SPIE

**Volume 13259**

Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 13259

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Automation Control, Algorithm, and Intelligent Bionics (ACAIB 2024)*, edited by Jing Na, Shuping He, Proc. of SPIE 13259, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

xi *Conference Committee*

## Part One

### INTELLIGENT SYSTEM DESIGN AND CONTROL TECHNOLOGY APPLICATION

---

- 13259 02 **Research on optimization of reconfigurations on fault management control in dual motor hybrid vehicles** [13259-19]
- 13259 03 **Research on fuzzy fault diagnosis methods for high-power servo systems** [13259-141]
- 13259 04 **A fault diagnosis method of electric propulsion system based on ant colony algorithm** [13259-143]
- 13259 05 **Design and implementation of a session management system for heterogeneous protocol conversion** [13259-34]
- 13259 06 **Research on the impact of virtualization technology on GPU performance** [13259-176]
- 13259 07 **Kinematic modeling and predictive control strategy for articulated vehicles considering sideslip angle effects** [13259-154]
- 13259 08 **Rolling bearing fault diagnosis method based on anti-noise ViT model** [13259-50]
- 13259 09 **Research on life prediction method of oil-paper insulation based on LSTM** [13259-133]
- 13259 0A **Research on bearing fault diagnosis method based on improved support vector machine** [13259-56]
- 13259 0B **Research on switching hybrid wireless charging system for electric vehicles based on S-S and LCC-S compensation topology** [13259-37]
- 13259 0C **Research on the hydraulic and electrical control scheme for the closing and centering of the miter gate of large ship lock** [13259-53]
- 13259 0D **The BP neural network microgrid fault diagnosis method based on optimisation of pelican algorithm** [13259-122]
- 13259 0E **Design of visual-based intelligent detection and positioning system** [13259-66]
- 13259 0F **Research on gait control of humanoid robot based on DDPG algorithm** [13259-70]
- 13259 0G **Torsional vibration prescribed time control of rolling mill main drive system** [13259-68]
- 13259 0H **Research on a modified lateral skyhook semi-active control strategy of high-speed trains** [13259-155]
- 13259 0I **Multi-UAV spatiotemporal planning design based on minimum control trajectories** [13259-147]

- 13259 OJ **Study on temperature control of heating furnace using an improved genetic algorithm and adaptive PID** [13259-151]
- 13259 OK **Robust fault-tolerant control for a class of nonlinear time-delay systems** [13259-164]
- 13259 OL **Design and finite element simulation of elastic-plastic secondary collision test rig** [13259-100]
- 13259 OM **AC power regulation control welding power supply based on resonant circuit** [13259-172]
- 13259 ON **Comprehensive global layout optimization of RGV track system route based on autoregressive model** [13259-125]
- 13259 OO **Optimization and application of intelligent control system of agricultural greenhouse under Internet of Things technology** [13259-115]
- 13259 OP **Research on feature extraction and fault diagnosis technology of rolling bearing vibration signals based on Python** [13259-90]
- 13259 OQ **An automatic loading and unloading storage control system and equipment** [13259-167]
- 13259 OR **Research on monitoring and control system applied to closed-loop vehicle attitude contour sensing module** [13259-185]
- 13259 OS **System level calibration for size effect parameters of ring laser gyro SINS** [13259-187]
- 13259 OT **Federated conditional model strategy: a privacy-preserving fault diagnosis method for smart grid systems** [13259-113]
- 13259 OU **Discrete terminal sliding mode control for brain-controlled mobile robot: an event-triggered approach** [13259-120]
- 13259 OV **Finite-time group consensus for multi-agent systems with leader-following control** [13259-124]
- 13259 OW **LQG controller design for seismometer based on differential capacitance detection principle** [13259-104]
- 13259 OX **Adaptive optimal control for permanent magnet synchronous motor system based on policy iteration** [13259-126]
- 13259 OY **Adaptive active suspension levelling control system based on ARM embedded system** [13259-168]
- 13259 OZ **Belt grain conveyor double-drum frequency conversion drive force automation control technology** [13259-129]
- 13259 10 **Research on tennis ball momentum prediction based on decision tree modelling and automatic control principles** [13259-152]
- 13259 11 **System of capsule endoscopy magnetic localization technology based on FPGA** [13259-106]
- 13259 12 **Movement target control and automatic tracking systems** [13259-4]

- 13259 13 **Research on the effect of ultrasonic-assisted electroplating modified winch groove on cable tension release** [13259-158]
- 13259 14 **Classroom AI question-answering system based on machine reading comprehension model** [13259-82]
- 13259 15 **Semi-active suspension LQG control based on hybrid road level** [13259-142]
- 13259 16 **Design of digital twin monitoring system for marine diesel engine processing workshop** [13259-80]
- 13259 17 **Robust control of coupled van der Pol system based on sliding mode** [13259-24]

---

**RESEARCH ON COMPUTER VISION SCIENCE AND INTELLIGENT METHOD**

---

- 13259 18 **Colorful dynasty: Chinese color terms in song-dynasty lyrics from a text mining perspective based on Python** [13259-91]
- 13259 19 **Safety offline reinforcement learning based on knowledge constraints** [13259-169]
- 13259 1A **Enhancing deepfake generation with improved CycleGAN: a focus on gender transformation** [13259-138]
- 13259 1B **Predicting postpartum suicide: a particle swarm optimization approach** [13259-22]
- 13259 1C **Research on AGV integrated navigation technology for walking along the wall** [13259-94]
- 13259 1D **Bag of tricks for real-world single image super-resolution** [13259-95]
- 13259 1E **Review of research on EEG working memory and its application in foreign language learning** [13259-178]
- 13259 1F **Research on image recognition technology of computer interlocking upper machine interface in railway station signal layout diagrams** [13259-65]
- 13259 1G **Research on optical communication PPM signal demodulation technology based on machine learning** [13259-145]
- 13259 1H **Study on the automatic logging identification method of Nen-2 index bed formation** [13259-84]
- 13259 1I **Research on intelligent task planning technology based on multi-satellite and multi-payload** [13259-64]
- 13259 1J **Development of an interpretable knowledge graph for intelligent auxiliary decision-making in the early stages of transmission networks construction** [13259-171]
- 13259 1K **Research on autonomous path planning based on multi-sensors information fusion** [13259-165]
- 13259 1L **Research on path planning for underactuated merchant ships based on maritime rules** [13259-148]
- 13259 1M **Research on the research on national secret eligibility of differential storage stores based on the railway industry** [13259-174]

- 13259 1N **Confidence interval estimation for bit error rates in high-speed serial links** [13259-10]
- 13259 1O **Multi-UAV task assignment method based on modified sparrow search algorithm**  
[13259-107]
- 13259 1P **Research on the method for monitoring rainstorm events factoring in GNSS-derived PWV and multiple meteorological data** [13259-160]
- 13259 1Q **A convolutional neural network-based method for marine ship waste classification**  
[13259-57]
- 13259 1R **Intelligent topology decision optimization method based on knowledge map enhancement algorithm** [13259-130]
- 13259 1S **Long-term adaptability analysis and regulation strategy of Hebei South power grid for smart grid** [13259-182]
- 13259 1T **Research on laser point cloud transmission line extraction method based on improved KDTree and regression fitting fusion** [13259-48]
- 13259 1U **A lightweight residual network for garbage classification** [13259-139]
- 13259 1V **Method for reconstructing ship large-scale component models based on local point cloud feature extraction** [13259-117]
- 13259 1W **Elevator fault recognition system based on open dataset construction** [13259-93]
- 13259 1X **Method for constructing a cluster unmanned aerial vehicle operation duration determination model based on mental fatigue** [13259-173]
- 13259 1Y **A velocity estimation network based on inertial measurement unit array** [13259-16]
- 13259 1Z **Receptive-field adaptive region proposal network for accurate pedestrian detection**  
[13259-163]
- 13259 20 **Balancing role contributions: a novel approach for role-oriented dialogue summarization**  
[13259-97]
- 13259 21 **Price of fairness in two-agents single machine scheduling** [13259-87]
- 13259 22 **Adaptive high dynamic range 3D measurement method based on speckle-assisted fringe projection** [13259-67]
- 13259 23 **Intelligent vehicle route optimization based on energy consumption** [13259-13]
- 13259 24 **Deep reinforcement learning-based UAV secure transmission with integrated sensing and communication** [13259-5]
- 13259 25 **Robot-assisted instrument delivery method based on composite vision guidance**  
[13259-44]
- 13259 26 **Research on appliance recognition system based on improved transformer** [13259-36]

## Part Two

- 13259 27 **Partial label learning via label-specific features enhancement and semi-disambiguation** [13259-127]
- 13259 28 **Root canal imaging based on active vision** [13259-118]
- 13259 29 **A novel attention-based long short-term memory network for human activity recognition based on wearable sensor data** [13259-8]
- 13259 2A **Dominant features fusion for fault pattern recognition of rolling bearing** [13259-144]
- 13259 2B **Uncertainty-aware map-level point cloud semantic segmentation** [13259-180]
- 13259 2C **A knowledge graph completion research combining structure and semantic information** [13259-39]

---

### INTELLIGENT ALGORITHM MODELING AND DATA PREDICTION

---

- 13259 2D **Traffic flow prediction based on graph attention network** [13259-14]
- 13259 2E **A two-phase tennis game momentum prediction model based on random forest** [13259-61]
- 13259 2F **Design of fast Fourier transform-digital beamforming-based algorithm on water level measurement** [13259-55]
- 13259 2G **Research on the calculation method of electromagnetic scattering from target and composite environment** [13259-128]
- 13259 2H **New method for calculating the wax deposition thickness along crude oil pipeline based on mechanism-data fusion** [13259-79]
- 13259 2I **Software defect detection based on source code structuring** [13259-76]
- 13259 2J **Lightweight object detection algorithm for unmanned surface vehicle in inland river based on improved YOLOv8** [13259-11]
- 13259 2K **Multi-objective optimal scheduling for microgrids based on improved sand cat swarm optimization algorithm** [13259-9]
- 13259 2L **Silicon content prediction of hot metal in blast furnace based on hybrid neural networks model** [13259-112]
- 13259 2M **Unmanned aerial vehicle mountain path planning based on improved genetic algorithm** [13259-136]
- 13259 2N **Machine learning-based public health monitoring data anomaly detection and early warning system** [13259-88]
- 13259 2O **Optimization and experimentation of book classification algorithms based on BERT** [13259-51]
- 13259 2P **Research on safety detection algorithm for power work sites based on improved YOLOX** [13259-20]

- 13259 2Q **An algorithm for gas pollution source localization in flood control protection areas based on swarm intelligence** [13259-71]
- 13259 2R **Solution of flexible job shop scheduling problem based on improved fruit fly optimization algorithm** [13259-58]
- 13259 2S **Prediction of student poverty levels based on improved linearly separable support vector machine** [13259-137]
- 13259 2T **LSTM-based mining of change rules of consumption behavior characteristics** [13259-188]
- 13259 2U **Embedded database SQLite application based on ARM platform** [13259-114]
- 13259 2V **Design and application of wind power algorithm library** [13259-29]
- 13259 2W **Research on forward-looking warning algorithm and synthetic scene integrated simulation system of TAWS** [13259-81]
- 13259 2X **Research on forecasting of daily gas consumption of city gate stations of natural gas pipeline network based on deep learning** [13259-12]
- 13259 2Y **Offshore wind power information system implementation based on a lightweight AES encryption algorithm** [13259-31]
- 13259 2Z **4D trajectory planning and parameter prediction algorithm based on flight performance** [13259-46]
- 13259 30 **Simulation of intelligent planning algorithm of low-orbit satellite based on Hungarian algorithm** [13259-98]
- 13259 31 **Improved chaos particle swarm optimization algorithm based on hybrid strategy** [13259-6]
- 13259 32 **Optimization of emergency supplies distribution path based on hybrid genetic algorithm** [13259-89]
- 13259 33 **Improved ant colony algorithm path planning incorporating difference mechanism and dynamic adjustment strategies** [13259-75]
- 13259 34 **DOA estimation based on soft sparse representation using weighted variance** [13259-186]
- 13259 35 **Road traffic target detection based on improved YOLOv5 algorithm** [13259-77]
- 13259 36 **Fan blade surface defect recognition algorithm based on improved ResNet50** [13259-15]
- 13259 37 **Design and implementation of intelligent logistics path information system based on improved genetic algorithm** [13259-162]
- 13259 38 **MAE-MI: masked autoencoder for self-supervised learning on motor imagery EEG data** [13259-78]
- 13259 39 **Simulation calculation of cyclone separator structure optimization** [13259-156]
- 13259 3A **Full coverage path planning algorithm based on bioexcitation neural network** [13259-175]

- 13259 3B **Periodic priority sorting and identification algorithm for power material dispatch** [13259-108]
- 13259 3C **The design of graph-oriented computing algorithm for analyzing N-1 foreseen faults of electric power equipment** [13259-110]
- 13259 3D **A graph database-based state estimation algorithm for main network operating equipment** [13259-109]

---

**PRACTICE OF INTELLIGENT BIONICS AND ENGINEERING APPLICATION**

- 13259 3E **Surface defect detection of rollers based on improved DeepLabv3+ and migration learning** [13259-72]
- 13259 3F **Simulation study on the effect of voltage on multicell upset of FinFET SRAM** [13259-3]
- 13259 3G **Design and analysis of bionic fish for underwater monitoring based on BCF wave propulsion model** [13259-40]
- 13259 3H **Reinforcement binding quality detection model based on deep convolutional neural network** [13259-96]
- 13259 3I **Application and prospect of deep learning in air quality prediction** [13259-63]
- 13259 3J **Analysis and optimization of an azimuth swing mechanism based on slider-crank** [13259-103]
- 13259 3K **An intelligent garbage collection robot for highway cleaning** [13259-62]
- 13259 3L **Research on multi-modal flexible sensing technology based on liquid-metal alloys** [13259-74]
- 13259 3M **Research on defect detection of photovoltaic cells based on improved mask R-CNN-attention model** [13259-60]
- 13259 3N **Optimization study of current stress in transformerless DAB converter** [13259-38]
- 13259 3O **Laser annealing optimization of hydrothermally grown VO<sub>2</sub> infrared detectors for applications in intelligent manufacturing** [13259-132]
- 13259 3P **Study of FPGA-based PCB defect detection with collaborative hardware and software acceleration** [13259-18]
- 13259 3Q **Circuit design for driving distracted behavior recognition based on memristive neural network** [13259-47]
- 13259 3R **Design and study of ultrasonic elliptical vibration platform** [13259-26]
- 13259 3S **Research on the performance of low-temperature energy storage sealing springs based on finite element method** [13259-54]
- 13259 3T **Design of paper handkerchief dispenser based on air780e** [13259-101]
- 13259 3U **Research on the design of smart home products for the elderly based on SEM** [13259-28]

- 13259 3V **The application and development of sensors in the current construction industry under the background of intelligent construction** [13259-43]
- 13259 3W **Research on the movement path control method of biomimetic robot arm for non-climbing operations** [13259-105]
- 13259 3X **Research on high-pressure controllable fast-opening valve based on carbon dioxide phase change** [13259-121]
- 13259 3Y **Effect factors study of ultrasonic nondestructive testing of residual stress** [13259-166]
- 13259 3Z **A disease detection method for tunnel water leakage based on Bayesian reasoning** [13259-123]
- 13259 40 **Centralized remote monitoring method of multi-power watt-hour meter based on Internet of Things technology** [13259-131]
- 13259 41 **Simulink simulation modelling of time-differential fluxgate sensor** [13259-73]
- 13259 42 **Unidirectional loop layout problems based on asymmetric flow and facility location** [13259-170]
- 13259 43 **Research on ceramic battery core defect detection device based on PLC** [13259-116]
- 13259 44 **Detection of construction worker safety protection equipment based on fast YOLO** [13259-102]
- 13259 45 **Research and design of high-precision discrete sigma-delta modulator** [13259-183]
- 13259 46 **Study on island modelling and composite electromagnetic scattering characteristics of ultra-low altitude target over the island** [13259-146]
- 13259 47 **EILLM: efficient imitate with large language models** [13259-2]
- 13259 48 **Laser intelligent bag breaking of household waste based on deep learning** [13259-52]
- 13259 49 **Application research of water efficiency test equipment for toilet flushing valve** [13259-181]
- 13259 4A **Research on the structure of intelligent toilet water efficiency testing machine** [13259-184]
- 13259 4B **Gray wolf optimizer based on gold rush optimizer** [13259-21]
- 13259 4C **Design method of aircraft anti-ice architecture based on model** [13259-157]
- 13259 4D **Stability prediction of variable pitch milling based on extended Hamming linear multistep method** [13259-177]
- 13259 4E **Explore augmented reality and deep feature learning to visual field operation and maintenance for electric power equipment** [13259-59]
