

PROCEEDINGS OF SPIE

***Fourth International Conference on  
Applied Mathematics, Modelling,  
and Intelligent Computing  
(CAMMIC 2024)***

**Mohammad S. Obaidat**  
**Parikshit N. Mahalle**  
*Editors*

**19–21 April 2024**  
**Kaifeng, China**

*Organized by*  
Henan University (China)

*Sponsored by*  
Jordan University (Jordan)  
University of Victoria (Canada)  
AEIC—Academic Exchange Information Centre (China)

*Published by*  
SPIE

**Volume 13219**

**Part One of Two Parts**

Proceedings of SPIE 0277-786X, V. 13219

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fourth International Conference on Applied Mathematics, Modelling, and Intelligent Computing (CAMMIC 2024)*, edited by Mohammad S. Obaidat, Parikshit N. Mahalle, Proc. of SPIE 13219, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

## Part One

---

### MATHEMATICAL THEORETICAL FOUNDATION AND PRACTICAL ANALYSIS

---

- 13219 02 **Application of improved Lotka-Volterra model differential equations for exploring plant species interactions in arid regions** [13219-18]
- 13219 03 **Application of mathematical modeling in forest ecological protection** [13219-102]
- 13219 04 **Two-stage estimation of generalized random coefficient autoregressive model** [13219-196]
- 13219 05 **Mathematical modeling of TVB-N in *siganus fuscenssens* based on kinetics models and electrical conductivity prediction** [13219-69]
- 13219 06 **Statistical modeling of random polarization with amplitude following beta-distribution** [13219-151]
- 13219 07 **Gradient descent method for unconstrained minimax problem based on  $\max(0,x)$  aggregate smoothing** [13219-24]
- 13219 08 **Mathematical modeling of population interaction influenced by changes in sex ratio of sea lampreys** [13219-41]
- 13219 09 **From theory to visualization: deriving and simulating catacaustic curves** [13219-178]
- 13219 0A **Adaptive space-time finite element method for fractional diffusion equation** [13219-39]
- 13219 0B **Mathematical modeling for compositional analysis and identification of ancient glass objects** [13219-36]
- 13219 0C **Towards optimal solution: linear regression particle swarm for C4 olefin production** [13219-113]
- 13219 0D **A game-theoretical analysis of mass customization strategy on conspicuous products** [13219-62]
- 13219 0E **Analysis of key steps in numerical calculation of virtual element method for second-order elliptic problem** [13219-200]
- 13219 0F **Exploring wordle: a data-driven analysis of gameplay dynamics, mathematical modeling, and educational implications** [13219-189]

- 13219 OG **An applied study of the radiative diffusion equation based on a parallel scheme** [13219-192]
- 13219 OH **An improved integral formula for dual hypergeometric functions** [13219-186]
- 13219 OI **Mathematical modeling in light pollution** [13219-77]
- 13219 OJ **Finite product in the integration of Riesz spaces with lattice-ordered modules: a categorical approach to probabilistic logic** [13219-120]
- 13219 OK **An evolutionary game model and simulation study on reverse logistics of construction waste** [13219-132]
- 13219 OL **A study on the application of response surface methodology and Bayesian optimization in parameter tuning of genetic algorithms** [13219-187]
- 13219 OM **Application of exponential tight differential operators to the solution of the infectious disease equation** [13219-100]
- 13219 ON **Research on simulation of control of case application based on optimization model** [13219-201]
- 13219 OO **Selection and analysis of the basic structure of the force law** [13219-106]
- 13219 OP **A process modeling and discrete simulation research method based on python** [13219-70]
- 13219 OQ **Fitting a three-dimensional sphere by the least squares method** [13219-103]
- 13219 OR **Fast algorithm for solving fractional Helmholtz equation with spectral fractional Laplacian** [13219-101]
- 13219 OS **A formula for calculating the limit of a class of sums and its applications** [13219-123]
- 13219 OT **The method and skill of the limit problem in higher mathematics** [13219-134]
- 13219 OU **Three parameters extension of easily spliced Bézier curves** [13219-73]
- 13219 OV **Weighted fractional Laplace equation involving singular and critical nonlinearity** [13219-79]
- 13219 OW **Study of properties pull-back in the category of Riesz modules** [13219-131]
- 13219 OX **Implementation of linear regression, lasso/ridge regression, and kernel trick ridge regression in a real-life example** [13219-137]
- 13219 OY **Based on Lebesgue's constant minimum skew-preserving asymptote of rational interpolation of the centre of gravity** [13219-122]
- 13219 OZ **Some properties and applications of the gamma function in the field of mathematics** [13219-160]

- 13219 10 **Solving the Zakharov-Kuznetsov equation by the trial equation method** [13219-129]
- 13219 11 **Proving implicit function theorem with the methods of series** [13219-155]
- 13219 12 **Analysis and application of normal distribution** [13219-182]
- 13219 13 **Theoretical analysis of multibeam bathymetry seabed coverage area model** [13219-190]
- 13219 14 **Boundary value problem of fractional differential inclusions involving Caputo-Fabrizio time-fractional derivative without singular kernel** [13219-130]

---

**MATHEMATICAL MODEL APPLICATION AND OPTIMIZATION RESEARCH**

---

- 13219 15 **Wave energy power optimization design based on Fourier transform model** [13219-138]
- 13219 16 **Statistical modeling of random polarization amplitude subject to Rayleigh distribution** [13219-65]
- 13219 17 **Simulation of Weibull distributed clutter based on ZMNL transformation** [13219-88]
- 13219 18 **Subfloor topography visualization technology based on multibeam sounding system** [13219-98]
- 13219 19 **Quantitative analysis of momentum in tennis matches summary** [13219-83]
- 13219 1A **Dynamical Bayesian cue integration in a volatile Posner dual-cueing task** [13219-169]
- 13219 1B **Rumor propagation model and simulation based on K-means clustering modeling and simulation of rumor propagation** [13219-194]
- 13219 1C **Research on coking diagnosis based on semi-supervised Bayesian T-distribution mixed model** [13219-84]
- 13219 1D **Analysis of hot spots and trends in China's pharmaceutical intellectual property research based on clustering algorithms** [13219-32]
- 13219 1E **A hybrid model for analyzing the risk levels of light pollution** [13219-30]
- 13219 1F **Spatial and temporal distribution and prevention modelling of spotted lanternfly** [13219-3]
- 13219 1G **Study on the characteristics of permeable ecological weir based on numerical simulation technology** [13219-163]
- 13219 1H **Optimization of multibeam line distribution based on ALNS improved GA** [13219-42]
- 13219 1I **Phase I control chart study of profile monitoring using linear quantile mixed models** [13219-35]

- 13219 1J **Research on sound source localization based on sound sensor** [13219-54]
- 13219 1K **Research on multibeam depth measurement optimization model based on genetic algorithm** [13219-109]
- 13219 1L **Eigenvalue inverse problem for generalized Jacobi matrices with periodic plus edges** [13219-20]
- 13219 1M **Optimization of forest carbon sequestration based on NPP model and geographic detector** [13219-14]
- 13219 1N **Exploring population growth of sea lamprey with sex ratio based on Gompertz model** [13219-49]
- 13219 1O **Optimization problem of multibeam survey line layout** [13219-199]
- 13219 1P **Wordle difficulty prediction model based on PSO-LSTM and hierarchical clusters** [13219-27]
- 13219 1Q **The Lotka-Volterra model based on the sex ratio of lampreys and growth potential** [13219-19]
- 13219 1R **Positive-preserving scheme of two-phase flow model in porous media** [13219-46]
- 13219 1S **An inter-community epidemic model incorporating population mobility and control measures** [13219-60]
- 13219 1T **Flow characteristics of viscoelastic polymer solutions under different models** [13219-177]
- 13219 1U **Chinese variant character restoration based on multidimensional features and local attention** [13219-175]
- 13219 1V **Research on classification and weathering of glass cultural relics based on component quantification** [13219-158]
- 13219 1W **An obstacle-informed A-Star algorithm in grid-map environment path planning** [13219-93]
- 13219 1X **Solutions to multibeam line-finding problem using the triangulation principle** [13219-118]
- 13219 1Y **Maximal signed bipartite graphs with star graphs as star complements** [13219-159]
- 13219 1Z **Research on green supplier evaluation based on probability language terminology set** [13219-96]
- 13219 20 **Existence of solution for the mixed local and nonlocal problem with critical Sobolev exponent** [13219-152]
- 13219 21 **Study on cartesian closed of the category of Riesz modules** [13219-133]
- 13219 22 **Traveling wave solutions of the generalized equation based on the Hirota-Satsuma coupled equation** [13219-97]

- 13219 23 **The application of machine learning models based on feature selection for the prediction of the superconducting critical temperature** [13219-94]
- 13219 24 **Compact embeddings for fractional spaces in the Heisenberg group** [13219-82]
- 13219 25 **Numerical simulation of sarcoplasmic reticulum calcium waves in cardiac myocyte** [13219-128]
- 13219 26 **Air quality prediction and early warning based on Prophet-XGBoost combined model** [13219-135]
- 13219 27 **Optimal survey line for multibeam planning based on geometric shortest path model** [13219-195]

---

**HYBRID INTELLIGENT SYSTEM AND ALGORITHMIC SIMULATION**

---

- 13219 28 **Molecular dynamics simulation of ultrasound-assisted 3D printing of aluminum matrix composites** [13219-66]
- 13219 29 **Grey wolf optimization algorithm based on dynamic weighting strategy** [13219-184]
- 13219 2A **Development of a system for simulating and visualizing the biomass of fir trees using a parameter optimized 3-PG model** [13219-37]

**Part Two**

- 13219 2B **Neural network intelligent anti-interference controller for water level equilibrium control in lake systems: a case study of the Great Lakes in North America** [13219-47]
- 13219 2C **Causal insights and predictive models for order cancellations in online food delivery** [13219-81]
- 13219 2D **Optimization of joint maintenance plan for multiple independent products based on storage reliability** [13219-181]
- 13219 2E **Research on recommended methods for shooters in air defense systems based on behavior tree agents** [13219-71]
- 13219 2F **Research on improving ant colony algorithm for evacuation path planning in congested scenarios** [13219-154]
- 13219 2G **Simulation of intelligent allocation model of local cultural and educational resources based on improved particle swarm optimization algorithm** [13219-92]
- 13219 2H **A new improved optimizer adjusted by elite adjustment strategy** [13219-202]
- 13219 2I **Strategic study on reducing illegal wildlife trade based on system dynamics model** [13219-7]
- 13219 2J **An enhanced dung beetle optimizer for cloud task schedule** [13219-80]

- 13219 2K **Visualizing the momentum of tennis matches based on prediction and evaluation models** [13219-59]
- 13219 2L **Analysis of taxi drivers' decisions at the airport based on a profit-driven system** [13219-86]
- 13219 2M **Research on green GDP accounting system based on principal component analysis and BP neural network** [13219-85]
- 13219 2N **Fuzzy comprehensive evaluation of emergency management capability for transportation emergencies based on game theory** [13219-22]
- 13219 2O **An efficient algorithm for updating the penalty parameter of the alternating direction method for l1 problem** [13219-38]
- 13219 2P **The specific application of the fuzzy comprehensive evaluation method with subjective and objective weighting** [13219-162]
- 13219 2Q **A dynamic vision SLAM system for AGV robot navigation in factory environments** [13219-31]
- 13219 2R **Research on high-dimensional complex data monitoring based on Quantile regression** [13219-33]
- 13219 2S **A study on momentum in sports based on entropy weight-fuzzy evaluation and stacking model** [13219-26]
- 13219 2T **The gender code of ecosystems: an analysis of the effects and advantages of changing gender ratios of lamprey** [13219-146]
- 13219 2U **A full description of the isolated calmness of semidefinite programming problem** [13219-10]
- 13219 2V **Fast path planning of large-scale road network based on Hierarchical contraction algorithm** [13219-48]
- 13219 2W **Kernel extreme learning machine optimized by Arithmetic optimization algorithm** [13219-44]
- 13219 2X **Optimization and improvement of water anomaly measurement based on DBSCAN clustering approach** [13219-147]
- 13219 2Y **Location selection algorithm based on K-means clustering with shortest path optimization** [13219-74]
- 13219 2Z **Transformative enhancement of predictive models via fourier transformer-based denoising for non-intrusive load monitoring** [13219-9]
- 13219 30 **Characterization of quantum correlation in two-body quantum system by probability distribution** [13219-104]
- 13219 31 **Evaluation of the quality of grassroots statistics based on a combined empowerment cloud model** [13219-168]
- 13219 32 **Heuristic static single-source-single-sink shortest path algorithm: cycle-reducing algorithm, A\* algorithm, and dynamic simulation method** [13219-112]

- 13219 33 **Moment of momentum theorem for a rigid body system to an arbitrary point and its applications** [13219-124]
- 13219 34 **Ground state solutions for sublinear Schrödinger-Poisson systems** [13219-156]
- 13219 35 **Analysis of the security of coupler draft gear systems during the operation of heavy-haul locomotive** [13219-110]
- 13219 36 **Mesoscopic evacuation model based on adaptive grids partitioning** [13219-144]
- 13219 37 **Spectral analysis of a new preconditioner for generalized saddle point linear systems** [13219-126]
- 13219 38 **Discrete format for a class of wave systems** [13219-105]
- 13219 39 **Reconstructing the parameters of varying magnetization anomalies from magnetic field data** [13219-45]
- 13219 3A **Unique recovery results for the piecewise constant conductivity of n-layer media** [13219-76]
- 13219 3B **A review of human-robot collaborative assembly system** [13219-56]
- 13219 3C **Computational simulation of calcium transient in atrial sarcoplasmic reticulum** [13219-90]
- 13219 3D **The integrable system related to a nonself-adjoint fourth-order eigenvalue problem and involutive solution** [13219-136]
- 13219 3E **Research on multi-objective optimization of key parameters of small range extenders** [13219-143]

---

#### ARTIFICIAL INTELLIGENCE MODELING AND BIG DATA PREDICTION

- 13219 3F **Forecast of China's new energy vehicle industry based on mathematical modeling** [13219-153]
- 13219 3G **Charging path optimization for electric vehicle city cluster transportation based on comprehensive objective function** [13219-17]
- 13219 3H **Research on the influence of momentum evaluation model on professional tennis players** [13219-95]
- 13219 3I **Smart contract vulnerability detection based on adaptive genetic algorithm** [13219-180]
- 13219 3J **Research on health evaluation algorithm of unilateral hypothesis of instrument based on norm analysis** [13219-121]
- 13219 3K **Cooperative area searching method for UAV swarm based on wolf pack intelligence** [13219-115]

- 13219 3L **Data-driven predictive modelling and impact analysis of global temperature rise** [13219-108]
- 13219 3M **Prediction of global mean temperature based on SARIMA combined model** [13219-68]
- 13219 3N **Research on risks of design storm encountering between cities and regions where cities are located** [13219-16]
- 13219 3O **Location of electric vehicle charging stations based on INSGAI** [13219-2]
- 13219 3P **Analysis and optimization of key structural components of handling manipulator based on fatigue simulation and finite element simulation** [13219-139]
- 13219 3Q **Facing extreme weather: building mathematical models to foresee the sustainable future of property insurance** [13219-25]
- 13219 3R **A study of the effects of residents' social support and online information anxiety on loneliness under public health emergencies** [13219-171]
- 13219 3S **Fire and rescue prediction based on SARIMA model and multifunction fitting** [13219-29]
- 13219 3T **Cooperative learning optimization algorithm for solving large-scale optimization problems** [13219-58]
- 13219 3U **Research on the driving safety prediction method of left-turn motor vehicles at contraflow left-turn lane intersections** [13219-55]
- 13219 3V **Modeling the train manning problem for a massive rapid transit line** [13219-176]
- 13219 3W **Catastrophe risk assessment based on ARIMA and decision tree model** [13219-8]
- 13219 3X **Research on relationship between development of new energy vehicles and dual carbon in Yangtze river delta based on index system prediction** [13219-40]
- 13219 3Y **Establishing and applying a remaining life prediction model for natural gas collection and transportation pipelines in the context of CO<sub>2</sub>/H<sub>2</sub>S/O<sub>2</sub>** [13219-78]
- 13219 3Z **A predictive model for weather-related risks utilizing factor analysis and long short-term memory networks** [13219-61]
- 13219 40 **Multi-robot formation control based on backstepping and improved potential field RRT** [13219-6]
- 13219 41 **Research on intelligent parking path planning based on improved safe adaptive ant colony algorithm** [13219-23]
- 13219 42 **Research on water level prediction for Great Lakes based on GAMLSS-GLO model** [13219-28]
- 13219 43 **Optimal control strategies for mild and severe patients under the epidemic diffusion** [13219-21]

- 13219 44 **Study of disease transmission models considering disease mutation and vaccination on complex network** [13219-63]
- 13219 45 **Application of AHP evaluation model in illegal wildlife trade** [13219-67]
- 13219 46 **Research on tennis match evaluation and prediction model based on data mining** [13219-183]
- 13219 47 **Data-driven classification prediction of underwater navigation adaptation area** [13219-116]
- 13219 48 **Energy-efficient production scheduling considering outsourced manufacturing and tardiness cost** [13219-99]
- 13219 49 **Research on robot-assisted puncture accuracy prediction method based on improved multioutput regressor algorithm** [13219-72]
- 13219 4A **Service optimization of transnational logistics transportation based on big data analysis** [13219-149]
- 13219 4B **Research on reducing wildlife trade based on neural network model** [13219-15]
- 13219 4C **Improved imperial competition algorithm for solving the multiworkshop integrated scheduling problem** [13219-150]
- 13219 4D **A SITS-Net-based intelligent identification model for lizards** [13219-107]
- 13219 4E **A study on the evaluation model of tennis players' performance in the match and the prediction model of round win/loss - based on the Wimbledon tennis championships in the 2023 Season** [13219-114]
- 13219 4F **Research on passenger flow distribution model based on travelling path selection of urban rail passengers** [13219-166]
- 13219 4G **Green dynamic re-entrant hybrid flow shop scheduling problem based on NSGA-II** [13219-140]
- 13219 4H **Factors influencing COVID-19 infection in the countries around the world** [13219-117]
- 13219 4I **Calculation of the average output thermal power of a fixed-sun mirror field based on a discrete model** [13219-164]
- 13219 4J **Analysis and forecasting research on China's new energy electric vehicle industry based on ARIMA model and multiple linear regression model** [13219-127]
- 13219 4K **Research on green hybrid flow shop batch scheduling problem based on improved grey wolf algorithm** [13219-142]
- 13219 4L **Simulation analysis of the effect of shrinkage defects on mechanical properties of cast aluminum wheel hubs** [13219-141]
