# 2024 IEEE 24th International Conference on Software Quality, Reliability, and Security Companion (QRS-C) **QRS-C 2024**

## Table of Contents

Message from the QRS 2024 Chairs  
QRS 2024 Steering Committee  
QRS 2024 Advisory Committee  
QRS 2024 Organizing Committee  
QRS 2024 Program Committee  
QRS 2024 Chairs of Workshops  
QRS 2024 Keynote Speakers

### Software Testing, Validation, and Quality

Heuristics for Strongly Killing Mutants in Software Mutation Testing .....	1
<i>Boyuan Li (Tsinghua University, China), Duo Li (Tsinghua University, China), Chao Guo (Tsinghua University, China), Jianghai Li (Tsinghua University, China), and Xiaojin Huang (Tsinghua University, China)</i>	
Comprehensive Functional ETL Testing Methodologies for Real-World Data .....	11
<i>Hajar Homayouni (San Diego State University), Maryam Mary Pourebadi (University of California San Diego), Steven T. Nguyen (San Diego State University), Mohammad Hashemi (Hamedan University of Technology), and Hossein Shirazi (San Diego State University)</i>	
An Approach to Optimize Symbolic Execution in Ethereum Smart Contracts .....	21
<i>Yi Liu (East China University of Science and Technology, China; Shanghai Key Laboratory of Computer Software Testing &amp; Evaluating, China), Lizhi Cai (East China University of Science and Technology, China), Chenchen Chai (East China University of Science and Technology, China), and Yuan Ma (East China University of Science and Technology, China)</i>	
Detecting Bias in LLMs' Natural Language Inference Using Metamorphic Testing .....	31
<i>Zhehao Li (Jiangsu University, China), Jinfu Chen (Jiangsu University, China), Haibo Chen (Jiangsu University, China), Leyang Xu (Jiangsu University, China), and Wuhao Guo (Asiainfo Security Technology Co., Ltd, China)</i>	

Towards an Evaluation Methodology of ML Systems from the Perspective of Robustness and Data Quality .....	38
<i>Viraj R. Gala (Business Unit Quality Engineering, Germany), Martin A. Schneider (Business Unit Quality Engineering, Germany), and Marvin Vogt (Business Unit Quality Engineering, Germany)</i>	
Vulnerability Classification on Source Code Using Text Mining and Deep Learning Techniques.....	47
<i>Ilias Kalouptoglou (Centre for Research and Technology Hellas, Greece; University of Macedonia, Greece), Miltiadis Siavvas (Centre for Research and Technology Hellas, Greece), Apostolos Ampatzoglou (University of Macedonia, Greece), Dionysios Kehagias (Centre for Research and Technology Hellas, Greece), and Alexander Chatzigeorgiou (University of Macedonia, Greece)</i>	
Enhancing Software Security Analysis: Targeted Test Case Generation Through Constraint Solving in Interactive Application Security Testing .....	57
<i>Ramon Barakat (Fraunhofer FOKUS, Germany), Paul Wei (Fraunhofer FOKUS, Germany), Jasper von Blanckenburg (Fraunhofer FOKUS, Germany), Roman Kraus (Fraunhofer FOKUS, Germany), and Martin A. Schneider (Fraunhofer FOKUS, Germany)</i>	
An Empirical Study on the Characteristics of Connected Knowledge Subgraphs on Stack Overflow .....	64
<i>Tianyue Sun (Nanjing University of Aeronautics and Astronautics, China), Lina Gong (Nanjing University of Aeronautics and Astronautics, China), Jingxuan Zhang (Nanjing University of Aeronautics and Astronautics, China), and Mingqiang Wei (Nanjing University of Aeronautics and Astronautics, China)</i>	

## Large Language Models and Applications

Navigating the Risks: A Review of Safety Issues in Large Language Models .....	74
<i>Haiyang Wang (Institute of Network Technology, China), Yihao Li (Institute of Network Technology, China; Ludong University, China), Yue Wang (Institute of Network Technology, China), Pan Liu (Shanghai Business School, China), and Pengxiao Li (National Computer Network Emergency Response Technical Team/Coordination Center, China)</i>	
Towards LLM-Enhanced Digital Twins of Intelligent Computing Center .....	84
<i>Yi Yang (Institute of Automation, Chinese Academy of Sciences, China), Manxian Liu (Institute of Automation, Chinese Academy of Sciences, China), Kun Jia (The 33rd Research Institute of China Electronics Technology Group Corporation, China), Wenjie Dong (The 33rd Research Institute of China Electronics Technology Group Corporation, China), and Jian Wang (Institute of Automation, Chinese Academy of Sciences, China)</i>	
Large Language Models on Solving Integral Calculus Problems .....	90
<i>Jônatas A. Silva (Federal University of Ouro Preto, Brazil), Talles H. Medeiros (Federal University of Ouro Preto, Brazil), and Fabrício Góes (University of Leicester, UK)</i>	

Generating Evaluation Criteria of Domain-Specific Large Language Model Using Word Vector Clustering .....	94
<i>Jingyu Yang (National Defence University, China; State Key Laboratory of Intelligent Game, China), Hao Xu (National Defence University, China; State Key Laboratory of Intelligent Game, China), Rongxiao Wang (National Defence University, China; State Key Laboratory of Intelligent Game, China), Xuran Ming (State Key Laboratory of Intelligent Game, China; The Institute of Software, Chinese Academy of Sciences, China), and Shoubin Li (State Key Laboratory of Intelligent Game, China; The Institute of Software, Chinese Academy of Sciences, China)</i>	
A Fine-Grained Emotion Prediction Method Based on Large Language Models .....	101
<i>Fang Li (Jiangsu College of Engineering and Technology, China; Guilin University of Electronic Technology, China), Yubin Qu (Jiangsu College of Engineering and Technology, China; Guilin University of Electronic Technology, China; Army Engineering University of PLA, China), Chao Feng (Jiangsu College of Engineering and Technology, China), Xianzhen Dou (Jiangsu College of Engineering and Technology, China), and Long Li (Guilin University of Electronic Technology, China)</i>	
Research on Intelligent Relic Interpretation System Based on a Large Language Model .....	111
<i>Jingjing Guo (Beijing Union University, China) and Xi Han (Beijing Union University, China)</i>	

## **System/Software Safety and Dependability**

On Safety Assurance of Symbolic Artificial Intelligence .....	117
<i>M. Guzman (An-Institut Technische Universität München, Germany), R. Bouchekir (An-Institut Technische Universität München, Germany), A. Cook (Third party, Germany), and J. Haindl (Third party, Germany)</i>	
An Empirical Study on Modeling Testing Requirements for Safety-Critical Software .....	125
<i>Wenyao Xue (Beihang University, China; Henan University of Technology, China), Qingwei Ren (Beihang University, China), and Yichen Wang (Beihang University, China)</i>	
ADS Modeling and Safety Verification in Extreme Driving Scenarios .....	135
<i>Ying Zhao (Jiangsu Normal University, China), Yi Zhu (Jiangsu Normal University, China; Nanjing University of Aeronautics and Astronautics, China), Li Zhao (Jiangsu Normal University, China), Zexin Li (Jiangsu Normal University, China), and Chan Yin (Jiangsu Normal University, China)</i>	
Safety Decision of Autonomous Driving Behavior Based on Bayesian Network and Its Verification Method .....	145
<i>Zexin Li (Jiangsu Normal University, China), Yi Zhu (Jiangsu Normal University, China; Nanjing University of Aeronautics and Astronautics, China), Li Zhao (Jiangsu Normal University, China), and Ying Zhao (Jiangsu Normal University, China)</i>	

A SSCPS Safety Assessment Method Based on Mission Risk .....	154
<i>Yafeng Shen (Institute of Computer Application, China Academy of Engineering Physics, China), Lianzhi Qi (Institute of Computer Application, China Academy of Engineering Physics, China), Shiyong Li (Institute of Computer Application, China Academy of Engineering Physics, China), Siyou Ma (Institute of Computer Application, China Academy of Engineering Physics, China), and Fei Deng (Institute of Computer Application, China Academy of Engineering Physics, China)</i>	
Exploring the Efficacy of Dynamic Approaches in Database Encryption and Translational Security .....	163
<i>Tse-Chuan Hsu (Soochow University, Taiwan) and Han-Sheng Lu (Soochow University, Taiwan)</i>	

## Reliability Modeling and Prediction

Capacity and Time Reliability Evaluation for Time-Varying Networks .....	170
<i>Ying Gao (Beihang University, China), Ruiying Li (Beihang University, China; Science and Technology on Reliability and Environmental Engineering Laboratory, China), and Rui Kang (Beihang University, China; Science and Technology on Reliability and Environmental Engineering Laboratory, China; Zhongfa Aviation Institute of Beihang University, China)</i>	
A Reliability Benchmarking Method for Linux .....	177
<i>Zhangjun Lu (Tongji University, China), Wei Zhang (Tongji University, China), Hao Xu (Tongji University, China), and Jianhui Jiang (Tongji University, China)</i>	
A-TCN: Attention-Based TCN for OSS Reliability Prediction on High-Dimensional Fault Dataset .....	187
<i>Qiuying Li (Beihang University, China), Limeng Zhang (Beihang University, China), and Shuo Liu (Beihang University, China)</i>	

## Blockchain and Smart Contracts

Efficient Detection of Selfish Mining Attacks on Large-Scale Blockchain Networks .....	196
<i>Fatemeh Erfan (Polytechnique Montréal, Canada), Martine Bellaïche (Polytechnique Montréal, Canada), and Talal Halabi (Université Laval, Canada)</i>	
Leveraging Social Media Sentiments and Ethical Signals for NFT Valuation .....	206
<i>Luyao Zhang (Duke Kunshan University, China), Yutong Quan (Duke Kunshan University, China), Jiaxun Cao (Duke Kunshan University, China), Kyrie Zhixuan Zhou (University of Illinois at Urbana-Champaign, USA), and Xin Tong (Duke Kunshan University, China)</i>	
Decoding Social Sentiment in DAO A Comparative Analysis of Blockchain Governance Communities .....	216
<i>Yutong Quan (Duke Kunshan University, China), Xintong Wu (Duke Kunshan University, China), Wanlin Deng (Duke Kunshan University, China), and Luyao Zhang (Duke Kunshan University, China)</i>	

The Economics of Blockchain Governance Evaluate Liquid Democracy on the Internet Computer ..	225
<i>Yulin Liul (SciEcon CIC, United Kingdom) and Luyao Zhangz (Duke Kunshan University, China)</i>	
Blockchain Implementation for Visual Art Copyright Protection .....	232
<i>Huang Zhou (Wuhan Textile University, China), Yongqiang Chen (Wuhan Textile University, China), Jiangchen Zhou (Wuhan Textile University, China), and Wenxuan Wang (Wuhan Textile University, China)</i>	

## Artificial Neural Networks

Complex Network Theory-Based Deep Neural Network Degradation Analysis in the Context of Bit Attack .....	240
<i>Qi Shao (Beihang University, China), Shunkun Yang (Beihang University, China), Yijing Zhou (Beihang University, China), Dan Lu (Beihang University, China), and Qi Yao (Beihang University, China)</i>	
DeepDTS Diverse Test Selection Method for Deep Neural Networks .....	250
<i>Mert Dedekoy (Bogazici University, Turkey) and Alper Sen (Bogazici University, Turkey)</i>	
Bit Attacking Deep Neural Networks Based on Complex Networks Theory .....	260
<i>Yijing Zhou (Beihang University, China), Shunkun Yang (Beihang University, China), Qi Shao (Beihang University, China), and Yuhao Zhang (Beihang University, China)</i>	
Generating Adversarial Examples Using Parameter-Free Penalty Method .....	269
<i>Jiyuan Sun (Kyushu University, Japan), Haibo Yu (Kyushu Sangyo University, Japan), and Jianjun Zhao (Kyushu University, Japan)</i>	
MFTCN A Multi-Frequency Temporal Convolutional Network for Enhancing Temperature Prediction Dependability .....	279
<i>Wei Huang (Beijing University of Posts and Telecommunications, China; Key Laboratory of Trustworthy Distributed Computing and Service (BUPT), Ministry of Education, China), Yuan Gao (Huazhong University of Science and Technology, China), Xiangling Fu (Beijing University of Posts and Telecommunications, China; Key Laboratory of Trustworthy Distributed Computing and Service (BUPT), Ministry of Education, China), and Zhiyi Song (Beijing University of Posts and Telecommunications, China; Key Laboratory of Trustworthy Distributed Computing and Service (BUPT), Ministry of Education, China)</i>	
Solar Panel Fault Detection: Applying Convolutional Neural Network for Advanced Fault Detection in Solar-Hydrogen System At University .....	289
<i>Salaki Reynaldo Joshua (Kangwon National Universty, Korea), Sanguk Park (Kangwon National Universty, Korea), and Kihyeon Kwon (Kangwon National Universty, Korea)</i>	
Behavioral System using SVM and CNN for Karate Injury Detection and Rehabilitation Process.....	299
<i>Imen Chebbi (FSEGS, University of Sfax, Tunisia), Sarra Abidi (NSCS, University of Manouba, Tunisia), and Leila Ben Ayed (ENSI, University of la Manouba, Tunisia)</i>	

Rapid Accuracy Loss Evaluation for Quantized Neural Networks Using Attention-Based Multifactor Modeling .....	308
<i>Lu Wei (Northwestern Polytechnical University, China; Xi'an Microelectronics Technology Institute, China), Chaojie Yang (Xi'an Microelectronics Technology Institute, China), Zhong Ma (Xi'an Microelectronics Technology Institute, China), and Qin Yao (Northwestern Polytechnical University, China; Xi'an Microelectronics Technology Institute, China)</i>	

## Machine/Deep Learning and Applications

AI-Driven Green Campus Solar Panel Fault Detection Using ResNet-50 for Solar- Hydrogen System in Universities .....	316
<i>Salaki Reynaldo Joshua (Kangwon National Universty, Korea), Sanguk Park (Kangwon National University, Korea), and Kihyeon Kwon (Kangwon National Universty, Korea)</i>	
Testing and Reinforcement Learning – A Structured Literature Review .....	326
<i>Shahzad Nayab (TU Graz, Institute of Software Technology, Austria) and Franz Wotawa (TU Graz, Institute of Software Technology, Austria)</i>	
Explainable AI Applied in Healthcare: A Case Study of Diabetes Prediction .....	336
<i>Shou-Yu Lee (Tunghai University, Taiwan), William Cheng-Chung Chu (Tunghai University, Taiwan), Yao-Hsien Tseng (Tungs' Taichung MetroHarbor Hospital, Taiwan), You-Gang Zhang (Tungs' Taichung MetroHarbor Hospital, Taiwan), and Hung-Lung Tsai (Tungs' Taichung MetroHarbor Hospital, Taiwan)</i>	
Image Tampering Detection Method Based on Multi-feature Fusion .....	345
<i>Ruiyang Li (China University of Geosciences, China), Jing Zhu (China University of Geosciences, China), Xiaohu Luo (China University of Geosciences, China), and Zhao Ma (China University of Geosciences, China)</i>	
Granger Causality Analysis Between Sensor Data Based on Deep Gaussian Process Model .....	357
<i>Yunlong Zhong (Tsinghua University, China) and Zhenglin Liang (Tsinghua University, China)</i>	
Performance Profiling of Federated Learning Across Heterogeneous Mobile Devices .....	363
<i>José A. Esquivel (Queen Mary University of London, United Kingdom), Bradley Aldous (Queen Mary University of London, United Kingdom), Ahmed M. Abdelmoniem (Queen Mary University of London, United Kingdom), Ahmad Alhilal (Hong Kong University of Science and Technology, Hong Kong), and Linlin You (Sun Yat-Sen University, China)</i>	

## Bug Analysis, Detection, and Prediction

JFuzzer Detecting Optimization Errors in JavaScript Just-in-Time Compilers .....	373
<i>Chi Zhang (Jiangsu University, China), Jinfu Chen (Jiangsu University, China), Saihua Cai (Jiangsu University, China), Jingyi Chen (Jiangsu University, China), and Chunlei Huang (Jiangsu University, China)</i>	

Enhancing Incremental Dataflow Analysis in an IDE .....	383
<i>Koko Harianto (National Yang Ming Chiao Tung University, Taiwan), Feng-Jian Wang (National Yang Ming Chiao Tung University, Taiwan), and Mahmoud M. Abouzeid (National Yang Ming Chiao Tung University, Taiwan)</i>	
A Privacy Leakage Detection Method for Personalized Course Recommendation Based on Pi-Calculus .....	391
<i>Zixin Wu (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China), Xiaoyun Zhou (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China), Yi Zhu (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China; Nanjing University of Aeronautics and Astronautics, Ministry of Industry and Information Technology, China), Chenyu Wang (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China), and Guosheng Hao (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China)</i>	
Defect-Introducing Defect Prediction Testing .....	401
<i>Fanjiang Xu (National Key Laboratory of Space Integrated Information System, Institute of Software) and Zeyu Sun (National Key Laboratory of Space Integrated Information System, Institute of Software; State Key Laboratory of Intelligent Game)</i>	

## **Fault Localization and Repair for AI Systems**

Using $\mu$ Bert to Improve Mutation-Based Fault Localization for Novice Programs .....	411
<i>Yuxing Liu (Southwest Minzu University, China), Jiaxi Li (Southwest Minzu University, China), Haiyang Wu (Southwest Minzu University, China), Xuchuan Zhou (Southwest Minzu University, China), and Hengyuan Liu (Beijing University of Chemical Technology, China)</i>	
Enhancing Programming Competition Performance: A Data-Driven Approach to Personalized Training .....	417
<i>Bin Du (Beijing University of Chemical Technology, China), Jize Yang (Beijing University of Chemical Technology, China), Shumei Wu (Beijing University of Chemical Technology, China), Zhanwen Zhang (Beijing University of Chemical Technology, China), and Yong Liu (Beijing University of Chemical Technology, China)</i>	
Design and Application of Ship Information System Development Platform Architecture Based on OSGi .....	423
<i>Xibing Yang (The 20th Research Institute of China Electronics Technology Group Corporation, China), Guanglu Zhou (The 20th Research Institute of China Electronics Technology Group Corporation, China), and Xiaowei Guo (The 20th Research Institute of China Electronics Technology Group Corporation, China)</i>	
High Accurate, Low Latency Conversion of Spiking Neural Networks with BLIF Neurons .....	432
<i>Zhongxi Wang (Xi'an Microelectronics Technology Institute, China), Shen Li (Xi'an Microelectronics Technology Institute, China), Zhong Ma (Xi'an Microelectronics Technology Institute, China), and Qin Yao (Xi'an Microelectronics Technology Institute, China)</i>	

Failure Modelling and Analysis of Airborne Video Transmission System Based on Data Reliability .....	441
<i>Zhiqiang Zhu (Northwestern Polytechnical University, China; AVIC Xi'an Aeronautics Computing Technique Research Institute, China), Shikui Wang (AVIC Xi'an Aeronautics Computing Technique Research Institute, China), Chengwen Li (AVIC Xi'an Aeronautics Computing Technique Research Institute, China), and Wei Zheng (Northwestern Polytechnical University, China)</i>	
Search-Based Automated Program Repair A Survey .....	447
<i>Shilong Zhang (China University of Geosciences, China), Dongcheng Li (California State Polytechnic University - Humboldt, USA), Man Zhao (China University of Geosciences, China), Hui Li (China University of Geosciences, China), and W. Eric Wong (University of Texas at Dallas, USA)</i>	

## Cybersecurity, Network Attack, and Cyber-Physical Systems

Research of Military Cyber Operation Forensic and Analysis in Russia-Ukraine Conflict .....	457
<i>Shiyu Liu (Beijing Institute of Computer Technology and Application, China), Dongfang Li (Beijing Institute of Computer Technology and Application, China), Guang Yang (Beijing Institute of Computer Technology and Application, China), Mingyue Su (Beijing Institute of Computer Technology and Application, China), and Wei Shen (Beijing Institute of Computer Technology and Application, China)</i>	
Advancing Forensic Examination of Cyber Predator Communication Through Machine Learning .	464
<i>Ayodeji Ogundiran (Bowie State University Bowie, USA), Hongmei Chi (Florida A&amp;M University, USA), Jie Yan (Bowie State University Bowie, USA), and Ruth Agada (Bowie State University Bowie, USA)</i>	
Deciphering Livestream Contents OCR-Driven Thumbnail Forensic Analysis .....	474
<i>Oluwatoyin Akinbi (Florida Agricultural and Mechanical University, USA), Hongmei Chi (Florida Agricultural and Mechanical University, USA), Jie Yan (Bowie State University, USA), and Edward L. Jones (Florida Agricultural and Mechanical University, USA)</i>	
Review of Key Attribute Analysis and Verification Techniques for CPS .....	484
<i>Mingfu Tuo (Air Force Engineering University, China), Wenliang Wu (Northwest A&amp;F University, China), Hongmei Zhang (Air Force Engineering University, China), and Yongmei Zhao (Air Force Engineering University, China)</i>	
Evaluating Importance of Nodes in Interdependent Networks .....	488
<i>Pengpeng Sun (Northwest A&amp;F University, China), Bohan Shao (Northwest A&amp;F University, China), Wenliang Wu (Northwest A&amp;F University, China), and Hongming Zhang (Northwest A&amp;F University, China)</i>	

## Dependable Intelligent Systems

Wuli-Shili-Renli-Jili System Approach and Its Application in Large Model Value Alignment .....	500
<i>Jiayin Qi (Guangzhou University, China), Kun Jia (Guangzhou University, China), Yuxin Zhang (University of Palermo, Italy), Xiaobing Feng (Shanghai University of International Business and Economics, China), and Haiyan Yan (Shanghai University of International Business and Economics, China)</i>	
CGFuzz A Dynamic Test Case Generation Method for DL Framework Based on Function Coverage ....	507
<i>Qing Cai (Beihang University, China), Beibei Yin (Beihang University, China), and Jing-Ao Shi (Beihang University, China)</i>	
Adaptive Metamorphic Testing for Object Detection Systems .....	517
<i>Ruifeng Li (Beihang University, China), Yanwen Liu (Beihang University, China), Chunjia Zhu (China Ship Development and Design Center, China), Zenghui Zhou (Beihang University, China), and Zheng Zheng (Beihang University, China)</i>	
Test Adequacy Criteria for Metamorphic Testing .....	527
<i>Yanwen Liu (Beihang University, China), Ruifeng Li (Beihang University, China), Hao Tao (China Ship Development and Design Center), and Zheng Zheng (Beihang University, China)</i>	
Fault Diagnosis Using Channelized Encoder-Decoder Frame for Distributed Redundant Inertial Navigation System .....	535
<i>Boxuan Wu (Beihang University, China), Jia Song (Beihang University, China), Chaoyue Zhao (Beihang University, China), Yunlong Hu (Beihang University, China), and Weize Shang (Beihang University, China)</i>	
A Human-Machine Intervention Model of Autonomous Driving Vehicle .....	544
<i>Zhijie Feng (Wuhan University of Technology, China), Yu Lin (China Electronic Product Reliability and Environmental Testing Research Institute, China), Chuqi Guo (Wuhan University of Technology, China), and Jianwen Xiang (Wuhan University of Technology, China)</i>	

## Intelligent Software Engineering

Sentiment Analysis of Comment Texts Based on Deep Learning .....	554
<i>Chengfang Tan (Suzhou University, China), Jun Ling (Suzhou University, China), Shanshan Li (Suzhou University, China), and Wenquan Tian (Suzhou University, China)</i>	
A Dynamic Interest-Aware Message-Passing GCN for Recommendation .....	559
<i>Weichao He (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China), Yi Zhu (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China; Nanjing University of Aeronautics and Astronautics, China), Mei Song (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China), Zixin Wu (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China), and Guosheng Hao (Jiangsu Normal University, China; Jiangsu Engineering Technology Research Center of ICT in Education, China)</i>	

MTPI: Multimodal Trajectory Prediction for Autonomous Driving via Informer .....	569
<i>Mengting Sun (Anhui Polytechnic University, China), Jun Li (Anhui Polytechnic University, China), Jiang Liu (Anhui Polytechnic University, China), and Xiaohan Yang (Anhui Polytechnic University, China)</i>	
Predictive Mutation-Based Fault Localization Balancing Effectiveness and Cost .....	577
<i>Shunqing Xu (Beijing University of Chemical Technology, China), Shumei Wu (Beijing University of Chemical Technology, China), Zheng Li (Beijing University of Chemical Technology, China), Luxi Fan (Beijing University of Chemical Technology, China), and Yong Liu (Beijing University of Chemical Technology, China)</i>	
A Model-Agnostic Interpretability Approach Based on Enhanced Hierarchical Clustering .....	583
<i>Yi Ding (Jiangsu Normal University, China), Yi Zhu (Jiangsu Normal University, China; Nanjing University of Aeronautics and Astronautics, China), Qiao Yu (Jiangsu Normal University, China), and Chongyang Huang (Jiangsu Normal University, China)</i>	

## AI Reliability and Security I

Soft Actor-Critic Based Anti-Attack XSS Detection .....	591
<i>Fan Zhang (Beijing Institute of Astronautical Systems Engineering, China), Haoran Huang (Harbin Engineering University, China), Hongwu Lv (Harbin Engineering University, China), Meijuan Jia (Daqing Normal University, China), and Juntao Liu (Beijing Institute of Astronautical Systems Engineering, China)</i>	
A Visualization Method for Association Analysis and Fusion Based on Large-Scale Polymorphic Information .....	601
<i>Chao-Nan Song (State Key Laboratory of Intelligent Game, China), Yi Cao (China People's Liberation Army National Defence University, China), Jin Jin (China People's Liberation Army National Defence University, China), Qiong-Ying Fu (China People's Liberation Army National Defence University, China), Rong-Sen Li (China People's Liberation Army National Defence University, China), and Hai-Bo Wang (State Key Laboratory of Intelligent Game, China)</i>	
A Land-Based War-Gaming Simulation Method Based on Multi-agent Proximal Policy Optimization .....	611
<i>Xule Gao (State Key Laboratory of Intelligent Game, China; Institute of Software Chinese Academy of Sciences, China), Rui Wang (State Key Laboratory of Intelligent Game, China; Institute of Software Chinese Academy of Sciences, China), Zhaohui Liu (State Key Laboratory of Intelligent Game, China; Institute of Software Chinese Academy of Sciences, China), and Yi Ren (State Key Laboratory of Intelligent Game, China; Institute of Software Chinese Academy of Sciences, China)</i>	

Analysis of Reliable Architecture Techniques for Adaptive Adversarial Systems of System .....	619
<i>Changjun Li (the People's Liberation Army National Defence University, China; Unit 95545 of the People's Liberation Army, China), Jingyu Yang (the People's Liberation Army National Defence University, China; State Key Laboratory of Intelligent Game, China), Xi Wu (the People's Liberation Army National Defence University, China; State Key Laboratory of Intelligent Game, China), and Guangwen Yang (Unit 95545 of the People's Liberation Army, China)</i>	
Effects of L <sub>p</sub> -Norm Deficits in Quantization Human Perception on Attack Methods .....	625
<i>Yuanyuan Zhang (BeiHang University, China), Yifan Du (BeiHang University, China), and Yichen Wang (BeiHang University, China)</i>	

## AI Reliability and Security II

Implications for Running AI Applications on Serverless Platforms .....	633
<i>Xie Dong (National University of Defence Technology, China), Hu Yang (Center for Information Research, Academy of Military Sciences, China), Qin Li (Center for Information Research, Academy of Military Sciences, China), and Zhang Jianfeng (National University of Defence Technology, China)</i>	
Research on Simulation System Software Reliability Demonstration Testing Scheme Based on Nonparametric Method .....	643
<i>Zhen-Yu Ma (National Defense University, China; State Key Laboratory of Intelligent Game, China), Xiao-Yuan He (National Defense University, China; State Key Laboratory of Intelligent Game, China), Sui-Ke Li (National Defense University, China; State Key Laboratory of Intelligent Game, China), Chi Wang (National Defense University, China; State Key Laboratory of Intelligent Game, China), and Chao Zhang (State Key Laboratory of Intelligent Game, China; Institute of Software Chinese Academy of Sciences, China)</i>	
Do Agents Behave Aligned with Human Instructions - An Automated Assessment Approach .....	651
<i>Kairui Wang (State Key Laboratory of Intelligent Game, China; Institute of Software Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Yawen Wang (State Key Laboratory of Intelligent Game, China; Institute of Software Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Xi Wu (State Key Laboratory of Intelligent Game, China; National Defense University, China), Shoubin Li (State Key Laboratory of Intelligent Game, China; Institute of Software Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Qing Wang (State Key Laboratory of Intelligent Game, China; Institute of Software Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)</i>	
Temporal Knowledge Graph Reasoning with Dual Guiding Constraints .....	661
<i>Jinpeng Li (Shanghai University, China), Shanshan Jiao (National Defense University, China; Unit 93046 of the People's Liberation Army, China; State Key Laboratory of Intelligent Game, China), Shengming Guo (National Defense University, China; State Key Laboratory of Intelligent Game, China), and Xiangfeng Luo (Shanghai University, China)</i>	

## Fuzzing Systems and Analysis

QAQA-SS An Improved Fuzzing Approach with Seed Scheduling Based on the UCB Algorithm for QA Systems .....	670
<i>JinFu Chen (Jiangsu University, China), Yucheng Wu (Jiangsu University, China), Haibo Chen (Jiangsu University, China), Jingyi Chen (Jiangsu University, China), and Ernest Akpaku (Jiangsu University, China)</i>	
A Fuzzy AHP-Based Quantitative Framework to Prioritize the Crowd-Based Requirements .....	680
<i>Saif Ur Rehman Khan (Shifa Tameer-e-Millat University, Pakistan), Maha Younus (COMSATS University Islamabad (CUI), Pakistan), Javed Iqbal (COMSATS University Islamabad (CUI), Pakistan), and Muhammad Abdul Basit Ur Rahim (California State University Long Beach, CA)</i>	
An IT Community Code Quality Ranking Model Based on Sentiment Analysis and Fuzzy Multi-attribute Decision-Making .....	692
<i>Hongwu Qin (Northwest Normal University, China; Universiti Teknologi MARA, Malaysia), Kexin Tang (Northwest Normal University, China), Xiuqin Ma (Northwest Normal University, China; Universiti Teknologi MARA, Malaysia), Xuli Niu (Northwest Normal University, China), and Yijin Zheng (Northwest Normal University, China)</i>	

## Human and Social Aspects of Software Quality

Research on the Impact of Tester'S Technical and Cognitive Factors on Aerospace Software Test Quality .....	699
<i>Yadi Hu (Beijing Institute of Computer Technology and Application, China), Jinlong Tao (Beijing Institute of Computer Technology and Application, China), Yu Liang (Beijing Institute of Computer Technology and Application, China), Zhewei Xu (Beijing Institute of Computer Technology and Application, China), and Zhangtao Jia (Beijing Institute of Computer Technology and Application, China)</i>	
Histogram Publication with Shuffled Differential Privacy .....	704
<i>Yiming Gao (Nanjing University of Aeronautics and Astronautics, China), Xiaopeng Yang (Nanjing University of Aeronautics and Astronautics, China), Tong Wu (Nanjing University of Aeronautics and Astronautics, China), and Yuqian Zhou (Nanjing University of Aeronautics and Astronautics, China)</i>	
Ada4DP: Adversarial Enhanced Dual-Attentive Aggregation Learning for Defect Prediction .....	709
<i>Yucheng Zhang (Nantong University, China), Chenqiang Shen (Nantong University, China), Xiaolin Ju (Nantong University, China), Hao Shen (Nantong University, China), and Xiang Chen (Nantong University, China)</i>	
Why Students Write Low-Quality Unit Testing Scripts: An Empirical Study from Software Testing Skill Competitions .....	719
<i>Sufan Zhang (Nanjing University of Posts and Telecommunications, China), Yuanxiang Yang (Nanjing Xiaoyao Technology Co., Ltd, China), and Ziyuan Wang (Nanjing University of Posts and Telecommunications, China)</i>	

Reliability Evaluation of Classroom Teaching with MCI in College Based on the DFT Model .....	721
<i>Siwei Zhou (Guangdong Ocean University, P.R.China), Xiaohong Peng (Guangdong Ocean University, P.R.China), Yinghuai Yu (Guangdong Ocean University, P.R.China), Yubin Qu (Jiangsu College of Engineering and Technology, P.R.China), and Ting Zeng (Guangdong Ocean University, P.R.China)</i>	

## Advanced Computing and Intelligent Services I

LMSA: Lightweight Multi-Scale Attention Model for Garbage Detection Based on YOLOV5 .....	727
<i>Fumin Liu (Hunan University of Technology, China), Yuezhong Wu (Hunan University of Technology, China), Haiyang Huang (Hunan University of Technology, China), Xuehao Shen (Hainan University, China), and Jiefu Deng (Xihua University, China)</i>	
Syntax-Dependency Orientation Guided Vision-and-Language Transformer for Image-Text Matching .....	737
<i>Xinpan Yuan (Hunan University of Technology, China), Jiabao Li (Hunan University of Technology, China), Zhiqi Zhang (Hunan University of Technology, China), Zhigao Zeng (Hunan University of Technology, China), and Qiang Liu (Hunan University of Technology, China)</i>	
High Intensity Radar Echo Extrapolation Based on Stacked Generative Structure .....	746
<i>Shiyu Tao (Nanjing University of Information Science and Technology, China), Qi Liu (Nanjing University of Information Science and Technology, China), Yonghong Zhang (Nanjing University of Information Science and Technology, China), and Xiaodong Liu (Edinburgh Napier University, UK)</i>	
Methods for Removing Artifacts from EEG Signals: A Review .....	752
<i>Yucheng Zhao (University of Jinan, China), Guangyu Wang (University of Jinan, China), Mingxu Sun (University of Jinan, China), Zhonghua Zhao (The People's Hospital of Huaiyin Jinan, China), and Yan Yan (Shandong Guohe Industrial Technology Institute Co., Ltd., China)</i>	
Different Control Methods for FES Cycling Review .....	759
<i>Guangyu Wang (University of Jinan, China), Yucheng Zhao (University of Jinan, China), Mingxu Sun (University of Jinan, China), Wenhua Dong (The People's Hospital of Huaiyin Jinan, China), and Shiwei Zhu (Shandong Guohe Industrial Technology Institute Co., Ltd., China)</i>	
The Most Important Factors Chosen in Medical Clinical Data by Using Multi-facet Clustering Variational Autoencoders (MFCVAE) .....	767
<i>Zhihong Zeng (Longyan University, China), Dong-Meau Chang (Intelligence Education Lingnan Normal University, China), Tse-Chuan Hsu (Soochow University, Taiwan), and Zhou Liang (Intelligence Education Lingnan Normal University, China)</i>	

## Advanced Computing and Intelligent Services II

Evolutionary Review of Research Themes in Functional Electrical Stimulation Within the Rehabilitation Medicine Field .....	772
<i>Ping Yang (Qilu University of Technology, China), Shiwei Zhu (Qilu University of Technology, China), Oleksandr Koval (National Technical University of Ukraine, Ukraine), Yanqing Zhao (Qilu University of Technology, China), and Junfeng Yu (Qilu University of Technology, China)</i>	
A New Improved Method of Recurrent Memory Perception for Radar Echo Extrapolation .....	779
<i>Ru Ji (Nanjing University of Information Science and Technology, China), Qi Liu (Nanjing University of Information Science and Technology, China), Yonghong Zhang (Nanjing University of Information Science and Technology, China), and Xiaodong Liu (Edinburgh Napier University, UK)</i>	
FedCST Federated Learning on Heterogeneous Resource-Constrained Devices Using Clustering and Split Training .....	786
<i>Zhilu Wang (Nanjing University of Information Science and Technology, China), Haiyang Lin (Nanjing University of Information Science and Technology, China), Qi Liu (Nanjing University of Information Science and Technology, China; Jiangsu Province Engineering Research Center of Advanced Computing and Intelligent Services, China), Yonghong Zhang (Nanjing University of Information Science and Technology, China), and Xiaodong Liu (Edinburgh Napier University, UK)</i>	
Automatic Generation of Diagnostic Reports for Nasal Endoscopy Images: A Topicaware Multimodal Recurrent Model .....	793
<i>Xinpan Yuan (Hunan University of Technology, China), Yuan Guo (Hunan University of Technology, China), Changhong Zhang (Zhuzhou People's Hospital, China), and Zhigao Zeng (Hunan University of Technology, China)</i>	
Research on Intelligent Recognition and Analysis of Power Grid Infrastructure Construction Based on YOLO .....	803
<i>Yaping Zhang (State Grid Economic and Technological Research Institute Co., Ltd., China), Jingguo Rong (State Grid Economic and Technological Research Institute Co., Ltd., China), Zhiran Gao (Hebei University of Technology, China), Su Zhang (State Grid Economic and Technological Research Institute Co., Ltd., China), and Zhuoqun Zhang (State Grid Economic and Technological Research Institute Co., Ltd., China)</i>	
Recursive Generation of Multi-Qubits Control Gate to Facilitate the Grover'S Quantum Algorithm in Large Scale Database Search .....	808
<i>Wen-Li Wang (Penn State University, USA), Shahid Hussain (Penn State University, USA), Nathaniel V. Rondinelli (Penn State University, USA), Mei-Huei Tang (Gannon University, USA), and Saif Ur Rehman Khan (Shifa Tameer-e-Millat University, Pakistan)</i>	

## Automated and Intelligent Software Testing

A Fuzzing Method for Embedded Bus Based on Dynamic Mutation of Message Sequences .....	816
<i>Fengjiao He (Institute of Computer Application, China Academy of Engineering Physics, China), Chi Hu (Institute of Computer Application, China Academy of Engineering Physics, China), Wansheng Yang (Institute of Computer Application, China Academy of Engineering Physics, China), Hao Zhang (Institute of Computer Application, China Academy of Engineering Physics, China), and Fei Deng (Institute of Computer Application, China Academy of Engineering Physics, China)</i>	
A Data Constraint Analysis Method for Full-Digital Simulation Test .....	823
<i>Shasha Wu (Institute of Computer Application, China Academy of Engineering Physics, China), Shiyong Li (Institute of Computer Application, China Academy of Engineering Physics, China), Yanhong Peng (Institute of Computer Application, China Academy of Engineering Physics, China), Siyou Ma (Institute of Computer Application, China Academy of Engineering Physics, China), and Fei Deng (Institute of Computer Application, China Academy of Engineering Physics, China)</i>	
Research on Program Change Impact Analysis Methods Based on Software Networks .....	830
<i>Shiyong Li (China Academy of Engineering Physics, China), Fei Deng (China Academy of Engineering Physics, China), Xinglin Guo (China Academy of Engineering Physics, China), Zhenxiao Sun (China Academy of Engineering Physics, China), and Zhuoliang Zou (China Academy of Engineering Physics, China)</i>	
Directed Fuzzing with Adaptive Path Guidance and Weighted Distribution .....	839
<i>Ke Ding (Nanjing University of Posts and Telecommunications, China), Ziyuan Wang (Nanjing University of Posts and Telecommunications, China), and Weifeng Zhang (Nanjing University of Posts and Telecommunications, China)</i>	
The Effect of Variable Strength Combinatorial Coverage for Neurons on Fault Detection in Deep Neural Networks .....	849
<i>Wenxuan Huang (Nanjing University of Posts and Telecommunications, China), Changsheng Ma (Changzhou Vocational Institute of Mechatronic Technology, China), and Ziyuan Wang (Nanjing University of Posts and Telecommunications, China)</i>	
A Review of the Applications of Heuristic Algorithms in Test Case Generation Problem .....	856
<i>Haocheng Guan (China University of Geosciences, China), Dongcheng Li (California State Polytechnic University - Humboldt, USA), Hui Li (China University of Geosciences, China), Man Zhao (China University of Geosciences, China), and W. Eric Wong (University of Texas at Dallas, USA)</i>	

## Dependability Testing and Evaluation of Safety-Critical Systems I

Hybrid Attention Based Spatiotemporal Neural Network in Lifetime Prognostics of Lithium Batteries .....	866
<i>Mengdan Wu (Beihang University, China), Daoyi Li (Beihang University, China), Yishen Zhao (Beihang University, China), and Lei Liu (Beihang University, China)</i>	

Fine-Tuning BERT for Intelligent Software System Fault Classification .....	872
<i>Yujia Li (China Electric Power Research Institute, China), Canwei Shi (Beihang University, China), Zhiyu Duan (Beihang University, China), Fang Liu (China Electric Power Research Institute, China), and Minghao Yang (Beihang University, China)</i>	
A Novel Approach for Software Defect Prediction Through Relational Association Rules Based on Cost-Sensitive Learning .....	880
<i>Meng Tian (Beihang University, China), Shihai Wang (Beihang University, China), Wentao Wu (Beihang University, China), and Wandong Xie (Information Center of China North Industries Group Corporation, China)</i>	
Finite Time-Based Adaptive Terminal Sliding Mode Fault-Tolerant Control for Port Automated Guided Vehicles .....	887
<i>Yue Cheng (Longkou Port Group Co., Ltd, China), Zhongyu Ding (Longkou Port Group Co., Ltd, China), and Shaoqiang Zhang (Longkou Port Group Co., Ltd, China)</i>	
Generating Adversarial Samples Based on the Attack Robust Training Model .....	896
<i>Tengfei Shi (Beihang University, China), Shihai Wang (Beihang University, China), Haoran Li (Beihang University, China), Shudi Guo (Beihang University, China), and Yu Liu (Beihang University, China)</i>	

## **Dependability Testing and Evaluation of Safety-Critical Systems II**

StasogFL: A Fault Localization Method Based on Statement Association Graph .....	902
<i>Yingxian Guo (Beihang University, China), Shihai Wang (Beihang University, China), Dong An (Beihang University, China), and Yu Luo (Beihang University, China)</i>	
An Ensemble Feature Selection Method Based on Symmetrical Uncertainty and Correlation for Software Defect Prediction .....	910
<i>Xuan Li (Naval Aeronautical University, China), Qi Shao (Beihang University, China), Yuan Zhang (Naval Aeronautical University, China), and Jiangnan Wang (Naval Aeronautical University, China)</i>	
Research on the Integration Method of Software Static Testing Tools Based on Machine Learning .....	920
<i>Xiaoliang Li (Beihang University, China), Yujia Li (China Electric Power Research Institute, China), Fang Liu (China Electric Power Research Institute, China), and Fuping Zeng (Beihang University, China)</i>	
A Fault Analysis and Reasoning Method for Vehicle Information Systems Based on Knowledge Graphs .....	926
<i>Lu Sun (Beihang University, China), Fuping Zeng (Beihang University, China), and Xiaoze Liu (Beihang University, China)</i>	

Software Fault Localization Based on Eigenvector Centrality in Complex Network Theory .....	934
<i>Wentao Wu (Beihang University, China; Science and Technology on Reliability and Environmental Engineering Laboratory, China), Shihai Wang (Beihang University, China; Science and Technology on Reliability and Environmental Engineering Laboratory, China; State Key Laboratory of Software Development Environment, China), Yuanxun Shao (Aerospace Science and Engineering Network Information development CO., LTD, China), and Wandong Xie (Information Center of China North Industries Group Corporation, China)</i>	

## Autonomous Vehicle Software I

Aircraft Pose Perception Technology Based on Tire Detection for Automatic Docking of Towbarless Aircraft Tractors .....	940
<i>Junhao Su (Chinese Academy of Agricultural Mechanization Sciences, China), Xiangyang Qi (Chinese Academy of Agricultural Mechanization Sciences, China), Jiamin Deng (China Agricultural University, China), Wenke Chen (Chinese Academy of Agricultural Mechanization Sciences, China), and Hongfeng Yan (Chinese Academy of Agricultural Mechanization Sciences, China)</i>	
SA-P2T Sparse Attention-Based Pyramid Pooling Transformer Network for Object Detection .....	946
<i>Nan Ma (Beijing University of Technology, China), Genbao Xu (Beijing University of Technology, China), Yiheng Han (Beijing University of Technology, China), and Beining Sun (Beijing University of Technology, China)</i>	
Topology Design of Electronic and Electrical Architecture for Time-Sensitive Network .....	952
<i>Jiaxing Li (Tsinghua University, China), Yanzhao Su (Tsinghua University, China), Mengmeng Yang (Tsinghua University, China), Zonghui Li (Beijing Jiaotong University, China), Jin Huang (Tsinghua University, China), and Zhihua Zhong (Tsinghua University, China)</i>	
Constraint-Following Robust Control for Flying Car: A Model-Based Approach .....	962
<i>Longjie Fan (Beijing University of Posts and Telecommunications, China), Duanling Li (Beijing University of Posts and Telecommunications, China), Linjie Ren (Tsinghua University, China), Xiao Su (Beijing University of Posts and Telecommunications, China), and Jin Huang (Tsinghua University, China)</i>	
Integrating Data-Driven and Knowledge-Driven Methodologies for Safety-Critical Scenario Generation in Autonomous Vehicle Validation .....	970
<i>Kunkun Hao (Research Center of Synkrotron, Inc., China), Wen Cui (Research Center of Synkrotron, Inc., China; Institute for Interdisciplinary Information Core Technology, China; Xidian University, China), Lu Liu (Research Center of Synkrotron, Inc., China; Xi'an Jiaotong University, China), Yuxi Pan (Research Center of Synkrotron, Inc., China), and Zijiang Yang (Research Center of Synkrotron, Inc., China; Xi'an Jiaotong University, China)</i>	

Enhancing Traffic Safety at Unsignalized Intersections Through Constraint-Chain Based Cooperative Control .....	982
<i>Yingjun Qiao (Tongji University, China; Chinese Academy of Engineering, China), Xingyu Li (Tsinghua University, China), Mengmeng Yang (Tsinghua University, China), Jin Huang (Tsinghua University, China), and Zhihua Zhong (Chinese Academy of Engineering, China)</i>	
Formalization of Operational Domain and Operational Design Domain for Automated Vehicles ...	990
<i>Ali Shakeri (German Aerospace Center (DLR), Institute of Systems Engineering for Future Mobility, Germany)</i>	

## Autonomous Vehicle Software II

Research on Parametric Generation of Automobile Styling Based on Grasshopper .....	998
<i>Wang Bo (Tsinghua University, China), Qi Yuerui (Tsinghua University, China), Huang Jin (Tsinghua University, China), and Zhong Zhihua (Tsinghua University, China)</i>	
Immersive Traffic Interactive Simulator for Multi-Agent .....	1004
<i>Zheng Fu (Tsinghua University, China), Yuhang Xu (Tsinghua University, China), Mengmeng Yang (Tsinghua University, China), Jin Huang (Tsinghua University, China), Diange Yang (Tsinghua University, China), and Zhihua Zhong (Chinese Academy of Engineering, China)</i>	
UrbanME A New Benchmark for HD Map Elements Extraction in Urban Traffic Scenes .....	1014
<i>Xuewei Tang (Tsinghua University, China), Mengmeng Yang (Tsinghua University, China), Kun Jiang (Tsinghua University, China), Jin Huang (Tsinghua University, China), and Diange Yang (Tsinghua University, China)</i>	
An Algorithm Based on Monocular Vision for Unsafe Behavior Recognition of Human-Object Interaction in Inspection Vehicles for Hazardous Chemical Storage .....	1022
<i>Xuejun Liu (Beijing Institute of Petrochemical Technology, P. R. China), Xuerui Wang (Beijing Institute of Petrochemical Technology, P. R. China), Zhaichao Tang (Beijing Institute of Petrochemical Technology, P. R. China), Zikang Du (Beijing Institute of Petrochemical Technology, P. R. China), and Zhen Chen (Beijing Institute of Petrochemical Technology, P. R. China)</i>	
Research on the Construction Method of Multimodal Dataset for Hazardous Chemicals Warehouse Applied to Inspection Vehicle .....	1032
<i>Xuejun Liu (Beijing Institute of Petrochemical Technology, P. R. China), Xu Zhao (Beijing Institute of Petrochemical Technology, P. R. China), Zhongji Cui (Beijing Institute of Petrochemical Technology, P. R. China), Tianke Lei (Beijing Institute of Petrochemical Technology, P. R. China), and Songbo Zhang (Beijing Institute of Petrochemical Technology, P. R. China)</i>	
A Survey of Automatic Driving Environment Perception .....	1038
<i>Hui Zhao (Beijing Union University, China), Xin Li (Beijing Union University, China), Cheng Xu (Beijing Union University, China), Bingxin Xu (Beijing Union University, China), and Hongzhe Liu (Beijing Union University, China)</i>	

MRM-LOOP A Dynamic Visual Loop Closure Detection Algorithm Based on Motion Region Matching.....	1048
<i>Zhiming Zhang (Beijing Union University, China), Jun Zhang (Beijing Union University, China), and Yuansheng Liu (Beijing Union University, China)</i>	

### **Autonomous Vehicle Software III**

Pedestrian Detection Method Based on Fusion of LIDAR and Camera .....	1056
<i>Yangyang Fan (Beijing Union University, China) and Yuansheng Liu (Beijing Union University, China)</i>	
PreBEV: Leveraging Predictive Flow for Enhanced Bird's-Eye View 3D Dynamic Object Detection .....	1062
<i>Nan Ma (Beijing University of Technology, China), Shangyuan Li (Beijing University of Technology, China), Yiheng Han (Beijing University of Technology, China), and Mohan Wang (Beijing University of Technology, China)</i>	
Secure OTA Software Updates for Connected Vehicles Using LoRaWAN and Blockchain .....	1067
<i>Anika Anwar (Queen's University, Canada), Nilesh Chakraborty (Queen's University, Canada), and Mohammad Zulkernine (Queen's University, Canada)</i>	
Cooperative Defense-in-Depth in Large-Scale Autonomous Vehicle Networks .....	1077
<i>Anika Anwar (Queen's University, Canada), Talal Halabi (Laval University, Canada), and Mohammad Zulkernine (Queen's University, Canada)</i>	
Towards Simplification of Failure Scenarios for Machine Learning-Enabled Autonomous Systems .....	1089
<i>Donghwan Shin (University of Sheffield, United Kingdom) and Sanjeetha Pennada (University of Sheffield, United Kingdom)</i>	
Public Perception Toward Tesla Fatal Accidents Neural Network Approach .....	1091
<i>Nassim Sohaee (University of North Texas, USA)</i>	
The Battle of Ethics in Autonomous Vehicles .....	1097
<i>Ruchika Gupta (Michigan State University, USA)</i>	

### **Empirical Software Engineering and Art Smart Contract I**

The Application of the Teaching Model of "Promoting Learning Through Competition, Promoting Teaching Through Competition" in the Course of Data Analysis and Mining .....	1106
<i>Zhaojing Wang (Wuhan Textile University, China), Li Li (Wuhan Textile University, China), Bangchao Wang (Wuhan Textile University, China), Ruiqi Luo (Wuhan Textile University, China), and Luyao Ye (Wuhan Textile University, China)</i>	

Industrial Process Fault Detection with Multi-view Feature Fusion Attention Mechanism Assisted Autoencoder Network .....	1113
<i>Yifan Tong (Wuhan Textile University, China), Zhaojing Wang (Wuhan Textile University, China; Ningbo Cixing Co., Ltd., China), Xiaoyun Yan (Wuhan Textile University, China), Xinrong Hu (Wuhan Textile University, China), and Lijun Li (Ningbo Cixing Co., Ltd., China)</i>	
Vulnerability Prediction and Assessment Using Software Product Metrics and Machine Learning What Does Not Work .....	1123
<i>Tim Sonnekalb (German Aerospace Center (DLR), Institute of Data Science, Germany), Celestino Madera Castro (German Aerospace Center (DLR), Institute of Data Science, Germany), Bernd Gruner (German Aerospace Center (DLR), Institute of Data Science, Germany), Clemens-Alexander Brust (German Aerospace Center (DLR), Institute of Data Science, Germany), and Wolfram Amme (Friedrich Schiller University, Germany)</i>	
YOLO-TSD A Recognition and Detection Method for Traffic Sign Based on YOLOv5 .....	1128
<i>Zhe Li (Wuhan Textile University, China), Zuchun Li (Wuhan Textile University, China), Jia Lu (Wuhan Textile University, China), Yimiao Zhang (Wuhan Textile University, China), and Peng Ye (Wuhan Textile University, China)</i>	
SIS: A Syntactic Information-Based Span-Level Model for Aspect Sentiment Triplets Extraction .....	1136
<i>Hongyan Wan (Wuhan Textile University, China; Wuhan Textile University, China), Teng Xiong (Wuhan Textile University, China), Zhiquan An (Wuhan Textile University, China), and Xinrong Hu (Wuhan Textile University, China)</i>	

## **Empirical Software Engineering and Art Smart Contract II**

The Application of LLMs in the Analysis and Modeling of Software Requirements .....	1143
<i>Zhipeng Wang (WuGuotao Jiaohan Textile University, China), Changxi Feng (WuGuotao Jiaohan Textile University, China), Longfei Liu (WuGuotao Jiaohan Textile University, China), Guotao Jiao (WuGuotao Jiaohan Textile University, China), and Peng Ye (WuGuotao Jiaohan Textile University, China; Wuhan Textile University, China)</i>	
How to Choose a Suitable Method in Image Semantic Segmentation-An Experimental Study .....	1154
<i>Yuanbang Li (Zhoukou Normal University, China), Jing Jiang (Zhoukou Normal University, China), and Chi Xu (Zhoukou Normal University, China)</i>	
Preset Emotional Experience Adaptive Detection and Complexity Interpretation of Implicit Order in Facial Emotion Recognition Calculations .....	1160
<i>Jiahui Huang (Wuhan University, China), Shiyan Chen (Wuhan University, China), Ziyang Weng (Wuhan University, China; Wuhan Institute of Data Intelligence, China), Huixin Ding (Wuhan University, China), and Li Zhao (Xinjiang Kucha Research Institute, Xinjiang Uygur Autonomous Region, China)</i>	

Incarnation-Mediated Cognitive Measurement of Virtual Scenes and Analysis of Complex Active Adaptive Behaviors in Realistic Scenography .....	1169
<i>Ziyi Jiang (Wuhan University, China), Jingwei Zhang (Wuhan University, China), Shiyen Chen (Wuhan University, China), Jiahui Huang (Wuhan University, China), and Li Zhao (Xinjiang Kucha Research Institute, Xinjiang Uygur Autonomous Region, China)</i>	
Construction of Urban Governance Portrait Based on Space-Air-Ground Integrated Digital Intelligence Pedestal .....	1179
<i>Huixin Ding (Wuhan University, China), Ziyang Weng (Wuhan University, China; Wuhan Institute of Data Intelligence, China), Ziyi Jiang (Wuhan University, China), and Jingwei Zhang (Wuhan University, China)</i>	
Experiment on the Effectiveness of Air-Space Numerical Intelligence Modeling for National Security Strategic Information Needs .....	1188
<i>Shiyen Chen (Wuhan University, China), Ziyang Weng (Wuhan University, China; Wuhan Institute of Data Intelligence, China), Huixin Ding (Wuhan University, China), and Jiahui Huang (Wuhan University, China)</i>	

## Creative Computing I

Towards Safe Human-Robot Interaction: A Pilot Study on a Deep Learning-Assisted Workspace Monitoring System .....	1197
<i>Jinha Park (University of Southern Denmark, Denmark), Chen Li (Aalborg University, Denmark), Zhuangzhuang Dai (Aston University, UK), and Christian Schlette (University of Southern Denmark, Denmark)</i>	
A Creative Computing Approach to Forecasting Yield Shock of Winter Wheat .....	1203
<i>Lawrence Ma (University of Bath, UK) and Lin Zou (De Montfort University, UK)</i>	
Research on the Utilization of Cloud Anchors in 5G Mobile Networks for Interactive Augmented Reality Display and Sculptural Art .....	1213
<i>He-Lin Luo (Tainan National University of the Arts, Taiwan), Pei-Ying Lin (Tainan National University of the Arts, Taiwan), Tin-Kai Chen (Tainan University of Technology, Taiwan), and Andry Chowanda (Bina Nusantara University, Indonesia)</i>	
A Case Study into Collaborative Creation with Artificial Intelligence in Art Education in Taiwan .....	1223
<i>Tin-Kai Chen (Tainan University of Technology, Taiwan) and Li-Hua Liu (National Chengchi University, Taiwan)</i>	
The Colour Temperature Intensity Adjusting Model for Improving Naked Eye 3D Holographic Computer Projection .....	1233
<i>Yinwei Liu (University of Leicester, UK) and Yuchen Jiang (Renmin University of China, China)</i>	
The Impact of Digital Technology Application on Tourist Enterprise Performance: The Moderating Role of Ownership Balance Degree .....	1243
<i>Dong Ying (Liaodong University, China) and Bai Yijuan (Liaodong University, China)</i>	

## Creative Computing II

Computational Imagination in Three-Dimension Scene Synthesis .....	1251
<i>Chong Zeng (University of Leicester, UK; Longyan University, China), Yue Wu (University of Leicester, UK), Zisen Zhou (University of Leicester, UK), Yanju Yao (University of Leicester, UK), and Hongji Yang (University of Leicester, UK)</i>	
Centralization or Decentralization? How can Digital Transformation Empowers Firm Performance? .....	1258
<i>Cao Yifei (Shenyang Aerospace University, China), Hao Lingfeng (Shenyang Aerospace University, China), Hua Zhang (Liaoning University, China), and Kang Xingyao (Liaoning University, China)</i>	
The Interweaving of Institutional Investors, Cloud Computing Technology and Sustainable Growth of Tourism Enterprises .....	1267
<i>Zhao Chen (Liaodong University, China)</i>	
Artificial Intelligence as a New Engine for Boosting Economic Performance of Manufacturing Enterprises .....	1275
<i>Cao Yifei (Shenyang Aerospace University, China), Hao Lingfeng (Shenyang Aerospace University, China), Jing Hao (Shenyang Aerospace University, China), and Li Zuoxue (Shenyang Aerospace University, China)</i>	
Preliminary Exploration of Intelligent Virtual Avatars in the Virtual Influencer Industry .....	1284
<i>Chang Wen Ying (Taipei National University of the Arts, Taiwan)</i>	
Immersing and Perceiving in Tourism Scenarios: The Interaction Mechanism Between Digital Technologies and Tourists .....	1292
<i>Lu Zhang (Beijing Union University, China), Lin Zou (De Montfort University, UK), and Meiyu Shi (Beijing Union University, China)</i>	
Reshaping and Transforming of English Teaching in Higher Education in the ChatGPT Era: An Empirical Study Based on Big Data .....	1302
<i>Yani Liu (Liaodong University, China)</i>	

## Fast Abstract & Industry Track

A Graph-Based Approach for Discovering Evidence Relationships Across Multiple Devices in Group Crimes .....	1312
<i>Daniel Kwaku Ntiamoah Addai (University of Baltimore, USA), Sarfraz Shaikh (University of Baltimore, USA), Eric Xu (University of Maryland, USA), Wenbin Zhang (Florida International University, USA), and Weifeng Xu (University of Baltimore, USA)</i>	
Harmonization of Security Standards for Embedded Systems in a Comprehensive Metamodel: The Security Abstraction Model .....	1314
<i>Alexander Fischer (Nuremberg Institute of Technology, Germany) and Ramin Tavakoli Kolagari (Nuremberg Institute of Technology, Germany)</i>	
Evaluating the Performance Resilience of Serverless Applications Using Chaos Engineering .....	1316
<i>Ahmad Zayed (Philadelphia University, Jordan) and Amro Al-Said Ahmad (Keele University, United Kingdom)</i>	

Multi-role Consensus Through LLMs Discussions for Vulnerability Detection .....	1318
<i>Zhenyu Mao (Waseda University, Japan), Jialong Li (Waseda University, Japan), Dongming Jin (Peking University, China), Munan Li (Dalian Maritime University, China), and Kenji Tei (Tokyo Institute of Technology, Japan)</i>	
C-Rusted: Safe and Secure Programming in Standard C .....	1320
<i>Roberto Bagnara (University of Parma, Italy; BUGSENG, Italy), Abramo Bagnara (BUGSENG, Italy), Federico Serafini (BUGSENG, Italy; Ca' Foscari University of Venice, Italy), and Nicola Vetrini (BUGSENG, Italy)</i>	
Survey on the Impact of Agile Development on Software Quality .....	1322
<i>Shaomin Zhu (Tongji University, China), Haijiao Zhao (Henan University, China), Jiaqi Huang (Beijing University of Posts and Telecommunications, China), and Ying Xing (Beijing University of Posts and Telecommunications, China)</i>	
Hardware Trojan Detection with Feature Fusion .....	1324
<i>Senjie Zhang (University of Chinese Academy of Sciences, China; Technology and Engineering Center for Space Utilization, Chinese Academy of Sciences, China), Shan Zhou (Technology and Engineering Center for Space Utilization, Chinese Academy of Sciences, China), Lu Li (Technology and Engineering Center for Space Utilization, Chinese Academy of Sciences, China), Chang Jia (Technology and Engineering Center for Space Utilization, Chinese Academy of Sciences, China), and Jinbo Wang (Technology and Engineering Center for Space Utilization, Chinese Academy of Sciences, China)</i>	

**Author Index .**
