2024 International Symposium on Electrical, Electronics and Information Engineering (ISEEIE)

ISEEIE 2024

Table of Contents

Message from the Conference Chair ..... **xix**
Conference Committees ..... **xx**
Reviewers ..... **xxii**
Sponsors ..... **xxiv**

Session I: Devices, Components, and Controllers

Kriging-Based SiC MOSFET Electrothermal Model 1
Yao Zhao (Dalian University of Technology, China), Jinjun Wang (Dalian University of Technology, China), Zheng Liu (Dalian University of Technology, China), Shuai Ding (University of Leicester, UK), Zhiqiang Wang (Dalian University of Technology, China), and Guofeng Li (Dalian University of Technology, China)

Temperature Characteristics and Feasibility Study of Temperature-Sensitive Electrical Parameters Under Short-Circuit Conditions for SiC MOSFETs 6
Zekun Li (University of Leicester, UK), Bing Ji (University of Leicester, UK), Puzhen Yu (University of Leicester, UK), Kun Tan (Anhui University, China), Mohammed Arkate (University of Leicester, UK), and Wenping Cao (Anhui University, China)

Mitigating Shoot-Through Currents in Current-Controlled Gate Drivers 12
Shuai Ding (University of Leicester, UK), Bing Ji (University of Leicester, UK), Zekun Li (University of Leicester, UK), Peichen Sun (University of Leicester, UK), Zhiqiang Wang (Dalian University of Technology, China), and Yao Zhao (Dalian University of Technology, China)

An Improved Screen Method of Chip Selection for Suppressing Current Imbalance Between Paralleled Devices 17
Puzhen Yu (University of Leicester, UK), Bing Ji (University of Leicester, UK), Yuan Gao (University of Leicester, UK), Meng Luo (School of Electrical Engineering and Automation, Anhui University, China), Kun Tan (School of Electrical Engineering and Automation, Anhui University, China), and Zhenmin Cheng (School of Mathematics and Statistics, Guizhou University, China)

Analysis and Design of High Frequency Cores Based on Vector Magnetic Circuit Theory 22
Dongliang Qian (Southeast University, China), Ming Cheng (Southeast University, China), Wei Qin (Southeast University, China), Zhejun Luo (Southeast University, China), Chengbo Li (Southeast University, China), and Zheng Wang (Southeast University, China)

A Low-Cost Resonant Circuit Breaker Employing Variable Oscillation Frequency with Low di/dt Interruption in Mechanical Switch 31
Bei Zhang (North China Electric Power University, China), Pengzhi Li (State Grid Smart Grid Research Institute Co., Ltd, China), Qihao Zhou (State Grid Inner Mongolia Eastern Power Co., Ltd, China), Xiangyu Zhang (North China Electric Power University, China), and Lei Qi (North China Electric Power University, China)

Maximum Turn-off Current Of SiC MOSFET-Based Solid State Circuit Breaker 38
Tianpeng He (State Key Laboratory of Alternate Electrical Power System with Renewable Energy Sources, North China Electric Power University, China), Qihao Zhou (State Grid Inner Mongolia Eastern Power Co., Ltd, China), Pengzhi Li (State Grid Smart Grid Research Institute Co., Ltd, China), Xiangyu Zhang (State Key Laboratory of Alternate Electrical Power System with Renewable Energy Sources, North China Electric Power University, China), and Lei Qi (State Key Laboratory of Alternate Electrical Power System with Renewable Energy Sources, North China Electric Power University, China)

A Short-Circuit Fault Detection Method for SiC MOSFETs Based on Gate Resistor Voltage Sensing 44
Meng Luo (Anhui University, China), Kun Tan (Anhui University, China), Lu Sun (Anhui University, China; Asunx Semiconductors Co. Ltd), Zhishang Yan (Asunx Semiconductors Co. Ltd, China), Xi Tang (Anhui University, China), Cungang Hu (Anhui University, China), and Wenping Cao (Anhui University, China)

An Online Monitoring Method for SiC MOSFETs Gate Oxide Degradation 50
Haiyang Xie (Anhui University, China), Kun Tan (Anhui University, China), Xi Tang (Anhui University, China), Meng Luo (Anhui University, China), Cungang Hu (Anhui University, China), and Wenping Cao (Anhui University, China)

The Sensitivity Analysis of Dynamic Current Imbalancing for SiC Power Module to the Parasitic Inductances Mismatch 56
Wenbo Wang (Dynex Semiconductor Ltd, UK), Anne Harris (Dynex Semiconductor Ltd, UK), Massimo De Giorgio (Dynex Semiconductor Ltd, UK), Izz Zulkifli (Dynex Semiconductor Ltd, UK), Robin Lyle (Dynex Semiconductor Ltd, UK), and Xiang Li (Dynex Semiconductor Ltd, UK)

Remaining Useful Lifetime Prediction of IGBT Based on Degradation Feature Enhancement Mechanism 62
Chuanan Yin (Anhui University, China), Yawei Hu (Anhui University, China), and Wenping Cao (Anhui University, China)

Identification of Parasitic Resistance in MEMS Resonant Accelerometer for Reducing Phase Noise 67
Zhengyang Li (Nanjing University of Science and Technology, China), Jie Lin (Nanjing University of Science and Technology, China), Guoming Xia (Nanjing University of Science and Technology, China), and Qin Shi (Nanjing University of Science and Technology, China)

Simulation Study of Ferromagnetic Resonance of Capacitive Voltage Transformer 72
Chuan Xiang (Dalian Maritime University, China), Hualong Zhang (Shandong Electric Power Corporation State Grid, China), Longchang Li (Ningxia Electric Power Corporation State Grid, China), and Liangliang Wei (Dalian Maritime University, China)

Investigation on GaN Power Amplifier Nonlinearity at 2.4-GHz with Single and Dual-Frequency Test Method 77
Xin Cheng (Nanjing University of Information Science and Technology, China), Fayu Wan (Nanjing University of Information Science and Technology, China), Vladimir Mordachev (Belarusian State University of Informatics and Radioelectronics, Belarus), Xing Zhao (Chinese Academy of Sciences, China), and Blaise Ravelo (Nanjing University of Information Science and Technology, China)

A Simplified SiC MOSFET Model for an Abstract View of the Switching Performance 83
Puzhen Yu (University of Leicester, United Kingdom), Bing Ji (University of Leicester, United Kingdom), Wenping Cao (Anhui University, China), and Liang Yan (Beihang University, China)

Fundamentals for the Development and Testing of Electrical Contacts in the Electrified Drive System in the Area of Conflict Between Increased Product Diversity and Higher Currents 88
Leon Stütz (Aalen University of Applied Science, Germany), Lennart Kopp (Aalen University of Applied Science, Germany), Max Ludwig (TE Connectivity Germany GmbH, Germany), and Markus Kley (Aalen University of Applied Science, Germany)

Session II: Power Electronics Converters

Providing Inertial Response with Unified VOC for Single-Phase GFM Inverters 94
Hamed Rezazadeh (Swansea University, UK), Mohammad Monfared (Swansea University, UK), Meghdad Fazeli (Swansea University, UK), and Saeed Golestan (AAU Energy, Aalborg University, Denmark)

Time Based PI Control for Advanced PWM Generation in High Frequency Buck Converters with Minimizing Output Ripple Voltage 99
Muhammad Masood Sarfraz (Technical University of Denmark, Denmark; COMSATS University Islamabad, Pakistan) and Michael A. E Andersen (Technical University of Denmark, Denmark)

Digital Twin Model of High-Frequency Transformer Applied in Flyback Converter for Fault Diagnosis 104
Licheng Zhou (Xi'an Shiyou University, China), Jiuxu Song (Xi'an Shiyou University, China), and Zheng Wang (Xi'an Shiyou University, China)

Harmonics Mitigation in Multilevel Inverter Controlled by Equal-Step Angle and Sinusoidal Switching Angle Strategy with Increased Number of Voltage Levels Using PSIM Software 109
Dewan Ashikur Rahaman (University of Asia Pacific, Bangladesh) and Tapan Kumar Chakraborty (University of Asia Pacific, Bangladesh)

Optimisation Algorithms in Multi-Step Prediction Horizon MPC for Two-Level Inverters 115
Joseph O. Akinwumi (University of Leicester, United Kingdom), Yuan Gao (University of Leicester, United Kingdom), George T. West (University of Leicester, United Kingdom), and Harold S. Ruiz (University of Leicester, United Kingdom)

Passivity-Based Controller Design of Grid-Connected Inverters Using PCC Voltage Feedforward Active Damping 123
Yukai Huang (Huazhong University of Science and Technology, China), Jinbang Xu (Huazhong University of Science and Technology, China), Songtao Huang (Huazhong University of Science and Technology, China), Yihua Hu (King's College London, United Kingdom), Bingying Zheng (King's College London, United Kingdom), and Zhuang Li (King's College London, United Kingdom)

A Sliding Mode Control Strategy for Single-Stage Isolated AC–DC Converter 128
Bohua Wang (Dalian University of Technology, China), Yao Zhao (Dalian University of Technology, China), Zhiqiang Wang (Dalian University of Technology, China), and Guofeng Li (Dalian University of Technology, China)

Comparison and Selection of Different Topologies of Converters in Hybrid Transformers 133
Zhanwei Wang (North China Electric Power University, China), Yan Shi (North China Electric Power University, China), Xiangyu Zhang (North China Electric Power University, China), and Lei Qi (North China Electric Power University, China)

A Three-Vector Model-Free Predictive Voltage Control Method for LCL Filtered Grid-Connected Inverter 138
Boyu Wang (Anhui University, China), Wenping Cao (Anhui University, China), Cungang Hu (Anhui University, China), Yao Wang (Anhui University, China), and Tao Rui (Anhui University, China)

Digital Twin Approach for Three-Phase Interleaved Parallel Buck Converters Based on Improved PSO 143
Guihua Liu (Harbin Institute of Technology, China), Jianping Jiang (Harbin Institute of Technology, China), Huanyu Yang (Harbin Institute of Technology, China), Yuan Gao (University of Leicester, UK), and Xinyu Wang (Harbin Institute of Technology, China)

A Mini Review of Quadratic DC-DC Converters Suitable for Thermoelectric Generators 149
Hossein Gholizadeh (University of Tehran, Iran), Gevork B. Gharehpetian (Amirkabir University of Technology, Iran), and Navid Bayati (Centre for Industrial Electronics, University of Southern Denmark, Denmark)

Based on NR-MFPVC for LC-Filtered Voltage Source Inverters 154
Jianfeng Zhou (Anhui University, China), Tao Rui (Anhui University, China), Cungang Hu (Anhui University, China), Wenping Cao (Anhui University, China), Yan Tian (Anhui University, China), and Yan Shi (Anhui University, China)

Accelerated Control Design of Four-Phase Interleaved Boost Converter Using PSIM and Hardware-in-the-Loop Platform 160
Xinyang Hao (University of Nottingham, UK), Paolo Colombo (ALTAIR, Italy), and Tao Yang (University of Nottingham, UK)

Parameter Identification Strategy for LCL Inverter Based on Predictive Control 165
Yan Shi (Anhui University, China), Tao Rui (Anhui University, China), Cungang Hu (Anhui University, China), Wenping Cao (Anhui University, China), Jianfeng Zhou (Anhui University, China), and Xiaolei Sun (Anhui University, China)

Session III: Electrical Motors and Drives

Calculation of Performance Parameters of Permanent Magnet Motor Based on Reluctance Network Analysis 170
Yanyun Liu (Harbin Institute of Technology, China), Jing Ou (Harbin Institute of Technology, China), Yingzhen Liu (Harbin Institute of Technology, China), Jianglong Chen (Harbin Institute of Technology, China), Dawei Liang (University of Sheffield, U.K.), and Dianguo Xu (Harbin Institute of Technology, China)

Electromagnetic Design of Ultra-High Efficiency Permanent Magnet Machines with Integrated Drives 177
Xuefeng Zhang (CSG PGC Energy Storage Research Institute, China Southern Power Grid, China), Yiming Ma (CSG PGC Energy Storage Research Institute, China Southern Power Grid, China), Yikai Li (CSG PGC Energy Storage Research Institute, China Southern Power Grid, China), Yan Shen (CSGES Operation Mangagement Company, China Southern Power Grid, China), Jinxian Hou (CSG PGC Maintenance and Test Branch, China Southern Power Grid, China), and Yang Xiao (University of Leicester, UK)

Research on Regenerative Braking Energy of Rail Transit Trains Based on Current Recovery Technology 182
Zhixin Ou (Anhui Communications Vocational & Technical College, China)

Optimization Design of MTPA Control Strategy for MMC Medium Voltage PMSM Drive 188
Guoyan Zhang (Anhui University, China), Weiye Yang (Anhui University, China), Cungang Hu (Anhui University, China), Siyuan Lu (Anhui University, China), Wenping Cao (Anhui University, China), and Yichun Yan (Anhui University, China)

Research on Cogging Torque of Interior Permanent-Magnet Synchronous Motor Caused by Manufacturing Tolerances 194
Xin Zhong (Harbin Institute of Technology, China), Yingzhen Liu (Harbin Institute of Technology, China), Jing Ou (Harbin Institute of Technology, China), Dawei Liang (University of Sheffield, UK), Liang Chen (Corporate Research Center, Midea Group, China), and Dianguo Xu (Harbin Institute of Technology, China)

Recent Advances on Eddy Current Losses in High-Speed Permanent Magnet Synchronous Machines..... 200
Zhen Huang (Nanchang University, China), Jiawei Gong (Nanchang University, China), and Yuan Gao (University of Leicester, UK)

Experimental Research on Event-Triggered Linear Active Disturbance Rejection Control for PMSM 206
Ping Lin (Dalian University of Technology, China) and Yuan Gao (University of Leicester, U.K)

Session IV: Wireless Charging and Communications

Security Analysis and Design of IRS-Aided MIMO Systems over Double-Scattering Channels ..212
Ying Mei (Hunan University, China)

Detection and Identification of Living Foreign Object in EV Wireless Charging System Based on Millimeter Wave Radar 219
Yuhong Mo (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Shaonan Chen (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Jing Xiao (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), Xiaorui Wu (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China), and Shuai Han (Electric Power Research Institute of Guangxi Power Grid Co., Ltd, China)

Fast Target Search for Frequency Diverse Array Radar 225
Liu Wang (Chengdu University of Information Technology, China), Yong Zhang (Chengdu University of Information Technology, China), Zhonghao Zhang (Chengdu University of Information Technology, China), and Dongfang Li (Chengdu University of Information Technology, China)

Design of the Substrate Integrated Waveguide Bandpass Filter with Dual Inductive Posts for Wireless Communications and Satellite Applications 230
Feiyuan Long (Chengdu University of Information Technology, China), Rob Seager (Loughborough University, United Kingdom), and James Flint (Loughborough University, United Kingdom)

Design of Rail-to-Rail Low Power OTA in 0.65μm CMOS for Communication Systems 234
Serdar Alan (Yeditepe University, Turkey), Mert Korkut (Yeditepe University, Turkey), and Tugba Haykir Ergin (Yeditepe University, Turkey)

Powering Surface Acoustic Wave Device Using Resonant Wireless Power Transfer Techniques 239
Feixuan Yang (Northumbria University, United Kingdom), Haimeng Wu (Northumbria University, United Kingdom), Zhiwei Gao (Northumbria University, United Kingdom), Yongqing Fu (Northumbria University, United Kingdom), Jikai Zhang (Northumbria University, United Kingdom), and Huiling Ong (Northumbria University, United Kingdom)

Design of the Coil for Wireless Power Transfer in Deep Brain Stimulators 245
You Fu (Dalian Maritime University, China), Jianan Luo (Dalian Maritime University, China), and Chenguang Wang (Dalian Maritime University, China)

The Joint Orthogonal Matching Pursuit and Kalman Iteration Algorithm for Hybrid Beamforming 252
Yong Xu (Chengdu University of Information Technology, China), Zhenzhen Hu (Chengdu University of Information Technology, China), and Songjie Yang (The University of Electronic Science and Technology of China, China)

Cooperative Selection and Communications in 6G Ultra-mMTC IoV Networks 257
He Huang (Chengdu University of Information Technology (CUIT), China; Heifei University of Technology (HFUT), China) and Wei Huang (Heifei University of Technology (HFUT), China; Heifei University of Technology (HFUT) Intelligent Interconnected Systems Laboratory of Anhui Province Hefei, China)

Wireless Power Transfer via Inductive Coupling: An Experimental Approach 262
Ahmet Mete Vural (Gaziantep University, Türkiye) and Mustafa Yildiz (Gaziantep University, Türkiye)

A Study of Routing, Spectrum Assignment, and Fiber Expansion in Spectrum-Sliced Elastic Optical Path Networks 268
Qimu Xiao (University of Electronic Science and Technology of China, China), Mingyu Xiao (University of Electronic Science and Technology of China, China), Wenjun Li (University of Electronic Science and Technology of China, China), and Fuqiang Chen (University of Electronic Science and Technology of China, China)

Session V: Sensors, Sensing and Detection

Study on the Temperature Evolution Patterns and Microstructures of Melted Marks on H59 Conductors Under Different Clamping Methods During Overcurrent Failure 274
Xiaobo Yan (Shanghai Fire Research Institute of MEM, PR China), Hao Huang (Shanghai Fire Research Institute of MEM, PR China), Zhenhao Gong (Fire and Rescue Detachment of Shanghai Yangpu District, PR China), An Luo (Fire and Rescue Detachment of Shanghai Xuhui District, PR China), Yaoyao Gu (Fire and Rescue Detachment of Shanghai Xuhui District, PR China), and Shiyi Hong (Shanghai Fire Research Institute of MEM)

Electromagnetic Scattering Characteristics of Sea Surface with Oil Spills from Shallow Sea Environment 279
Dongfang Li (Chengdu University of Information Technology, China), Yong Zhang (Chengdu University of Information Technology, China), Wenying Ma (Chengdu University of Information Technology, China), Yajuan Xue (Chengdu University of Information Technology, China), Liu Wang (Chengdu University of Information Technology, China), Juan Li (Chengdu University of Information Technology, China), and Zhiqin Zhao (University of Electronic Science and Technology of China)

Dual-Core Photonic Crystal Fiber for Blood Cancer Detection in THz Frequency Regime 283
Vishal Chaudhary (Delhi Technological University, India) and Sonal Singh (Delhi Technological University, India)

Bearing Frequency-Related Fault Detection in Pump Systems Using Inference LSTM Autoencoder with Differential Regularization 287
Tianming Xie (Northumbria University, UK), Zhiwei Gao (Northumbria University, UK), Qifa Xu (Hefei University of Technology, China), Haimeng Wu (Northumbria University, UK), and Aihua Zhang (Bohai University, China)

Analysis of the Coupling Among Human Eye Movements and Moving Visual Stimuli 293
Hamidreza Namazi (University of South Bohemia in České Budějovice, Czech Republic)

Simultaneous Denoising and Reconstruction of 12-Lead Electrocardiogram 298
Ekenedirichukwu N. Obianom (University of Leicester, United Kingdom), Abdulhamed M. Jasim (University of Leicester, United Kingdom), Noor Qaqos (University of Leicester, United Kingdom), André G. Ng (University of Leicester, United Kingdom), and Xin Li (University of Leicester, United Kingdom)

Development of a Non-Invasive Infrared Vein Detection Device with Varying Wavelengths Based on Skin Tone 304
James Bernward U. Honra (Mapúa University, Philippines), Jay Roger B. Delos Reyes (Mapúa University, Philippines), and Joseph Bryan G. Ibarra (Mapúa University, Philippines)

A Modified YOLOv8 Detection Network with Attention Mechanism for Tobacco Stalk-to-Filament Ratio 310
Wen Wei (China Tobacco Guangxi Industrial Co., Ltd., China), Shan Jiang (GuangXi University, China), Lei Shi (China Tobacco Guangxi Industrial Co., Ltd., China), Xiaofeng Du (China Tobacco Guangxi Industrial Co., Ltd., China), Lin Chen (GuangXi University, China), and Haihong Pan (GuangXi University, China)

Defect Detection and Application of Infrared Image Based on Improved YOLO Algorithm 315
Li Chen (Novelteq Ltd. Nanjing, China), Kai Zhang (Novelteq Ltd. Nanjing, China), Bo Li (Guizhou Electric Power Research Institute, China Southern Power Grid Co. Ltd, China), Jie Bai (Guizhou Electric Power Research Institute, China Southern Power Grid Co. Ltd, China), Song Deng (Guizhou Electric Power Research Institute, China Southern Power Grid Co. Ltd, China), and Yu Wu (Power Supply Bureau, China)

Defect Measurement of an Electrical GIS Equipment by Infrared Lock-in Thermography 318
Li Chen (Novelteq Ltd. Nanjing, China), Kai Zhang (Novelteq Ltd., Nanjing, China), Bo Li (Guizhou Electric Power Research Institute, China Southern Power Grid Co. Ltd, China), Jie Bai (Guizhou Electric Power Research Institute, China Southern Power Grid Co. Ltd, China), Song Deng (Guizhou Electric Power Research Institute, China Southern Power Grid Co. Ltd, China), and Yu Wu (Power Supply Bureau, Bijie, China)

Arnis Performance Evaluation for Beginners and Intermediate: Utilizing SVM Algorithm and Kinect V2 Sensor for Dynamic Stance and Movements 322
Aaron Rei A. Mañalac (Mapua University, Philippines), Joshua P. Milan (Mapua University, Philippines), and Charmaine C. Paglinawan (Mapua University, Philippines)

Risk Assessment of Power Grid Flood Disasters Based on Deep Residual Weighted K-Subspace Clustering Network 328
Yi Zhang (State Grid Tongling Power Supply Company, China), Hao Zheng (State Grid Anhui Electric Power Co., Ltd, China), Lingzhi Xia (State Grid Anhui Electric Power Research Institute, China), Yang Cheng (State Grid Anhui Electric Power Research Institute, China), and Tong Yang (Anhui Nari Jiyuan Electric Power System Tech Co., Ltd, China)

Power Grid Flood Disaster Evaluation Approach Using Stacked Denoising Auto-Encoder 335
Lingzhi Xia (State Grid Anhui Electric Power Research Institute, China), Hao Zheng (State Grid Anhui Electric Power Co., Ltd, China), Yang Cheng (State Grid Anhui Electric Power Research Institute, China), Yushun Liu (State Grid Anhui Electric Power Co., Ltd, China), and Kun Wang (State Grid Anhui Electric Power Co., Ltd, China)

Lung Tumor Segmentation Algorithm Based on Improved UNet++ 342
Xiaoyu He (Chengdu University of Information Technology, China), Lijun Song (Chengdu University of Information Technology, China), Binlin Zhao (Chengdu University of Information Technology, China), Shifu He (Chengdu University of Information Technology, China), and Gong Chen (Chengdu University of Information Technology, China)

Session VI: Modeling, Algorithms and Data Mining

PSO-RBF Based Identification of Multi-Operating-Point Impedance Model 347
Haoze Zhuo (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., Nanning, Guangxi), Ke Zhou (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., Nanning, Guangxi), Qingren Jin (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., Nanning, Guangxi), and Zhiyue Mo (Electric Power Research Institute of Guangxi Power Grid Co., Ltd., Nanning, Guangxi)

A Sentiment-Controllable Music Generation System Based on Conditional Variational Autoencoder 352
Jun Min (Tongji University, China), Zhiwei Gao (Northumbria University, UK), Lei Wang (Tongji University, China), Zhenxiang Cai (Tongji University, China), Haimeng Wu (Northumbria University, UK), and Aihua Zhang (Bohai University, China)

Effective Hybrid Technique for ECG Signal Denoising Based on Slantlet Transform and Median Filter 358
Abdulhamed M. Jasim (University of Leicester, UK), Noor Qaqos (University of Leicester, UK), Ekenedirichukwu N. Obianom (University of Leicester, UK), G André Ng (University of Leicester, UK), and Xin Li (University of Leicester, UK)

High-Speed and High-Sampling Data Acquisition System Design Based on AD9650 367
Zhen Xu (Anhui University, China) and WenPing Cao (Anhui University, China)

SEI Film Aging Model of Li-ion Battery was Established Based on Two-Factor Parameter Modification 372
Lin Chen (Guangxi University, China), Manping He (Guangxi University, China), Zhe Feng (Guangxi University, China), and Haihong Pan (Guangxi University, China)

Smart Load Carriers Through IoT Integration: Revolutionizing Aid for the Downtrodden 378
Aarav Mehta (Hill Spring International School, India) and Reetu Jain (On My Own Technology, India)

Design and Development of Smart Autonomous Tennis Ball Collector Robot 385
Abdulwahab A. Abdulrahman Al-Saadi (University of Al Maarif, Iraq) and Mahmud Iwan Solihin (UCSI University, Malaysia)

Application of Second-Order Synchroextracting Transform Combined with Empirical Wavelet Transform for Seismic Data Analysis 389
Hengyu Tian (Chengdu University of Information Technology, China) and Yajuan Xue (Chengdu University of Information Technology, China)

An RL-Based Path Tracking Control Strategy with Rollover Prevention and Safety Enhancement for the Autonomous Truck 395
Zhichao Li (Beijing Institute of Technology, China), Junqiu Li (Beijing Institute of Technology, China), and Ying Li (Beijing Institute of Technology, China)

GT-DeepLabv3+: a Deep Learning-Based Algorithm for Field Crop Segmentation 401
Gong Chen (Chengdu University of Information Technology, China), Lin Fu (Chengdu University of Information Technology, China), Ling Sun (Chengdu University of Information Technology, China), Binlin Zhao (Chengdu University of Information Technology, China), and Xiaoyu He (Chengdu University of Information Technology, China)

Offline Handwritten Chinese Recognition Based on Multi-Branch Convolution and Lightweight ECA 406
Ling Sun (Chengdu University of Information Technology, China), Chengyu Wen (Chengdu University of Information Technology, China), Gong Chen (Chengdu University of Information Technology, China), and Binlin Zhao (Chengdu University of Information Technology, China)

Image Super-Resolution Reconstruction by Lightweight Convolution Network 412
Renting Liu (University of Electronic Science and Technology of China, China), Chunhui Ren (University of Electronic Science and Technology of China, China), Yusheng Fu (University of Electronic Science and Technology of China, China), and Miaomiao Fu (University of Electronic Science and Technology of China, China)

Music Feature Extraction Method Based on IoT Technology 419
Weixin Zou (Jiangxi University of Applied Science and Technology, China)

Session VII: Power Systems and Microgrids

Enhancing Power System Safety and Stability: A Hybrid Deep Learning Model for Short-Term Photovoltaic Power Forecasting 423
Yuxiang Li (Southwest University, China) and Jingcheng Hou (Southwest University, China)

Research on the Operation Reliability Evaluation Method of Offshore Power System 429
Guofeng Liu (CNOOC Research Institute Co.Ltd, China), Chaochun Ping (CNOOC Research Institute Co.Ltd, China), Siye Mu (CNOOC Research Institute Co.Ltd, China), Delidana Mansuer (Dalian University of Technology, China), Jianfei Liu (Dalian University of Technology, China), and Quan Lv (Dalian University of Technology, China)

Impact of Synchronous Condensers on Power System Static Voltage Stability Considering Line Contingencies in the Presence of Renewable Generation 437
Umair Shahzad (University of Sunderland, United Kingdom)

Short-Term Load Forecasting Using Machine Learning for Decarbonisation and Cost-Reduction in a Water Network-Based Power System 443
Divyabhan Singh Duggal (Northumbria University, UK), Haimeng Wu (Northumbria University, UK), Neil S. Beattie (Northumbria University, UK), and Anthony Browne (Northumbrian Water Limited, UK)

Multivariant Short-Term Residential Load Forecasting with Dual Path Trigonometric Encoding LSTM and Attention Mechanism 450
Manthila Wijesooriya Mudiyanselage (Northumbria University, United Kingdom), Haimeng Wu (Northumbria University, United Kingdom), and Abbas Mehrabidavoodabadi (Northumbria University, United Kingdom)

A Cost-Effective Test Circuit for Long-Term Resonance Conditions with High Damping Loads 457
Yongming He (Pinggao Group Co., Ltd, China), Jianwei Wei (Pinggao Group Co., Ltd, China), Gang Wang (Pinggao Group Co., Ltd, China), Jin Yang (North China Electric Power University, China), and Xiangyu Zhang (North China Electric Power University, China)

An Improved Closed-Loop Line Resistance Estimation for DC Microgrids Droop Control 462
Xiangyu Qin (Yangzhou University, China), Zhengyu Lin (Loughborough University, U.K.), Wei Jiang (Yangzhou Polytechnic Institute, China), and Jieyun Wang (University of Strathclyde, U.K.)

Utilization of Supercapacitors in Microgrids for Improving the Resiliency of RoCoF and Under-Frequency Protection Schemes 468
Navid Bayati (University of Southern Denmark, Denmark) and Thomas Ebel (University of Southern Denmark, Denmark)

Comprehensive Evaluation of Distribution Networks from the Perspective of Green and Low Carbon 474
Dianjun Chen (Heilongjiang Power Company of State Grid, China), Jingwei Shao (Heilongjiang Power Company of State Grid, China), Tao Zhang (Heilongjiang Power Company of State Grid, China), Ran Sun (Heilongjiang Power Company of State Grid, China), Xiaorong Sun (Hohai Univeristy, China), Yong You (Hohai Univeristy, China), Shaowei Li (Hohai Univeristy, China), and Xueping Pan (Hohai Univeristy, China)

Quantifying Power Effects of Unbalanced and Nonlinear Consumers in Three-Phase Networks: A Theoretical Review and Experimental Verification 480
Iosif Vasile Nemoianu (National University of Science and Technology Politehnica Bucharest, Romania), Radu-Mircea Ciuceanu (National University of Science and Technology Politehnica Bucharest, Romania), Veronica Manescu Paltanea (National University of Science and Technology Politehnica Bucharest, Romania), Gheorghe Paltanea (National University of Science and Technology Politehnica Bucharest, Romania), Maria-Iuliana Dascalu (National University of Science and Technology Politehnica Bucharest, Romania), and Maria-Lavinia Bobaru (National University of Science and Technology Politehnica Bucharest, Romania)

Electrical Load Prediction with A Hybrid Deep Learning Method Based on Quadratic Decomposition Aggregation Under High Fluctuation Situation 486
Yue Li (Guizhou Electric Power Research Institute, China Southern Power Grid Co., Ltd., China), Anjiang Liu (Guizhou Electric Power Research Institute, China Southern Power Grid Co., Ltd., China), Yu Miao (Guizhou Electric Power Research Institute, China Southern Power Grid Co., Ltd., China), and Hengrong Zhang (Guizhou Electric Power Research Institute, China Southern Power Grid Co., Ltd., China)

Electrical Load Forecasting by Decomposition Incorporating with Deep Learning Technologies..... 490
Yu Fu (Guizhou Electric Power Research Institute China Southern Power Grid Co., Ltd., PR China), Shuqing Hao (Guizhou Electric Power Research Institute China Southern Power Grid Co., Ltd., PR China), Fei Tian (Guizhou Electric Power Research Institute China Southern Power Grid Co., Ltd., PR China), and Yongxiang Cai (Guizhou Electric Power Research Institute China Southern Power Grid Co., Ltd., PR China)

Session VIII: Renewable Energy and Energy Storage

Optimized Allocation of Shared Energy Storage for Multi-Regional Integrated Energy Systems Accounting for Carbon Trading 494
Dianjun Chen (Heilongjiang Power Company of State Grid, China), Jingwei Shao (Heilongjiang Power Company of State Grid, China), Tao Zhang (Heilongjiang Power Company of State Grid, China), Ran Sun (Heilongjiang Power Company of State Grid, China), Shuangshuang Yang (Hohai Univeristy, China), Xiaorong Sun (Hohai Univeristy, China), Xiaoyu Gu (Hohai Univeristy, China), and Xueping Pan (Hohai Univeristy, China)

Maximum Power Point Tracking (MPPT) Techniques Using Cubic Spline Interpolation – Perturb and Observe (P&O) for Partial Shading Conditions 500
Liangpeng Yu (Northumbria University, United Kingdom), Haimeng Wu (Northumbria University, United Kingdom), Feixuan Yang (Northumbria University, United Kingdom), Jing Jiang (Northumbria University, United Kingdom), and Bohua Deng (Northumbria University, United Kingdom)

Modeling and Simulation of Fuel Cell Cogeneration System Based on Photovoltaic Hydrogen Production 507
Siying Zhou (National University of Singapore, Singapore) and Wenzhen Fang (Xi'an Jiaotong University, China)

Advanced Global Maximum Power Point Tracking (GMPPT) in PV Systems Using a Triangular Four-Subset Fuzzy Logic and P&O Hybrid Approach 513
Happy Omokaro (Northumbria University, United Kingdom), Haimeng Wu (Northumbria University, United Kingdom), and David Gao (Northumbria University, United Kingdom)

A Technical Review of MPPT Algorithm on the Non-Uniform PV Arrays 521
Bingying Zheng (King's College London, UK), Yihua Hu (King's College London, UK), Shuto Tsuchida (Nagaoka University of Technology, Japan), Yukai Huang (King's College London, UK), Zhuang Li (King's College London, UK), and Mohammed Alkahtani (University of Bisha, Saudi Arabia)

A Review on Pakistan's Electrical Vehicle (EV) Policies: Lessons from South Asian Countries 526
Mazhar Uddin (Loughborough University, United Kingdom), Richard Blanchard (Loughborough University, United Kingdom), Zhengyu Lin (Loughborough University, United Kingdom), and James Fleming (Loughborough University, United Kingdom)

Economic Energy Storage Scheduling Strategies Considering Day-Ahead Power Marketing 531
Qingsong Chen (Anhui University, China), Juan Yan (Anhui University, China), Cungang Hu (Anhui University, China), and Wenping Cao (Anhui University, China)

Combined Wind Power Prediction Based on Temporal and Spatial Correlation 537
Haiping Wu (Anhui University, China; Smart Grid Digital Collaborative Technnology Joint Laboratory of Anhui Province), Cungang Hu (Anhui University, China; Smart Grid Digital Collaborative Technnology Joint Laboratory of Anhui Province), and Wenping Cao (Anhui University, China; Smart Grid Digital Collaborative Technnology Joint Laboratory of Anhui Province)

Prediction of Distributed Photovoltaic Power Based on CNN-LSTM-Attention Fusion Model .. 541
Rui Li (China Electric Power Research Institute, China), Ming Wang (China Electric Power Research Institute, China), Wan-xing Sheng (China Electric Power Research Institute, China), Min-jie Wang (Anhui University, China), and Qian Zhang (Anhui University, China)

Virtual Resistor and Capacitor Droop Control of Hybrid Energy Storage Power System for MEA with Pulsed Loads 546
Guihua Liu (Harbin Institute of Technology, China), Ye Tao (Harbin Institute of Technology, China), Xinyu Wang (Harbin Institute of Technology, China), Yuan Gao (University of Leicester, UK), and Huanyu Yang (Harbin Institute of Technology, China)

Enhancing Photovoltaic System Resilience Using Modular Multilevel Converter for Partial Shading Mitigation and Fault Tolerance 552
Mustafa A. Fadel Al-Qaisi (Newcastle University, United Kingdom), Mohammed Elgendy (Newcastle University, United Kingdom), Mohamed Dahidah (Newcastle University, United Kingdom), Andrew Smith (Newcastle University, United Kingdom), and Osama Abushafa (Newcastle University, United Kingdom)

Short-Term Photovoltaic Power Prediction Based on LSSVM with Pro-Treated Data 558
Shuqing Hao (Guizhou Electric Power Research Institute, China Southern Power Grid Co., Ltd., PR China), Youzhuo Zheng (Guizhou Electric Power Research Institute China Southern Power Grid Co., Ltd., PR China), Yang Wang (Guizhou Electric Power Research Institute, China Southern Power Grid Co., Ltd., PR China), and Xinhao Li (Guizhou Electric Power Research Institute, China Southern Power Grid Co., Ltd., PR China)

Modeling and Characterization of Transformer Winding Faults in Offshore Wind Flexible DC Transmission System 567
Fucun Li (State Grid Shandong Electric Power Company, China), Yan Zhang (State Grid Shandong Electric Power Company, China), Jipei Yang (North China Electric Power University, China), Yuntao Sun (State Grid Shandong Electric Power Company, China), Danwen Yu (State Grid Shandong Electric Power Company, China), and Hong Shen (North China Electric Power University, China)

Optimal Energy Management Design Using Bi-Level Model Predictive Control for Multiple Time Scales 572
Guohua Ke (Nanchang University, China), Xin Wang (University of Nottingham, UK), Zhen Huang (Nanchang University, China), Yuan Gao (University of Leicester, UK), and Bing Ji (University of Leicester, UK)

A Physics Informed and Data Fusion Approach for Remaining Useful Life Prediction of PEMFC ... 578
Yajing Xiao (University of Leicester, UK), Jinning Zhang (University of Leicester, UK), and Harold S. Ruiz (University of Leicester, UK)

Author Index **583**
