2023 11th International Conference on Information Technology: IoT and Smart City (ITIoTSC) **ITIoTSC 2023**

Table of Contents

Preface	xiii
Organizing Committee	xiv

IoT Data Mining and Information Recognition

Domain Terminology Knowledge Graph Completion Method Based on Bert	1
<i>Weichun Huang (Academy of military Sciences, China), Gang Xiao (Academy of military Sciences, China), Jian Yang (Xidian University, China), and Xinyu Hu (Sun Yat-sen University, China)</i>	
Large-Scale Fingerprint Data Retrieval Based C-Means Clustering Model	5
<i>Decai Wang (The Key Laboratory of Intelligent Information and Big Data Processing of Ningxia Province, China; North Minzu University, China), Xia Chang (North Minzu University, China), Weibing Zhang (North Minzu University, China), and Yuelin Gao (North Minzu University, China)</i>	
Construction of Electronic Information Science and Technology Network Simulation Training System under Virtual Reality Technology	10
<i>Dan Zhang (Chongqing College of Architecture and Technology, Chongqing)</i>	
Construction mode of Injection Molding Machine Intelligent Enterprise based on Cloud-Edge-Terminal Framework	14
<i>Guangpeng Xie (Ningbo University, China), Hongfei Zhan (Ningbo University, China), Junhe Yu (Ningbo University, China), and Rui Wang (Ningbo University, China)</i>	
Bayesian Algorithm in Library Information Social Services Research	19
<i>Kuotai Tang (Fujian Polytechnic of Information Technology, China) and Chujun Huang (Fujian University of Technology, China)</i>	

A Non-Invasive Load Identification Method based on Data Association Learning	25
<i>Xuwei Xia (Electric Power Research Institute of State Grid Ningxia Electric Power Co., Ltd., China), Wenni Kang (Electric Power Research Institute of State Grid Ningxia Electric Power Co., Ltd., China), Rui Ma (Electric Power Research Institute of State Grid Ningxia Electric Power Co., Ltd., China), Jia Liu (Electric Power Research Institute of State Grid Ningxia Electric Power Co., Ltd., China), Jiangbo Sha (Electric Power Research Institute of State Grid Ningxia Electric Power Co., Ltd., China), and Dongge Zhu (Electric Power Research Institute of State Grid Ningxia Electric Power Co., Ltd., China)</i>	
A Method for Augmenting Camouflage Data Based on Texture Space Scrambling	29
<i>Tong Han (Army Engineering University of PLA, China), Tiejong Cao (Army Engineering University of PLA, China), Yunfei Zheng (Army Engineering University of PLA, China), Lei Chen (Army Engineering University of PLA, China), Chunyao Wu (Army Engineering University of PLA, China), Yang Wang (Army Engineering University of PLA, China), and Donglong Wang (Army Engineering University of PLA, China)</i>	
Data Resources Catalog Creation Method Across Oil and Gas Industry Chain	33
<i>Xinbei Lv (PetroChina Southwest Oil & Gasfield Company Digital Intelligence Technology Company, China), Chao Qin (PetroChina Southwest Oil & Gasfield Company Digital Intelligence Technology Company, China), Aijiao Jing (PetroChina Southwest Oil & Gasfield Company Digital Intelligence Technology Company, China), Yun Sun (PetroChina Southwest Oil & Gasfield Company Digital Intelligence Technology Company, China), Qing Guan (PetroChina Southwest Oil & Gasfield Company Digital Intelligence Technology Company, China), Yanxi Ran (PetroChina Southwest Oil & Gasfield Company Digital Intelligence Technology Company, China), Zhenyu Chen (Sichuan Energy Internet Research Institute Tsinghua University, China), Tao Zhang (Sichuan Energy Internet Research Institute Tsinghua University, China), and Zhiyu Hou (PetroChina Southwest Oil & Gasfield Company Digital Intelligence Technology Company, China)</i>	
Research on Data Security Technology in Cloud Computing Environment	42
<i>Gang Lei (Guangdong University of Science and Technology, China), Jianchen Chen (Zhuhai Meihua Middle School, China), and Fu Luo (Guangdong University of Science and Technology, China)</i>	
Database Intrusion Risk Data Localization Method Based on Improved Ant Colony Algorithm	46
<i>Yating Gao (State Grid Information and Telecommunication Branch, China), Xingjie Huang (State Grid Information and Telecommunication Branch, China), Jing Li (State Grid Information and Telecommunication Branch, China), Jin Pang (State Grid Information and Telecommunication Branch, China), Zixian Dong (State Grid Information and Telecommunication Branch, China), and Jing Zhang (State Grid Information and Telecommunication Branch, China)</i>	

Short-Term Industrial Load Forecasting based on Bi-LSTM Optimized by SSA and Dropout	50
<i>Zhangchi Ying (Information and Communication Branch of State Grid Zhejiang Electric Power Co., LTD., China), Xuan Wu (Zhejiang University, China), Haiyang Xu (Information and Communication Branch of State Grid Zhejiang Electric Power Co., LTD., China), Dong He (Information and Communication Branch of State Grid Zhejiang Electric Power Co., LTD., China), and Yang Zhou (State Grid Yiwu Power Supply Company, China)</i>	
Study on the Impact of Digital Transformation and Tax Reduction on Enterprise Performance: Based on Big Data Analysis of Manufacturing Firms	63
<i>Baofeng Li (Henan University of Science and Technology, China) and Yangyang Li (Henan University of Science and Technology, China)</i>	
Research on Parallel Detection of Heterogeneous Cloud Resources with Multiple Anomalies in Cross-Type Database	68
<i>Junbing Pan (Information Communication Branch of Guangxi Grid Company, China), Yi Dong (Information Communication Branch of Guangxi Grid Company, China), Boling Chen (Information Communication Branch of Guangxi Grid Company, China), Jiacheng Fu (Information Communication Branch of Guangxi Grid Company, China), and Anni Huang (Information Communication Branch of Guangxi Grid Company, China)</i>	
Rainfall Forecasting Based on Spatio-Temporal Information Fusion Using Informer	73
<i>Chao Qiu (Zhejiang Provincial Hydrological Management Center, China), Zhuofan Zhang (Zhejiang University, China), Yingjie Qiu (Zhejiang University, China), Qi Chen (Zhejiang University, China), and Bei Wang (Zhejiang University, China)</i>	
Quality of Cigarette Cooperative Production Process Based on AHP Establishment and Application of Digital Management and Control Mode	79
<i>Ruidong Liu (Cooperative Production Office of Zhejiang China Tobacco Industry Co., Ltd., China), Mingjun Wang (Cooperative Production Office of Zhejiang China Tobacco Industry Co.Ltd., China), Dong Sun (Cooperative Production Office of Zhejiang China Tobacco Industry Co., Ltd., China), Jun Bao (Cooperative Production Office of Zhejiang China Tobacco Industry Co., Ltd., China), and Huali Zheng (Cooperative Production Office of Zhejiang China Tobacco Industry Co., Ltd., China)</i>	
Cross-Modal Traceability Method of Unstructured Multi-Source Data Based on Knowledge Map Technology	89
<i>Zhengxiong Mao (Information Center of Yunnan Power Grid Co., Ltd, China), Tao Chuan (Information Center of Yunnan Power Grid Co., Ltd, China), Jing Zhou (Information Center of Yunnan Power Grid Co., Ltd, China), Wenwei Su (Information Center of Yunnan Power Grid Co., Ltd, China), Yingjun He (Information Center of Yunnan Power Grid Co., Ltd, China), Donghui Mei (Information Center of Yunnan Power Grid Co., Ltd, China), and Chenglin Li (Information Center of Yunnan Power Grid Co., Ltd, China)</i>	

Algorithm and Application of 3D Reconstruction of Deformed Pipeline Based on Point Cloud Data	93
<i>Laizhen Wang (Engineering Technology Research Company Limited, CNPC, China), Kekuan Wang (Engineering Technology Research Company Limited, CNPC, China), Ruibin Duan (Engineering Technology Research Company Limited, CNPC, China), Yazhang He (Engineering Technology Research Company Limited, CNPC, China), and Yinshan Ding (Offshore Engineering Fabrication & Construction Division of CPOE, China)</i>	
Research on Accounting Information Distortion Recognition Model of Listed Companies Based on Machine Learning	98
<i>Qiya Ye (Beijing Jiaotong University, China)</i>	

IoT Platform Modeling and Intelligent Detection

Research of Enterprise Private Cloud Video Conference System Based on 'Middle-Platform+Micro-Services'	104
<i>Chunhui Zhao (State Grid Economic and Technological Research Institute Co., Ltd., China), Jiangyu Yan (North China Electric Power University, China), Liang Zhao (LongShine Technology Group Co., Ltd, China), Donghui Liu (State Grid Economic and Technological Research Institute Co., Ltd., China), Chao Liu (LongShine Technology Group Co., Ltd, China), and Ying Chen (State Grid Economic and Technological Research Institute Co., Ltd., China)</i>	
Design and Establishment of Film and Television Recommendation Platform for Optimizing Cold Start Mode	109
<i>Pinyin Si (Beijing Institute of Graphic Communication, China), Yali Qi (Beijing Institute of Graphic Communication, China), Qingtao Zeng (Beijing Institute of Graphic Communication, China), and Jing Wang (Beijing Institute of Graphic Communication, China)</i>	
Multimodal Aspect Level Emotion Recognition for Attention Interaction	114
<i>Quan Song (Northwest Minzu University, China), Hui Cao (Northwest Minzu University, China), Xiaotian Xia (Northwest Minzu University, China), and Yueying Li (Northwest Minzu University, China)</i>	
Application Practice of AI Intelligent Technology in Customer Service of China Telecom	118
<i>Ying Wu (Institute of Basic Operational Technology China Telecom Corporation Limited Research Institute, China), Kefeng Yu (Institute of Basic Operational Technology China Telecom Corporation Limited Research Institute, China), Yingmao Hu (Institute of Basic Operational Technology China Telecom Corporation Limited Research Institute, China), and Liping Zhang (Institute of Basic Operational Technology China Telecom Corporation Limited Research Institute, China)</i>	
An Algebraic Method for TDOA-Based Localization with Sensor Position Errors	129
<i>Linqiang Jiang (PLA Strategic Support Force Information Engineering University, China), Tao Tang (PLA Strategic Support Force Information Engineering University, China), Zhidong Wu (PLA Strategic Support Force Information Engineering University, China), Paihang Zhao (PLA Strategic Support Force Information Engineering University, China), and Ziqiang Zhang (PLA Strategic Support Force Information Engineering University, China)</i>	

Sound Source Location Prediction Method Based on Broad Learning	135
<i>Rongjiang Tang (Guilin University of Electronic Technology, China), Yue Zhang (Guilin University of Electronic Technology, China), Taoqi Lu (Guilin University of Electronic Technology, China), and Mengxian He (Guilin University of Electronic Technology, China)</i>	
Research on SOTIF Analysis Based on HWP	139
<i>Jimin Hu (CATARC (Tianjin) Automotive Engineering Research Institute Co., Ltd, China), Hongpeng Li (CATARC (Tianjin) Automotive Engineering Research Institute Co., Ltd, China), Hao Zhang (Chery Automobile Co., Ltd., China), and Xueli Song (Chery Automobile Co., Ltd., China)</i>	
Sampling-based Self-Supervised Augmented Contrast Learning for Movie Recommendation Systems	144
<i>Huixin Jiang (Hubei University of Technology, China), Lingyu Yan (Hubei University of Technology, China), Chunzhi Wang (Hubei University of Technology, China), and Donghua Liu (China Waterborne Transport Research Institute, China)</i>	
Design of Healthcare Blockchain Systems to Support Accessible Edge Computing	149
<i>Yongqi Cai (Ningxia University, China), Jiyu Jiao (Southeast University, China), Ziqiang Ma (Ningxia University, China), Jiali Chen (Ningxia University, China), and Yajie Lan (Ningxia University, China)</i>	
Detection Method of Trusted Blockchain Link Flood Attack based on Trusted Execution Environment	155
<i>Ruixue Kuang (Qilu University of Technology (Shandong Academy of Sciences), China; Shandong Provincial Key Laboratory of Computer Networks, Shandong Fundamental Research Center for Computer Science, China), Lianhai Wang (Qilu University of Technology (Shandong Academy of Sciences), China; Shandong Provincial Key Laboratory of Computer Networks, Shandong Fundamental Research Center for Computer Science, China), Shuhui Zhang (Qilu University of Technology (Shandong Academy of Sciences), China; Shandong Provincial Key Laboratory of Computer Networks, Shandong Fundamental Research Center for Computer Science, China), Shujiang Xu (Qilu University of Technology (Shandong Academy of Sciences); Shandong Provincial Key Laboratory of Computer Networks, Shandong Fundamental Research Center for Computer Science, China), Wei Shao (Qilu University of Technology (Shandong Academy of Sciences), China; Shandong Provincial Key Laboratory of Computer Networks, Shandong Fundamental Research Center for Computer Science, China), and Qizheng Wang (Qilu University of Technology (Shandong Academy of Sciences), China; Shandong Provincial Key Laboratory of Computer Networks, Shandong Fundamental Research Center for Computer Science, China)</i>	

Trust Access Control Method of Power Metering Automation System based on K Nearest Neighbor Algorithm	160
<i>Yanhe Liang (State Grid Heilongjiang Power Supply Service Center (Power Metering Center), China), Hongyu Cao (State Grid Heilongjiang Power Supply Service Center (Power Metering Center), China), You Gong (State Grid Heilongjiang Power Supply Service Center (Power Metering Center), China), Xiaoyu Wang (State Grid Heilongjiang Power Supply Service Center (Power Metering Center), China), and Xinggang Li (State Grid Heilongjiang Power Supply Service Center (Power Metering Center), China)</i>	
Design of Heterogeneous Cloud Application Software Resources Automatic Delivery System	164
<i>Junbing Pan (Information Communication Branch of Guangxi Grid Company, China), Anni Huang (Information Communication Branch of Guangxi Grid Company, China), Xiaoying Mo (Information Communication Branch of Guangxi Grid Company, China), Boling Chen (Information Communication Branch of Guangxi Grid Company, China), and Jiacheng Fu (Information Communication Branch of Guangxi Grid Company, China)</i>	
Research on Cloud Computing Elastic Resource Allocation Method Based on Real Time Operation and Maintenance	170
<i>Danhui Lai (Shenzhen Power Supply Co., Ltd., China), Weifeng Luo (Shenzhen Power Supply Co., Ltd., China), and Xudong Yuan (Shenzhen Power Supply Co., Ltd., China)</i>	
Research on the Design and Implementation Plan of Highly Available Cloud Platform	176
<i>Qinhao Li (Ningxia University, China), Tao Su (Unicom Digital Technology Ltd, China), and Chunlin Huang (Ningxia University, China)</i>	
Construction of a Predictive Model of College Students' Satisfaction with Campus Life Based on Intelligent Algorithm	181
<i>Ruixian Huang (Guangzhou City Construction College, China; Universiti Tun Abdul Razak Malaysia, Malaysia)</i>	
Trading Strategy Optimisation with a Multi-Objective Genetic Algorithm	186
<i>Yu Liu (The University of Western Australia, Australia)</i>	
An Energy Consumption Optimization Strategy for Mobile Edge Networks	192
<i>Hua Qu (Xi'an Jiaotong University, China), Xing Li (Xi'an Jiaotong University, China), Jihong Zhao (Xi'an Jiaotong University, China; University of Posts & Telecommunications, China), Yucheng Xue (Xi'an Jiaotong University, China), and Qian Gao (Xi'an Jiaotong University, China)</i>	
An Improved RepLKNet-based Malware Detection Method	199
<i>Dandan Zhang (Air Force Engineering University, China), Yafei Song (Air Force Engineering University, China), and Yang Wang (Air Force Engineering University, China)</i>	

Smart City and Network Environment Maintenance

Request Smuggling Via HTTP/2 Cleartext in the Wild: Empirical Testing with Differential Fuzzing	203
<i>Yingbo Li (Yunnan University, China), Zhensong Huai (Yunnan University, China), Xiaolong Yan (Yunnan University, China), and Jing Liu (Yunnan University, China)</i>	

Deployment of Multi-Service Network Slices for Integrated Space and Ground Networks	207
<i>Li Yang (Dalian University, China; Nanjing University of Information Science & Technology, China), Ying'ao Cheng (Dalian University, China), and Chengsheng Pan (Nanjing University of Information Science and Technology, China)</i>	
CGKDP: Concurrent Group Key Distribution Protocol	212
<i>Zhensong Huai (Yunnan University, China), Yingbo Li (Yunnan University, China), Xiaolong Yan (Yunnan University, China), He Wu (Yunnan University, China), and Jing Liu (Yunnan University, China)</i>	
Pyramid Selling Group Detection Method Based on Community Detection	222
<i>Bingquan Wu (Beijing University of Technology, China), Jingsha He (Beijing University of Technology, China), Jiajin He (Beijing University of Technology, China), and Nafei Zhu (Beijing University of Technology, China)</i>	
An Anti-Polarization-Fading Method for a Grating Array Underwater Acoustic Demodulation System	227
<i>Hui Gao (Wuhan University of Technology, China), Honghai Wang (Wuhan University of Technology, China), and Yanmin Zhang (Hubei Key Laboratory of Marine Electromagnetic Detection and Control, China; Wuhan Second Ship Design and Research Institute, China)</i>	
Satisfaction Prediction for Heterogeneous Mobile Network Cells Based on Semi-Supervised Transfer Learning	231
<i>Jingyu Yao (Key Laboratory of Universal Wireless Communications, Ministry of Education, China), Dayang Liu (China Mobile Communications Group Guangdong Co., Ltd., China), Nanchang Lu (China Mobile Communications Group Guangdong Co., Ltd., China), Chunwei Luo (China Mobile Communications Group Guangdong Co., Ltd., China), and Dong Liang (Key Laboratory of Universal Wireless Communications, Ministry of Education, China)</i>	
Application Practice of Network Physical Topology Digital Twin in Operator Network Operation and Maintenance	237
<i>Ying Wu (Institute of Basic Operational Technology China Telecom Corporation Limited Research Institute, China), Kefeng Yu (Institute of Basic Operational Technology China Telecom Corporation Limited Research Institute, China), Junya Huang (Institute of Basic Operational Technology China Telecom Corporation Limited Research Institute, China), Liping Zhang (Institute of Basic Operational Technology China Telecom Corporation Limited Research Institute, China), and Yingmao Hu (Institute of Basic Operational Technology China Telecom Corporation Limited Research Institute, China)</i>	
The Clinical Application Value of MRA Radiomics in Distinguishing Intracranial Aneurysms from Cerebrovascular	243
<i>Wenhui He (Chongqing Three Gorges University, China), Hui Xie (Chongqing Three Gorges University, China), Yi Song (Chongqing University Three Gorges Hospital, China), and Qiang Chen (Chongqing Three Gorges University, China)</i>	
Research and Application of Man-Machine Interaction Automatic Piano Accompaniment System Based on Artificial Intelligence Technology	247
<i>Jingxin Chen (Quanzhou Preschool Education College, China)</i>	

Virtual Simulation of Ship Anchor Pulling Test Based on Vortex	251
<i>Cheng Wang (ShanDong JiaoTong University, China), Lei Song (ShanDong JiaoTong University, China), and Aihua Yang (ShanDong JiaoTong University, China)</i>	
A Research on Warehouse Logistics Guided Inbound and Outbound Operations Simulation Technology based on GIS	256
<i>Xiaonan Hu (Tianjin Richsoft Electric Power Information Technology Co., Ltd., China), Weidong Wang (Tianjin Richsoft Electric Power Information Technology Co., Ltd., China), Hanzhi Li (Tianjin Richsoft Electric Power Information Technology Co., Ltd., China), Jingyu Li (Tianjin Richsoft Electric Power Information Technology Co., Ltd., China), Liangfeng Zhu (Tianjin Richsoft Electric Power Information Technology Co., Ltd., China), and Baoguo Gao (Tianjin Richsoft Electric Power Information Technology Co., Ltd., China)</i>	
Convolutional Neural Network (CNN) for Building Energy Efficiency Analysis, Prediction, and Real-Time Adjustment Strategies	262
<i>Bin Liu (China Construction Seventh Engineering Division. Corp. LTD, China), Yujian Cao (Hong Kong Baptist University, China), Yichao Gan (Minzu University of China, China), Qianhang Huang (Minzu University of China, China), Tong Zeng (Minzu University of China, China), Jing Zhang (Minzu University of China, China), and Kangjie Cao (Minzu University of China, China)</i>	
Research on Vehicle Detection based on Ghost Net and Se Attention Mechanism	268
<i>Wei Chen (Nanjing University of Information Science and Technology, China), Yanan Zhang (Nanjing University of Information Science and Technology, China), Xianyi Chen (Nanjing University of Information Science and Technology, China), and Wei Li (Nanjing University of Information Science and Technology, China)</i>	
During the COVID-19 Pandemic Weibo Topic Change Analysis and Visualization	272
<i>Peifeng Lin (China University of Geosciences, China) and Kunlun Qi (China University of Geosciences, China)</i>	
Author Index	277
