944 0G **Hard x-ray nanotomography of dental composites for wide color matching** [12944-27]
