SPIE

Volume 13036

Proceedings of SPIE 0277-786X, V. 13036

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Big Data VI: Learning, Analytics, and Applications*, edited by Panos P. Markopoulos, Proc. of SPIE 13036, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

METHODS AND APPLICATIONS I

- 13036 03 **A comparison of deep learning-based compressive imaging methods from a practitioner's perspective** [13036-2]
- 13036 04 **Efficient end-to-end multispectral image compression** [13036-3]
- 13036 05 **L1-PCA with quantum annealing** [13036-4]

METHODS AND APPLICATIONS II

- 13036 06 **High altitude computational Lidar emulation and machine learning reconstruction for Earth sciences (Invited Paper)** [13036-5]
- 13036 07 **Comparing life-cycle dynamics of Li-ion batteries (LIBs) clustered by operating conditions with SINDy** [13036-7]
- 13036 08 **Human-based gait authentication using multimodal sensors at the tactical edge device: smartphone** [13036-8]

METHODS AND APPLICATIONS III

- 13036 0A **Towards the acceleration of human learning capabilities through AI-assisted knowledge tree building** [13036-9]
- 13036 0B **Advancing seaweed cultivation analytics: integrating polynomial regression models with IoT for optimized harvesting in an integrated multitrophic aquaculture (IMTA) system** [13036-10]

METHODS AND APPLICATIONS IV

- 13036 0G **Maximizing training efficiency through intelligent data exposure** [13036-16]

METHODS AND APPLICATIONS V

- 13036 OH **Deep learning-based sparse array design for emitter signal isolations** [13036-17]
- 13036 OI **Radar-based continuous indoor activity recognition using deep learning
(Best Student Paper Award)** [13036-18]
- 13036 OJ **Robustness analysis of Wi-Fi-based human activity recognition** [13036-19]
- 13036 OK **MIMO radar-based vital sign monitoring by slow-time over sampling** [13036-20]
- 13036 OL **Human pose estimation and gait analysis with convolutional neural networks for Alzheimer's
disease detection** [13036-21]
