

PROCEEDINGS OF SPIE

Fourth Symposium on Pattern Recognition and Applications (SPRA 2023)

Shien-Kuei Liaw

Editor

1–3 December 2023

Napoli, Italy

Organized by

Science and Engineering Institute (United States)

Published by

SPIE

Volume 13162

Proceedings of SPIE 0277-786X, V. 13162

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fourth Symposium on Pattern Recognition and Applications (SPRA 2023)*, edited by Shien-Kuei Liaw, Proc. of SPIE 13162, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

IMAGE RECOGNITION AND CLASSIFICATION

- 13162 02 **Chess piece recognition using deep convolutional neural networks** [13162-14]
- 13162 03 **Detection of AI-written and human-written text using deep recurrent neural networks** [13162-13]
- 13162 04 **Two-stage dual-channel driving distraction behavior recognition algorithm based on key point detection** [13162-2]
- 13162 05 **Advancing skin cancer classification across multiple scales with attention-weighted transformers** [13162-5]

INTELLIGENT IMAGE ANALYSIS AND METHODS

- 13162 06 **Federated unlearning for medical image analysis** [13162-4]
- 13162 07 **An unsupervised approach for robust point cloud registration with deep feature** [13162-1]
- 13162 08 **Compliance image generation system based on text topic extraction and content detection technology** [13162-11]
- 13162 09 **A multi-center polarmask model for image segmentation** [13162-8]

DIGITAL IMAGE PROCESSING AND APPLICATIONS

- 13162 0A **Chinese multi-dialect speech recognition based on instruction tuning** [13162-7]
- 13162 0B **Effects of hyper-parameters in online constrained clustering: a study on animal videos** [13162-6]
- 13162 0C **Extracting key drivers of sky ratings and evaluating air passenger's satisfaction classification model through online review analysis** [13162-12]

- 13162 0D **EDSM: an encoder-decoder architecture face restoration network with style modulation**
[13162-3]
- 13162 0E **Transfer learning application in a computer vision system for detection of driver distraction**
[13162-15]
