SPIE

Volume 13225

Proceedings of SPIE 0277-786X, V. 13225

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Sixth International Conference on Image, Video Processing, and Artificial Intelligence (IVPAI 2024)*, edited by Ruidan Su, Proc. of SPIE 13225, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

- v *Conference Committee*
- vii *Introduction*

SIXTH INTERNATIONAL CONFERENCE ON IMAGE, VIDEO PROCESSING AND ARTIFICIAL INTELLIGENCE (IVPAI 2024)

- 13225 02 **Design and implementation of an advanced grid security event analysis system** [13225-20]
- 13225 03 **Application of artificial intelligence algorithm model in fault diagnosis of interactive information** [13225-3]
- 13225 04 **Big data-driven risk prediction approaches of Chengtuo bonds on RBF fusion methods** [13225-5]
- 13225 05 **Solar powered IoT-enhanced portable rice grain dryer for automated temperature regulation** [13225-31]
- 13225 06 **Research on 3D loading and logistics distribution business model** [13225-27]
- 13225 07 **Onboard fault diagnosis of incipient stator turn-turn failure for industrial machines** [13225-22]
- 13225 08 **Research on intelligent scheduling in and out of storage of measuring instruments** [13225-25]
- 13225 09 **The AI-enhanced image: between identity and innovation of graphic designers** [13225-12]
- 13225 0A **An improved zero-resource black-box framework for detecting hallucinations in 100 billion+ parameter generative pre-trained large language models** [13225-21]
- 13225 0B **Research on generative artificial intelligence data authorization mode and strategy: from the perspective of user data value** [13225-7]
- 13225 0C **SSOCNet: a state space model-based small object counting neural network for object counting with cluttered background** [13225-17]
- 13225 0D **Detection and recognition of rice leaf diseases using deep neural networks** [13225-11]
- 13225 0E **TriMoFaceNet: a trimmed MobileFaceNet architecture for resource-constrained environments** [13225-9]
- 13225 0F **RTNet: relational-temporal classification network for multivariate time series** [13225-8]

- 13225 OG **A multimodal transformer model for fish vitality prediction using time-series water temperature data and underwater videos** [13225-23]
- 13225 OH **Public sentiment identification in social media for code-mixed English-Bangla and Banglish text analysis with machine learning** [13225-34]
- 13225 OI **The role of synthetic data in mitigating imbalance in deep-learning-based arrhythmia classification: a comparative study** [13225-16]
- 13225 OJ **Deep-learning-assisted analysis and prediction for detecting the bearing degradation** [13225-18]
- 13225 OK **Spotsecure: parking reservation system with plate number recognition through image processing** [13225-32]
- 13225 OL **Using the first moments for orienting 2D projections** [13225-36]
- 13225 OM **Reconstruction of 3D interventional cardiovascular device geometries using biplanar x-ray fluoroscopic images** [13225-15]
- 13225 ON **A preliminary study of functional reconstruction of paralysed hand based on Mediapipe and deep learning for motor intention recognition** [13225-2]
- 13225 OO **Unsupervised monocular depth estimation algorithm integrated with IMU** [13225-24]
- 13225 OP **Pitch estimation for noisy speech signals using synthetic bone-conducted speech** [13225-33]
- 13225 OQ **The relationship between pitch, intensity, and breathing reset amplitude in readings of Cantonese loaded sentences** [13225-6]
- 13225 OR **A real-time computer vision-based autonomous bitter melon robot harvester** [13225-30]
- 13225 OS **Multi-band magnitude complementary crossover network by using Q-Bernstein filter** [13225-35]
- 13225 OT **Animation style background production based on GAN** [13225-13]
- 13225 OU **Development of a roadway crack detection system tailored for specific environments** [13225-14]
- 13225 OV **Optimization of segmentation for true lumen, false lumen, and false lumen thrombus in type B aortic dissection using the 2D fine-tuning U-Net method** [13225-28]
