

Pipelines 2024

Construction and Rehabilitation

Proceedings of Sessions of the Pipelines 2024 Conference

Calgary, Canada
27 – 31 July 2024

Editors:

Khalid Kaddoura
Richard Nichols

ISBN: 979-8-3313-0337-2

Contents

Case Studies

Progressive Design Build: How DC Water Used Collaborative Delivery to Make Large Diameter Sewer Rehabilitation Possible1
William Elledge, Zachary Pistilli, and Pono Hanson

Pipe Bursting Proof of Use for Water Main Replacement: Insights from the Washington Suburban Sanitary Commission Water Pilot Project.....12
Yudu (Sonia) Wu, Thomas Payne, and Keith A. Solomon

Case Study of Bad, to Worse, to Success: Emergency Investigation and Trenchless Repair of a 48-in. Diameter Sanitary Sewer Interceptor Crossing at Interstate I-49.....22
Matthew Richie, Corey W. Granderson, Mike Larsen, and Murat Engindeniz

The City of Irving’s Cottonwood Valley Golf Course Wastewater Improvements.....32
Robert C. Saucedo, Ben Stephens, and Noah Perkins

Valley Line West LRT: Drainage Relocation—Microtunneling Construction Impact on Existing Infrastructure Using Finite Element Analysis40
Alex Mather, Shiva Maharjan, Yang Bai, Chris Lamont, Jason Lueke, and Tamer Elshimi

Emergency Repair and Replacement

Collaborative Delivery and Innovation Pass the Test for an At-Risk Wastewater Interceptor Rehabilitation Challenge50
Getachew Melsew, Jessica Shaio, Kenrick St. Louis, and Christopher Garrett

City of Benicia Emergency Repair: Emergency Repair of a Critical Water Supply Pipeline Severed by a Landslide60
Kyle Ochendusko, Neil Leary, Joseph L. Ortiz, and Stephen Chavez

The Twists and Turns of Rehabbing a 70-Year-Old Trunk Sewer and Manholes in an Established Neighborhood69
Olugbenga Ibikunle, Chris Jones, and Vijayakumar Chinnathambi

Simultaneous Leaks in York-Peel Feedermain at Two River Crossings: Investigation and Repair81
Peter D. Nardini, Kevin Bainbridge, Dan Babensee, and Dave Caughlin

An Emergency Design Approach for Immediate Rehabilitation of 4 mi of a Critical 20-in. Water Transmission Main.....91
 Nirav K. Shah, Nicholas M. D’Angelo, R. Joeseeph Burns, and Christopher P. Murphy

Pipe and Appurtenance Design

Trenchless Installation Calculations for High Density Polyethylene101
 Edward Alan Ambler and Daniel Landy

Construction Practices Critical to the Success of World Record Horizontal Directional Drill111
 Juan Barreneche, Kate Wallin, and Robert Tatum

A 96-in. Drinking Water Transmission Main—Clinton River Open-Cut Crossing Design and Construction121
 Kerilyn Paris, Peter Fromm, Corey Brecht, Jason A. Matteo, Jeff Yakel, and Stephen Roberts

How to Accommodate Differential Settlement Using Geohazard Resistant Steel Pipe131
 Brent D. Keil, Polynikis Vazouras, Richard D. Mielke, and Spyros A. Karamanos

Construction of 10-Year Transmission Main: San Antonio Water System’s Water Resources Integration Program—Phase 2.....142
 David Bennett, Ty Waltz, and Michael Boyd

Precision Directional Drilling of Gravity Sewer in a Constrained ROW as a Construction Cost Saving Initiative.....152
 Alan J. Garri

Alternative Delivery and Trenchless Methods Used to Install 60,000 LF of Pipe on the Bay Park Forcemain Project159
 George Gutierrez, Carl Pitzer, and Jeff LeBlanc

How Proper Trunk Line Construction Maximizes the Longevity of Reservoir Floating Covers.....166
 Miguel A. Campos and Joycelyn C. Zhang

Contractors Are from Mars, Engineers Are from Venus—How to Make Relationships Work176
 Ashley Miele, Deirdre Lynch, Emily Hetherington, and Mike Knowles

Pipe Linings and Liners

Construction Traction Prediction for Long-Distance Pipeline Repair Using Lining Hose185
 Dongmin Xi, Xing Zou, Hongfang Lu, Tom Iseley, John Matthews, and Houming Ni

Investigate–Design–Build Solves Suspected Leak in a 72-in. PCCP Transmission Main under the Trinity River in Dallas, TX194
 Richard Bailey, Luis Bodington, Erick Steitle, Mike Larsen, and Murat Engindeniz

Underwater Tunnel Rehabilitation with Patented Diver Operated Vehicle204
 Shawn Drobny and Liam O’Brien

Burst Testing and Evaluation of Spray Applied Pipe Lining as a Class IV Lining System214
 Kawalpreet Kaur, Diego Calderon, Sanaz Ghalambor, Brandon Caldwell, Mohammad Najafi, and Vinayak Kaushal

Segmental Steel Sliplining: A Tale of Two Water Transmission Renewal Projects.....225
 Keith Bushdiecker and Kevin Brian

A Ten-Year Check-In on the Condition and Performance of a Challenging Repair of a Damaged Penstock Using a CFRP Liner234
 Matthew Richie, Scott Newton, and Rasko Ojdrovic

Evaluation of Spray Applied Pipe Lining Effects on the Hydraulic Flow Capacity of a Pressure Pipelines.....242
 Kawalpreet Kaur, Sanaz Ghalambor, Brandon Caldwell, Diego Calderon, Mohammad Najafi, Zaid Momani, and Loganathan Karthikeyan

Confronting the Complexities of Large-Diameter Sewer Rehabilitation in a Highly Urbanized Setting253
 Stefani Harrison and Irene McSweeney

A Framework for the Robust Design of Laboratory Tests for Spray Applied Pipe Liners Using the Taguchi Optimization Method263
 Diego R. Calderon, Kawalpreet Kaur, Sanaz Ghalambor, Brandon Caldwell, and Mohammad Najafi

Extreme Sewer Makeover: Large-Diameter Interceptor Edition272
 Matthew D. Gallagher, Brett J. Holzapfel, and Mike Lehrburger

Experimental Investigation on Mechanical Response of Rehabilitated Pipelines under Cyclic Axial Deformation282
 Sina G. Senji, Deeptesh Pawaskar, Patrick G. Dixon, Cory Ihnotic, Shideh Dashti, Thomas D. O’Rourke, and Brad P. Wham

Lessons Learned—Relining Large Diameter Water Pipelines292
 Tamara Miller and Jason Foster

Sewer Collapse Leads to Extensive Emergency Repair of 2,000 ft of Large Diameter Sewers.....301
 Weston Engel

Pipe Tapping

A 36-in. Ductile Iron Pipe Horizontal Direction Drill Creek Crossing—Project Overview.....310
 Peter N. Armans

Installing Tapping and Plugging Fittings on Concrete Cylinder Pipe for Effective Pipeline Modification and Repair319
 Charles Herckis

Navigating a Watermain Replacement Project through the Historic Capitol Hill Neighborhood332
 Mark L. Reid, Francis Peters, and Snehalata Masih

Sewer Pipeline Rehabilitation or Replacement

Force Main Rehabilitation Program for North Charleston Sewer District340
 James C. Reigart and Phillip T. Sexton

Use of Trenchless Technology for Stormwater Pipe Rehabilitation350
 Amir Tabesh, Rodrigo Vizcaino, Linda Young, and Samruddhi Jagtap

Construction Lessons Learned for Large Diameter Wastewater Piping Rehabilitation360
 Clinton McAdams and Noy Phannavong

Advancing Water Management through Comprehensive Sewer Water Quality Monitoring370
 Tasha King-Davis and John Abrera

Threading a Needle through the City: The City of Frisco’s Stewart Creek North Interceptor Phase 4.....376
 Shawn Halle, Ben Stephens, Jack Blarr, and Parvathi Unnithan

DelDOT Large Diameter Metal Plate Arch Rehabilitation with Unreinforced Geopolymer Mortar385
 Scott Naiva, Jonathan Karam, Houston Brown, and Mike Munyon

The Unique Rehabilitation of the Aurora Magmeter Bypass Sewer: Richmond Hill, Canada396
 Eismat Abdalla, James Tustin, and Jessica Garner

Environmental Impacts of Emissions from Cured-in-Place Pipe Installation: Initial Results from a Case Study406
 Salar Bavininezhad, William Elledge, Burak Kaynak, Mohammad Najafi, Melanie Sattler, Vinayak Kaushal, and Paria Hamidzadeh

**Thinking outside the Circle: Novel Use of Non-Circular Pipe for Dallas’
Shallow Large Interceptor Sewers416**
Michael R. Hagen and Joe Felipe

Trenchless Applications

**Excavating near Existing Utilities—Innovative Support Systems
That Allow for Safety and Productivity424**
Bruce Magee

New Westminster Columbia Section Rehabilitation—Large Diameter Sliplining434
Justin Cheng and Farnaz Edalat

Renovation of a DN 150 Refinery Wastewater Main in Burnaby, BC443
Simon Richtmann and John Moody

Utilizing Existing Resources: Rehabilitation of 72" Steel Lock-Bar Pipe451
George Gutierrez, Jeffrey LeBlanc, Jorge Medina, and Carl Pitzer

**Rehabilitation of the 105-Year-Old Lakewood Interceptor Tunnel with
Glass Reinforced Plastic Composite Pipe457**
Kevin Alspach, Bob Budzilek, Chris Macey, and Mark Papke

When a River Runs through It, You Need to Move It.....466
Patrick Laidlaw, Juan Doron, Dylan Brown, and Joseph Murray

**Pivoting between Different Trenchless Rehabilitation Solutions due to
Differing Site Conditions476**
Steve Soldati

Tunneling

**Collaborative Procurement and Risk Management of Soft Ground
Tunnels for the Integrated Pipeline Project in Texas482**
Matt Gaughan, Robert Allen, Charles Cameron, Shelly Hattan,
Thomas Kwiatkowski, Kurt Sanders, Coy Veach, and Ed Weaver

The Pressures of Tunnel Grouting493
Eric Engelskirchen and Brian Glynn

**The Art of Managing Contracts: Insights from the City of Toronto
Ashbridges Bay Treatment Plant Outfall503**
Kevin Waher, Vlad Petran, Andre Solecki, Rogerd Morales,
and Justyna Kempa-Teper

Saunderson PRV Lower Townsite Supply Lines HDD513
Chris Lamont, Sam Saunders, Jason Lueke, and Mason Ross

Water Pipeline Rehabilitation or Replacement

Advancements in Trenchless Technology: San Diego’s First Aqueduct Treated Water Tunnels Rehabilitation Progressive Design Build Project Evaluation523
 Ali Alavi, Greg Raines, and Nita Kazi

Keeping the Connection Alive—How the Kearny Multiples Were Saved.....532
 Ahmed Hassan, Javier Hendricks, John Moody, Mark Romain, and Alexandra F. Wells

Resurrecting an Abandoned Potable Water Pipeline System.....541
 William Brick and Wayne Weaver

Fast Action to a Small Leak Avoids Possible Catastrophic Failure of a Large-Diameter Transmission Main.....550
 Kristen A. Peterson, David J. Tanzi, Jan Chwiedosiuk, and Rasko Ojdrovic

Innovative Solutions for Urban Water Rehabilitation: A Trenchless Technology Success Story.....557
 Lance Secrest and John McGill

Rust to Wealth: Rehabilitation of Steel Pipes Using Carbon Fiber Reinforced Polymer Method563
 Dallas Burke, Tim Benefiel, Roza Fereidoonfar, Parker Moore, and Ben Stephens

How MICP Secured Sensitive Rehabilitation Project of a Large Diameter Pipe Spanning across the Botanica Gardens in Wichita, KS.....569
 Sina Davani and Eric Hayes
