# TABLE OF CONTENTS

|                                                                                                                                                                         |    |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| Computing Wake-Capture Effect on Aerodynamic Forces by Varying Reynolds Number for an Insect .....                                                                      | 1  |
| <i>Rabeyia Manzoor Illahi, Imran Shafi</i>                                                                                                                              |    |
| Reconfigurable Intelligent Surfaces: A Performance Study Using Ray Tracing .....                                                                                        | 12 |
| <i>Yasir Ahmed, Jeffrey H. Reed</i>                                                                                                                                     |    |
| Machine Learning-Based Detection of IoT Malware Using System Call Data .....                                                                                            | 16 |
| <i>Inshal Tahir, Sana Qadir</i>                                                                                                                                         |    |
| Time-Invariant Beam pattern Design in Frequency Diverse Array Radar: Some New Results .....                                                                             | 24 |
| <i>Shaiza, Obaidullah Ahmed, Hussain Ali, Alam Zaib, Sajid Ahmed</i>                                                                                                    |    |
| A Host-Based Intrusion Detection: Using Signature-Based and AI-Driven Anomaly Detection for Enhanced Cybersecurity* .....                                               | 28 |
| <i>Fazalur Rehman, Farhan Mushtaq, Hafsa Zaman</i>                                                                                                                      |    |
| Explainable Boosting Ensemble Methods for Intrusion Detection in Internet of Medical Things (IoMT) Applications .....                                                   | 35 |
| <i>Fatima Sohail, Muhammad Asim Mukhtar Bhatti, Muhammad Awais, Aamna Iqtidar</i>                                                                                       |    |
| Computer Vision-Enabled Autonomous Advanced Control for Serial-Link Robotic Manipulators .....                                                                          | 43 |
| <i>Ammar Mazhar, Mohammad Zayan Tariq Khan, Muhammad Izhan, Sohail Iqbal, Ahsan Ali, Ahsan Tanveer</i>                                                                  |    |
| A Novel Approach for Quality of Service Based Cost Minimization in a Cognitive Radio Network .....                                                                      | 51 |
| <i>Umar Ghafoor, Adil Masood Siddiqui, Mudassar Ali</i>                                                                                                                 |    |
| Pakistani Currency Recognition and Classification for Visually Impaired People Using Convolutional Neural Network .....                                                 | 58 |
| <i>Asra Nasir, Sidra Zafar, Zaeem Nasir</i>                                                                                                                             |    |
| Revving Up Innovation: Empowering Automotive Industry Through Advanced Manufacturing Technologies for Vehicle Aerodynamics .....                                        | 64 |
| <i>Zhenlin Zhang, Ali Javaid, Muhammad Sajid</i>                                                                                                                        |    |
| Bridging the Resolution Gap in Remote Sensing: A Comparative Analysis of Deep Learning Models for Real-World Single Image Super-Resolution .....                        | 69 |
| <i>U. A. Shami, B. Khan, Z. Zafar, M. M. Fraz</i>                                                                                                                       |    |
| Comparative Analysis of Tandem Wing Tube-Launched UAV Aerodynamics: Computational Fluid Dynamics (CFD) .....                                                            | 77 |
| <i>Muhammad Hasnain Khan Martins, Asad Islam, Muhammad Arslan Arif, Abdul Moiz, Sohail Iqbal, Sheikh Muhammad Muneeb Hamid Rasheed, Hussain Abbas</i>                   |    |
| Innovative Design, Prototyping, Integration of an Opening Mechanism and Electronics for Enhanced Stability and Manoeuvrability in a Tandem Wing Tube-Launched UAV ..... | 85 |
| <i>Muhammad Hasnain Khan Martins, Muhammad Arslan Arif, Sohail Iqbal, Abdul Moiz, Asad Islam, Sheikh Muhammad Muneeb Hamid Rasheed, Hussain Abbas</i>                   |    |
| Multi-Criteria Decision-Making Based Materials Selection of a Lightweight Aircraft Wing Spar and Rib .....                                                              | 93 |
| <i>Maryam Saeed, Rana Sami Ul Haq, Sohail Ahmed, Faisal Siddiqui, Anas Asim, Jiabao Yi</i>                                                                              |    |

|                                                                                                                                                                                                      |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Improving the Thermal Stability and Electrical Properties of P (VDF-HFP)/PVDF Blend by Incorporating Novel Surface-Decorated BaTiO <sub>3</sub> @GNPs Nanoparticles for Dielectric Applications..... | 105 |
| <i>Muhammad Farhan, Zia Ud Din, Mohsin Ali Marwat, Yumna Sohail, Mubashra Khan, Huma Ramzan</i>                                                                                                      |     |
| KiAtt Fusion: Remote Sensing-Based Water Bodies Segmentation for Environmental Monitoring.....                                                                                                       | 115 |
| <i>Saad Sikander, Hamood Ur Rehman, Syed Fakhr Abbas Naqvi, Waqar Aslam, Nazia Perwaiz</i>                                                                                                           |     |
| Development of a Scaled-Down Test Bench for Performance Measurements of a Centrifugal Compressor.....                                                                                                | 121 |
| <i>Muhammad Sameer, Ahmad Aizaz</i>                                                                                                                                                                  |     |
| Mukhtasir-Khail-Net: An Ultra-Efficient Convolutional Neural Network for Sports Activity Recognition with Wearable Inertial Sensors.....                                                             | 129 |
| <i>Hamza Ali Imran, Shaida Muhammad, Saad Wazir, Ataul Aziz Ikram, Obaidullah Arshad</i>                                                                                                             |     |
| MAVLink Protocol: A Survey of Security Threats and Countermeasures.....                                                                                                                              | 134 |
| <i>Muhammad Ameer Hamza, Mujahid Mohsin, Mohsin Khalil, Syed M Kazam Abbas Kazmi</i>                                                                                                                 |     |
| A Review of Aerodynamic Flow Control Utilizing Distributed Electric Propulsion.....                                                                                                                  | 142 |
| <i>Mohsin Ali, Omer Khan</i>                                                                                                                                                                         |     |
| A Review of Fixed Wing Unmanned Aerial Vehicles: Control Methodologies for Rejecting Unwanted Disturbances During Landing .....                                                                      | 151 |
| <i>Bakhtiar Hakeem, Muhammad Taimoor, Muhammad Amir Tahir</i>                                                                                                                                        |     |
| Friction Stir Welding of Dissimilar Aluminum Alloys: Process Parameters and Joint Characterization.....                                                                                              | 159 |
| <i>Muhammad Shadeen Raja, Muhammad Haris Yazdani, Rana Talal Ahmad Khan, Muhammad Haris Riaz, Yasser Riaz Awan, Hasan Aftab Saeed</i>                                                                |     |
| Pre-Trained Language Models for Decoding Protein Language: A Survey.....                                                                                                                             | 164 |
| <i>Maheera Amjad, Ayesha Munir, Usman Zia, Rehan Zafar Paracha</i>                                                                                                                                   |     |
| Design, Modeling, Vibration Analysis & Control of Pole-Mounted Electric Transformer During Seismic Events .....                                                                                      | 176 |
| <i>Syeda Umm-E-Aymon, Syed Irtiza Ali Shah, Adeel Hassan Khan</i>                                                                                                                                    |     |
| Optimizing Article Screening and Information Extraction: A Hybrid Approach with GeminiAI and Vector Database.....                                                                                    | 185 |
| <i>Mammona Qudisa, Muhammad Maozam Fraz</i>                                                                                                                                                          |     |
| Automation of Quranic Content Creation by Leveraging Speech Recognition.....                                                                                                                         | 193 |
| <i>Nashit, Muhammad Armaghan Ur Rehman, Qamas Gul Khan Safi</i>                                                                                                                                      |     |
| Practical CVR Optimal Voltage Investigation for Household Appliances.....                                                                                                                            | 201 |
| <i>Muhammad Ayaz, Syed Muhammad Hur Rizvi, Muhammad Akbar</i>                                                                                                                                        |     |
| Integrated Distributed Generation for Practical Implementation of Urban Lighting Using Hybrid Renewable Energy.....                                                                                  | 207 |
| <i>Muhammad Ayaz, Syed Wajahat Hussain Shah, Hisham Bin Asif, Muhammad Armughan Ul Haq</i>                                                                                                           |     |
| Multiband Circular Patch Frequency Reconfigurable Antenna .....                                                                                                                                      | 213 |
| <i>Khujasta Khalid, Hidayat Ullah, Wardah Ali Haider, Waqar Ahmed Malik</i>                                                                                                                          |     |

|                                                                                                                                     |     |
