**Volume 13260**

Proceedings of SPIE 0277-786X, V. 13260

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Fourth International Conference on Advanced Optics and Photonics Research in Engineering (AOPR 2024)*, edited by Koichi Shimizu, Yufei Ma, Proc. of SPIE 13260, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

v *Conference Committee*

## **FOURTH INTERNATIONAL CONFERENCE ON ADVANCED OPTICS AND PHOTONICS RESEARCH IN ENGINEERING**

---

- 13260 02 **The effect of stripes in Cassini-ISS images on photometric precision** [13260-11]
- 13260 03 **Potential effects of simulated warming on soil fungal community diversity** [13260-4]
- 13260 04 **Research on encapsulation of the halogen lamp** [13260-5]
- 13260 05 **The compensation of atmospheric turbulence for vortex beam based on deep learning** [13260-14]
- 13260 06 **Research on laser drive circuit for telemetry of combustible gas leakage** [13260-3]
- 13260 07 **Research on continuous jump action recognition of feet based on improved C3D** [13260-41]
- 13260 08 **Design of a high-speed and adjustable CTLE circuit** [13260-31]
- 13260 09 **Static output-feedback control for time-varying polytopic quadratic systems with applications to robotic manipulator** [13260-30]
- 13260 0A **A driving waveform based on releasing charges to suppress ink film splitting for electrowetting displays** [13260-12]
- 13260 0B **Research and design of the angle sensor based on optical arm amplification** [13260-35]
- 13260 0C **Radio spectra research of compact objects sample** [13260-25]
- 13260 0D **Research and application of oil-free screw compressor in low-pressure exhaust gas recovery from coal to ethylene glycol production** [13260-19]
- 13260 0E **Spinning rate function with higher-order-continuity for robust circular SOP conversion in SQWP** [13260-48]
- 13260 0F **Simplified Volterra series-based nonlinear equalization for IM/DD systems** [13260-28]
- 13260 0G **Research on China's mandatory technical rules based on big data and coping measures of domestic and foreign detector industry enterprises** [13260-46]
- 13260 0H **An automatic calibration method for multichannel photo resistive detection module** [13260-45]
- 13260 0I **Research on kinematic calibration algorithm for a Stewart platform** [13260-26]
- 13260 0J **Design and development of real-time acquisition and analysis system for electrical parameters of human acupuncture points** [13260-34]

- 13260 OK **A study on the challenges and possible solutions in developing a robust infrastructure for charging electric vehicles** [13260-15]
- 13260 OL **Study on the impact of external damping on the vibration reduction effect of locally resonant metamaterial** [13260-13]
- 13260 OM **Research on visual detection method of load swing angle of bridge crane** [13260-16]
- 13260 ON **Research on the regulation of single-layer graphene parameters by terahertz band electric field** [13260-22]
- 13260 OO **Research on the development trend of spectrometer technology based on patent analysis** [13260-44]
- 13260 OP **A novel correction method to improve the IR measurement accuracy of cutting tool and workpiece temperature** [13260-37]
- 13260 OQ **The effect of ultrashort pulse laser process parameters on welding strength of high-borosilicate glass** [13260-17]
- 13260 OR **Secure multiparty variance estimation in unbalanced resource environments** [13260-38]
- 13260 OS **Application of super-resolution camera calibration method in DIC measurements** [13260-18]
- 13260 OT **Effect of pad size on shear strength and microstructure of LED solder joints** [13260-24]
- 13260 OU **Papain-capped gold nanoflowers: dual functionality as peroxidase mimic and 4-nitrophenol reduction catalysts** [13260-29]
- 13260 OV **Parameter design and analysis of two-dimensional flexible structure based on high-precision image motion compensation** [13260-42]
- 13260 OW **Bidirectional emergency driving device for optical path failure of space remote sensing camera** [13260-36]
- 13260 OX **Research on accelerated life test technology of space oil lubrication mechanism** [13260-39]
- 13260 OY **Research on state evaluation system of power metering equipment based on BP neural network** [13260-20]
- 13260 OZ **Chinese herbal medicine classification prediction using random forests under the constraint of infrared spectral data** [13260-32]
- 13260 10 **Simulation study on heating characteristics of vertical vacuum heat treatment** [13260-8]
- 13260 11 **Effect of cooling speed on tempering brittleness of 30CrMnSiA steel type II** [13260-10]
