

# **Pipelines 2024**

## **Planning and Design**

Proceedings of Sessions of the Pipelines 2024 Conference

Calgary, Canada  
27 – 31 July 2024

### **Editors:**

**Khalid Kaddoura**  
**Richard Nichols**

ISBN: 979-8-3313-0339-6

**Printed from e-media with permission by:**

# Contents

## *Alternate Project Delivery*

|  |           |
|--|-----------|
| <b>Critical Suction Line Replacement for the LADWP—Design, Construction, and Lessons Learned .....</b>             | <b>1</b>  |
| Max D. Jansen, Vlad D. Scutelnicu, and Todd P. Le  |           |
| <b>Designing for the Future—A Seismically Resilient Transmission Pipeline Crossing in Earthquake Country .....</b> | <b>9</b>  |
| Ali Alavi, Dick Talley, John Worthen, Aaron Eder, Tim Collins, and Mohammad Moridzadeh                             |           |
| <b>Negotiation and Relocation of Utility Pipelines for P3 Projects .....</b>                                       | <b>21</b> |
| Tomasz Bodera  |           |
| <b>Buffalo Pound Non-Potable Water Supply System Regina Regional Pipeline .....</b>                                | <b>31</b> |
| Keith Kingsbury, Chris Robart, Darin Schindel, and Kristin Sies  |           |

## *Asset Management*

|   |           |
|---|-----------|
| <b>New Finding in Cast Iron Pipe Wall Defects Using Free Swimming Ultrasonic Thickness Testing Technology .....</b> | <b>40</b> |
| Jesi Lay, Peter Gaskamp, and Dustin K. Park   |           |
| <b>Utilities in Multi-Purpose or Shared Structures .....</b>  | <b>48</b> |
| Ray Awad, Jim Geisbush, and Jey Jeyapalan   |           |
| <b>Long-Term CIP Project Selection and Optimization for Vertical Assets .....</b>                                   | <b>60</b> |
| Berk Uslu and Mathew Powis  |           |

## *Case Studies*

|  |           |
|--|-----------|
| <b>Replacing the Los Angeles Department of Water and Power’s Aging Infrastructure: Design of the City Trunk Line North Project .....</b>                 | <b>66</b> |
| Adam Dorner and Lawrence Line  |           |
| <b>Geophysics: Non-Invasive Techniques to Characterize Subsurface Geologic Conditions and Potential Hazards along Proposed Pipeline Alignments .....</b> | <b>75</b> |
| Eric Cross   |           |
| <b>The Theory and Practice of Designing a Seismically Resilient 72-in. Diameter Pipeline That Crosses the Wasatch Fault Zone .....</b>                   | <b>85</b> |
| Susan Spore, Scott Paxman, Mike McReynolds, and Rob Davies   |           |

**Avoiding Faults: AC Current Mitigation on a Large Diameter Steel Pipeline—Case Study .....95**  
 Scott Christensen, Brien Clark, Mike Britch, Matt Duffy, and Joelle Bennett

**Case Study of Enhanced HRDIP Pipeline Design and Construction for Fault Crossing Location .....104**  
 Takaaki Kagawa, Takeshi Hara, and Shogo Kaneko

**Joliet Alternative Water Source Program: Formation of a New Regional Water Provider.....115**  
 Darren Fox and Noel Guercio

**Lead Service Line Replacement: Determining Pipe Material for Use in Low Income Communities .....124**  
 Alissa N. Hill

**Pipe Is Old, Street Is New, Valves Are Borrowed, and the PVC Is Blue.....132**  
 Mitchell Bailey, Michael Lehrburger, and Kate Henske

**Hydraulic Modeling: What Do You Mean Our Interceptors Are Too Small? .....143**  
 Ryan S. Brong, Annie E. Cashon, and Corrie A. Kissner

**Alternative Delivery—Keys to Successful Collaboration in Design and Construction .....153**  
 Grant Mysterly, Rachel Lockhart, and Samantha O’Farrell

**Installing Pipeline within Power Right-of-Way: What Could Go Wrong? .....162**  
 Olena Lytvyn

*Pipe and Appurtenance Design*

**The Application of Three-Dimensional Drawings and BIM Files in the Development of Standard Details .....168**  
 Chike K. Monwuba, Mark L. Reid, and Christopher A. Moschillo Sr.

**Sewer Pipeline Material Selection Is Easy, Right? It’s More Complex Than You Might Think .....176**  
 Matthew Alcock, Scott Williamson, Noel Guercio, and Deryk Daquigan

**Twinned 450 mm Waterline Provides Future Water Needs for YVR Groundside Developments and the Iona Island Wastewater Treatment Plant .....186**  
 Kelly Yang and Keith Moggach

**CIP under Pressure: Rethinking Solutions to the CAVSARP System’s High Head without Breaking the Bank.....195**  
 Tess C. Degginger, Todd L. Crouthamel, Gary Brady, Fletcher McKenzie, and Michael Georgalas

**Seismic Design Approach for Ductile Iron Pipe Including Alternative to Boltless Segment Joints.....207**  
 Michael J. Britch

**When Old Answers Do Not Work Anymore: A New Surge Approach to an Existing 100-mi Large Diameter Raw Water System.....217**  
 Rami Issa, John L. Hare, and Andrew Mishler

**Preparing Clear and Concise Specifications for Pipeline Projects .....227**  
 Roger Beielor and Isaac D’Auria

**Closer Look at the M11 Harness .....235**  
 Chris C. Sundberg

**Preventing Catastrophic Failure: Optimize Your Aeration Design.....245**  
 Luke Prinsloo

**Sustainability in Pipeline Materials .....255**  
 Catrina L. Yonteck

**Hydraulic Field and Lab Testing of PVC Pipe .....262**  
 Jay Parvez, Steven Barfuss, and Aaron Herbovitz

**Application of Finite Element Method for Designing Flexible and Anisotropic Pipe Liners .....272**  
 Xuanchen (Owen) Yan, Firat Sever, and Mo Ehsani

**Welder Access to Crotch Plates .....282**  
 Chris C. Sundberg

*Pipe Linings and Liners*

**Repairing History: DC Water’s Experience Designing the Rehabilitation of a 150-Year-Old Sewer.....292**  
 Steve Bian, Haile Tsehayu, Renni Zhao, and Josh Crossen

**Evaluating the Effects of Host Pipe Shape on CIPP Thicknesses Using MOP 145 Design Methods.....302**  
 Adam Braun and Omar Abusharikh

**Your Pipe Lining Has a New Cement—ASTM C150 Compared to ASTM C595.....312**  
 Darren W. Dunker and Jamie Farny

*Pipeline Alignment and Route Study*

**Under a Creek and through the Woods... and a Golf Course, Dog Park, Baseball Fields... and Trail System .....321**  
 Amanda Voss and Carlos Ramos

**Introduction of the Concept of Probabilistic Risk Assessment for Evaluating the Borehole Stability in Horizontal Directional Drilling.....331**  
 Inshik Park and Alireza Bayat

**A Route Study to Reduce Expenses and Reduce Groundwater Usage.....342**  
 Rajinder Singh, Showri Nandagiri, Rafael Ortega, and John Rush

**Giving Utility Companies a Seat at the Table: How Austin Water Is Addressing Utility Conflicts and Relocations for Project Connect .....350**  
 Stacey Gould and Kevin Koeller

**Adding Objectivity to Alignment Studies—A Successful Recipe for Two Case Study Examples .....360**  
 Kyle Sanderson, Shelby Warchesik, Jenifer Tatum, Walter Norwood, and Geleany Morales-Carrero

**Connecting the Dots: How Trenchless Construction Opened Doors for a Wellfield Expansion in Fort Myers .....370**  
 Trent M. D’Alessio, Albert Ruiz, Stephen MacEachern, Jarah Parke, and Larry Campanelli

**Pipeline Alignment Scoring Considerations.....380**  
 Paul Ambrose

**How Phoenix Overcame Challenges to Complete a Major System Resiliency Project: CMAR Alternative Delivery Method Impacts .....390**  
 Juan Rosales, Lisa Jackson, and Clayton Freed

**It Looks Good on Paper, but What’s Going on Underneath? .....400**  
 Jennifer Owens, Felipe Pulido, and Susan Beck

**The Pipeline Less Traveled By: Resolving Design Challenges along a Trail through Critical Wetland Areas .....408**  
 Peter Brask, Chris Olson, and Michael D. Gossett

**Southern Nevada Water Authority Stage II Reliability Upgrades Project: Providing Reliability to Central Las Vegas Water Supply through a New Interconnect Pipeline .....418**  
 Gordon Thelin, Joe Ortiz, Jonathan Tull, and Ryan Pearson

**The Road Not Taken—A Look at Route Studies for Pipeline Alignments .....427**  
 Samantha O’Farrell, Grant Misterly, and Christine Ellenberger

**Permitting—The Great Delayer of Projects and Ways to Expedite the Process .....436**  
 Joel Koenig

**Failing Our Way to Success .....443**  
 Hilda Castillo Smith, Hubert Quintana II, and Kylie Pelzer

*Pipeline Failure Analysis and/or Testing*

**A Comprehensive Analysis of PVC Pressure Pipelines’ In-Service Performance.....452**  
 Bob Walker

**Longest Canadian PipeDiver Inspection: 18.6 km Electromagnetic  
 Inspection for the City of Winnipeg .....462**  
 William D. Jappy and Josh Greenberg

**Results from a Comprehensive 2022 Study of Water Main Performance in the  
 USA and Canada.....470**  
 Steven L. Barfuss

**Design of a New Full-Scale Vertical Ground Deformation Facility for  
 Testing Buried Pipelines.....479**  
 Jonathan Matymish, Ian D. Moore, Neil A. Hoult, and Joshua E. Woods

**Pipe Diameter Is a Dominant Factor in Pipe Failure Risk .....489**  
 Kevin Laven, Shaoqing Ge, Marco Dignum, Michael Zantingh, Nimarta Gill,  
 Kumaraswamy Ponnambalam, and Harry Krinas

*Pipeline Hydraulics/Transient Analysis*

**Seton Storm Trunk: Conventional and Trenchless Installation.....499**  
 Zulfiqar Khowaja and Guillermo Charles Garcia

**Southern Nevada Water Authority Stage II Reliability Upgrades Project:  
 Transient Analysis of 341 ML/d (90 MGD) Monthill Pumping  
 Station and 681 ML/d (180 MGD) Hacienda Pumping Station.....509**  
 Michael Georgalas and Jonathan Tull

**Leak Detection and Localization in Water Networks Using Convolutional  
 Neural Networks with a Modified Loss Function .....519**  
 Morad Nosrati Habibi and Rebecca Dziedzic

**Gravity Siphon Design Best Practices .....529**  
 Marvin McDonald, Michael Gaudreau, and Eymond Toupin

**Hydraulic Analysis Methodologies for Urban Development Areas .....538**  
 Karem M. Carpio

*Seismic or Resiliency*

**A Process and Matrix for Utilizing Hazard-Resilient Pipelines .....551**  
 Craig A. Davis, Nagahisa Hirayama, Thomas D. O'Rourke, Masakatsu Miyajima,  
 Kenichi Soga, Tetsuo Tobita, Katerina Ziotopoulou, Yoshihisa Maruyama,  
 and Brad P. Wham

**Design and Installation of Distributed Fiber Optic Sensing Technology to  
 Monitor HDPE Pipelines at an Earthquake Fault Crossing.....561**  
 Krista (Moita) Araica, Gus Cicala, Marshall P. McLeod, Kenichi Soga,  
 Maksymilian Jasiak, Peter Hubbard, Chien-Chih Wang, Yaobin Yang,  
 Linqing Luo, Andrew Yeskoo, and Shih-Hung Chiu

**Buried Steel Water Pipelines in Geohazard Areas—A Basis for Design.....572**  
 Spyros A. Karamanos, Brent D. Keil, and Robert J. Card

**Biaxial Loading of Jointed Thermoplastic Pipelines for Experimental  
 Seismic Assessment .....585**  
 Jessica L. Ramos, Simon Abrahamse, Cory Ihnotic, and Brad Wham

*Sewer Pipeline Rehabilitation or Replacement*

**From Highway to High-Way—Challenges and Opportunities for  
 Wastewater Design along the I-35 Corridor in Austin.....595**  
 Yun Liu, Stacey Gould, Francisco Guerrero, and Sarah Alverson

**Transitioning Away from Collection System Concrete Structures .....605**  
 Vibhuti Pandey, Barton T. Hubbard Jr., Dusty D. Brannum, and Brad T. Pierce

**Chemical Resistance of Synthetic Fiber-Reinforced Concrete Pipes in  
 Highly Corrosive Environments .....615**  
 Maziar Mahdavi, Ali Abolmaali, and Amin Tehrani

*Thrust Restraint and Joint Design*

**Field-Welded Joint Strength Verification Tests for Bar-Wrapped Concrete  
 Cylinder Pipe .....627**  
 Henry H. Bardakjian

**Concrete Solutions: Repurposing Existing C76 Gravity Pipe to Save \$1M and  
 Costly Permitting Delays.....637**  
 Todd Crouthamel, Tracy Anderson, and Olugbenga Ibikunle

**Innovative Pipeline Design Solves the Problem of Seismic Reliability on a Constrained Urban Site at San Francisco’s New State-of-the-Art Headworks .....647**  
 Kaushik V. Punyamurtula, Mike Dadik, Luke Prinsloo, and Jignesh Desai

*Trenchless Applications*

**Clearing Up the Clear Fork: Implementing a Unique Design Solution to Eliminate a Long-Standing Maintenance Challenge .....655**  
 Josh C. Kercho and Liam Conlon

**Analysis of Field Downhole Annular Pressure Data in HDD Operations .....665**  
 Trevor N. Hoyles and Urso A. Campos

**Making a Solid Choice: Tunnel Crossing Optimization under the Credit River .....675**  
 Neil Harvey, Steven Fradkin, and Sarah Lobo

**Installation of High-Pressure Pipelines in Complex Topographical Settings Utilizing Microtunneling .....685**  
 Erez N. Allouche, Darren O’Toole, and Jake Fei

**Inglewood Sanitary Trunk—Phase 2 Bow River Siphon: A Case Study .....696**  
 Pat Ilasewich, Marvin McDonald, Sean Frank, and Melanie Gray

*Water Quality/Water Resources Management*

**Conducting a Sensitivity Analysis for the Southern Nevada Water Authority’s Horizon Lateral Program.....705**  
 Zachary Hills, Adriana Ventimiglia, Joshua Frank, Juan Rosales, Bryan Young, and Will Williams

**Sustaining Life in the Kansas Prairie: Providing Drought Resistance and Maintaining Civic Growth .....714**  
 Joshua Bedel, Matthew D. Gallagher, and Jeffrey Heidrick

**Thinking Outside the Reservoir: How TRWD Is Using Constructed Wetlands to Defer Building the Next Reservoir .....724**  
 David Schroeder, Chris Zachry, James Johnson, Alan Swartz, Stephen Bianchetta, and Christopher Haeckler
