PROCEEDINGS OF SPIE

Fourth International Conference on Smart City Engineering and Public Transportation (SCEPT 2024)

Xinwei Yao
Neeraj Kumar
Editors

26–28 January 2024
Beijing, China

Organized by
Zhejiang University of Technology (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13160

Proceedings of SPIE 0277-786X, V. 13160

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Fourth International Conference on Smart City Engineering and Public Transportation (SCEPT 2024)*, edited by Xinwei Yao, Neeraj Kumar, Proc. of SPIE 13160, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

SMART CITY AND PUBLIC TRANSPORTATION PLANNING

13160 02 **Design and implementation of RFID-based construction restricted area intrusion detection system** [13160-14]

13160 03 **Research on optimization of refueling strategy considering liner speed selection** [13160-18]

13160 04 **Study on measurement and simulation of noise field between long tunnel and underground interchange** [13160-45]

13160 05 **Vehicle-carrying delivery drone base station** [13160-46]

13160 06 **Research on the evaluation index system of green supply chain management in automobile industry** [13160-34]

13160 07 **Research review of smart waterway** [13160-41]

13160 08 **Research on the evaluation method of intersection operation efficiency** [13160-30]

13160 09 **Intelligent detection technology of roughness in mining tunnel based on 3D laser scanning** [13160-1]

13160 0A **Time-domain simulation study of damaged ship compartments flooding based on CFD** [13160-44]

13160 0B **Design of engineering risk warning and control and real-time warning system based on genetic algorithm** [13160-63]

13160 0C **Evaluation of apparent effectiveness of safety sign group in underground cavern construction** [13160-51]

13160 0D **Smart urban renewal management of heritage buildings based on POI and GIS: Macau's largo boundary space** [13160-15]

13160 0E **Risk perception and carpooling intention: a moderated mediation model** [13160-13]

13160 0F **Research on key scenario generation and simulation of automatic emergency braking function test under rain and fog weather conditions** [13160-43]

13160 0G **Free-flow tolling system for expressway with fusion of 5G communication and high-precision positioning technology** [13160-57]

13160 0H **Research on project cost prediction based on random forest algorithm** [13160-6]

13160 0I **Research on railway safety marking planning** [13160-4]

13160 0J **Analysis of influencing factors of construction safety of prefabricated buildings based on Fuzzy-ISM and MICMAC** [13160-59]

INTELLIGENT TRAFFIC SAFETY AND TRAFFIC FLOW DETECTION

13160 0K **Collision risk index model based on ship domain and fuzzy set theory** [13160-17]

13160 0L **Numerical simulation and centrifuge test study on stability of gravity offshore platform in shallow sea** [13160-60]

13160 0M **Automobile information modeling based on nonlinear multisensor coupling** [13160-62]

13160 0N **Analysis of spatio-temporal characteristics of ships in Yangtze River estuary deepwater channel based on AIS data** [13160-23]

13160 0O **Multi-model traffic accident clearance time prediction framework** [13160-61]

13160 0P **Research on ship object detection based on deep learning** [13160-38]

13160 0Q **Design and application of intelligent inspection system based on micro inertial navigation technology** [13160-48]

13160 0R **Fatigue driving state detection for tanker truck drivers based on multifeature fusion** [13160-5]

13160 0S **Driver behavior analysis in merging area based on driving simulation** [13160-3]

13160 0T **Optimisation study of express delivery quantity prediction based on ARIMA model and grid search algorithm** [13160-49]

13160 0U **Application of artificial neural network in highway traffic volume prediction** [13160-29]

13160 0V **Low-speed detection method of vertical irregularity based on complementary filtering** [13160-28]

13160 0W **Multi-category driving maneuver recognition based on smartphone sensors and XGBoost** [13160-20]

13160 0X **Dynamic prediction method for short-term bus passenger flow based on the Prophet model** [13160-19]

13160 0Y **Permissive left turn traffic flow queuing model at signalized intersections** [13160-16]

13160 0Z **ERRF: an edge-server resources reservation framework in Internet of Vehicles** [13160-2]

13160 10 **Research on the method of abnormal physiological indicators diagnosis for subway drivers** [13160-22]

13160 11 **Short-term traffic flow prediction of coastal urban road nodes based on A3-TGCN** [13160-40]

13160 12 **Study on the differences in visual behavioral characteristics of drivers in bridge and roadbed sections of highways** [13160-53]

13160 13 **Research on the identification of accident-prone locations on Guizhou expressways based on an improved cumulative frequency curve method** [13160-11]

TRAFFIC PERFORMANCE ANALYSIS AND OPERATION OPTIMIZATION

13160 14 **Research on bus route optimization based on a higher-order network model** [13160-65]

13160 15 **Simulation study on overloading of pavement under heavy load and high tire pressure aircraft** [13160-64]

13160 16 **Simulation research of traffic capacity of weaving section on urban expressway** [13160-35]

13160 17 **Discrete element simulation of the movement inside a cargo hold in an easily flowing state** [13160-58]

13160 18 **Optimization of collecting and distributing network of Yangshan Port considering external cost** [13160-37]

13160 19 **Efficient simulation-based method for calibrating the fundamental diagram of operational performance decaying transportation network** [13160-33]

13160 1A **Research on vehicle routing problem based on real-time vehicle speed prediction** [13160-39]

13160 1B **Research on obstacle avoidance algorithm for high-speed intelligent driving based on Dubins analytical method** [13160-54]

13160 1C **High-speed train automatic stopping control method based on deep reinforcement learning** [13160-52]

13160 1D **Guardians of the road: machine learning solutions for safer commutes** [13160-47]

13160 1E **Suburban railway green parking solution under dynamic passenger flow demand** [13160-42]

13160 1F **Cold chain distribution path optimization based on improved particle swarm algorithm** [13160-31]

13160 1G **Dynamic performance analysis of multimodule marshalling light rail transit** [13160-27]

13160 1H **Optimization of collaborative distribution path between geological disaster rescue transport vehicles and drones** [13160-21]

13160 1I **Research on path planning algorithm of unmanned vehicle based on RRT** [13160-56]

13160 1J **Research on underwater glider path planning based on grey wolf optimisation algorithm** [13160-7]

13160 1K **Optimization of railway freight network based on the carrier liquidation mechanism** [13160-55]

13160 1L **Analysis of limiting operational condition of pipeline laying ship under the influence of wave in port** [13160-36]
