Volume 13123

Proceedings of SPIE 0277-786X, V. 13123

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Organic, Hybrid, and Perovskite Photovoltaics XXV*, edited by Gang Li, Natalie Stingelin, Proc. of SPIE 13123, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

PEROVSKITE SOLAR CELL TECHNOLOGY

13123 0B **Unveiling the impact of stress: a dynamic twist on properties in halide-perovskites**
[13123-12]

POSTER SESSION

13123 19 **Investigation on electronic structure and optical properties of lead-free double perovskite A_2SnCl_6 (A= Sr, K) from first principle study** [13123-58]

13123 1D **Study on the effect of the environment and encapsulation on the ionic response in perovskite films using the photo-electromotive force technique** [13123-63]
